Writing, Reading, and Research - Richard Veit  
2006-03

Flexible and goal-oriented, this text integrates instruction in reading, writing, and research with topical, interdisciplinary readings and concludes with a research handbook. Writing, Reading, and Research thoroughly covers analytical reading, paraphrasing, summarizing, and synthesizing--skills essential for developing a research paper. Each stage of the process is illustrated with examples of student and professional writing. Unlike comparable books, Writing, Reading, and Research leads off with two sample student papers in the early chapters, giving students a clear idea of the final goal as they progress through each step of the research

and writing process.

**Figures of Fantasy -** Susanna Paasonen 2005

*Figures of Fantasy* explores the popularization of the idea of the Internet as a «cyberspace» and considers the implications this has for discussions of gender and identity. The book analyzes the standard figures used to conceptualize and explain technology and gender, and traces the ways in which these concepts have served to create the figure of the Internet as a cyberspace - a manner of thinking that has come to dominate Internet research internationally, making visible its historicity, limitations, and implications. *Figures of Fantasy* offers an innovative theoretical approach to Internet research, and provides a highly original, systematic critique of the canonical works in the field.

*The Little Book of Stupid Questions* - David

Borgenicht 1999

For everyone who is sick of asking the big questions, here are more than 300 topics for inane, pointless, silly, but highly entertaining

discussion.

*Make Every Man Want You* - Marie Forleo  
2008-05-04

Unleash Your Irresistibility! "Make Every Man Want You gives every woman the tools she needs to unlock her inner magnet." --Kelly Ripa Let's make one thing clear: this book is like no other dating book you've read. There are no rules, no

list of things to do to land a husband in thirty days, and no reason to blame yourself if "he's just not that into you." Please. Throw those books away. Instead, let's focus on you--and how you can make yourself more appealing to others in almost every situation--whether you have a man or not. Think of it as a crash course in desirability, a life-changing lesson in loving yourself inside and out. Once you embrace your unique qualities and dissolve your bad relationship habits, you'll be amazed to find how irresistible you are to others! This girl-friendly guide reveals: Five Truths Every Irresistible Woman Needs to Know: Live in the moment, Men do not want to be changed or improved Seven Habits of Highly Unattractive Women: Boring in bed, Being needy Eight Secrets of Attracting the Right Man for You: Get rid of your "perfect man" checklist, Have your own life **Hearts and Minds** - Thomas David Kehoe 2003 Mammals raising their young evolved brains hardwired for emotional relationships. Around

this mammalian core, humans evolved a new, larger brain for abstract thinking. Too often our abstract thinking gets in the way of emotionally connecting with other people. Hearts and Minds shows you how to improve your relationships by integrating these different brain systems. Plus, you'll find: The best places to meet single men and women (page 93). How young men and women fall in love with mirrors of themselves (page 74), when mature men and women love their real partners, including accepting their faults (page 83). How switching gender roles moves dating into a committed relationship (page 139). How to use conflicts to strengthen a relationship (page 146).
