**Sex, France, and Arab Men, 1962-1979** Todd Shepard 2021-07-12 The aftermath of Algeria's revolutionary war for independence coincided with the sexual revolution in France, and in this book Todd Shepard argues that these two movements are inextricably linked. *Sex, France, and Arab Men* is a history of how and why—from the upheavals of French Algeria in 1962 through the 1970s—highly sexualized claims about Arabs were omnipresent in important public French discussions, both those that dealt with sex and those that spoke of Arabs. Shepard explores how the so-called sexual revolution took shape in a France profoundly influenced by the ongoing effects of the Algerian revolution. Shepard's analysis of both events alongside one another provides a frame that renders visible the ways that the fight for sexual liberation, usually explained as an American and European invention, developed out of the worldwide anticolonial movement of the mid-twentieth century.

*Sin and Confession in Colonial Peru* Regina Harrison 2014-06-01 A central tenet of Catholic religious practice, confession relies upon the use of language between the penitent and his or her confessor. In the sixteenth and seventeenth centuries, as Spain colonized the Quechua-speaking Andean world, the communication of religious beliefs and practices—especially the practice of confession—to the native population became a primary concern, and as a result, expansive bodies of Spanish ecclesiastic literature were translated into Quechua. In this fascinating study of the semantic changes evident in translations of Catholic catechisms, sermons, and manuals, Regina Harrison demonstrates how the translated texts often retained traces of ancient Andean modes of thought, despite the didactic lessons they contained. In *Sin and Confession in Colonial Peru*, Harrison draws directly from confession manuals to demonstrate how sin was newly defined in Quechua lexemes, how the role of women was circumscribed to fit Old

World patterns, and how new monetized perspectives on labor and trade were taught to the subjugated indigenous peoples of the Andes by means of the Ten Commandments. Although outwardly confession appears to be an instrument of oppression, the reformer Bartolomé de Las Casas influenced priests working in the Andes; through their agency, confessional practice ultimately became a political weapon to compel Spanish restitution of Incan lands and wealth. Bringing together an unprecedented study (and translation) of Quechua religious texts with an expansive history of Andean and Spanish transculturation, Harrison uses the lens of confession to understand the vast and telling ways in which language changed at the intersection of culture and religion.

**Catholics and Contraception** Leslie Woodcock Tentler 2018-09-05 As Americans rethought sex in the twentieth century, the Catholic Church's teachings on the divisive issue of contraception in marriage were in many ways central. In a fascinating history, Leslie Woodcock Tentler traces changing attitudes: from the late nineteenth century, when religious leaders of every variety were largely united in their opposition to contraception; to the 1920s, when distillations of Freud and the works of family planning reformers like Margaret Sanger began to reach a popular audience; to the Depression years, during which even conservative Protestant denominations quietly dropped prohibitions against marital birth control. *Catholics and Contraception* carefully examines the intimate dilemmas of pastoral counseling in matters of sexual conduct. Tentler makes it clear that uneasy negotiations were always necessary between clerical and lay authority. As the Catholic Church found itself isolated in its strictures against contraception—and the object of damaging rhetoric in the public debate over legal birth control—support of the Church's teachings on contraception became a mark of Catholic identity, for better and for worse. Tentler draws on evidence from pastoral literature, sermons, lay writings, private correspondence, and interviews with fifty-six priests ordained between 1938 and 1968, concluding, "the recent history of American Catholicism... can only be understood by taking birth control into account."

**Sex and Society in the World of the Orthodox Slavs 900-1700** Eve Levin 2018-09-05 In this pioneering book, Eve Levin explores sexual behavior among the peoples of Serbia, Bulgaria, and Russia from their conversion to Christianity in the ninth and tenth centuries until the end of the

seventeenth century. By ranging across all these societies, Levin is able to fulfill three basic aims: to delineate the general character of sexuality among the Orthodox Slavs, to enrich that account by drawing our attention to regional variations in the sexual mores of these peoples, and to draw suggestive comparisons between the world of the medieval Orthodox Slavs and their contemporaries in the Latin West. Levin begins with a study of the ecclesiastical image of sexuality as expressed in didactic and literary texts, showing that the Orthodox Church was deeply suspicious of sexuality. Her second chapter, on canon law and marriage, examines the conditions for marriage, divorce, and remarriage, the obligation of the conjugal relationship, and the impact of these rules on social order. Levin looks at church regulations concerning sexual relations among relatives by blood, marriage, spiritual kinship, and adoption in Chapter Three, and she devotes Chapter Four to prohibited sexual practices, both inside and outside of marriage. In the fifth chapter she studies Russian and South Slavic responses to rape, and demonstrates that these societies simultaneously censured violence against women and sanctioned the attitudes and social structures that justified it. Chapter Six deals with the rules on sexual conduct for the clergy, whose job it was to enforce sexual precepts. Throughout her work, Levin argues that, despite its conviction that sexual expression was diabolical, the medieval Orthodox Church approached sexual matters in a surprisingly practical way; its official sexual ethic corresponded to a great degree with popular views. Historians of the Slavic world, both medieval and modern, will welcome this accessible study. It should also attract comparativists who work in such fields as church history, the history of women and the family, and the history of sexuality.

### **Criminal Interrogation and Confessions**

*Sin and Confession on the Eve of the Reformation* Thomas N. Tentler 2015-03-08 Although John Calvin often likened sacramental confession to butchery, the Council of Trent declared that for those who approached it worthily, it was made easy by its "great benefits and consolations." Thomas Tentler describes and evaluates the effectiveness of sacramental confession as a functioning institution designed "to cause guilt as well as cure guilt," seeing it in its proper place as a part of the social fabric of the Middle Ages. The author examines the institution of confession in practice as well as in theory, providing an analysis of a practical literature whose authors wanted to explain as clearly as they safely could what confessors and penitents had to believe, do, feel, say, and intend, if sacramental confession were to forgive sins. In so doing he recreates the mentality and experience that the Reformers attacked and the Counter-Reformers defended. Central to his thesis is the contention that Luther, Calvin, and the Fathers of Trent regarded religious institutions as the solution to certain social and psychological problems, and that an awareness of this attitude is important for an

assessment of the significance of confession in late medieval and Reformation Europe. Originally published in 1977. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

**New Formations, New Questions** Elaine H. Kim 1997 Viewing current Asian American racial formation in relation to international cultures and global geography, the essays in *New Formations, New Questions* break new ground in Asian American studies. This special issue of positions confronts questions of what it is to be Asian and how that differs from being Asian American. It exposes many challenges Asian Americans face in defining their niche in this country as it makes some acute, if not disturbing, observations of what it means to be American. In one essay, the status of Asians born in America both before and after the 1965 Immigration and Nationality Act is compared, with particular attention directed toward the exploitation of Asian immigrants as a source of cheap physical labor. In another piece, the link between America's colonization of Asian countries and international sex tourism is explored. As these essays make clear, the United States easily exploits Asians and Asian Americans as it simultaneously enforces distinctions that render Asians linguistically, culturally, and racially "foreign." Also included is an essay based on a series of interviews with Filipino store owners and workers in Southern California; analysis of the Christian Ecumenical perspectives on the Asian sex tour industry and the activities of ECPAT, a group established to end child prostitution in Asian tourism; and an account of a South Asian woman's attempt to unionize taxicab drivers in New York City. Sex, Law, and Society in Late Imperial China Matthew Harvey Sommer 2000 This study of the regulation of sexuality in the Qing dynasty explores the social context for sexual behavior criminalized by the state, showing how regulation shifted away from status to a new regime of gender that mandated a uniform standard of sexual morality and criminal liability for all people, regardless of their social status.

**The Good Women of the Parish** Katherine L. French 2013-02-12 There was immense social and economic upheaval between the Black Death and the English Reformation, and contemporary writers often blamed this upheaval on immorality, singling out women's behavior for particular censure. Late medieval moral treatises and sermons increasingly connected good behavior for women with Christianity, and their failure to conform to sin. Katherine L. French argues, however, that medieval laywomen both coped with the chaotic changes following the plague and justified their own changing behavior by participating in local religion. Through active engagement in the parish church, the basic unit of public worship, women promoted and validated their own interests and responsibilities. Scholarship on medieval women's religious experiences has focused primarily on elite women, nuns, and mystics who either were literate enough to leave written records of their religious ideas and behavior or had access to literate men who did this for them. Most women, however, were not literate, were not members of religious orders, and did not have private confessors. As *The Good Women of the Parish* shows, the great majority of women practiced their religion in a parish church. By looking at women's contributions to parish maintenance, the ways they shaped the liturgy and church seating arrangements, and their increasing opportunities for collective action in all-women's groups, the book argues that gendered behavior was central to parish life and that women's parish activities gave them increasing visibility and even, on occasion, authority. In the face of demands for silence, modesty, and passivity, women of every social status used religious practices as an important source of self-expression, creativity, and agency.

**Criminal Investigations of Sexual Offenses** Nadine Deslauriers-Varin 2021-11-22 It is startling to read how few sexual offenses are reported in a year; even more shocking to see how few reports lead to an arrest. Research on effective responses to sexual offenses is much needed and ongoing. This edited book presents the current state of research on investigative techniques used in sex crime investigations, and the operational challenges and issues that arise in these investigations. Including an international cohort of scholars from various academic backgrounds, it reviews current efforts in key areas, synthesizing the research to make recommendations for the improvement of investigative practices and the criminal justice system's response to sexual offenses. Each chapter includes a brief introduction to the topic, a review of the research, and a discussion of the key points relevant to investigators and researchers as they move forward. The book is broken down into four themes: suspect prioritization and identification techniques, investigative interviewing, operational challenges and issues, and the investigation of specific types of sex crimes. With its broad coverage and international scope, this volume fills the gap in knowledge for investigators working on sex crimes cases. With its easy-to-read style and clear analysis of the research, this is the perfect volume for investigators and law enforcement officers, policy makers and researchers, and students in criminology and criminal justice, forensic psychology, and victim services.

[The Culture of Confession from Augustine to Foucault](#) Chloe Taylor 2010-05-26 Drawing on the work of Foucault and Western confessional writings, this book challenges the transhistorical and commonsense views of confession as an innate impulse resulting in the psychological liberation of the confessing subject. Instead, confessional desire is argued to be contingent and constraining, and alternatives to confessional subjectivity are explored.

**Sex Crimes and Sex Offenders** Donna Vandiver 2016-12-08 Sex Crimes and Sex Offenders: Research and Realities provides an overview of social scientific theory and research on sex crimes and sex offenders. Most other books on the market are focused on a single issue—such as treatment, rape, pedophilia, theory, etc. This book is unique in that it covers the most current theory and research along with individual cases of sex crimes (e.g., Kobe Bryant, Jerry Sandusky, and other case studies), effectively linking theory and research with the realities of sex crimes and sex offenders as well as their victims. Vandiver, Braithwaite, and Stafford are careful to dispel myths and to focus on the heterogeneity of sex crimes and sex offenders, and not on any one issue or population or theory. Instead, they weave a framework using a full range of theoretical concepts and research data to integrate their discussions of crimes, offenders, victims, treatments, and policy implications. The result is a valuable resource for students and early-stage researchers investigating sex crimes or offenders.

**Erotic Welfare** Judith Butler 2014-02-25 A trenchant critique of sexuality in an age of discipline, where bodies and pleasures have become sites of regulatory power.

*Sex in Public* Eric Naiman 2019-01-15 Sex in Public examines the ideological poetics and the rhetoric of power in the Soviet Union during the 1920s, a period of anxiety over the historical legitimacy of Soviet ideology and Bolshevik power. Drawing on a wide range of sources—Party Congress transcripts, the classics of early Soviet literature, sex education pamphlets, the cinema, crime reports, and early Soviet ventures into popular science—the author seeks to explain the period's preoccupation with crime, disease, and, especially, sex. Using strategies of reading developed by literary scholars, he devotes special care to exploring the role of narrative in authoritative political texts. The book breaks new ground in its attention to the ideological importance of the female body during this important formative stage of Bolshevik rule. Sex in Public provides a fundamentally new history of the New Economic Policy and offers important revisionist readings of many of the fundamental cultural products of the early Soviet period. Perhaps most important, it serves as a model for the sort of interdisciplinary work that is possible when historians take literary and ideology theory seriously and when ideology theorists seek to conform to the standards of documentary rigor traditionally demanded by historians. It thus becomes a study that can be read as both positivistic and postmodern. Eric Naiman is Associate Professor of Russian and Comparative Literature at the University of California, Berkeley. Originally published in 1997. **Confessions of a Catholic Schoolboy** Joe Farrell 2009-12-03 A smorgasbord of entertainment and lessons awaits readers as author Joe Farrell releases through Xlibris a unique memoir. *Confessions of a Catholic Schoolboy: Jesus Runs Away and Other Stories* chronicles his journey as a student who enjoys a carefree life amid schools of rigid discipline and stern religious training. In the early sixties, being in a Catholic school means being compelled to always abide by the rules: pray earnestly when told to do so, study the lessons to answer questions correctly, a “yes” or “no” answer should always be followed by “Sister”, and never ever do anything that would upset or make the teachers mad. Through vivid narration, *Confessions of a Catholic Schoolboy* unveils the funny side that lurks behind the austere façade of Catholic Schools. It follows the author as he finds himself caught up in different mischief during grade school and to even more grave misbehaviors—including a police arrest—during high school and college. A baby boomer, Farrell’s life is one that is carved by the tumult of the fifties and sixties and the social and personal dramas that come along with it. His is an interesting wave of colors brightened by adventure, discipline, lessons learned, friendship, and love. Providing a good glimpse into the life of pure Catholic training, *Confessions of a Catholic Schoolboy: Jesus Runs Away and Other Stories* is a witty revelation of a schoolboy’s shenanigans and the ultimate inspiration one can get from them. This memoir of growing up in the 60’s is full of Farrell’s wit, humor, and irreverence yet it’s a touching and poignant story. A fun and enjoyable read.

**Sex and the New Medieval Literature of Confession, 1150-1300** Pierre J. Payer 2009 This volume rounds out an important trilogy of studies by Pierre Payer on the topic of sex in the ecclesiastical thought and writings of the middle ages that began with *Sex and the Penitentials: The Development of a Sexual Code, 550-1150* (1984) and continued with *The Bridling of Desire: Views of Sex in the Later Middle Ages* (1993). In every way the equal of the two magisterial studies that preceded it, this third volume examines the treatment of sex in the 'new' literature of penance and confession. Composed by canon lawyers and by theologians for the instruction of priests, it is one of the most popular genres of writing of the later middle ages, although it remains largely unknown and underutilized as a historical source. Pierre Payer guides readers through this varied and heterogenous corpus with great patience and erudition. His analysis ranges over the origin and development of the idea of lechery as one of the capital sins and the distinction between natural and unnatural acts, and explores the moral consequences of sexual behaviour even within marriage, providing us much insight into the act, and art, of confession and the intimate relationship between priest and penitent that underlies it.

perspective, and how it is reformulated in various related areas of study, such as ontology.

The volume also presents a more geographically diverse Middle Ages by including sources from Central and Eastern Europe as well as the Mediterranean. Each document is preceded by a brief introduction and followed by questions for discussion, making *The Intolerant Middle Ages* an excellent entrance into the lives and struggles of medieval minorities.
