Why We Love Helen Fisher 2005-01-02 A groundbreaking exploration of our most complex and mysterious emotion Elation, mood swings, sleeplessness, and obsession—these are the tell-tale signs of someone in the throes of romantic passion. In this revealing new book, renowned

anthropologist Helen Fisher explains why this experience—which cuts across time, geography, and gender—is a force as powerful as the need for food or sleep. *Why We Love* begins by presenting the results of a scientific study in which Fisher scanned the brains of people who had just fallen madly in love. She proves, at last, what researchers had only suspected: when you fall in love, primordial areas of the brain "light up" with increased blood flow, creating romantic passion. Fisher uses this new research to show exactly what you experience when you fall in love, why you choose one person rather than another, and how romantic love affects your sex drive and your feelings of attachment to a partner. She argues that all animals feel romantic attraction, that love at first sight comes out of nature, and that human romance evolved for crucial reasons of survival. Lastly, she offers concrete suggestions on how to control this ancient passion, and she optimistically explores the future of romantic love in our chaotic modern world. Provocative, enlightening, and persuasive, *Why We Love* offers radical new answers to the age-old question of what love is and thus provides invaluable new insights into keeping love alive.

All I Want Is Loving You Steve Bergsman 2023-10-30 In *All I Want Is Loving You: Popular Female Singers of the 1950s*, author Steve Bergsman focuses on the white, female artists of the 1950s, a time that predated the chart-topping girl groups of the early 1960s. These popular performers, many of whom graduated out of the big bands of the 1940s, impacted popular music in a huge way. As the last bastion of traditional pop and the last sirens of swing, they undeniably shined in the spotlight. Yet these singers' fame dimmed relatively quickly with the advent of rock 'n' roll. A fortunate few, like Doris Day, Patti Page, Peggy Lee, and Debbie Reynolds, experienced some of their biggest hits in the late 1950s, and Eydie Gormé broke out in the 1960s. The luckiest, including Dinah Shore and Rosemary Clooney, ventured to television with varying degrees of success. Others would become major attractions at nightclubs in Las Vegas or, like Teresa Brewer, shift into the jazz world. Though the moment did not last, these performers were best-selling singers, darlings of the disk jockeys, and the frenetic heartbeat of fan clubs during their heyday. In a companion volume, Bergsman has written the history of African American women singers of the same era. These Black musicians transitioned more easily as a new form of music, rock 'n' roll, skyrocketed in popularity. In both books, Bergsman reintroduces readers to these talented singers, offering a thorough look at their work and turning up the volume on their legacy.
