Illicit Monogamy - William R. Jankowiak 2023-03-28

Angel Park is a Mormon fundamentalist polygamous community where plural marriages between one man and multiple women are common. In contrast to mainstream America's idealization of the nuclear family and romantic love, its residents esteem notions of harmonious familial love, a spiritual bond that unites all family members. In their view, polygyny is not only righteous and sanctified—it is also conducive to communal life and social stability. Based on many years of in-depth ethnographic research in Angel Park, this book explores daily life in a polygamous

community. William R. Jankowiak considers the plural family from the points of view of husbands, wives, and children, giving a balanced account of its complications and conflicts. He finds that people in polygynous marriages, especially cowives, experience an ongoing struggle to balance the longing for romantic intimacy with the obligation to support the larger family. They feel tension between deeply held religious convictions and the desire for emotional exclusivity, which can threaten the stability and harmony of the polygamous family. Men and women often form exclusive romantic pairs within plural marriages,

which are tolerated if not openly acknowledged, showing the limits of the community's beliefs. Jankowiak also challenges stereotypes of polygamous families as bastions of patriarchal power, showing the weight that interpersonal and social expectations place on men. Offering an unparalleled look at the complexity of a polygamous religious community, *Illicit Monogamy* also helps us reconsider relationships, love, and family dynamics across cultures and settings.

Prisoners of War and Local Women in Europe and the United States, 1914-1956 - Matthias Reiss 2022-04-19

This book brings together historians from Great Britain, the United States, Germany, France, Canada, Austria, and Latvia who have worked and published on fraternisation between Prisoners of War and local women during either the First or Second World War, providing the first comparative study of this multi-faceted phenomenon in different belligerent countries. By focusing on prisoners as wartime migrants and studying the nature and impact of their interactions with the local female population, this book expands the existing framework on prisoner of war studies. Its substantial scope and comparative approach make it an important point of reference in the growing research field of POW studies.

Schooling and Difference in Africa - George Jerry Sefa Dei 2006-01-01

Since the 1950s when most African countries gained political independence, schooling has presented very difficult challenges. In the discussion of these challenges, however, the issue of diversity has received relatively little attention. *Schooling and Difference in Africa* aims to understand how differences such as ethnicity, class, gender, language, religion, and disability play out in African schools systems, and more specifically in Ghana. Together, George J. Sefa Dei, Alireza Asgharzadeh, Sharon Eblaghie Bahador, and Riyad Ahmed Shahjahan promote 'educational inclusion' in the context of African schooling. The aspects of diversity explored in this study include: minority / majority

relations, race, ethnicity, gender, language, class, religion, and physical (dis)ability. The authors build their analyses of these issues around a series of interviews, which project a perspective that policy makers and administrators rarely seek out. By studying the challenges of inclusive education in Ghana and, further, by making comparisons with the Canadian context, this volume seeks to shed light on the ongoing struggle for an empowering school system in Africa and elsewhere.

The Subversion of Romance in the Novels of Barbara Pym - Ellen M. Tsagaris 1998

Points out how British novelist Pym (1913-80) parodied the conventions of romance novels by deflating characters, hyperbole, and exaggeration, or emphasizing meticulously the mundane elements of everyday life. Shows how she used food, clothes, heroin and hero characterizations, and marriage customs to portray her characters,' and perhaps her own, skepticism about the whole business. [How to Cheat](#) - T. J. Conway 2020-01-02

I would have never imagined myself as a cheater. None of my friends would either and neither would you. I'm the lady who sits in the office next to you. Sees you at the committee meeting and helped with our kid's team. You know me so well I'm invisible. When you're a cheater, being invisible is the ideal and that's the way I wanted to keep it. Before I sent my first message I had researched everything I could. I couldn't afford to make a mistake. I had too much invested in my marriage, life and family to lose. I suppose we are all like this in a way, but I couldn't accept risk. As I read I kept notes as I wondered if I could do it. It didn't take long to find my first affair partner on Ashley Maddison and from there, things took off. As I gained experience, my notes evolved into this guide. I passed it around to fellow cheaters seeking their feedback. I spoke with many wonderful ladies whose collective experience, wisdom, and knowledge was distilled on here. Now offer it to you. If you are thinking about cheating, have a look at the guide and decide if it's for you. If it is, this guide will help keep you get what you want while maintaining your primary relationship. Thank you, Teresa

Power in Verse - Jane Hedley 2010-11

English lyric poetry from Wyatt to Donne falls into three consecutive stylistic phases. Tottel's Miscellany presided over the first, making the lyrics of Wyatt and Surrey available for imitation by mid-century poets like Barnabe Googe, George Turberville, and George Gascoigne. The Shepherdes Calender and Sidney's Defense of Poesy ushered in the second, the Elizabethan or "Golden" phase of the 1580s and 1590s. In the third phase Donne and Jonson, reacting against the stylistic orientation of the Elizabethan poets, reconceived the status of "poesy" and resituated the lyric for a post-Elizabethan audience. Chapter 7 is shared between Donne and Jonson, post-Elizabethan writers who used metonymy to subvert the metaphoric stance of Elizabethan poetry. In a Postscript Hedley takes on the "metaphysical conceit" for a final demonstration of the explanatory power of Jakobson's theory of

language. Professor Hedley uses the semiotic theory of Roman Jakobson to create stylistic profiles for each of these three phases of early Renaissance poetry. Along with the poetry itself she reexamines contemporary treatises, &"defenses,&" and &"notes of instruction&" to highlight key features of poetic practice. She proposes that early and mid-Tudor poetry is &"metonymic,&" that the collective orientation of the Elizabethan poets is &"metaphoric,&" and that Donne and Jonson bring metonymy to the fore once again. Chapter 1 sets out the essentials of Jakobson's theory. Hedley uses particular poems to show what is involved in claiming that a writer or a piece of writing has metaphoric or a metonymic basis. Chapter 2 explains how the metaphoric bias of Elizabethan poetry was produced, as &"poesy&" became part of England's national identity. This chapter broadens out beyond the lyric to include other modes of writing whose emergence belongs to an Elizabethan &"moment&" in the history of English literature. Beyond chapter 2, each chapter has a double purpose: to create stylistic profile for a single poetic generation and to highlight a particular aspect or feature of the poetry as an index of difference from one generation to the next. In the third chapter Hedley shows how Wyatt and Surrey used deixis metonymically to give their poems particular occasions. Chapter 4 explains how the metonymic bias of the mid-Tudor poets affected their use of metaphor, and highlights Gascoigne's appreciation of a metaphor as a social gambit or an instrument of moral suasion. Chapters 5 and 6 are centered in the Elizabethan period, but with perspectives into earlier and subsequent phases of metonymic writing. In chapter 5, a comprehensive discussion of the sonnet and the sonnet sequence shows how metaphoric writing cooperates with the &"poetic function&" of language. Chapter 6 deals with love poetry, as a social/political activity whose orientation differs radically from one generation of English Petrarchists to the next.

Geographies of New Femininities - Nina Laurie 2014-06-03

Geographies of New Femininities examines the emergence of contemporary constructions of femininity in a global context. It asks whether these femininities are new and suggests that current

celebrations of diversity in the lived experience and performance of women's identities are largely Euro-centric. Through four in-depth case studies *Geographies of New Femininities* illustrates how constructions of femininities across the world reflect gender inequalities embedded within global/local geographies of social and economic change. The analysis brings together key themes in geography and feminist studies, showing how globalisation and the fracturing of identities are influencing research on gender. Throughout the book the authors explore spaces of opportunity and oppression for women and highlight the geographies associated with the negotiation of gender identities. *Geographies of New Femininities* moves between empirical and theoretical debate using first hand accounts to work through methodological issues relating to gender and geography. It is deliberately written in an accessible style to encourage students to engage with up-to-date research on gender.

Watching Rape - Sarah Projansky 2001-08

Looking at popular culture from 1980 to the present, feminism appears to be "over": that is, according to popular critics we are in an era of "postfeminism" in which feminism has supposedly already achieved equality for women. Not so, says Sarah Projansky. In *Watching Rape*, Projansky undermines this complacent view in her fascinating and thorough analysis of depictions of rape in U.S. film, television, and independent video. Through a cultural studies analysis of such films as *Thelma and Louise*, *Daughters of the Dust*, and *She's Gotta Have It*, and television shows like *ER*, *Ally McBeal*, *Beverly Hills 90210*, and various made-for-tv movies, Projansky challenges us to see popular culture as a part of our everyday lives and practices, and to view that culture critically. How have media defined rape and feminism differently over time? How do popular narratives about rape also communicate ideas about gender, race, class, nationality, and sexuality? And, what is the future of feminist politics, theory, and criticism with regard to issues of sexual violence, postfeminism, and popular media? The first study to address the relationship between rape and postfeminism, and one of the most detailed and thorough analyses of rape in 25 years, *Watching Rape* is a crucial contribution to contemporary feminism.

Osage Dictionary - Carolyn Quintero 2014-10-22

Osage, a language of the Dhegiha branch of the Siouan family, was spoken until recently by tribal members in northeastern Oklahoma. No longer in daily use, it was in danger of extinction. Carolyn Quintero, a linguist raised in Osage County, worked with the last few fluent speakers of the language to preserve the sounds and textures of their complex speech. Compiled after painstaking work with these tribal elders, her *Osage Dictionary* is the definitive lexicon for that tongue, enhanced with thousands of phrases and sentences that illustrate fine points of usage. Drawing on a collaboration with the late Robert Bristow, an amateur linguist who had compiled copious notes toward an Osage dictionary, Quintero interviewed more than a dozen Osage speakers to explore crucial aspects of their language. She has also integrated into the dictionary explications of relevant material from Francis La Flesche's 1932 dictionary of Osage and from James Owen Dorsey's nineteenth-century research. The dictionary includes over three thousand main entries, each of which gives full grammatical information and notes variant pronunciations. The entries also provide English translations of copious examples of usage. The book's introductory sections provide a description of syntax, morphology, and phonology. Employing a simple Siouan adaptation of the International Phonetic Alphabet, Quintero's transcription of Osage sounds is more precise and accurate than that in any previous work on the language. An index provides Osage equivalents for more than five thousand English words and expressions, facilitating quick reference. As the most comprehensive lexical record of the Osage language—the only one that will ever be possible, given the loss of fluent speakers—Quintero's dictionary is indispensable not only for linguists but also for Osage students seeking to relearn their language. It is a living monument to the elegance and complexity of a language nearly lost to time and stands as a major contribution to the study of North American Indians.

The Peaceful Wife - April Cassidy 2016-01-27

"This book walks each of us through the reality checks we need in order to have the marriage we want!" —Shaunti Feldhahn, social researcher

and best-selling author of *For Women Only* In today's workplace, women are often rewarded for having type A personalities: driven, demanding, ambitious, and strong. Yet when it comes to their marriages, those same traits can backfire. After all, no one goes into marriage hoping for a promotion. What is a wife to do? April Cassidy knows this struggle firsthand. She thought she was a great Christian wife and begged God to make her passive husband into a more loving, involved, godly leader. Instead, God opened her eyes to changes that she needed to make, such as laying down her desire for control and offering genuine, unconditional respect—not just love—to her husband. Cassidy's conclusions may be as startling to readers as they were to her, but *The Peaceful Wife* shares how she and many others have learned to reorient their lives to biblical commands—resulting in healthier, happier marriages. In the end, you'll find *The Peaceful Wife* a powerful path to God's design for women to live in full submission to Christ as Lord.

Don't Marry: Advice on How, When and Who to Marry - James W. Donovan 2020-09-28

It is not intended to advise against marriage, nor to draw the line too closely as to the don't-marry class, but simply to hint at the errors of some persons who match badly on so long a contract. The "yes or no" question is the vital one for all young people to answer. Some answer too soon, others wait too long, others never reach such a climax of happiness as to be invited by an eligible partner. The genius of selection is the rarest of faculties. What most puzzles the will and makes us bear the ills we have is the theme of selection. A mother's or father's view of a suitor may be at variance with the daughter's wish and destroy the peace of both for a lifetime. But quite generally the real trouble arises from a spiteful choice or a hasty one, or one in some of the forms here mentioned. Should these hints prevent one unhappy marriage, they will well repay the little study that their brevity requires. To avoid much lecturing, only two examples are given at any length, in the form of stories. These are as near to the real characters as the writer can safely relate them, being founded on actual romantic and unromantic marriages. As marriage is the first question that every family will

discuss, it is well to treat it with exact candor.

Women's Productive and Reproductive Labour - Ayşe Arslan
2023-07-27

This book looks at the dynamic relationship between women's productive and reproductive work in a Global South country from a Global South perspective. Applying a feminist political economy and historical materialist approach and building on an ethnographic extended case

study, it analyses the relationships between class and gender across both the productive and reproductive realms at the macro and micro levels in the case of women garment workers in Turkey. Overall, it shows that the material and social conditions of women's productive and reproductive work co-constitute each other. It suggests that productive and social reproductive labour should be examined as an integrated process and an interrelated social relation, in constant dialogue with other social relations. This book is of interest to researchers and students in the disciplines of gender studies, labour studies, feminist economics, sociology and development studies. Given that most studies on social reproduction have largely focused on the Global North, this book is of particular interest to those in search of a more comprehensive and holistic understanding. It is also of great relevance to policymakers concerned with gender and labour issues as well as labour and feminist activists.
