Hitched Nandini Krishnan 2013-08-22 If you're an Indian woman and old enough to legally bear children, chances are that an overweight relative has asked you, while fondly stroking their pot belly, 'When am I going to eat at your wedding?' The modern Indian woman's attitude to marriage—and especially to arranged marriage—is a confused one. As traditional matchmaking methods and internet chat rooms come together to build matrimonial websites, our parameters have changed, but the time-honoured practice of arranged marriage sticks. *Hitched* explores in depth the considerations matrimony should involve, and the issues that can crop up at different stages of an arranged marriage. A cross-section of women—those who married young, married late, married the first man their parents parked before them, or married out of caste in an arranged setup—open up about experiences ranging from the frightening to the hilarious and the awww-inspiring.

Arranged Marriage Swarn Singh Bains 2014-11-26 The main topic of this book is arranged marriage. So it is self explanatory to indicate what this book is about. There is quite a bit of doubt and confusion in the west; how the people in India get married through arranged marriage system without seeing or knowing the spouse. The arranged marriage is a contract of co-existence for life signed in the presence of the guardians of faith, guardians and guarantors of contract and well wishers. We take marriage for granted without knowing the intricacies of married life. It is not so. To stay married is the highest priority of life. It is much higher than signing a contract to get a job and make money and even obeying the faith values, because the faith can be achieved through values and love of married life. In arranged marriage the necessities of life are taken into consideration not the enjoyment for a few days. It is a contract signed in good faith. The acceptance of the spouse is the most important factor for the marriage to last forever. This factor is drilled into the couple by the elders to realize the requirements of the spouse. Realizing and fulfilling those requirements makes the marriage last forever. There are some other short stories in the book. Most of those stories are true but some are imaginary as well. So read it and find out what the writer is trying to convey and justify.

How do adolescent girls position themselves in relation to sexual experiences, practices and identities? What is the relationship between the girls' local positions and larger-scale socio-cultural norms or identity categories? In what way can linguistic discourse analysis build on and contribute to cross-disciplinary research on gender and adolescent identity? These questions are explored on the basis of the girls' conversations about friends, friendships, boys, parents, music, drugs, school, sex, (arranged) marriage and social class.

Modern Romance Aziz Ansari 2015-06-16 The #1 New York Times Bestseller “An engaging look at the often head-scratching, frequently infuriating mating behaviors that shape our love lives.” —Refinery 29 A hilarious, thoughtful, and in-depth exploration of the pleasures and perils of modern romance from Aziz Ansari, the star of *Master of None* and one of this generation’s sharpest comedic voices At some point, every one of us embarks on a journey to find love. We meet people, date, get into and out of relationships, all with the hope of finding someone with whom we share a deep connection. This seems standard now, but it’s wildly different from what people did even just decades ago. Single people today have more romantic options than at any point in human history. With technology, our abilities to connect with and sort through these options are staggering. So why are so many people frustrated? Some of our problems are unique to our time. “Why did this guy just text me an emoji of a pizza?” “Should I go out with this girl even though she listed Combos as one of her favorite snack foods? Combos?!” “My girlfriend just got a message from some dude named Nathan. Who’s Nathan? Did he just send her a photo of his penis? Should I check just to be sure?” But the transformation of our romantic lives can’t be explained by technology alone. In a short period of time, the whole culture of finding love has changed dramatically. A few decades ago, people would find a decent person who lived in their neighborhood. Their families would meet and, after deciding neither party seemed like a murderer, they would get married and soon have a kid, all by the time they were twenty-four. Today, people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years, Aziz Ansari has been aiming his comic insight at modern romance, but for *Modern Romance*, the book, he decided he needed to take things to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project, including hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral

data and surveys and created their own online research forum on Reddit, which drew thousands of messages. They enlisted the world's leading social scientists, including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and Robb Willer. The result is unlike any social science or humor book we've seen before. In *Modern Romance*, Ansari combines his irreverent humor with cutting-edge social science to give us an unforgettable tour of our new romantic world.

Matchmaking in Middle Class India Parul Bhandari 2020-02-01 This book is an extensive and thorough exploration of the ways in which the middle class in India select their spouse. Using the prism of matchmaking, this book critically unpacks the concept of the 'modern' and traces the importance of moralities and values in the making of middle class identities, by bringing to the fore intersections and dynamics of caste, class, gender, and neoliberalism. The author discusses a range of issues: romantic relationships among youth, use of online technology and of professional services like matrimonial agencies and detective agencies, encounters of love and heartbreak, impact of experiences of pain and humiliation on spouse-selection,

and the involvement of family in matchmaking. Based on this comprehensive account, she elucidates how the categories of 'love' and 'arranged' marriages fall short of explaining, in its entirety and essence, the contemporary process of spouse-selection in urban India. Though the ethnographic research has been conducted in India, this book is of relevance to social scientists studying matchmaking practices, youth cultures, modernity and the middle class in other societies, particularly in parts of Asia. While being based on thorough scholarship, the book is written in accessible language to appeal to a larger audience.

Arranged Marriage Péter Berta 2023-03-17 Arranged Marriage: The Politics of Tradition, Resistance, and Change shows how arranged marriage practices have been undergoing transformation as a result of global and other processes such as the revolution of digital technology, democratization of transnational mobility, or shifting significance of patriarchal power structures. The ethnographically informed chapters not only highlight how the gendered and intergenerational politics of agency, autonomy, choice, consent, and intimacy work in the contexts of partner choice and management of marriage, but also point out that arranged marriages are increasingly varied and they can be reshaped, reinvented, and reinterpreted flexibly in response to individual, family, religious, class, ethnic, and other desires, needs, and constraints. The authors convincingly demonstrate that a nuanced investigation of the reasons, complex dynamics, and consequences of arranged marriages offers a refreshing analytical lens that can significantly contribute to a deeper understanding of other phenomena such as globalization, modernization, and international migration as well as patriarchal value regimes, intergenerational power imbalances, and gendered subordination and vulnerability of women.

Being Middle-class in India Henrike Donner 2012-06-25 Hailed as the beneficiary, driving force and result of globalisation, India’s middle-class is puzzling in its diversity, as a multitude of traditions, social formations and political constellations manifest contribute to this project. This book looks at Indian middle-class lifestyles through a number of case studies, ranging from a historical account detailing the making of a savvy middle-class consumer in the late colonial period, to saving clubs among women in Delhi’s upmarket colonies and the dilemmas of entrepreneurial families in Tamil Nadu’s industrial towns. The book pays tribute to the diversity of regional, caste, rural and urban origins that shape middle-class lifestyles in contemporary India and highlights common themes, such as the quest for upward mobility, common consumption practices, the importance of family values, gender relations and educational trajectories. It unpacks the notion that the Indian middle-class can be understood in terms of public performances, surveys and economic markers, and emphasises how the study of middle-class culture needs to be based on detailed studies, as everyday practices and private lives create the distinctive sub-cultures and cultural politics that characterise the Indian middle class today. With its focus on private domains middleclassness appears as a carefully orchestrated and complex way of life and presents a fascinating way to understand South Asian cultures and communities through the prism of social class.

Mom Says: Get Married Himanshu Modi 2014-03-26 Marriage was always going to be an inescapable eventuality for Ajay Shroff. For a Gujarati, at

the age of 26, he is anyways late on the matrimonial circuit. By the time he is 28, he is officially an antique. Everyone around him is doing their best to arrange his marriage. Spearheading the movement is his Mother. Too bad he cannot get over his "gamophobia". He goes weak in the knees thinking about the torture he is subjected to when he meets girls on 'arranged dates'. When he narrates his harrowing incidents to anyone willing to listen (or read), he unfailingly finds his audience on the floor rolling with laughter. The horror of his pre-matrimonial mis-adventures is a source of great entertainment for those around him. The world of bio-datas, internet profiles, photoshoped pictures and oh yes, horoscopes, is fraught with uncertainty, calamity and disaster. If only people could stop laughing at Ajay's plight! How he wishes for a romantic fairy-tale of how he met his wife. How he wishes he wasn't getting married just because his Mom says, "Get Married!"

Young Sikhs in a Global World Knut A. Jacobsen 2016-03-09 In attempting to carve out a place for themselves in local and global contexts, young Sikhs mobilize efforts to construct, choose, and emphasize different aspects of religious and cultural identification depending on their social setting and context. *Young Sikhs in a Global World* presents current research on young Sikhs with multicultural and transnational life-styles and considers how they interpret, shape and negotiate religious identities, traditions, and authority on an individual and collective level. With a particular focus on the experiences of second generation Sikhs as they interact with various people in different social fields and cultural contexts, the book is constructed around three parts: 'family and home', 'public display and gender', and 'reflexivity and translations'. New scholarly voices and established academics present qualitative research and ethnographic fieldwork and analyse how young Sikhs try to solve social, intellectual and psychological tensions between the family and the expectations of the majority society, between Punjabi culture and religious values.

Friends Watching Friends Katherine Dillion 2009-10-02 *Friends Watching Friends: American Television in Egypt* is a media study on the impact and influence of American television in Egypt. Based on personal and small group interviews and research from 2004–2006, the work includes ways that Egyptian women view the influence of American television in their daily lives as well as showing ways that Egyptians use the media to develop their ideas about Americans. Using the sitcom *Friends* as a focal point, the study probes commonalities about humor between Egyptian and American women that make *Friends* particularly appealing as an international text. Additionally, using an ethnographic approach, the research examines relevant social trends in employment, relationships, and the economy. It celebrates a diversity of opinions among Egyptian women and gives voice to those who want to share their views with others internationally and who have a strong tie to their own culture and heritage.
