Though some of the rules of good manners change, others remain constant. This book is about the constants: the least you need to know to make a good first impression. **Sexual Body Language!** - Nei Loja 2013-11

SOME EXPLANATIONS Speaking for yourself, when you see a person that attracts you do not feel the same hour, an imbalance? Minimal increase in your heart rate? It's because your sex hormones trigger, causing, among other things, a blast of your adrenaline, forcing a physical drive ... Then you change position, walks differently, breathe differently, looks different, does "everything" different, revealing that "an arrow hit your heart," or even just your sex... your libido... If the target person notice your changes and understand, will also be unbalanced, because it is not one of those things that we can fully control either like it or not. And if we like, of course we will send positive signals, if not, how the other person will know? Important to know is that this is not "dirty" as some absurdly tags, but only a flow of nature to which we belong, and we can surely say that these are the things that make our lives more joyful and fun, because falling in love, falls in love, feel great emotion for a person, especially being matched, is the source of beautiful dreams, new issues, many poems and songs, in short, a great well-being

... Actually falls in love releases large amounts of serotonin, a delightful humor of our own brain, and even more, another mood, a kind of natural amphetamine spreads in our body, taking our sleep, our appetites, our thoughts and focusing on the desired person. Is not true? We stayed very "electric" in the most positive sense, and now you will understand why, after a certain time, "passion goes." But not entirely. Occurs when a couple finally corresponds loving and sexually, the natural amphetamine decreases, returning everything to balance. After all the bodies are already filled, which is very good, because amphetamine in excess and for long periods can even cause a heart attack. What remains is what everyone says looking ... peace and tranquility in the relationship, because real happiness needs peace and tranquility in all areas of life. Anyway, I hope this book will be very useful for all, especially for the more timid, beginners and distracted, and yet for ALL THOSE WHO LOSE MANY OPPORTUNITIES. If it is not so easy, is really entirely possible, because love is important for a life full of happiness, and the romance begins by best realizing the physical manifestations of "that" person who might come to be, one day, your "soul mate . " Good luck and I hope for you, from now, will be much easier! Nei Loja psychologist [www.neiloja.com.br](http://www.neiloja.com.br)

**Cues** - Vanessa Van Edwards 2022-03-03

It's not enough to have great ideas. You also need to know how to communicate them. What makes someone charismatic? Why do some people captivate a room, while others have trouble managing a small meeting? What makes some ideas spread, while other good ones fall by the wayside? Cues - the tiny signals we send to others 24/7 through our body language, facial expressions, word choices and vocal inflection - have a massive impact on how we, and our ideas, come across. Our cues can either enhance our message or undermine it. In this entertaining and accessible guide to the hidden language of cues, Vanessa Van Edwards teaches you how to convey power, trust, leadership, likability and charisma in every interaction. You'll learn: - Which vocal cues make you sound more confident - Which body language cues assert, 'I'm a leader, and here's why you should join me' - Which verbal cues to use in pitches, branding and emails to increase trust (and generate excitement about interacting with you) - Which visual cues you are sending in your profile pictures, clothing and professional brand Whether you're pitching an investment, negotiating a job offer or having a tough conversation with a colleague, Cues can help you improve your relationships, express empathy and create meaningful connections with lasting impact. 'A must-have guide to becoming an unstoppable force' - Mel Robbins 'Packed with invaluable strategies for maximizing your message, Van Edward's energy will inspire you to become the best possible version of yourself' - Nir Eyal

**How To Analyze People. Body Language.** - Edward Collins

Imagine being able to know what the people you interact with are thinking without them having to tell you, knowing if they are lying to you, understanding their true intentions, if someone likes you or not, if they have a positive or negative opinion of you, and even anticipating what someone is about to do. As incredible as it may seem, these and many other things can be achieved if you know how to read and interpret people's non-verbal language. This is possible. With the right knowledge, you can begin to develop this ability, especially due to the difficulty of simulating and having complete control over body language, such as gestures, postures, and actions that we make with our bodies. The practical benefits of knowing how to read non-verbal language are enormous. Not only does it allow you to deduce people's thoughts, feelings, intentions, and attitudes, but it also helps you to be more aware of your own use of non-verbal language and thus be able to optimize it to become a more effective communicator, more confident, and even use it to your advantage. Normally, we don't pay attention to what our bodies reflect, and for that same reason, we don't have the ability to read others. I invite you to explore this powerful idea and to recognize the huge potential that this knowledge can bring to your life.
