Why Doesn't She Just Leave?
- Oluchi Otti 2011-04

This book reveals the myriad of reasons why victims of domestic violence stay in abusive relationships. The reasons are as endless as the number of domestic violence victims. Each story is unique and each reason is valid. The author Dr. Oluchi Arowosafe strongly opined that blaming

the victim is the wrong approach, stating that no matter how common the belief is, maintaining that no one deserves to be or enjoys being abused and that leaving a violent relationship is most often the most dangerous time for the victim. She maintains that by repeatedly asking this same question (Why doesn't she just leave?), the society continues to re-victimize the victim by pinning the responsibility squarely on her. The author opines that that the blame should be shifted to the perpetrator. The author equally indicates that by asking this question the society makes the problem to be the victim's and the solution to be her responsibility, totally absolving the criminal justice system and the social institutions their responsibilities of protecting victims of domestic violence. She opined that for victims to safely leave abusive situations, the society at large must cooperatively work to protect them and equally hold these perpetrators of violence accountable.

Betrayal Bond, Revised -

Patrick J. Carnes, PhD

2018-08-17

Some really great books just keep getting better! For seventeen years *The Betrayal Bond* has been the primary source for therapists and patients wrestling the effects of emotional pain and harm caused by exploitation from someone they trusted. Divorce, litigation, incest and child abuse, domestic violence, kidnapping, professional exploitation and religious abuse are all areas of trauma bonding. These are situations and relationships of incredible intensity or importance lend themselves more easily to an exploitation of trust or power. In *The Betrayal Bond*, Dr. Carnes presents an in-depth study of these relationships; why they form, who is most susceptible, and how they become so powerful. Dr. Carnes also gives a clear explanation of the bond that

compels people to tolerate the intolerable, and for the first time, maps out the brain connection that makes being with hurtful people comparable to 'a drug of choice.' Most importantly, Carnes provides practical steps to identify compulsive attachment patterns and ultimately to change or end them for good. This new edition includes: New science for understanding how our brains can make a prison of bad relationships New assessments and insights based on 50,000 research participants A new section utilizing the latest findings in attachment research and narrative therapy to concretely rewrite and rescript bad experiences A redefinition of the factors contributing to addictive relationships
Surviving - Beverly Gooden

the bed for no discernible reason. Despite her quick thinking and even quicker footsteps, her husband catches her, his sudden anger inexplicable. No words are exchanged. He begins to strangle her as he has done many times before. With unflinching vulnerability, Gooden outlines in painstaking detail what she had to do to walk away and how others can use her experiences to escape their own abuse, from skimming the grocery money, to squirreling away personal belongings, to navigating a domestic violence shelter. She offers strategies for overcoming the barriers survivors often face, such as money, housing, overcritical social circles, or, most powerfully: love. Uniquely compassionate when it comes to the heartbreak of still loving one's abuser, Gooden shares how she transformed and extended this love outward, using her story to encourage others to choose themselves. The voice and fire behind #WhyIStayed, Bev Gooden is

exceptionally positioned to explore the many reasons victims stay in abusive relationships, and how they can muster the resources and motivation to leave. Surviving is unlike any memoir of survivorship, given its nuance, compassion, and candor. Above all, it is an exquisitely powerful testament to Gooden's healing, survivorship, and dedication to helping others do the same.

A Letter to My Former Self -

Miguel Quinones 2017-11

What do you think you know about abusive relationships? Only a fragile, powerless woman would stay in an abusive relationship. A woman who stays with her abuser lacks intelligence. She is weak, and that's why she allows herself to be abused. She puts up with it partly because she feels she has no choice, and partly because she is too ashamed to admit that it's happening to her. It doesn't matter if a woman seems to be strong and in control of her life. If she stays with her abuser, it's her own choice. She should just leave. If it's so bad, why doesn't she just

leave? Right? Wrong. An abusive man must have had an abusive father. Only men who see their fathers strike their mothers grow up to do that. A man like that can't control his rage. He's charming one minute and a monster the next. Right? Not always. How do intelligent, competent people end up in violent, abusive relationships? We learned, after we'd come through our violent courtship and marriage, that the foundation was set early for both of us. Both of us, in our own particular dysfunctional way, found the partner who mirrored the way we felt about ourselves at the time. This is the story of two people who lost their way...and found it again. This is a road map for those who are struggling in an abusive relationship, with the assurance that if both sides are willing to work, there is a way out. This is not a story about waiting and hoping for the abusive person to change. We learned that in order for our lives to be different, we both had to make different choices

or nothing would ever get better. We went through this nightmare, and now we are speaking to you from the other side.

abusive relationships. Using expert advice complemented by her story and the stories of dozens of other women who have survived and turned away from domestic violence, Hunter teaches women to identify the lies they've accepted, understand what healthy thinking sounds like, stop taking the blame for their partner's behavior, identify power and control plays, and stick up for their own needs and plans for their safety. With each self-defeating message addressed in *But He'll Change*, Hunter offers counter messages designed to help women build strength and hope. Readers will develop the tools to operate not as victims, but as survivors, understanding the power that they hold to change their lives.

Leaving a Violent Relationship - Adele Jones
2021-05-06

Intimate partner violence (IPV), defined as physical, sexual, emotional, and economic abuse and controlling behaviors inflicted within intimate partner relationships, is a

global crisis that extends beyond national and sociocultural boundaries, affecting people of all ages, religions, ethnicities, and economic backgrounds. Though studies exist that seek to explain how people become trapped within violent relationships and what factors facilitate survival, escape and safety, this book provides fresh insights into this complex and multifaceted issue. People often ask of women in abusive relationships “why does she stay?” Critics suggest that this question carries implicit notions of victim blame and fails to hold to account the perpetrators of abuse. The studies described in this book, however, explore the question from the perspectives of survivors and represent a shift away from individual pathology to an approach based on the recognition of structural oppression, agency and resilience. Comprising eight chapters, new theoretical frameworks for the analysis of IPV are provided to guide practitioners and policy makers
