Women and the Second World War in France, 1939-1948 Hanna Diamond 2015-10-23 This is the first book (in either English or French) to offer readers an overview of women's experience of the Second World War and its immediate aftermath in France. It examines objectively the part that women played in both collaboration and resistance, synthesising much recent scholarship on the subject in French and English, and drawing on the author's own extensive research (including oral testimony) in Toulouse, Paris, and West Brittany. The findings are complex, and the immensely varied testimony challenges easy generalisation. This will be relevant for courses on French studies, French and European history and Women's studies.

Real Knockouts Martha McCaughey 1997-07 Unprecedented numbers of American women are today learning how to knock out, maim, even kill men who assault them. From behind the scenes of gun ranges, martial arts dojos, fitness centers offering "Cardio Combat," and in padded attacker courses like "Model Mugging," Real Knockouts demonstrates how self-defense trains women out of the femininity that makes them easy targets for men's abuse. And yet much feminist thought, like the broader American culture, seems deeply ambivalent about women's embrace of violence, even in self-defense. Investigating the connection between feminist theory and a woman's balled fist, McCaughey found self-defense culture to embody, literally, a new kind of feminism, one that will change forever the way we think of gender politics, the female body, and feminism itself.

[Animals and Women](#) Carol J. Adams 1995-11-14 *Animals and Women* is a collection of pioneering essays that explores the theoretical connections between feminism and animal defense. Offering a feminist perspective on the status of animals, this unique volume argues persuasively that both the social construction and oppressions of women are inextricably connected to the ways in which we comprehend and abuse other species. Furthermore, it demonstrates that such a focus does not distract from the struggle for women's rights, but rather contributes to it. This wide-ranging multidisciplinary anthology presents original material from scholars in a variety of fields, as well as a rare, early article by Virginia Woolf. Exploring the leading edge of the species/gender boundary, it addresses such issues as the relationship between abortion rights and animal rights, the connection between woman-battering and animal abuse, and the speciesist basis for much sexist language. Also considered are the ways in which animals have been regarded by science, literature, and the environmentalist movement. A striking meditation on women and wolves is presented, as is an examination of sexual harassment and the taxonomy of hunters and hunting. Finally, this compelling collection suggests that the subordination and degradation of women is a prototype for other forms of abuse, and that to deny this connection is to participate in the continued mistreatment of animals and women.

Born in the USA Marsden Wagner 2008-05-21 *Born in the USA* examines issues including midwifery and the safety of out-of-hospital birth, how the process of becoming a doctor can adversely affect both practitioners and their patients, and why there has been a rise in the use of risky but doctor-friendly interventions, including the use of Cytotec, a drug that has not been approved by the FDA for pregnant women. Most importantly, this investigation, supported by many troubling personal stories, explores how women can reclaim the childbirth experience for the betterment of themselves and their children."--Jacket.

[The Ideal Righteous Woman](#) Ibn Kathir 2019-10-04 This is an incredibly sane book, which can help a woman (who is truly female), keep her head on straight and not get lost in a very dangerous game where she only stands to lose. Satan will try to convince women that they have the right to challenge the boundaries of their existence. This book more than anything can help a woman become a decent, loving, compassionate and honest wife. This is an excellent book to not only have as a reference book, but to read many times. The book covers everything from the relationship to Allah (God) to Marriage and family. One of the most important features of a good woman, is her deep faith in God (Allah) (SWT), and her sincere conviction that whatever happens in this life, and whatever fate befalls her, only happens through the will and decree of God; whatever befalls a person would have been impossible to avoid, and whatever does not happen could not have been made to happen.

Looking through the Speculum Judith A. Houck 2024-01-19 Highlights local history to tell a national story about the evolution of the women's health movement, illuminating the struggles and successes of bringing feminist dreams into clinical spaces. The women's health movement in the United States, beginning in 1969 and taking hold in the 1970s, was a broad-based movement seeking to increase women's bodily knowledge, reproductive control, and well-being. It was a political movement that insisted that bodily autonomy provided the key to women's liberation. It was also an institution-building movement that sought to transform women's relationships with medicine; it was dedicated to increasing women's access to affordable health care without the barriers of homophobia, racism, and sexism. But the movement did not only focus on women's bodies. It also encouraged activists to reimagine their relationships with one another, to develop their relationships in the name of personal and political change, and, eventually, to discover and confront the limitations of the bonds of womanhood. This book examines historically the emergence, development, travails, and triumphs of the women's health movement in the United States. By bringing medical history and the history of women's bodies into our emerging understandings of second-wave feminism, the author sheds light on the understudied efforts to shape health care and reproductive control beyond the hospital and the doctor's

office—in the home, the women’s center, the church basement, the bookshop, and the clinic. Lesbians, straight women, and women of color all play crucial roles in this history. At its center are the politics, institutions, and relationships created by and within the women’s health movement, depicted primarily from the perspective of the activists who shaped its priorities, fought its battles, and grappled with its shortcomings.

SUMMARY - Regretting Motherhood: A Study By Orna Donath Shortcut Edition 2021-06-26 * Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. As you read this summary, you will discover that some women regret having become mothers. You will also discover : the suffering that the experience of motherhood can cause; the injunctions of society which considers regret as an inconceivable feeling; the difference between consent and willingness to give birth; the existence of maternal love despite the regret of being a mother; the interest of changing the perception of motherhood. Since motherhood is in the natural order of things, it is unthinkable that women regret having become mothers. Yet this feeling exists and provokes terrible reactions, first of all in women themselves, but also in their family environment and in society. The latter considers that women who refuse to become mothers represent a social danger. She therefore does not hesitate to use promising arguments or threats to convince women to give birth. The regret of being a mother, a very controversial feeling, deserves to be taken into account and further studied in order to change mentalities. This is what Younes Rharbaoui did in this survey. Are you ready to lift the veil on this troubling feeling? *Buy now the summary of this book for the modest price of a cup of coffee!

My Life As A Woman Matthew Gates 2020-09-06 The My Life As A Woman Project Initiative travels around the globe to explore the resilience, strength, and true power of women throughout the world. Having every woman's voice heard or read in some way is important because it is women who continue to remind us of our humanity, to love our mothers, our sisters, our daughters, and ourselves. From women all over the world, these are the stories from women, by women, for women, to men and women, about their lives and messages to all the women in the world. Born out of an idea during the COVID-19 quarantine, this project seeks to understand the challenges and successes of women in their everyday lives. The book provides a glimpse into the lives of women from different backgrounds to understand what women around the world have been through, what they are going through, how they overcame their struggles and challenges, to enter into a world where they finally feel successful and comfortable in their own skin. The book explores various countries such as North Korea, Syria, Lebanon, Libya, Iraq, Iran, Pakistan, Saudi Arabia, Israel, Palestine, China, Brazil, Mexico, South Africa, Ethiopia, the United States, and many more. Where we could find women who were willing to share their story, we wanted their voice to be heard, their story to be read, and many women, who do not enjoy the privileges of free speech came forward to share their stories. Under the circumstances and a very unique situation, during the COVID-19 quarantine and lockdown, I realized almost every woman on the planet was at home. This was the perfect time to do this and probably the only time it would ever really be possible for me and them to reply so fast. Asking random women around the world to open up about their lives was very nerve-wracking for me, but I had contacted Valerie first, whom I had worked with before, and I explained the project idea to her, not even sure if she understood what I was asking of her. I had no idea where this project could go, and I just told her to write what was in her heart, and once I received the article from her, it would be Valerie, an African woman from Nigeria, that would lead the way for the potential of this project. "A Nigerian woman is like a rose growing out of concrete. We are strong, resilient, hardworking, kind, resourceful, fashionable amongst many other things." - Valerie on Nigerian Women As soon I saw this passage, I knew what this project would be, and I provided the guidelines for how the women should write, although they were given the complete creative freedom to write as their story however they pleased, as long as they shared a glimpse into their lives. And soon, so many other women began to back the project once I told them about it and they were the ones who have made this all completely possible. Due to the nature of the subject, this project did not involve any women that I knew personally. To get the voices of these women, I never physically left my home, but I spoke to many of them first-hand through the Internet to earn their trust and share the reasons why this project initiative needed to happen and why it was important for the world, especially in 2020, to understand why women, now more than ever, can no longer remain silent in a world full of corruption, greed, suffering, hunger, and pain, as many of these women have witnessed firsthand and are still observing on a daily basis. It was not easy to convince every woman that she should be a part of this project. Many women were skeptical, and of course, women have every reason to be for the way the world has treated them. Fortunately, I do try to do more good than evil in this world, and they understood what I was trying to do. The message from women is clear: Women are Resilient. Women Are Strong. Women Are Powerful.

Modernizing Patriarchy Katja Zvan Elliott 2015-09-01 Morocco is hailed by academics, international NGO workers, and the media as a trailblazer in women's rights and legal reforms. The country is considered a model for other countries in the Middle East and North African region, but has Morocco made as much progress as experts and government officials claim? In *Modernizing Patriarchy*, Katja Žvan Elliott examines why women's rights advances are lauded in Morocco in theory but are often not recognized in reality, despite the efforts of both Islamist and secular feminists. In Morocco, female literacy rates remain among the lowest in the region; many women are victims of gender-based violence despite legal reforms; and girls as young as twelve are still engaged to adult men, despite numerous reforms. Based on extensive ethnographic research and fieldwork in Oued al-Ouliya, *Modernizing Patriarchy* offers a window into the life of Moroccan Muslim women who, though often young and educated, find it difficult to lead a dignified life in a country where they are expected to have only one destiny: that of wife and mother. Žvan Elliott exposes their struggles with modernity and the legal reforms that are supposedly ameliorating their lives. In a balanced approach, she also presents male voices and their reasons for criticizing the prevailing women's rights discourse. Compelling and insightful, *Modernizing Patriarchy* exposes the rarely talked about reality of Morocco's approach toward reform.

Private Sex Advice to Women R. B. Armitage 2015-12-30 Excerpt from the Forward: "In this book the writer thereof seeks to convey to women-particularly to young wives and women expecting to be married-certain important facts of knowledge, certain necessary information, which all such women should possess, but which few are given the opportunity to acquire. It would seem to require no argument to convince a rational individual that before a woman is capable of intelligent motherhood she should be made acquainted with the physiological processes which are involved in the sexual functions leading to the state of motherhood; but we are confronted by the fact that few young women are given such instruction."

You're Not My Wife Brian C Dilosa, Sr 2020-07-06 I'm pretty sure you have heard the phrase, "the greatest trick the Devil ever pulled was convincing the world that he doesn't exist." For many men dating is a ploy they abuse in order to convince women to trust and fall in love with their false personalities or what I call their aliases. These men create aliases to make women believe that they are receiving a genuine man. They are actually receiving the morphed version of who he really is. Well women today is your lucky day because my self help book will walk you through identifying 12 of the most common aliases men use to steal your heart, seduce you into giving yourself over to them sexually, and even con you into believing their false personalities are marriage material. A man creates an alias personality to get a woman to trust him and eventually give herself to him. What women do not know is that for a man faithfulness is reserved for his wife. As a girlfriend you will never get the faithful him because, "You're Not His Wife." A man believes a woman that is not his wife is just a date. Whether long term or short term a date is not his spouse. Dating in today's world is so difficult because so many men are dating to deceive women for selfish gain but not willing to become espoused to anyone. For the longest time women have been trying to figure out if the guy they are dating is really into them or just deceiving them. Little progress has been made and women continue to struggle and fail in dating because they just can't get a clear grasp on identifying men that are genuine from those that are fake. In today's society the principles God has set forth may not fit the current dating trends; however, they are the desire of every woman's heart. This book will put women on a purposeful path of dating to be married. It will give women a step by step breakdown of the tactics men use to present themselves as the man of your dreams and help you learn counter actions to these deceitful aliases. This insight will protect women from investing precious time in another failed relationship. Women will be equipped to immediately spot the aliases men use to deceive them, dismantle their deceptive tactics, and preserve their own heart, integrity and time. This book will put women at the helm of the dating scene and positioned to find the man of their dreams.
