Three gospel preludes - William Bolcom 1980

Call to Worship - Geneva Press 2001-05

Contemporary Music and Spirituality - Robert Sholl 2016-08-12

The flourishing of religious or spiritually-inspired music in the late twentieth and early twenty-first centuries remains largely unexplored. The engagement and tensions between modernism and tradition, and institutionalized religion and spirituality are inherent issues for many composers who have sought to invoke spirituality and Otherness through contemporary music. *Contemporary Music and Spirituality* provides a detailed exploration of the recent and current state of contemporary spiritual music in its religious, musical, cultural and conceptual-philosophical aspects. At the heart of the book are issues that consider the role of secularization, the claims of modernity concerning the status of art, and subjective responses such as faith and experience. The contributors provide a new critical lens through which it is possible to see the music and thought of Cage, Ligeti, Messiaen, Stockhausen as spiritual music. The book surrounds these composers with studies of and by other composers directly associated with the idea of spiritual music (Harvey, Gubaidulina, MacMillan, Pärt, Pott, and Tavener), and others (Adams, Birtwistle, Ton de Leeuw, Ferneyhough, Ustvolskaya, and Vivier) who have created original engagements with the idea of spirituality. *Contemporary Music and Spirituality* is essential reading for humanities scholars and students working in the areas of musicology, music theory, theology, religious studies, philosophy of culture, and the history of twentieth-century culture.

Charles Villiers Stanford - Jeremy Dibble 2002

'Jeremy Dibble has written a book which adds substantially to Stanford's reputation and which greatly enriches both British and Irish musical scholarship. It is brilliantly done.' -Irish Times
Jeremy Dibble presents the first authoritative, comprehensive study of the life and works of Charles Villiers Stanford (1852-1924), one of the most gifted and influential composers. Dibble reveals how, although perhaps best known for his church music, Stanford was also an eminent symphonist, songwriter, and author of many fine choral works. Cosmopolitan, ambitious, and pragmatic, he was untiring in his efforts to advance the cause of British music during its renaissance at the end of the nineteenth century, promoting the music of his contemporaries, and the many pupils he taught at Cambridge and the Royal College of Music, including Vaughan Williams, Ireland, Howells, Bliss, Holst, and Gurney.

A Festive Alleluia - 2013-09

Captivating syncopations, mixed meters, and rhythmic vitality spark this refreshing work that incorporated both Latin and English lyrics. This joyous minor-mode piece is effective for concert and festival use and is also a fantastic choice for an opening number.

About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

The British Catalogue of Music - 1999

Western Music in Hellenic Communities - Athanasios Trikoupis 2015

Alternative Voices - István Anhalt 1984

Istvan Anhalt, himself a composer of many vocal works, has written an interdisciplinary study of the innovative vocal and choral music that has

emerged in Europe and North America since the Second World War. This music has amazed, confused, sometimes shocked, and often deeply moved its listeners, and the author probes its very roots. Anhalt sketches briefly the antecedents of this revolutionary music and then illustrates the subject by looking closely at works by three of the greatest composers of modern vocal and choral music: Luciano Berio's *Sequenza III* for female solo voice, György Ligeti's *Nouvelles Aventures* for three solo voices and small instrumental ensemble, and Witold Lutoslawski's *Trois Poèmes d'Henri Michaux* for large chorus and orchestra. The author next seeks to formulate a conceptual framework to explain post-war vocal composition. He discusses relationships between poetry and music, speaking and singing, theatre and music, and composers and performers. He identifies and examines recurring themes in his corpus, including hallowed and cursed names, repetition as a mythical and/or mystical technique, the arcane, magical elements in music and language, and music as spectacle or celebration and as a search for the past. Anhalt also considers the structural elements and compositional procedures used in creating this type of music. The complex associations with other creative activities that typify modern vocal composition help to make it, as Anhalt shows clearly, an extraordinary rich mosaic of alternative voices.

The Methodist Hymn-book Illustrated - John Telford 2020-07-07

This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. So that the book is never forgotten we have represented this book in a print format as the same form as it was originally first published. Hence any marks or annotations seen are left intentionally to preserve its true nature.

A musical grammar - John Wall Callcott 1809

English Folk Songs - Ralph Vaughan Williams 2009-04-02

This collection is filled with songs that tell of the pleasures and pains of love, the patterns of the countryside and the lives of ordinary people. Here are unfaithful soldiers, ghostly lovers, whalers on stormy seas,

cuckolds and tricksters. By turns funny, plain-speaking and melancholic, these songs evoke a lost world and, with their melodies provided, record a vital musical tradition. Generations of inhabitants have helped shape the English countryside but it has profoundly shaped us too. It has provoked a huge variety of responses from artists, writers, musicians and people who live and work on the land as well as those who are

travelling through it. English Journeys celebrates this long tradition with a series of twenty books on all aspects of the countryside, from stargazing pie and country churches, to man's relationship with nature and songs celebrating the patterns of the countryside (as well as ghosts and love-struck soldiers).
