The Diamond Approach - John Davis 2021-05-25

A revised and expanded edition of the definitive guide to the Diamond Approach, the modern contemplative practice that integrates psychology and spirituality and emphasizes the importance of self-inquiry. The Diamond Approach has been developed and taught over the last forty-five years by Hameed Ali, who is known chiefly by his pen name, A. H. Almaas. This book, the first to offer a full overview of the Diamond Approach, is now revised and expanded with a new foreword by Almaas, a new preface by the author, and a new chapter that explores the most recent developments in Almaas's teaching and practice methods. Author John Davis offers a rich, compelling introduction to the unique spiritual tradition that philosopher Ken Wilber recommends as "the most balanced of the widely available spiritual psychologies/therapies." Influenced by ancient traditions such as Sufism and Buddhism as well as by modern psychology, the Diamond Approach is particularly well-suited to twenty-first century seekers who embrace both spirituality and science.

Beginning with an account of his own work with the Diamond Approach, Davis proceeds to outline the tradition's central practice of Inquiry, a form of open-ended exploration of present-moment experience akin to mindfulness practice. From there, he launches readers into an exploration of metaphysical concepts such as soul, space, Essence, self-realization, and the dimensions of Being. Complex yet concise, profound yet accessible, The Diamond Approach offers readers bold new perspectives on reality and human potential.

The Empowerment Solution - Friedemann Schaub 2023-03-21

Break free from self-sabotaging survival patterns and transform your life

- Discover the six keys to empowerment and take ownership of your life
- Activate the healing power of your subconscious mind to accelerate change and growth and eliminate the root causes of chronic anxiety, depression, and other limiting mental and emotional challenges
- Learn effective brain-rewiring methods and practical tools based on neuro-linguistic programming and clinical hypnotherapy

When you're struggling with anxiety, depression, and low self-esteem, just keeping your emotions in check seems like a full-time job. Yet, what may hold you back in life even more are your survival patterns. Have you ever wondered why you make yourself invisible, procrastinate, or please others to get their approval? Our subconscious employs survival patterns like these to protect us from rejection, failure, and hurt. However, living in subconscious "survival mode" has significant downsides: when we live

"just to survive," we become disconnected from our true selves and our innate ability to live an empowered life of purpose, fulfillment, and self-reliant confidence. In this step-by-step guide, Friedemann Schaub, M.D., Ph.D., explores how to break free from the six most common survival patterns—the victim, invisibility, the procrastinator, the chameleon, the helper, and the lover—by engaging the part of the mind that created them in the first place: the subconscious. Providing research-backed insights and brain-rewiring methods based on his 20 years' experience, Dr. Friedemann details how, through activating the healing power of the subconscious, you can throw off the shackles of these self-sabotaging patterns and "flip" them into the six keys to self-empowerment, allowing you to take self-reliant ownership of your life. Revealing how to work with the subconscious mind and become the leader of your life, the author details how to free yourself from living in survival mode, learn to love and accept yourself, and make authenticity and confidence your everyday way of being.

Creating Eartheaven in Your Life *Profound Transformation of Your Soul* - David H. Fastiggi 2014-05-17

Creating Eartheaven in Your Life is unique and it is innate in all human beings. Humanity's quest for a wholesome peaceful life goes unabated. Our search for our better self that identifies with the reality of the world we live in all too often filled with grief and stress is juxtaposed with faith and hope for change or a miracle. Do we just have faith expecting God will deliver humanity from the ills we have caused? Should we just buckle down and be practical seeking solution with our rational self? What kind of God do we actually know or are we seeking a relationship with an image of God taught to us. What is the divine matrix and does a personal God speak to us? Science stands for one view of creation and faith stands for another? Is there a joining point of the two? Has our species *Homo sapiens* stalled out in evolutionary development? Is the world becoming a village of cooperation and mutual peace seeking? Can we continue the way we have been and survive our own arrogance? What is the future of faith, religion and spirituality? The author in a comprehensive way takes us on a journey to explore answers to these questions and much more. Eartheaven is a paradigm of integration between the souls development and our biological body and by extension all creation. He delves into scientific reality while preserving in the beginning God created. *Creating Eartheaven in Your life* is a deep exploratory of the souls life in the experience of hurt and suffering and the potential for there to be personal divine human embodiment and therefore earth peace. Through ten fundamental teaching combining Jesus words of two thousand years ago, an Aramaic understanding, the authors revelatory experience in an apparition of Jesus, his 44 years life experience, psychology and science, your reading and learning experience will be a challenge and liberation of the soul. Profound transformation is needed and this codex offers the leverage needed to shift our life course towards personal awakening and transformation as well as providing a blue print for future generations. *Creating Eartheaven in Your Life* brings us into universal principles of life, a meeting for humanity without walls. This volume of two, addresses specifically transformation of the soul, heaven unfolding. Volume two addresses transformation of the body representing the earth and thus eartheaven. Granted this book is not an easy read but proves to be a strong mirror reflecting back to us our lives and what we can become fulfilling humanity's evolutionary life potential and perhaps vital to our survival as a people.

Why Didn't Evangelicals "See Him Coming"? - Paul A. Pomerville 2023-08-31

Why Didn't Evangelicals "See Him Coming"? is a hard-hitting, clear-eyed account of how American society, the political establishment, and the rule of law reacted to a sociopath president. After Donald Trump left office, Americans didn't "see him going" either. Trump came and went, yet millions of Americans were "clueless" about what happened because of his "gaslighting tornado." An evangelical Christian author explains why Bible-believing, church-going, Jesus-talking, America-loving evangelicals, along with other Americans, listened to, were enamored by, and elected an immoral sociopath. An unlikely combination of viewpoints--psychology, law, and biblical theology--provide a surprising, coherent

picture of how Donald Trump deceived and inflicted devastation on democracy. His uncanny influence is chronicled by media reporting during his four years in office and afterwards in a "shadow presidency" at Mar-a-Lago. If Trump succeeded in anything, it was deceit. Psychologists rightly attribute this to his "gaslighting"; biblical theology probes deeper, to his corrupt human nature. An FBI search warrant at Mar-a-Lago revealed the inevitable truth: Donald Trump was a thief and traitor from the beginning; the law finally caught up with a long overdue, unaccountable serial criminal for crimes that America would not tolerate.
