Good and Mad Rebecca Traister 2019-09-03 Journalist Rebecca Traister's New York Times bestselling exploration of the transformative power of female anger and its ability to transcend into a political movement is "a hopeful, maddening compendium of righteous feminine anger, and the good it can do when wielded efficiently—and collectively" (Vanity Fair). Long before Pantsuit Nation, before the Women's March, and before the #MeToo movement, women's anger was not only politically catalytic—but politically problematic. The story of female fury and its cultural significance demonstrates its crucial role in women's slow rise to political power in America, as well as the ways that anger is received when it comes from women as opposed to when it comes from men. "Urgent, enlightened...realistic and compelling...Traister eloquently highlights the challenge of blaming not just forces and systems, but individuals" (The Washington Post). In Good and Mad, Traister tracks the history of female anger as political fuel—from suffragettes marching on the White House to office workers vacating their buildings after Clarence Thomas was confirmed to the Supreme Court. Traister explores women's anger at both men and other women; anger between ideological allies and foes; the varied ways anger is received based on who's expressing it; and the way women's collective fury has become transformative political fuel. She deconstructs society's (and the media's) condemnation of female emotion (especially rage) and the impact of their resulting repercussions. Highlighting a double standard perpetuated against women by all sexes, and its disastrous, stultifying effect, Good and Mad is "perfectly timed and inspiring" (People, Book of the Week). This "admirably rousing narrative" (The Atlantic) offers a glimpse into the galvanizing force of women's collective anger, which, when harnessed, can change history.

The theory suggests that the witch trials of Early Modern Christendom were an attempt to extinguish a surviving pre-Christian, pagan religion devoted to a Horned God.

Reclaiming Our Space Feminista Jones 2019-01-29 A treatise of Black women's transformative influence in media and society, placing them front and center in a new chapter of mainstream resistance and political engagement In Reclaiming Our Space, social worker, activist, and cultural commentator Feminista Jones explores how Black women are changing culture, society, and the landscape of feminism by building digital communities and using social media as powerful platforms. As Jones reveals, some of the best-loved devices of our shared social media language are a result of Black women's innovations, from well-known movement-building hashtags (#BlackLivesMatter, #SayHerName, and #BlackGirlMagic) to the now ubiquitous use of threaded tweets as a marketing and storytelling tool. For some, these online dialogues provide an introduction to the work of Black feminist icons like Angela Davis, Barbara Smith, bell hooks, and the women of the Combahee River Collective. For others, this discourse provides a platform for continuing their feminist activism and scholarship in a new, interactive way. Complex conversations around race, class, and gender that have been happening behind the closed doors of academia for decades are now becoming part of the wider cultural vernacular—one pithy tweet at a time. With these important online conversations, not only are Black women influencing popular culture and creating sociopolitical movements; they are also galvanizing a new generation to learn and engage in Black feminist thought and theory, and inspiring change in communities around them. Hard-hitting, intelligent, incisive, yet bursting with humor and pop-culture savvy, Reclaiming Our Space is a survey of Black feminism's past, present, and future, and it explains why intersectional movement building will save us all.

**The Sum of Us** Heather McGhee 2021-03-26 LONGLISTED FOR THE NATIONAL BOOK AWARD 'With intelligence and care (as well as with a trove of sometimes heartbreaking and sometimes heart-opening true stories) Heather McGhee shows us what racism has cost all of us' - Elizabeth Gilbert Picked for the Financial Times Summer Books by Gillian Tett What would make a society drain its public swimming baths and fill them with concrete rather than opening them to everyone? Economics researcher Heather McGhee sets out across America to learn why white voters so often act against their own interests. Why do they block changes that would help them, and even destroy their own advantages, whenever people of colour also stand to benefit? Their tragedy is that they believe they can't win unless somebody else loses. But this is a lie. McGhee marshals overwhelming economic evidence, and a profound well of empathy, to reveal the surprising truth: even racists lose out under white supremacy. And US racism is everybody's problem. As McGhee shows, it was bigoted lending policies that laid the ground for the 2008 financial crisis. There can be little prospect of tackling global climate change until America's zero-sum delusions are defeated. The Sum of Us offers a priceless insight into the workings of prejudice, and a timely invitation to solidarity among all humans, 'to piece together a new story of who we could be to one another'.

**Justice on Demand** Tanya Horeck 2019-11-11 Justice on Demand: True Crime in the Digital Streaming Era offers a theoretical rumination on the question asked in countless blogs and opinion pieces of the last decade: Why are we so obsessed with true crime? Author Tanya Horeck takes this question further: Why is true crime thought to be such a good vehicle for the new modes of viewer/listener engagement favored by online streaming and consumption in the twenty-first century? Examining a range of audiovisual true crime texts, from podcasts such as Serial and My Favorite Murder to long-form crime documentaries such as The Jinx and Making a Murderer, Horeck considers the extent to which the true crime genre has come to epitomize participatory media culture where the listener/viewer acts as a "desktop detective" or "internet sleuth." While Facebook and Twitter have re-invigorated the notion of the armchair detective, Horeck questions the rhetoric of interactivity surrounding true crime formats and points to the precarity of justice in the social media era. In a cultural moment in which user-generated videos of real-life violence surface with an alarming frequency, Justice on Demand addresses what is at stake in the cultural investment in true crime as packaged mainstream entertainment. Paying close attention to the gendered and racialized dimensions of true crime media, Horeck examines objects that are not commonly considered "true crime," including the subgenre of closed-circuit television (CCTV) elevator assault videos and the popularity of trailers for true crime documentaries on YouTube. By analyzing a range of intriguing case studies, Horeck explores how the audience is affectively imagined, addressed, and commodified by contemporary true crime in an "on demand" mediascape. As a fresh investigation of how contemporary variations of true crime raise significant ethical questions regarding what it means to watch, listen, and "witness" in a digital era of accessibility, immediacy, and instantaneity, Justice on Demand will be of interest to film, media, and digital studies scholars.

**Women in Performance** Sarah Gorman 2020-07-22 *Women in Performance: Repurposing Failure* charts the renewed popularity of intersectional feminism, gender, race and identity politics in contemporary Western experimental theatre, comedy and performance through the featured artists' ability to strategically repurpose failure. Failure has provided a popular frame through which to theorise recent avantgarde performance, even though the work rarely acknowledges stakes tend to be higher for women than men. This book analyses the imperative work of a number of female, non-binary and trans\* practitioners who resist the postmodern doctrine of 'post-identity' and attempt to foster a sense of agency on stage. By using feminism as a critical lens, Gorman interrogates received ideas about performance failure and negotiates contradictions between contemporary white feminism, intersectional feminism, gender and sexuality. *Women in Performance: Repurposing Failure* reveals how performance has the power to both observe and reject contemporary feminist and postmodern theory, rendering this text an invaluable resource for theatre and performance studies students and those grappling with the disciplinary tensions between feminism, gender, queer and trans\* studies.

*Hiding in Plain Sight* Nuruddin Farah 2015-06-04 When Bella, an internationally known fashion photographer, dazzling and aloof, is forced to return to Nairobi to care for her teenage niece and nephew, she feels an unfamiliar surge of protectiveness and responsibility. But when their mother unexpectedly resurfaces, reasserting her maternal rights and bringing with her a gale of chaos and confusion that mirrors the deepening political instability in the region, Bella must decide whether she can - or must - come to their rescue.

*Gender Hate Online* Debbie Ging 2019-07-12 *Gender Hate Online* addresses the dynamic nature of misogyny: how it travels, what technological and cultural affordances support or obstruct this and what impact reappropriated expressions of misogyny have in other cultures. It adds significantly to an emergent body of scholarship on this topic by bringing together a variety of theoretical approaches, while also including reflections on the past, present, and future of feminism and its interconnections with technologies and media. It also addresses the fact that most work on this area has been focused on the Global North, by including perspectives from Pakistan, India and Russia as well as intersectional and transcultural analyses. Finally, it addresses ways in which women fight back and reclaim online spaces, offering practical applications as well as critical analyses. This edited collection therefore addresses a substantial gap in scholarship by bringing together a body of work exclusively devoted to this topic. With perspectives from a variety of disciplines and geographic bases, the volume will be of major interest to scholars and students in the fields of gender, new media and hate speech.

**The Literary Culture of Early Modern Scotland** Sebastiaan Verweij 2016-03-24 This study presents a history of the literary culture of early-modern Scotland (1560-1625), based on extensive study of the literary manuscript. It argues for the importance of three key places of production of such manuscripts: the royal court, burghs and towns, and regional houses (stately homes, but also minor lairdly and non-aristocratic households). This attention to place facilitates a discussion of, respectively, courtly, urban or civic, and regional literary cultures. Sebastiaan Verweij's methodology stems from bibliographical scholarship and the study of the 'History of the Book', and more specifically, from a school of manuscript research that has invigorated early-modern English literary criticism over the last few decades. The Literary Culture of Early Modern Scotland will also intersect with a programme of reassessment of early-modern Scottish culture that is currently underway in Scottish studies. Traditional narratives of literary history have often regarded the Reformation of 1560 as heralding a terminal cultural decline, and the Union of Crowns of 1603, with the departure of king and court, was thought to have brought the briefest of renaissances (in the 1580s and 1590s) to an early end. This book purposefully straddles the Union, in order to make possible the rediscovery of Scotland's refined and sophisticated renaissance culture.

*A Woman Scorned* Peggy Reeves Sanday 1996 "Beginning with a harrowing account of the St. John's rape case, Sanday reaches back through British and American landmark rape cases to explain how, with the exception of earliest Colonial times, rape has been a crime notable for placing the woman on trial. Whether she is charged as a false accuser, gold digger, loose or scorned woman, stereotypes prevail. American jurisprudence and the public at large remain divided on acquaintance rape. And now, as the Violence Against Women Act the most important legislation for women in twenty years - has been passed, a new breed of antifeminists has stepped up to the plate to subordinate women's bid for sexual autonomy and freedom." "A groundbreaking work of scholarship that coherently challenges the anti-rape backlash and its rhetoric, *A Woman Scorned* brings a broader perspective to our understanding of acquaintance rape and envisions, finally, a new paradigm for female sexual equality."--BOOK JACKET. **Crossing Fandoms** Paul Booth 2016-07-26 This book examines the fan-created combination of Doctor Who, Sherlock, and Supernatural as a uniquely digital fan experience, and as a metaphor for ongoing scholarship into contemporary fandom. What do you get when you cross the cult shows Doctor Who, Supernatural, and Sherlock? In this book, Paul Booth explores the fan-created crossover universe known as SuperWhoLock—a universe where Sherlock Holmes and Dean Winchester work together to fight monsters like the Daleks and the Weeping Angels; a world where John Watson is friends with Amy Pond; a space where the unique brands of fandom interact. Booth argues that SuperWhoLock represents more than just those three shows—it is a way of doing fandom. Through interviews with fans and analysis of fan texts, Crossing Fandoms: SuperWhoLock and the Contemporary Fan Audience also demonstrates how fan studies in the digital age can evolve to take into account changing fan activities and texts.
