Hearts and Minds - Thomas David Kehoe 2003
Mammals raising their young evolved brains hardwired for emotional relationships. Around this mammalian core, humans evolved a new, larger brain for abstract thinking. Too often our abstract thinking gets in the way of emotionally connecting with other people. *Hearts and Minds* shows you how to improve your relationships by integrating these different brain systems. Plus, you'll find: The best places to meet single men and women (page 93). How young men and women fall in love with mirrors of themselves (page 74), when mature men and women love their real partners, including accepting their faults (page 83). How switching gender roles moves dating into a committed relationship (page 139). How to use conflicts to strengthen a relationship (page 146).

Shriver - Chris Belden 2015-09-29

Mistaken for a famous but reclusive author of the same name, lonely Shriver attends a writers' conference at a small Midwestern liberal arts college. Completely unfamiliar with the novel he supposedly wrote and utterly unprepared for the magnitude of the reputation that precedes him, Shriver is feted, fawned over, featured at stuffy literary panels, and barely manages to play it cool. Things quickly go awry when one of the other guest authors suddenly disappears and

Shriver becomes a prime suspect in the investigation. Amidst eager fans, Shriver must contend with a persistent police detective, a pesky journalist determined to unearth his past, and a mysterious and possibly dangerous stalker who seems to know his secret. But most vexing of all, Shriver's gone and fallen in love with the conference organizer, who believes he's someone else. When the "real" Shriver (or is he?) appears to claim his place among the literati, the conference--and Shriver's world--threaten to unravel.

The Inner Bitch Guide to Men, Relationships, Dating, Etc. - Elizabeth Hilts 2004-09-01

It's the Bitch in bed! "If love is the answer, could you please rephrase the question?" --Lily Tomlin
No more two-week wonders. No more romantic cul-de-sacs. No more saying "Yes" when you mean "No." Don't even pretend you don't know what I'm talking about. Your Inner Bitch, that integral, powerful part of you, is essential when you're falling in love, and even more essential when you're falling out of love. Looking for romance? Looking for a date? Looking for a relationship? Let your Inner Bitch be your guide. "Remember, lust makes you stupid." --Nicole Hollander

Media Report to Women - Sheila Jean Gibbons 2003

Writing, Reading, and Research - Richard Veit 2006-03

Flexible and goal-oriented, this text integrates instruction in reading, writing, and research with topical, interdisciplinary readings and concludes with a research handbook. *Writing, Reading, and Research* thoroughly covers analytical reading, paraphrasing, summarizing, and synthesizing--skills essential for developing a research paper. Each stage of the process is illustrated with examples of student and professional writing. Unlike comparable books, *Writing, Reading, and Research* leads off with

two sample student papers in the early chapters, giving students a clear idea of the final goal as they progress through each step of the research and writing process.

Figures of Fantasy - Susanna Paasonen 2005
Figures of Fantasy explores the popularization of the idea of the Internet as a «cyberspace» and considers the implications this has for discussions of gender and identity. The book analyzes the standard figures used to conceptualize and explain technology and gender, and traces the ways in which these concepts have served to create the figure of the Internet as a cyberspace - a manner of thinking that has come to dominate Internet research internationally, making visible its historicity, limitations, and implications. Figures of Fantasy offers an innovative theoretical approach to Internet research, and provides a highly original, systematic critique of the canonical works in the field.

Psychology and Sociology Applied to Medicine - Beth Alder 2009-06-17

This textbook in the Illustrated Colour Text series offers an integrated treatment of sociology and psychology for medical students. It is presented in a much more colourful and graphic format than is usual for books on these two subjects. This integration reflects the tendency to teach these two subjects together as "behavioural science", with an increased stress on the place of medicine in society, and on illness as a product of psychological and social circumstances rather than merely a biological phenomenon. The book reflects these trends and has been successful and popular with students. An integrated treatment of psychology and sociology for medical students - in line with the trend towards teaching these subjects as "behavioural sciences". Use of case studies and "Stop/Think" boxes encourages critical thinking and discussion. Graphic Illustrated Colour Text presentation style enlivens a subject which most medical students are not keen on. This third edition contains a new introduction on the importance and key features of the biopsychosocial model and additional double-page spreads on International Health and Rural Health.
