Poucher's Perfumes, Cosmetics and Soaps - H. Butler 2013-06-29

Poucher's Perfumes Cosmetics and Soaps has been in print since 1923 and is the classic reference work in the field of cosmetics. Now in a fully updated 10th edition, this new volume provides a firm basic knowledge in the science of cosmetics (including toiletries) as well as incorporating the latest trends in scientific applications and legislation which have occurred since the 9th edition. This edition will not only be an excellent reference book for students entering the industry but also for those in specialized research companies, universities and other associated institutions who will be able to gain an overall picture of the modern cosmetic science and industry. The book has been logically ordered into four distinct parts. The historical overview of Part 1 contains an essay demonstrating William Arthur Poucher's influence on the 20th Century cosmetics industry as well as a chapter detailing the long history of cosmetics. Part 2 is a comprehensive listing of the properties and uses of common cosmetic types, ranging from Antiperspirants through to Sunscreen preparations. There are an increased number of raw materials in use today and their chemical, physical and safety benefits are carefully discussed along with formulation examples. The many additions since the last edition demonstrate the dramatic recent expansion in the industry and how changes in legal regulations affecting the development, production and marketing of old, established and new products are operative almost worldwide. Information on specialist products for babies and others is included within individual chapters. The chapters in Part 3 support and outline the current guidelines regarding the assessment and control of safety and stability. This information is presented chemically, physically and microbiologically. Part 3 chapters also detail requirements for the consumer acceptability of both existing and new products. Those legal regulations now in force in the EU, the USA and Japan are carefully described in a separate chapter and the remaining chapters have been extensively updated to explain the technical and practical operations needed to comply with regulations when marketing. This information will be invaluable to European Union and North American companies when preparing legally required product information dossiers. The final chapters in Part 4 contain useful information on the psychology of perfumery as well as detailing methods for the conduct of assessment trials of new products. As ingredient labelling is now an almost universal legal requirement the International Nomenclature of Cosmetics Ingredients (INCI) for raw materials has been used wherever practicable. The advertised volume is the 10th edition of what was previously known as volume 3 of Poucher's Cosmetics and Soaps. Due to changes in the industry there are no plans to bring out new editions of volume 1 and 2.

Scent-Sational Searches - Deborah Worley 2013-05-10

About the Book (website) If you've ever made the costly mistake of buying a perfume you did not like after you got it home, this is THE book for you. Now you can find out how to search for perfect fragrances. Scent-Sational Searches explores the author's theory that there are basically four blood and personality types that parallel fragrance families. Once you learn how you fit into a Fragrance Wheel, your search becomes easy. No more costly mistakes and a lifetime of fun exploring the fragrance world! The book takes you on a journey to discover why fragrances do not smell the same on friends and family. Over the years her observations to so many different reactions, both good and bad, led her to research the subject and share her findings. Mainly due to customer request. People were fascinated by how personalities could be pegged and guided to a fragrance that works for them. Book also includes: 100 Tips and Questions & Answers. Also- Fav Fragrancier Bios about Coco Chanel, Estee Lauder, Thierry Mugler and Michael Edwards. Each legends in the world of fragrance! The last chapter is homage to Pilot International Clubs and their work to fund raise for brain health. Worley's marketing plans include donating a portion of her profits to assist with club fund raising efforts.

Beautiful SCENT - Joachim Mensing 2023-07-07

This book will make you a perfume insider. Discover the effects, trends and future of perfume. Perfumery is on the verge of its third revolution, neuroperfumery, due to new methods of brain research and current findings in fragrance psychology. With this exciting and well-written book, you will gain a comprehensive insight into the creation, world and practice of modern perfumery, as well as interesting insider information. Current findings in psychology, aromatherapy, brain research and neuroperfumery on the effects of fragrances make Beautiful SCENT a treasure trove of new insights. As a non-fiction book with an advice component, it is easy to read without prior knowledge and provides many practical tips. Among other things, you will learn that some perfumes can do much more than just smell good, how perfumers and marketers create their perfumes, which scent preferences prevail and how the effect of scent can specifically influence one's own experience and enjoyment of life. Target groups All those who love perfumes and fragrances and would like to learn more about the magical effect of perfumes on well-being and perhaps play with the idea of creating their own perfume one day. It is also ideal for those who work in the fragrance, cosmetics and beauty industry and would like to refresh their knowledge of perfumes. About the author Dr. Joachim Mensing is a qualified psychologist, sociologist and trained nose with over 30 years of professional experience in perfumery and fragrance therapy. At one of the largest fragrance manufacturers, he became a trend coach for perfumers and developed methods of perfume development and marketing. Many of the perfumes he worked on received coveted awards such as the Fifi Award, the Oscar for perfumes. He himself received the honorary award of the FRAGRANCE FOUNDATION for the development and marketing of the perfumes Cool Water by Davidoff, Joop! and Jil Sander, and he was also recognized for studies in neuroperfumery and neuropsychology.

Aromatherapy: Scent and Psyche - Peter Damian 1995-09-01

Aromatic oils have been used for thousands of years not only for their fragrance but for culinary, therapeutic, ritual, and spiritual purposes. More than a fashionable trend, aromatherapy is coming into its own as a body of knowledge and practice with specific applications that have a solid scientific base. Drawing on research and clinical studies, Peter and Kate Damian look at many applications from treating viral infections with garlic or black pepper oil to using rose oil to relax patients undergoing chemotherapy; from aromatic massage to the "environmental fragrancing" of subways and supermarkets. Explores: • How scent interacts with emotion, memory, mental acuity, and sleep • Why specific scents are so effective in therapeutic and ritual settings • Antiseptic and antimicrobial properties of essential oils How men and women differ in their responses to odors • Provides a thorough exposition of the ancient practice of aromatics in China, India, Persia, and Egypt • Details our modern scientific understanding of the physiology and psychology of scent. • Includes annotated profiles for forty-four essential oils and specific instructions for creating essential oil blends.

Perfumes - Luca Turin 2008-04-10

The first book of its kind: a definitive guide to the world of perfume Luca Turin and Tania Sanchez are experts in the world of scent. Turin, a renowned scientist, and Sanchez, a longtime perfume critic, have spent years sniffing the world's most elegant and beautiful—as well as some truly terrible—perfumes. In *Perfumes: The Guide*, they combine their talents and experience to review more than twelve hundred fragrances, separating the divine from the good from the monumentally awful. Through witty, irreverent, and illuminating prose, the reviews in *Perfumes* not only provide consumers with an essential guide to shopping for fragrance, but also make for a unique reading experience. *Perfumes* features introductions to women's and men's fragrances and an informative "frequently asked questions" section including: • What is the difference between eau de toilette and perfume? • How long can I keep perfume before it goes bad? • What's better: splash bottles or spray atomizers? • What are perfumes made of? • Should I change my fragrance each season? *Perfumes: The Guide* is an authoritative, one-of-a-kind book that will do for fragrance what Robert Parker's books have done for wine. Beautifully designed and elegantly illustrated, this book will be the perfect gift for collectors and anyone who's ever had an interest in the fascinating subject of perfume. Read Luca Turin and Tania Sanchez's posts on the Penguin Blog.

[Neurobiology of Sensation and Reward](#) - Jay A. Gottfried 2011-03-28

Synthesizing coverage of sensation and reward into a comprehensive systems overview, *Neurobiology of Sensation and Reward* presents a cutting-edge and multidisciplinary approach to the interplay of sensory and reward processing in the brain. While over the past 70 years these areas have drifted apart, this book makes a case for reuniting sensation and reward by highlighting the important links and interface between the two. Emphasizing the role of reward in reinforcing behaviors, the book begins with an exploration of the history, ecology, and evolution of sensation and reward. Progressing through the five senses, contributors explore how the brain extracts information from sensory cues. The chapter authors examine how different animal species predict rewards, thereby integrating sensation and reward in learning, focusing on effects in anatomy, physiology, and behavior. Drawing on empirical research, contributors build on the themes of the book to present insights into the human sensory rewards of perfume, art, and music, setting the scene for further cross-disciplinary collaborations that bridge the neurobiological interface between sensation and reward.

New Cosmetic Science - T. Mitsui 1997-06-19

Cosmetic science covers the fields from natural sciences to human and social sciences, and is an important interdisciplinary element in various scientific disciplines. *New Cosmetic Science* is a completely updated comprehensive review of its 35 year old counterpart *Cosmetic Science*. *New Cosmetic Science* has been written to give as many people as possible a better understanding of the subject, from scientists and technologists specializing in cosmetic research and manufacturing, to students of cosmetic science, and people with a wide range of interests concerning cosmetics. The relationship between the various disciplines comprising cosmetic science, and cosmetics, is described in Part I. In addition to discussing the safety of cosmetics, the "Usefulness of Cosmetics", rapidly becoming an important theme, is described using research examples. The latest findings on cosmetic stability are presented, as are databases, books and magazines, increasingly used by cosmetic scientists. Part II deals with cosmetics from a usage viewpoint, including skin care cosmetics, makeup cosmetics, hair care cosmetics, fragrances, body cosmetics, and oral care cosmetics. Oral care cosmetics and body cosmetics are presented with product performance, types, main components, prescriptions and manufacturing methods described for each item. This excellent volume enlightens the reader not only on current cosmetics and usage, but indicates future progress enlarging the beneficial effects of cosmetics. Products with better pharmaceutical properties (cosmeceuticals), working both physically and psychologically, are also highlighted.

Understanding Aesthetics for the Merchandising and Design Professional - Ann Marie Fiore 2010-04-08

Bridging the gap between the study of aesthetics and its application in the merchandising and design environments, the 2nd Edition of *Understanding Aesthetics* presents a research-based focus on the concepts of aesthetics and their effect on product value and consumer behavior. The multisensory approach to studying the elements and principles of design helps students master the underlying factors of successful design and learn how products and their promotional surroundings can establish brand identity and create a pleasing environment for the consumer.

Quintessentially Perfume - Nathalie Grainger 2010

Nathalie Grainger, a perfume consultant with extensive experience of client fragrance profiles and fragrance training, was commissioned by *Quintessentially Perfume* to compile and create this luxurious hard-back book. *Quintessentially Perfume* pays homage to a cross section of niche and mainstream perfume houses focusing on their different philosophies and backgrounds. Nathalie Grainger wrote the chapters on the perfume houses, included her interviews with some of the world's finest creators and also produced the book. There are also wonderful article features from fragrance experts including Roja Dove and Chandler Burr, with some fascinating insights into the world of fragrance, namely a look inside a perfume lover's fragrance wardrobe. It's a great read for men and women alike who love fragrance and is a lovely collector's gift.
