New Age Journal 1992-06

The Balancing Act Fiona Parashar 2005 A recent work/life study by MANAGEMENT TODAY revealed that almost half of Britain's managers feel too mentally and physically exhausted to do anything other than work and sleep, and nearly a third say their lives are out of control. Around half of the people questioned said they would switch jobs tomorrow for a better quality of life. Is it the way we work today that is causing this phenomenon or are we just not handling our lives as well as we could? THE BALANCING ACT offers the WHY, WHAT and HOW of getting more balance in our lives. It gets to the root of WHY we're out of balance, drawing on Fiona's own theories and interpretation of psychology, social trends and observations of the corporate world and says WHAT we can do about it. With original ideas to inspire us towards a new way of thinking, THE BALANCING ACT suggests HOW we can change our lives in easy steps. Written in a language clearly at one with the fast pace and issues faced at work today, this is a coaching book on how to get more balance in your life...your way, your style, your time.

Together on a Tightrope Richard A. Fowler 1991 How to maintain balance in your relationships when life has you off balance.

Humpty Dumpty Back on the Wall Ralph Eugene Tucker 2012-02 Life does not prepare you for losing your mind and there is no guarantee of finding it once you have lost it. The search for my mind and an understanding of why my life had taken such a drastic turn, led me on an investigative journey through my past. Plagued by thoughts of never being whole again, I felt like Humpty Dumpty who fell off the wall. Although I did not have access to the 'king's horses' and the 'king's men', somehow I was 'put back together again.' Perhaps even more than medicine and therapy, love, caring, forgiveness, and nonjudgmental encouragement have been great healers and motivators in my life. This love has also enabled me to love, care, forgive, and encourage others. When I was in a place that I, and others, thought to be a place of no return, I found healing from these unlikely healers. Having been blessed to return from that place, I discovered that sometimes, tragedy is a precursor to triumph and brokenness a prerequisite for wholeness. In my darkest hour, the love and support that I received helped me to find my way. One day while seriously contemplating suicide, sitting with my head in my hands crying, I was startled by a tap on my shoulder from my three year-old son. He patted my shoulder and said, "It's going to be alright daddy, it's going to be alright." Even now, the thought of those words give me a chill, just thinking of how the words of a three-

year-old could affect the course of my life. In that moment, a door opened in my mind that allowed me to begin the process of regaining control over my mind and my life. I knew that I did not want to leave him here without a father.

**Burnout, Fatigue, Exhaustion** Sighard Neckel 2017-06-19 This interdisciplinary book explores both the connections and the tensions between sociological, psychological, and biological theories of exhaustion. It examines how the prevalence of exhaustion - both as an individual experience and as a broader socio-cultural phenomenon - is manifest in the epidemic rise of burnout, depression, and chronic fatigue. It provides innovative analyses of the complex interplay between the processes involved in the production of mental health diagnoses, socio-cultural transformations, and subjective illness experiences. Using many of the existing ideologically charged exhaustion theories as case studies, the authors investigate how individual discomfort and wider social dynamics are interrelated. Covering a broad range of topics, this book will appeal to those working in the fields of psychology, sociology, medicine, psychiatry, literature, and history.

Do you feel secure in your decision-making? Do you sense that you come across as too strict at times, or too lenient? Can you be

playful and spontaneous when you want to be? Are you comfortable with having those difficult conversations? Drawing on Carl Jung's theories, this book discusses several father archetypes, presenting a positive view of fatherhood that emphasizes its manifestations and benefits in children's lives rather than the difficulties and struggles of parenting.

Spirit Rises Terence Hamilton-Morris 2013-02 Life's most profound mysteries have inspired great thinkers throughout the ages, but few answers have emerged to address these major questions: Why are we born? What is the meaning of life? What happens to us after we die? Is there life after so-called human death? Can we ever hope to have the answers to these important questions? Even the pursuit of answers stirs up controversy; some say that the questions themselves are more important than any answers that might be shared. Author Terence Hamilton-Morris, a clairvoyant and open medium, offers his insights into these unanswerable mysteries. His approach is controversial, enlightening, and confrontational. He invites us to look at these questions from a broader spectrum of possibility and encourages us to look more intently at subjects that we are often instructed to ignore. He challenges followers of all religions to be truthful to their original teachings. He stresses the importance of discipline, motivation, and respect for others, and he hopes to inspire us to take better care of our environment. Hamilton-Morris has called upon a veritable panel of experts from the spirit world, each of whom has chosen to share their experiences, insight, and teaching from beyond, based on their own experiences from their time on Earth. Compelled to share this story by his personal guides because of his extraordinary relationship to the world of Spirit, he wants the world to be able to reach what Spirit demanded of him.
