Ethics of Sex - Gifford Andrew Grobien

2017-01-27

Breaking through the noise of our hypersexualized Western culture, *Ethics of Sex* is a much-needed and masterful compilation that speaks to the nature of Christian sexual ethics as simultaneously positive and prohibitive. Ten distinct yet interrelated essays invite us back to a way of life in harmony with the Lord's created order, an order that bears fruit in intimacy, compassion, love, and joy. Embrace the wisdom and counsel of these words, reminding all that Jesus' love for His Church forgives sexual sin and restores His people to fellowship in the kingdom of heaven-young or old, married or single. Our identity remains in Christ. Essay Topics Include the Following: Male and Female Sex Differences, Marriage, Polygamy, Contraception, Sex Education, Self-Pollution, Homosexuality, Transgenderism Book jacket.

[The Ethics of Sex](#) - Scott Rae 2012-04-03

Derived from Scott B. Rae's widely adopted textbook, *Moral Choices*, this digital short looks carefully at the Bible's teaching on sexual ethics and at specific issues like singleness, homosexuality, same-sex marriage, birth control, masturbation, and more. Confronting head-on some of the most difficult topics for Christians to navigate, Rae also includes cases and questions for further discussion. *The Ethics of Sex* thus provides wise and well-grounded instruction to an ethical question every Christian must answer, namely, "How can I please God in my sexual behavior?"

Are the Lips a Grave? - Lynne Huffer

2013-10-15

Lynne Huffer's ambitious inquiry redresses the rift between feminist and queer theory,

traversing the space of a new, post-moral sexual ethics that includes pleasure, desire, connection, and betrayal. She begins by balancing queer theorists' politics of sexual freedoms with a moralizing feminist politics that views sexuality as harm. Drawing on the best insights from both traditions, she builds an ethics centered on eros, following Michel Foucault's ethics as a practice of freedom and Luce Irigaray's lyrical articulation of an ethics of sexual difference. Through this theoretical lens, Huffer examines everyday experiences of ethical connection and failure connected to sex, including queer sexual practices, sodomy laws, interracial love, pornography, and work-life balance. Her approach complicates sexual identities while challenging the epistemological foundations of subjectivity. She rethinks ethics "beyond good and evil" without underestimating, as some queer theorists have done, the persistence of what Foucault calls the "catastrophe" of morality. Elaborating a thinking-feeling ethics of the other, Huffer encourages contemporary intellectuals to reshape sexual morality from within, defining an ethical space that is both poetically suggestive and politically relevant, both conceptually daring and grounded in common sexual experience.

The Palgrave Handbook of Sexual Ethics -

David Boonin 2022-02-08

The *Palgrave Handbook of Sexual Ethics* is a comprehensive collection of recent research on the ethics of sexual behavior, representing a wide range of perspectives. It addresses a number of traditional subjects in the area, including questions about pre-marital, extra-marital, non-heterosexual, and non-procreative sex, and about the nature and significance of

Downloaded from
legacy.opendemocracy.net on 2019-05-19
by guest

sexual consent, sexual desire, and sexual activity, as well as a variety of more recent topics, including sexual racism, sexual ableism, sex robots, and the #metoo response to sexual harassment. Each chapter defends a substantive thesis about the topic it addresses and the handbook as a whole thereby provides a strong foundation for future research in this important and growing field of inquiry.

Ethics and Sex - Igor Primoratz 2003-09-02
Ethics and Sex presents a systematic study of the nature and moral significance of human sexuality and of the major issues in sexual morality. The book is divided into two main parts. Part One gives a critical analysis of the key conceptions of human sexuality. Part Two discusses the most important issues in sexual morality: monogamy; adultery; prostitution; homosexuality; paedophilia; sexual harassment and rape. In this controversial and accessible book, the author demonstrates that many of the prohibitions that make up conventional sexual morality cannot withstand critical scrutiny.

The Ethics of Sex - Helmut Thielicke
2016-11-24

A potentially difficult text for today's Christians, *The Ethics of Sex* gives a fascinating insight into the mindset of how a Christian thinker considered gender and sexuality when the definitions of both were becoming more and more fluid. Caught between the points of the harsh restrictions of the Third Reich, and the revolutionary approach popularised in the 1960s, Thielicke offers a modern reader the opportunity to understand more of this pivotal period in history. In *The Ethics of Sex*, Thielicke confronts hot-button issues, many of which are still controversial today, like abortion, homosexuality and artificial insemination. Here he forges a path for the Christian philosopher that is consistent with Christian values of compassion and understanding. While a complex text, *The Ethics of Sex* rewards both the scholar and the historian.

The Ethics of Sexual Acts - René Guyon 1934

The Sleep of Reason - Martha C. Nussbaum
2013-08-02

Sex is beyond reason, and yet we constantly reason about it. So, too, did the peoples of ancient Greece and Rome. But until recently

there has been little discussion of their views on erotic experience and sexual ethics. *The Sleep of Reason* brings together an international group of philosophers, philologists, literary critics, and historians to consider two questions normally kept separate: how is erotic experience understood in classical texts of various kinds, and what ethical judgments and philosophical arguments are made about sex? From same-sex desire to conjugal love, and from Plato and Aristotle to the Roman Stoic Musonius Rufus, the contributors demonstrate the complexity and diversity of classical sexuality. They also show that the ethics of eros, in both Greece and Rome, shared a number of commonalities: a focus not only on self-mastery, but also on reciprocity; a concern among men not just for penetration and display of their power, but also for being gentle and kind, and for being loved for themselves; and that women and even younger men felt not only gratitude and acceptance, but also joy and sexual desire. Contributors: * Eva Cantarella * Kenneth Dover * Chris Faraone * Simon Goldhill * Stephen Halliwell * David M. Halperin * J. Samuel Houser * Maarit Kaimio * David Konstan * David Leitaó * Martha C. Nussbaum * A. W. Price * Juha Sihvola

Sex, Ethics, and Young People - M. Carmody
2015-05-06

Sex, Ethics, and Young People brings together research and practice on sexuality and violence prevention education. Carmody focuses on showing how the challenges faced by young people negotiating their sexual lives can be addressed by a six week interactive skill based Sex and Ethics Program.

The Trouble with Normal - Michael Warner
2000

Michael Warner, one of our most brilliant social critics, argues that gay marriage and other moves toward normalcy are bad not just for the gays but for everyone. In place of sexual status quo, Warner offers a vision of true sexual autonomy that will forever change the way we think about sex, shame, and identity.

[The Ethics of Sex](#) - Mark D. Jordan 2002

Mark Jordan has written a provocative and stimulating introduction to the issues surrounding sexual ethics and sexuality and theology, filling a much-needed void in this field. Jordan summarizes key topics and themes in the

teaching and discussion of religious ethics as well as pushing forward the debate in interesting and original directions.

The Ethics of Sex - Neil McArthur 2022-03-29

The Ethics of Sex: An Introduction systematically and comprehensively examines the ethical issues surrounding the concept of sex. It addresses important questions such as: How can we approach questions of sexual ethics in a philosophical way? Must we give affirmative consent to all sexual activity, and what would be the impact of implementing an affirmative consent standard into law? Can our dating preferences ever be considered a form of discrimination? Is BDSM sex compatible with feminism? Should we promote monogamy as the best way to live? Is it harmful to have a relationship with a robot? Should sex work be decriminalized? Is there a right to sex? Including discussion questions and suggestions for further reading at the end of each chapter The Ethics of Sex is the perfect philosophical introduction to the perennially topical issue, and ideal reading for students taking courses within the fields of applied ethics, sociology, law, religion and politics.

Good Sex - Raymond A. Belliotti 1993

Rules about sexuality, written and unwritten, have existed in every culture as have disagreements over what is and isn't acceptable. Must morally permissible sex have only one function? Must it be heterosexual? Must it occur within the confines of the institution of marriage? Must it be accompanied by requisite emotions such as love and intimacy?

The Ethics of Sex and Genetics - Warren T. Reich 1998

This single-volume reference provides information, answers, and context for the often difficult questions arising from today's perception of sex and reproduction. Among the topics covered are abortion, AIDS, lifestyles, public health, fertility, genetics, sexual ethics, and prostitution.

The Ethics of Sexual Acts - René Guyon 1948

The Ethics of Sex and Alzheimer's - John Portmann 2013-07-18

A growing epidemic, Alzheimer's punishes not only its victims but also those married to them. This book analyzes how Alzheimer's is quietly

transforming the way we think about love today. Without meaning to become rebels, many people who find themselves "married to Alzheimer's" deflate the predominant notion of a conventional marriage. By falling in love again before their ill spouse dies, those married to Alzheimer's come into conflict with central values of Western civilization - personal, sexual, familial, religious, and political. Those who wait sadly for a spouse's death must sometimes wonder if the show of fidelity is necessary and whom it helps. Most books on Alzheimer's focus on those who have it, as opposed to those who care for someone with it. This book offers a powerful and searching meditation on the extent to which someone married to Alzheimer's should be expected to suffer loneliness. The diagnosis of dementia should not amount to a prohibition of sexual activity for both spouses. Portmann encourages readers to risk honesty in assessing the moral dilemma, using high-profile cases such as Nancy Reagan and Justice Sandra Day O'Connor to illustrate the enormity of the problem. Ideal for classes considering the ethics of aging and sexuality.

An Ethics of Sexual Difference - Luce Irigaray 2005-02-01

Luce Irigaray (1932-) is the foremost thinker on sexual difference of our times. In *An Ethics of Sexual Difference* Irigaray speaks out against many feminists by pursuing questions of sexual difference, arguing that all thought and language is gendered and that there can therefore be no neutral thought. Examining major philosophers, such as Plato, Spinoza and Levinas, with a series of meditations on the female experience, she advocates new philosophies through which women can develop a distinctly female space and a "love of self". It is an essential feminist text and a major contribution to our thinking about language.

Ethics and Sex - Igor Primoratz 1999

Ethics and Sex presents a systematic study of the nature and moral significance of human sexuality and of the major issues in sexual morality. The book is divided into two main parts. Part One gives a critical analysis of the key conceptions of human sexuality. Part Two discusses the most important issues in sexual morality: monogamy; adultery; prostitution; homosexuality; paedophilia; sexual harassment

and rape. In this controversial and accessible book, the author demonstrates that many of the prohibitions that make up conventional sexual morality cannot withstand critical scrutiny.

Dirt, Greed and Sex - William Countryman
2013-01-25

Conducting a thorough examination of sexual ethics in the New Testament, this work argues that the New Testament writers did not construct a new sexual ethic from the ground up, but took over existing cultural patterns and refocused them, pushing some elements from the centre to the periphery. This suggests a pattern of ethics for contemporary life.

Discussing biblical notions of purity and

property, which dominate ethical ideas in the New Testament, the author characterizes sex as one of the rich blessings of creation, "to be received with delight and thanksgiving".

Countryman's generous and eirenic views on sexual matters, based as they are on solid biblical research, are a welcome intervention in an area which unfortunately, in Christian circles, tends still to be dominated by conservatism and misinformation, rather than by liberal principle.

Just Love - Margaret A. Farley 2006-01-01

Examines the sexual beliefs and practices of different religions, cultures, genders, and relationships to propose a modern-day framework on the topic that is more focused on love rather than sex.
