*The Oxford Encyclopedia of Women in World History* - Bonnie G. Smith 2008

The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive, 4-volume work. Although there has been extensive research on women in history by region, no text or reference work has comprehensively covered the role women have played throughout world history. The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe. Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region. They have found and demonstrated that there is virtually no historical, social, or demographic change in which women have not been involved and by which their lives have not been affected. The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences, and illuminates how women worldwide have influenced and been influenced by these historical, social, and demographic changes. The Encyclopedia contains over 1,250 signed articles arranged in an A-Z format for ease of use. The entries cover six main areas: biographies; geography and history; comparative culture and society, including adoption, abortion, performing arts; organizations and movements, such as the Egyptian Uprising, and the Paris Commune; women and gender studies; and topics in world history that include slave trade, globalization, and disease. With its rich and insightful entries by leading scholars and experts, this reference work is sure to be a

valued, go-to resource for scholars, college and high school students, and general readers alike.

[Women in German History](#) - Ute Frevert 1989

Presents a comprehensive study of the experiences of women in modern German society. This book examines aspects of change and continuity in the lives of women and analyses the social differences, as well as the common ground shared between women of various classes.

**The Routledge Companion to European History Since 1763** - Chris Cook 2005

The Routledge Companion to European History since 1763 is a compact and highly accessible work of reference, with a fully comprehensive glossary, a biographical section, a thorough bibliography and informative maps.

**The German League for the Prevention of Women's Emancipation** - Diane J. Guido 2010  
"The German League for the Prevention of Women's Emancipation: Antifeminism in Germany, 1912-1920 presents a detailed account of the activities of the German League for the Prevention of Women's Emancipation from its beginnings in 1912 to its dissolution in 1920. It underscores the impact of this conservative, keenly nationalist, and increasingly anti-socialist, anti-Semitic and anti-Catholic organization as it targeted primarily the moderate bourgeois Federation of German Women's Associations and the conservative German-Evangelical Women's League. This book also documents motives for membership, the League's philosophy, and the political and social activism used by the League to achieve its aims. Based on a membership list reconstructed by the author, it offers a demographic analysis of League members and officers including an

evaluation of the League's geographic distribution and the extent of women's participation in it." --Book Jacket.

Growing Up Female in Nazi Germany - Dagmar Reese 2006-06-26

Growing Up Female in Nazi Germany explores the world of the Bund Deutscher Mädel (BDM), the female section within the Hitler Youth that included almost all German girls aged 10 to 14. The BDM is often enveloped in myths; German girls were brought up to be the compliant handmaidens of National Socialism, their mental horizon restricted to the "three Ks" of Kinder, Küche, Kirche (children, kitchen, and church). Dagmar Reese, however, depicts another picture of life in the BDM. She explores how and in what way the National Socialists were successful in linking up with the interests of contemporary girls and young women and providing them a social life of their own. The girls in the BDM found latitude for their own development while taking on responsibilities that integrated them within the folds of the National Socialist state. "At last available in English, this pioneering study provides fresh insights into the ways in which the Nazi regime changed young 'Aryan' women's lives through appeals to female self-esteem that were not obviously defined by Nazi ideology, but drove a wedge between parents and children. Thoughtful analysis of detailed interviews reveals the day-to-day functioning of the Third Reich in different social milieus and its impact on women's lives beyond 1945. A must-read for anyone interested in the gendered dynamics of Nazi modernity and the lack of sustained opposition to National Socialism." -- Uta Poiger, University of Washington "In this highly readable translation, Reese provocatively identifies Nazi girls league members' surprisingly positive memories and reveals significant implications for the functioning of Nazi society. Reaching across disciplines, this work is for experts and for the classroom alike." --Belinda Davis, Rutgers University Dagmar Reese is The Moses Mendelssohn Zentrum Potsdam researcher on the DFG-project "Georg Simmels Geschlechtertheorien im ‚fin de siecle‘ Berlin", 2004 William Templer is a widely published translator from German and Hebrew and is on the staff of Rajamangala University of Technology Srivijaya.

**Germany** - Joseph A. Biesinger 2006

A wealth of information is presented in this guide in a variety of formats, including a concise narrative history, a chronology and A to Z entries, to provide readers with a greater understanding of German history, from the Renaissance to the present day.

*German History in Modern Times* - William W. Hagen 2012-02-13

This history of German-speaking central Europe presents the different eras of German history as successive worlds of German life, thought and mentality.

**A History of Private Life** - Antoine Prost 1987 Library has Vol. 1-5.

The Routledge Companion to Modern European History since 1763 - Chris Cook 2004-11-10

The Routledge Companion to Modern European History since 1763 is a compact and highly accessible work of reference covering the broad sweep of events from the last days of the ancient regime to the ending of the Cold War, and from the reshaping of Eastern Europe to the radical expansion of the European Union in 2004.

Within the broad coverage of this outstanding volume, particular attention is given to subjects such as: the era of the Enlightened Despots the Revolutionary and Napoleonic era in France, and the revolutions of 1848 nationalism and imperialism, and the retreat from Empire the First World War, the rise of the European dictators, the coming of the Second World War, the Holocaust, and the post-war development of Europe the Cold War, the Soviet Union and its break up the protest and upheavals of the 1960s, as well as social issues such as the rise of the welfare state, and the changing place of women in society throughout the period. With a fully comprehensive glossary, a biographical section, a thorough bibliography and informative maps, this volume is the indispensable companion for all those who study modern European history.

*In Their Time* - Marlene LeGates 2001

First Published in 2001. Routledge is an imprint of Taylor & Francis, an informa company.

*Women in German Yearbook* - Women in German Yearbook 1997-02-01

Volume 12 of Women in German Yearbook opens with a cluster of cross-disciplinary articles. Sara Lennox explores pertinent theoretical issues and introduces articles by historian Atina Grossman,

sociologist Myra Marx Ferree, and political theorist Joan Cocks. Three subsequent articles focus on the nineteenth century: Todd Kontje challenges the notion that the Wars of Liberation renewed conservatism regarding gender, Irmela Marei Kruger-Frhooff presents a new reading of the father-daughter relationship in Kleist's *Marquise of O...*, and Helen G. Morris-Keitel describes the 'cultural work' of Louise Otto's *Castle and Factory*. Barbara Hales analyzes the criminal femme fatale as evidence of Weimar Germany's deep-seated discomfort with modernity; Kathrin Bower discusses poems by Nelly Sachs and Rose Ausländer as searches for the (M)other; Charlotte Melin analyzes gender differences in reworkings of the Alice in Wonderland motif; Helgard Mahrtdt explores connections between Ingeborg Bachmann's prose and the cultural criticism of the Frankfurt School; and Frederick A. Lubich interviews the writer Elisabeth Alexander. Two articles focus on cultural differences: Karen Jankowsky reads *The Facade* by Libuse Monokova, a Czech author writing in German, and Leslie Adelson discusses Eva Demski's *Afra* in terms of Afro-German discourse. The volume closes with the editors' views on the yearbook's role in creating an 'American Germanics.'

### **The Dada Cyborg** - Matthew Biro 2009

In an era when technology, biology & culture are becoming ever more closely connected, 'The Dada Cyborg' explains how the cyborg as we know it today developed between 1918 & 1933 as German artists gave visual form to their utopian hopes & fantasies in a fearful response to World War I.

### *The Oxford Handbook of Modern German History* - Helmut Walser Smith 2011-09-29

This is the first comprehensive, multi-author survey of German history that features cutting-edge syntheses of major topics by an international team of leading scholars. Emphasizing demographic, economic, and political history, this Handbook places German history in a denser transnational context than any other general history of Germany. It underscores the centrality of war to the unfolding of German history, and shows how it dramatically affected the development of German nationalism and the structure of German politics. It also reaches out to scholars

and students beyond the field of history with detailed and cutting-edge chapters on religious history and on literary history, as well as to contemporary observers, with reflections on Germany and the European Union, and on 'multi-cultural Germany.' Covering the period from around 1760 to the present, this Handbook represents a remarkable achievement of synthesis based on current scholarship. It constitutes the starting point for anyone trying to understand the complexities of German history as well as the state of scholarly reflection on Germany's dramatic, often destructive, integration into the community of modern nations. As it brings this story to the present, it also places the current post-unification Federal Republic of Germany into a multifaceted historical context. It will be an indispensable resource for scholars, students, and anyone interested in modern Germany.

### A History of Private Life: Riddles of identity in modern times - Philippe Ariès 1987

Library has Vol. 1-5.

### **A History of Women's Writing in Germany, Austria and Switzerland** - Jo Catling

2000-03-23

This volume makes the wide-ranging work of German women writers visible to a wider audience. It is the first work in English to provide a chronological introduction to and overview of women's writing in German-speaking countries from the Middle Ages to the present day. Extensive guides to further reading and a bibliographical guide to the work of more than 400 women writers form an integral part of the volume, which will be indispensable for students and scholars of German literature, and all those interested in women's and gender studies.

### The European Women's History Reader - Fiona Montgomery 2002

The European Women's History Reader is a fascinating collection of seminal articles and extracts, exploring the social, economic, religious and political history of women across Europe since the late eighteenth century. This ambitious volume is arranged into four chronological sections all with their own introductions, which provide context for the chapters that follow. The collection also includes a useful general introduction, which makes the

articles accessible to students and helps to define this increasingly important area of study.

Woman Suffrage and Women's Rights - Ellen Carol DuBois 1998-07

Collects 14 articles on women's suffrage. DuBois (history, U. of California in Los Angeles) traces the trajectory of the suffrage story against the backdrop of changing attitudes to politics, citizenship, and gender, and the resultant tensions over such issues as slavery and abolitionism, sexuality and religion, and class conflict. Annotation copyrighted by Book News, Inc., Portland, OR

**Gendering Modern German History** - Karen Hagemann 2008-08

To provide a critical overview in a comparative German-American perspective is the main aim of this volume, which brings together experts from both sides of the Atlantic. Through case studies, it demonstrates the extraordinary power of the gender perspective to challenge existing interpretations and rewrite mainstream arguments.

A History of European Women's Work - Deborah Simonton 2002-09-11

The work patterns of European women from 1700 onwards fluctuate in relation to ideological, demographic, economic and familial changes. In *A History of European Women's Work*, Deborah Simonton draws together recent research and methodological developments to take an overview of trends in women's work across

Europe from the so-called pre-industrial period to the present. Taking the role of gender and class in defining women's labour as a central theme, Deborah Simonton compares and contrasts the pace of change between European countries, distinguishing between Europe-wide issues and local developments.

*After The History of Sexuality* - Scott Spector 2012-07-30

Michel Foucault's seminal *The History of Sexuality* (1976-1984) has since its publication provided a context for the emergence of critical historical studies of sexuality. This collection reassesses the state of the historiography on sexuality—a field in which the German case has been traditionally central. In many diverse ways, the Foucauldian intervention has governed the formation of questions in the field as well as the assumptions about how some of these questions should be answered. It can be argued, however, that some of these revolutionary insights have ossified into dogmas or truisms within the field. Yet, as these contributions meticulously reveal, those very truisms, when revisited with a fresh eye, can lead to new, unexpected insights into the history of sexuality, necessitating a return to and reinterpretation of Foucault's richly complex work. This volume will be necessary reading for students of historical sexuality as well as for those readers in German history and German studies generally who have an interest in the history of sexuality.
