*Aggressively Happy* Joy Marie Clarkson 2022-02-15 "A sumptuous feast."--HALEY STEWART, author of Jane Austen's Genius Guide to Life "Her unflappable hope and sense of enchantment radiate through every page."--BOZE HERRINGTON, novelist "Lyrical prose and delightful storytelling."--THE REV. DR. GLENN PACKIAM Discover the Way Toward a Lighter, Braver, and Wiser Life This old world can be exhausting, despairing, and cynical. But you don't have to be. Instead, you can unlock the power to a happy life--an act of defiance that will make you more resilient in times of turmoil, pain, and chaos. Cultivating happiness takes grit, determination, and a good sense of humor. It's not always easy, but it's well worth it. Beloved writer Joy Marie Clarkson leads the way, crafting an audacious case for happiness no matter what you're going through. With her signature humor and lyrical storytelling, Joy offers an irresistible invitation: "If we accept that life will be full of difficulties and sorrows, we then have two options: to resign ourselves to life generally being a bummer, or to seek enjoyment, delight, and hope in the midst of (and in spite of!) life's up and downs. To put it bluntly: You could choose to cultivate happiness, or you could not. . . . I think we should go for it." Go, therefore, and choose an aggressively happy life.

Sexing the Body Anne Fausto-Sterling 2020-06-30 Now updated with groundbreaking research, this award-winning classic examines the construction of sexual identity in biology, society, and history. Why do some people prefer heterosexual love while others fancy the same sex? Is sexual identity biologically determined or a product of convention? In this brilliant and provocative book, the acclaimed author of *Myths of Gender* argues that even the most fundamental knowledge about sex is shaped by the culture in which scientific knowledge is produced. Drawing on astonishing real-life cases and a probing analysis of centuries of scientific research, Fausto-Sterling demonstrates how scientists have historically politicized the body. In lively and impassioned prose, she breaks down three key dualisms -- sex/gender, nature/nurture, and real/constructed -- and asserts that individuals born as mixtures of male and female exist as one of five natural human variants and, as such, should not be forced to compromise their differences to fit a flawed societal definition of normality.

Protecting the right to freedom of expression under the European Convention on Human Rights Bychawska-Siniarska, Dominika 2017-08-04  
European Convention on Human Rights - Article 10 - Freedom of expression 1. Everyone has the right to freedom of expression. This right shall include freedom to hold opinions and to receive and impart information and ideas without interference by public authority and regardless of frontiers. This article shall not prevent States from requiring the licensing of broadcasting, television or cinema enterprises. 2. The exercise of these freedoms, since it carries with it duties and responsibilities, may be subject to such formalities, conditions, restrictions or penalties as are prescribed by law and are necessary in a democratic society, in the interests of national security, territorial integrity or public safety, for the prevention of disorder or crime, for the protection of health or morals, for the protection of the reputation or rights of others, for preventing the disclosure of information received in confidence, or for maintaining the authority and impartiality of the judiciary. In the context of an effective democracy and respect for human rights mentioned in the Preamble to the European Convention on Human Rights, freedom of expression is not only important in its own right, but it also plays a central part in the protection of other rights under the Convention. Without a broad guarantee of the right to freedom of expression protected by independent and impartial courts, there is no free country, there is no democracy. This general proposition is undeniable. This handbook is a practical tool for legal professionals from Council of Europe member states who wish to strengthen their skills in applying the European Convention on Human Rights and the case law of the European Court of Human Rights in their daily work.

*The Secret of Our Success* Joseph Henrich 2017-10-17 How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to survive on our own in the wild, often failing to overcome even basic challenges, like obtaining food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees, mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human

genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-gene interactions launched our species on an extraordinary evolutionary trajectory. Tracking clues from our ancient past to the present, *The Secret of Our Success* explores how the evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness.

*A Vindication of the Rights of Woman* Mary Wollstonecraft 2022-10-14 Writing in an age when the call for the rights of man had brought revolution to America and France, Mary Wollstonecraft produced her own declaration of female independence in 1792. Passionate and forthright, *A Vindication of the Rights of Woman* attacked the prevailing view of docile, decorative femininity, and instead laid out the principles of emancipation: an equal education for girls and boys, an end to prejudice, and for women to become defined by their profession, not their partner. Mary Wollstonecraft's work was received with a mixture of admiration and outrage. Hugh Walpole called her "a hyena in petticoats." Yet it established her as the mother of modern feminism.

**For the Love of Men** Liz Plank 2019-09-10 A nonfiction investigation into masculinity, *For The Love of Men* provides actionable steps for how to be a man in the modern world, while also exploring how being a man in the world has evolved. In 2019, traditional masculinity is both rewarded and sanctioned. Men grow up being told that boys don't cry and dolls are for girls (a newer phenomenon than you might realize—gendered toys came back in vogue as recently as the 80s). They learn they must hide their feelings and anxieties, that their masculinity must constantly be proven. They must be the breadwinners, they must be the romantic pursuers. This hasn't been good for the culture at large: 99% of school shooters are male; men in fraternities are 300% (!) more likely to commit rape; a woman serving in uniform has a higher likelihood of being assaulted by a fellow soldier than to be killed by enemy fire. In *For the Love of Men*, Liz offers a smart, insightful, and deeply-researched guide for what we're all going to do about toxic masculinity. For both women looking to guide the men in their lives and men who want to do better and just don't know how, *For the Love of Men* will lead the conversation on men's issues in a society where so much is changing, but gender roles have remained strangely stagnant. What are we going to do about men? Liz Plank has the answer. And it has the possibility to change the world for men and women alike.

**What's Wrong with Homosexuality?** John Corvino 2013-04-04 For the last twenty years John Corvino has traversed the US responding to moral and religious arguments against same-sex relationships. In the process, he makes a fresh case for moral engagement, forcefully rejecting the idea that morality is a 'private matter'.

*After Miscarriage* Karen Edmisten 2012 *After Miscarriage: A Catholic Woman's Companion to Healing and Hope* is a book about grief, healing, and hope after miscarriage. Not afraid to examine the raw emotions that accompany such an experience, the author tells women that they are not alone in reacting strongly, even frighteningly, to their loss and reassures them that hope and healing will come. Having experienced multiple miscarriages herself, Karen shares excerpts from her personal journals, as well as other women's stories, rich quotes about grieving and the healing process, and practical advice. A helpful resource section includes a wide variety of information from both Catholic and secular sources.

**Boarding School Syndrome** Joy Schaverien 2015-06-05 Boarding School Syndrome is an analysis of the trauma of the 'privileged' child sent to boarding school at a young age. Innovative and challenging, Joy Schaverien offers a psychological analysis of the long-established British and colonial preparatory and public boarding school tradition. Richly illustrated with pictures and the narratives of adult ex-boarders in psychotherapy, the book demonstrates how some forms of enduring distress in adult life may be traced back to the early losses of home and family. Developed from clinical research and informed by attachment and child development theories 'Boarding School Syndrome' is a new term that offers a theoretical framework on which the psychotherapeutic treatment of ex-boarders may build. Divided into four parts, History: In the Name of Privilege; Exile and Healing; Broken Attachments: A Hidden Trauma, and The Boarding School Body, the book includes vivid case studies of ex-boarders in psychotherapy. Their accounts reveal details of the suffering endured: loss, bereavement and captivity are sometimes compounded by physical, sexual and psychological abuse. Here, Joy Schaverien shows how many boarders adopt unconscious coping strategies including dissociative amnesia resulting in a psychological split between the 'home self' and the 'boarding school self'. This pattern may continue into adult life, causing difficulties in intimate relationships, generalized depression and separation anxiety amongst other forms of psychological distress. Boarding School Syndrome demonstrates how boarding school may damage those it is meant to be a reward and discusses the wider implications of this tradition. It will be essential reading for psychoanalysts, Jungian analysts, psychotherapists, art psychotherapists, counsellors and others interested in the psychological, cultural and international legacy of this tradition including ex-boarders and their partners.

*Watching the English* Kate Fox 2005-04-11 In "Watching The English" anthropologist Kate Fox takes a revealing look at the quirks, habits and foibles of the English people. She puts the English national character under her anthropological microscope, and finds a strange and fascinating culture, governed by complex sets of unspoken rules and byzantine codes of behaviour. The rules of weather-speak. The ironic-gnome rule. The reflex apology rule. The paranoid-pantomime rule. Class indicators and class anxiety tests. The money-talk taboo and many more ...Through a mixture of anthropological analysis and her own unorthodox experiments (using herself as a reluctant guinea-pig), Kate Fox discovers what these unwritten behaviour codes tell us about Englishness.

*Young Mungo* Douglas Stuart 2022-04-05 #1 INTERNATIONAL BESTSELLER NAMED A BEST BOOK OF THE YEAR BY THE GLOBE AND MAIL • NPR • KIRKUS REVIEWS • TIME • AMAZON • THE WASHINGTON POST • THE TIMES (UK) • DAILY HIVE • THE TELEGRAPH • FINANCIAL TIMES • THE GUARDIAN • LITERARY HUB • THE HERALD (UK) • READER'S DIGEST • VANITY FAIR • LOS ANGELES REVIEW OF BOOKS "Young Mungo seals it: Douglas Stuart is a genius." —The Washington Post From the Booker Prize-winning author of *Shuggie Bain*, *Young Mungo* is both a vivid portrayal of working-class life and the deeply moving story of the dangerous first love of two young men. Born under different stars, Protestant Mungo and Catholic James live in a hyper-masculine world. They are caught between two of Glasgow's housing estates where young working-class men divide themselves along sectarian lines, and fight territorial battles for the sake of reputation. They should be sworn enemies if they're to be seen as men at all, and yet they become best friends as they find a sanctuary in the dovecote that James has built for his prize racing pigeons. As they begin to fall in love, they dream of escaping the grey city, and Mungo must work hard to hide his true self from all those around him, especially from his elder brother Hamish, a local gang leader with a brutal reputation to uphold. But the threat of discovery is constant and the punishment unspeakable. When Mungo's mother sends him on a fishing trip to a loch in Western Scotland, with two strange men behind whose drunken banter lie murky pasts, he needs to summon all his inner strength and courage to get back to a place of safety, a place where he and James might still have a future. Imbuing the everyday world of its characters with rich lyricism, Douglas Stuart's *Young Mungo* is a gripping and revealing story about the meaning of masculinity, the push and pull of family, the violence faced by so many queer people, and the dangers of loving someone too much.

**The Glass Castle** Jeannette Walls 2010-02-04 Now a major motion picture starring Brie Larson, Naomi Watts and Woody Harrelson. This is a startling memoir of a successful journalist's journey from the deserted and dusty mining towns of the American Southwest, to an antique filled apartment on Park Avenue. Jeanette Walls narrates her nomadic and adventurous childhood with her dreaming, 'brilliant' but alcoholic parents. At the age of seventeen she escapes on a Greyhound bus to New York with her older sister; her younger siblings follow later. After pursuing the education and civilisation her parents sought to escape, Jeanette eventually succeeds in her quest for the 'mundane, middle class existence' she had always craved. In her apartment, overlooked by 'a portrait of someone else's ancestor' she recounts poignant remembered images of star watching with her father, juxtaposed with recollections of irregular meals, accidents and police-car chases and reveals her complex feelings of shame, guilt, pity and pride toward her parents.

Greer, author of *Women of the Golden Dawn*, and a new afterword with excerpts from rarely seen documents by Fortune herself describing how the book came about. **The Missionary Position** Christopher Hitchens 2012-04-01 Recipient of the Nobel Peace Prize, feted by politicians, the Church and the world's media, Mother Teresa of Calcutta appears to be on the fast track to sainthood. But what makes Mother Teresa so divine? In this frank and damning exposé of the Teresa cult, Hitchens details the nature and limits of one woman's mission to help the world's poor. He probes the source of the heroic status bestowed upon an Albanian nun whose only declared wish was to serve God. He asks whether Mother Teresa's good works answered any higher purpose than the need of the world's privileged to see someone, somewhere, doing something for the Third World. He unmasks pseudo-miracles, questions Mother Teresa's fitness to adjudicate on matters of sex and reproduction, and reports on a version of saintly ubiquity which affords genial relations with dictators, corrupt tycoons and convicted frauds. Is Mother Teresa merely an essential salve to the conscience of the rich West, or an expert PR machine for the Catholic Church? In its caustic iconoclasm and unsparing wit, *The Missionary Position* showcases the devastating effect of Hitchens' writing at its polemical best. A dirty job but someone had to do it. By the end of this elegantly written, brilliantly argued piece of polemic, it is not looking good for Mother Teresa. - Sunday Times

**Declamation on the Nobility and Preeminence of the Female Sex** Henricus Cornelius Agrippa 2007-11-01 Originally published in 1529, the *Declamation on the Preeminence and Nobility of the Female Sex* argues that women are more than equal to men in all things that really matter, including the public spheres from which they had long been excluded. Rather than directly refuting prevailing wisdom, Agrippa uses women's superiority as a rhetorical device and overturns the misogynistic interpretations of the female body in Greek medicine, in the Bible, in Roman and canon law, in theology and moral philosophy, and in politics. He raised the question of why women were excluded and provided answers based not on sex but on social conditioning, education, and the prejudices of their more powerful oppressors. His declamation, disseminated through the printing press, illustrated the power of that new medium, soon to be used to generate a larger reformation of religion.

*Practical Ethics* Peter Singer 2011-02-21 For thirty years, Peter Singer's *Practical Ethics* has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average? Other questions confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live.
