**The Church's Worship** - Thaddaeus A. Schnitker 2009-11-01

**Theology for Earth Community** - Dieter T. Hessel 2003-08-18

This volume brings together original essays by both seasoned professionals and emerging scholars who examine state-of-the-art scholarship and pedagogy in ecologically-alert theology. Authors assess what various theologians have to offer, and draw implications for reshaping religious and environmental studies, as well as preparing the next generations of church leaders or pastoral

workers. What needs to be done, these authors ask, to bring biblical studies, systematics, social ethics, practical theology, spiritual formation, and liturgy up to speed with eco-justice thought and action on environmental questions?

Doxology: A Systematic Theology - Geoffrey Wainwright 1984

Described by the author as " A systematic theology from a liturgical perspective" or "a theology of worship"

The Handbook of Nonsexist Writing - Casey

Miller 2001

Man, he brotherhood, founding fathers. It is argued that such words are and always have been used by educated people to encompass all humanity—men and women. Psychological and historical research in the past few years has produced evidence to the contrary: for most people “false generics” seldom if ever convey a female image, nor are they ancient unchangeable rules of the English grammar that have always been used by the educated. Using hundreds of examples, mostly from published sources, the authors illustrate what certain words are saying to us on a subliminal level. Solutions are supplied that range from word substitutions to suggestions for rewriting. Without a trace of self-conscious righteousness, and with refreshing humor, Miller and Swift provide surprising insights into the English language and the ways in which people use it and are used by it. They demonstrate that to be in command of the language, we must find clear,

convincing, and graceful ways to convey our ideas accurately. We must recognize and replace exclusive, distorting, ambiguous, and injurious words.

Language for a "Catholic" Church - Thomas H. Groome 1991

Inclusive language is a concern that resonates deeply with the sense of conversion and welcome to a community that is inclusive. This treatment is sensitive, respectful and is sure to raise consciousness.

*Gender Roles & the Bible: Creation, the Fall, & Redemption: A Critique of Feminist Biblical Interpretation* - Jack Cottrell 1994-12

What does the Bible teach about gender roles? Is there a difference as seen in Scripture?

Understanding the debate over biblical feminism is essential to answering the questions about the role of women in the church. In this book, Dr. Cottrell "stands squarely in the path of the evangelical feminists who want to prove that the Bible agrees with their egalitarian views" (Clark

H. Pinock, Ph.D., McMaster Divinity College).

*Women Encounter God* - Linda A. Moody  
2003-10-24

'Women Encounter God' is one of the first books to explore the commonalities and convergences of women's theologies in the Americas. This critical, comparative analysis of white feminist, womanist, and 'mujerista' theologies focuses on how, by placing their unique theologies in dialogue, the rich contributions of each theology can inform the others. By looking at the key themes of empowerment, embodiment, and relationality, Moody examines how three different types of feminist theologians perceive God. She discusses the works of such representative theologians as white feminists Mary Daly, Rosemary Ruether, Sally McFague, and Carter Heyward; Hispanic/Latina theologians Ada Maria Isasi-Diaz, Yolanda Tarango, and Elsa Tamez; and womanist theologians Delores Williams, Jacquelyn Grant,

and Katie Geneva Cannon, as well as feminist theorists Chela Sandoval and Rosemary Tong. *Out of Eden* - Beverly J. Stratton 1995-12-01  
Out of Eden contributes towards conversations about interpreting scripture. Rather than adopting traditional views (creation and 'fall' or growth), this study integrates literary-critical theories and feminist scholarship to read the Genesis narrative in relation to concerns of contemporary communities. The question of how we might engage the interpretative process and the rhetorical power of texts as we live our lives 'out of Eden' is addressed. Stratton argues that the interpretation of Genesis 2-3 matters, that there are consequences for the actions we take on the basis of our interpretations, and that we should enter the interpretative process only with care.

**Feminism, Law, and Religion** - Marie Failing  
2016-04-15

With contributions from some of the most prominent voices writing on gender, law and

religion today, this book illuminates some of the conflicts at the intersection of feminism, theology and law. It examines a range of themes from the viewpoint of identifiable traditions such as Judaism, Christianity, Islam and Buddhism, from a theoretical and practical perspective. Among the themes discussed are the cross-over between religious and secular values and assumptions in the search for a just jurisprudence for women, the application of theological insights from religious traditions to legal issues at the core of feminist work, feminist legal readings of scriptural texts on women's rights and the place that religious law has assigned to women in ecclesiastic life. Feminists of faith face challenges from many sides: patriarchal remnants in their own tradition, dismissal of their faith commitments by secular feminists and balancing the conflicting loyalties of their lives. The book will be essential reading for legal and religious academics and students working in the area of gender and law or law

and religion.

*Dissident Daughters* - Teresa Berger 2001-01-01  
With its focus on narratives, its attention to contextual and material realities, and its collection of women-identified liturgies in global context, *Dissident Daughters* claims prominence within the growing literature on women's ways of worship. This book not only introduces liturgical texts, but focuses on the communities that create and celebrate these liturgies. *Dissident Daughters* gives voice to the women activists in these communities who show how their communities came into being; how social, cultural, and political realities shaped them and their liturgies; and how they envision their lives in and as communities of faith. In drawing the different narratives together, *Dissident Daughters* displays the expanse of the worldwide expression of women's rites, and how each is

shaped by distinctly different contexts of struggle and hope.

**Religion in Society** - Ronald L. Johnstone  
2015-11-17

For junior/senior-level courses in Religion and Society in departments of Sociology and Religious Studies. Using an unbiased, balanced approach, the 8th edition of this text puts religion in its social context by discussing the impact of society on religion and helps students understand the role and function of religion in society that occur regardless of anyone's claims about the truth or falsity of religious systems.

Western Buddhist Feminists' Contribution to Christian Theology - Dong Jin Kim 2022-12-06

This book discusses gender injustice and justice in religious institutions and spiritual life. Fixed as a gender, God/Goddess leads those who have the same gender to subordinate anyone who differs. In this sense, the patriarchal and androcentric system has caused many religious women to lose their spiritual and faithful

equality and identities in a church. This book details how Western Buddhist feminists find that, after recuperating women's equivalent rights and identities, both religious men and women need to meditate to achieve the emptiness of gender ego—gender privilege and prejudice—which then leads to awakening and enlightenment from ignorance. To apply such skills in Christian theology, gender justice comes from spiritual equality and courage—awakening and repentance—in their contemplative and meditative lives. This book suggests that, for women's spiritual and real liberation and happiness, both inner trainings and external social actions have to go together.

*American Political Ideologies* - Brian R. Farmer  
2014-11-01

For many people, the world of politics is defined by ideologies. The average voter rarely takes time to research a policy issue, thoroughly relying instead on a set of beliefs set forth by his or her chosen political organization to make important decisions. These publicly promoted ideologies play an important role in international as well as domestic political development, yet many adherents to a particular belief may have a poor understanding of competing ideologies. From right wing to the far left, this text dissects eight prominent political ideologies: traditional conservatism, classic liberalism, libertarianism, conservative extremism, contemporary liberalism, communism, dependency theory and Islamism. In plain terms it describes the basic doctrine and inherent contradictions of each creed along with its particular relevance to today's political landscape. An in-depth discussion of the political socialization processes that form and perpetuate ideologies is also included. Instructors considering this book for

use in a course may request an examination copy here.

**Inclusive Language in the Church** - Nancy A. Hardesty 1987-01-01

Inclusive Language in the Church is a good introduction to questions about language use today that fairly addresses the issues of the language debate. Nancy Hardesty sets out to convince us that inclusive language is appropriate in Christian theology and worship.

**Women's Spirituality in the Transformation of South Africa** - Azila Talit Reisenberger

The changes in South Africa, as well as globally, have had varying effects on the lives of South African women. This book traces some of these changes - as well as aspirations for change - in a particular field: women's search for the beyond, the transcendent. The papers range from personal experience to academic proposals for change.
