**SinEaster (Twisted Holiday Specials)** - Lotus Rose 2013-02-25

Like a naughty Easter version of *The Nightmare Before Christmas* mixed with *Charlie and the Chocolate Factory*. . . Don't let her habit of constantly wearing bunny ears fool you. Charlee hates Easter. And she has good reason to. So, on the day before her 18th birthday, she wasn't expecting to meet the Easter Bunny, a person-sized gummi egg, and a large toad. But that's what happens when she and two other teenagers are transported to Easter Land. Charlee ponders the teenage girl made out of gummi with huge boobs, and the teenage boy in a wheelchair with an overdeveloped upper body. A black-clad princess informs them that they must compete to decide which of the three creatures will be the future egg deliverer. But a mysterious man tied to a dark holiday known as SinEaster is also aware of the teens' arrival. Some say that in the days of prophesy, SinEaster will destroy Easter. Will Easter go on as usual, or will it be cancelled this year? By the author of *Malice in Wonderland* and *Merry XXXmas*, Charlee Frown. Twisted Holiday Specials SinEaster Merry XXXmas, Charlee Frown BlackHearts Day

**Introvert** - Falko 2008-11-14

"Introvert - 'a thorned reality' has been set using the idea of a night at the theatre. The programme follows the first act, the interval and the second act design. The First Act starts with a prologue, spurring the 'actor' on as an artist's muse. The poems play out like the action on a stage, a love story unfolds, and a song for freedom is heard. An interval from intensity - we see monologues in the foyer 'Playing Up', these exist as a distraction of nonsense and frivolity. The second act recommences with a salute of energy. This is the dramatic fragment climaxes with the story 'You should have used the bolt'. The end

brings a new beginning where the final curtain call is sung. As we leave 'the theatre', the epilogue echoes in our mind... a prayer to survive 'Lead me through the Baobab'. It is fitting for me to use this medium to tell my story."

**Passionate Devotion: Master Fudd's Beloved Wife** - Oeste de la Luna

She accepted a humiliating request to save her family business. Her father had tragically died after her pregnancy, and her fiance conspired with her stepsister to chase her out from the Mont family. Returning three years later, she had no choice but to provoke the arrogant man to reclaim her late father's villa. However, she was cornered by the man. Trembling, she said, "Mr Fudd, I didn't mean to offend you..." He pondered for a moment and said, "It's too late, I need compensation." Why was he gradually turning the fake marriage into reality? She blushed but he did not care. Amused, he frowned and stared at her. "You have children, what's the point of being so reserved?" With wide eyes, the cute munchkin standing next to her held her hand and said, "Mummy, I want a little brother!"

Taste - Barb Stuckey 2013-03-26

"Foodies rejoice! Malcolm Gladwell's favorite food inventor offers a guide to the senses with advice on how to develop your palate and better enjoy the pleasures of eating. Featured by Malcolm Gladwell in a New Yorker magazine article about the quest to develop the perfect cookie, Barb Stuckey is the food developer that famed foodies--such as Michael Pollan--turn to when they need to understand the psychology and physiology of taste. In *Taste What You're Missing*, Stuckey shares her professional knowledge in an engaging style that's one part Mary Roach, two parts Oliver Sacks, and a dash of Anthony Bourdain for spice. *Taste What You're Missing* serves up stories: seared, sauced, and garnished with humor and insight into our complicated experiences with food. First explaining the building blocks of taste perception on a physical level, Stuckey walks readers through the five basic tastes: sweet, sour, bitter, salt, and umami. She explains the critical importance of smell and how the other senses--touch, hearing, and sight--come into play when we enthusiastically dive into a plate of food. She provides eye-opening and delicious anecdotes and exercises that readers can perform to learn, for example, their unique "taster type," or the subtle differences between sour, bitter, tannic, and astringent. Armed with this new knowledge, readers can improve their ability to discern flavors, detect ingredients, and devise new taste combinations in their own kitchens. Keeping in mind that the only thing foodies like better than eating food is talking about food, *Taste What You're Missing* gives such curious eaters, Food Network watchers, kitchen tinkerers, and armchair Top Chefs

understanding and language that will impress their friends and families with insider knowledge about everything they eat"--
