Silent Voices Patricia Gibney 2021

The British Boxing Film Stephen Glynn 2021-08-20 This book constitutes the first full volume dedicated to an academic analysis of the sport of boxing as depicted in British film. Through close textual analysis, production and reception histories and readings that establish social, cultural and political contexts, the book explores the ways in which prizefighters, amateur boxers, managers and supporters (from Regency gentry to East End gangsters) are represented on the British screen. Exploring a complex and controversial sport, it addresses not only the pain-versus-reward dilemma that boxing necessarily engenders, but also the frequently censorious attitude of those in authority, with boxing's social development facilitating a wider study around issues of class, gender and race, latterly contesting the whole notion of 'Britishness'. Varying in scope from Northern circuit comedies to London-based 'ladsploitation' films, from auteur entries by Alfred Hitchcock to programme fillers by E.J. Fancey, the boxing film also serves as a prism through which one can trace major historical shifts in the British film industry.

The case takes a darker turn that afternoon with another shocking discovery; the broken body of a second young woman, pushed from the roof of the hospital where she worked. Fiona Heffernan was also due to be married, and her body is clad in a wedding dress, a lock of her hair cut off. The killings seem so personal that Lottie is convinced the girls have been killed by someone they knew. When she goes to break the news to Fiona's family, she's on the alert for anything suspicious. The Humanity of Justice Burke E. Strunsky 2012 Against the backdrop of his most haunting, high-profile murder and child abuse cases, a veteran prosecutor goes beyond an insider's reflection to shine a light on the humanlike qualities personified in the U.S. criminal justice system and what this means for our future. *The Humanity of Justice* is a procedural true-crime book told through the eyes and heart of a veteran criminal prosecutor who cares about the people he meets and their life-altering circumstances. Burke E. Strunsky, a senior deputy district attorney in southern California, takes the reader inside the courtroom for some of the most haunting criminal cases in the state as well as the nation, including: a highly respected church leader who brutally murders his wife for the insurance money while their baby sleeps peacefully in another room; a twisted father who sexually molests his daughter's own friends at her slumber parties; a former police chief who drowns his wife of thirty years in their backyard spa; and a young man who sadistically tortures and kills a helpless three-year-old boy, yet manages to dodge the death penalty. Strunsky's own impassioned social and moral commentary is woven throughout this thought-provoking book on issues significant to the world of criminal justice. Even in the midst of the darkest stories, the voices and courage of the victims and those who love them will leave the reader touched and inspired. 100% of the proceeds from this book will be donated to The Humanity of Justice Foundation, a non-profit organization, to help prevent child abuse and neglect.

The Solaris Effect Steven Dillon 2010-01-01 What do contemporary American movies and directors have to say about the relationship between nature and art? How do science fiction films like Steven Spielberg's *A.I.* and Darren Aronofsky's π represent the apparent oppositions between nature and culture, wild and tame? Steven Dillon's intriguing new volume surveys American cinema from 1990 to 2002 with substantial descriptions of sixty films, emphasizing small-budget independent American film. Directors studied include Steven Soderbergh, Darren Aronofsky, Todd Haynes, Harmony Korine, and Gus Van Sant, as well as more canonical figures like Martin Scorsese, Robert Altman, David Lynch, and Steven Spielberg. The book takes its title and inspiration from Andrei Tarkovsky's 1972 film *Solaris*, a science fiction ghost story that relentlessly explores the relationship between the powers of nature and art. The author argues that American film has the best chance of aesthetic success when it acknowledges that a film is actually a film. The best American movies tell an endless ghost story, as they perform the agonizing nearness and distance of the cinematic image. This groundbreaking commentary examines the rarely seen bridge between select American film directors and their typically more adventurous European counterparts. Filmmakers such as Lynch and Soderbergh are cross-cut together with Tarkovsky and the great French director, Jean-Luc Godard, in order to test the limits and possibilities of American film. Both enthusiastically cinephilic and fiercely critical, this book puts a decade of U.S. film in its global place, as part of an ongoing

conversation on nature and art.

Sidney Poitier Aram Goudsouzian 2011-01-20 In the first full biography of actor Sidney Poitier, Aram Goudsouzian analyzes the life and career of a Hollywood legend, from his childhood in the Bahamas to his 2002 Oscar for lifetime achievement. Poitier is a gifted actor, a great American success story, an intriguing personality, and a political symbol; his life and career illuminate America's racial history. In such films as *Lilies of the Field*, *In the Heat of the Night*, and *Guess Who's Coming to Dinner*, Poitier's middle-class, mannered, virtuous screen persona contradicted prevailing film stereotypes of blacks as half-wits, comic servants, or oversexed threats. His screen image and public support of nonviolent integration assuaged the fears of a broad political center, and by 1968, Poitier was voted America's favorite movie star. Through careful readings of every Poitier film, Goudsouzian shows that Poitier's characters often made sacrifices for the good of whites and rarely displayed sexuality. As the only black leading man during the civil rights era, Poitier chose roles and public positions that negotiated the struggle for dignity. By 1970, times had changed and Poitier was the target of a backlash from film critics and black radicals, as the new heroes of "blaxploitation" movies reversed the Poitier model. In the 1970s, Poitier shifted his considerable talents toward directing, starring in, and producing popular movies that employed many African Americans, both on and off screen. After a long hiatus, he returned to starring roles in the late 1980s. More recently, the film industry has reappraised his career, and Poitier has received numerous honors recognizing his multi-faceted work for black equality in Hollywood. As this biography affirms, Poitier remains one of American popular culture's foremost symbols of the possibilities for and limits of racial equality.
