Sexual Health Medicine - Darren Russell 2011

Authoritative coverage is offered of the biological, clinical, laboratory, psychosocial, and public-health aspects of sexual health medicine. A feature of the book is its holistic approach, with the client seen as a whole person, rather than simply the owner of a set of malfunctioning genitalia.

PSYCHOSEXUAL MEDICINE - R Lincoln 1998-09-04

Sexual problems that cannot be explained by obvious illness or disease are likely to remain untreated. The standard undergraduate medical curriculum do not usually include teaching on the subject.

Sexual Equality in Access to Goods and Services Report - Great Britain. Parliament. House of Lords. European Union Committee 2004

The Committee's report examines the EU Commission's proposals to extend EU sex discrimination legislation to cover the supply of, and access to, goods and services. The proposals are essentially limited to commercial transactions (excluding aspects such as education, public health care, media and advertising representation), and will therefore be less comprehensive than current UK sex discrimination laws. The main impact on existing UK legislation will be the proposal to ban the use of gender as a factor in calculating insurance premiums and benefits. Although this suggestion has aroused considerable controversy in the UK, the Committee believes that the onus must be on insurance companies to justify any departure from the principle of equal gender treatment, based on objective risk assessment. More research and consultation is required before these proposals are implemented. Sound practical guidelines need to be devised, taking into account the implications on future annuities for men and women in the UK market. Overall, the Committee argues that it is a reasonable objective to move away from using gender as a criterion to assess motor insurance premiums, and to seek to achieve a fair and competitive pricing based on other factors.

The GENDER Book - Mel Reiff Hill 2014-02-01

A fun, colorful, community-based resource that illustrates the beautiful diversity of gender - a gender 101 for everyone!

Equity and excellence: - Great Britain: Department of Health 2010-07-12

Equity and Excellence : Liberating the NHS: Presented to Parliament by the Secretary of State for Health by Command of Her Majesty

Pregnancy Day by Day - Paula Amato 2013-12-23

An illustrated reference for expectant parents explains in intricate detail every stage of a pregnancy, in a comprehensive resource that also covers labor, birth, and life with a new baby.

The Green Book - Great Britain. Treasury 2003

This new edition incorporates revised guidance from H.M Treasury which is designed to promote efficient policy development and resource allocation across government through the use of a thorough, long-term and analytically robust approach to the appraisal and evaluation of public service projects before significant funds are committed. It is the first edition to have been aided by a consultation process in order to ensure

the guidance is clearer and more closely tailored to suit the needs of users.

High Quality Care for All - Secretary of State for Health 2008

This review incorporates the views and visions of 2,000 clinicians and other health and social care professionals from every NHS region in England, and has been developed in discussion with patients, carers and the general public. The changes proposed are locally-led, patient-centred and clinically driven. Chapter 2 identifies the challenges facing the NHS in the 21st century: ever higher expectations; demand driven by demographics as people live longer; health in an age of information and connectivity; the changing nature of disease; advances in treatment; a changing health workplace. Chapter 3 outlines the proposals to deliver high quality care for patients and the public, with an emphasis on helping people to stay healthy, empowering patients, providing the most effective treatments, and keeping patients as safe as possible in healthcare environments. The importance of quality in all aspects of the NHS is reinforced in chapter 4, and must be understood from the perspective of the patient's safety, experience in care received and the effectiveness of that care. Best practice will be widely promoted, with a central role for the National Institute for Health and Clinical Excellence (NICE) in expanding national standards. This will bring clarity to the high standards expected and quality performance will be measured and published. The review outlines the need to put frontline staff in control of this drive for quality (chapter 5), with greater freedom to use their expertise and skill and decision-making to find innovative ways to improve care for patients. Clinical and managerial leadership skills at the local level need further development, and all levels of staff will receive support through education and training (chapter 6). The review recommends the introduction of an NHS Constitution (chapter 7). The final chapter sets out the means of implementation.

CORROSIVE IMPACT OF TRANSGENDER IDEOLOGY. - JOANNA WILLIAMS 2020

Sexual equality in access to goods and services - Great Britain.

Parliament. House of Lords. European Union Committee 2004-09-22

Includes evidence taken before Sub-committee G (Social and Consumer Affairs)

The Health of Lesbian, Gay, Bisexual, and Transgender People - Institute of Medicine 2011-06-24

At a time when lesbian, gay, bisexual, and transgender individuals--often referred to under the umbrella acronym LGBT--are becoming more visible in society and more socially acknowledged, clinicians and researchers are faced with incomplete information about their health status. While LGBT populations often are combined as a single entity for research and advocacy purposes, each is a distinct population group with its own specific health needs. Furthermore, the experiences of LGBT individuals are not uniform and are shaped by factors of race, ethnicity, socioeconomic status, geographical location, and age, any of which can

have an effect on health-related concerns and needs. The Health of Lesbian, Gay, Bisexual, and Transgender People assesses the state of science on the health status of LGBT populations, identifies research gaps and opportunities, and outlines a research agenda for the National Institute of Health. The report examines the health status of these populations in three life stages: childhood and adolescence, early/middle adulthood, and later adulthood. At each life stage, the committee studied mental health, physical health, risks and protective factors, health services, and contextual influences. To advance understanding of the health needs of all LGBT individuals, the report finds that researchers need more data about the demographics of these populations, improved methods for collecting and analyzing data, and an increased participation of sexual and gender minorities in research. The Health of Lesbian, Gay, Bisexual, and Transgender People is a valuable resource for policymakers, federal agencies including the National Institute of Health (NIH), LGBT advocacy groups, clinicians, and service providers.

Sex Ed - School of Sexuality Education 2021

A positive, practical and empowering guide for teenagers, tackling sex and relationships in an inclusive and non-judgemental way? created by the winners of the Pamela Sheridan Award for Innovation and Good Practice in RSE. Written and illustrated by the award-winning team at The School of Sexuality Education, who deliver expert workshops for teenagers, here is advice, reliable information and reassurance on sex and relationships... Covering key topics including consent and healthy relationships, sexuality and different kinds of sex, puberty and periods, contraception, porn and sexting, and much more besides! This book is not only full of advice for teenagers but a brilliant tool for their parents, carers and teachers, supporting all of the new RSE curriculum content (in the wake of recent updates) as well as answering FAQs and busting some popular myths along the way. Publishing after major updates to the national Relationships and Sex Education curriculum, as well as calls for widespread, high-quality sex education in the wake of the #MeToo movement and Everyone's Invited.

LGBT Issues - Rebecca L. Jones 2010

"Drawing on current research and debates, the contributors explore some of the tensions between the different ways in which sexuality is understood and experienced. A focus of the book is on how categories like 'lesbian', 'gay', 'bisexual' and 'trans' shape everyday practice and service use. It looks at the circumstances in which people choose to describe themselves with these identity labels and the situations in which they reject or feel constrained by them." --Book Jacket.

Code of Practice - Great Britain. Department of Health 2008

This Code of Practice is a reference tool for those dealing with, and caring for people admitted to hospital and care homes with mental health problems. Authored by the Department of Health and produced following wide consultation with those who provide and receive services under the Mental Health Act, this publication will come into force on 3 November 2008. Through the Mental Health Act 2007, the Government has updated the 1983 Act to ensure it keeps pace with the changes in the way that mental health services are - and need to be - delivered. This publication provides guidance and advice to registered medical practitioners, approved clinicians, managers and staff of hospitals, and approved mental health professionals on how they should proceed when undertaking duties under the Act. It also gives guidance to doctors and other professionals about certain aspects of medical treatment for mental disorder more generally. The Mental Health Act Code of Practice is also aimed at all of those working in primary care, Mental Health Trusts, NHS Foundation Trusts as well as solicitors and attorneys who advise on mental health law. The Code should also be beneficial to the police and ambulance services and others in health and social services (including the independent and voluntary sectors) involved in providing services to people who are, or may become, subject to compulsory measures under the Act. It will also be a guide for those working with people with specific mental health needs such as those in nursing and care homes, and those in prison.

Irreversible Damage - Abigail Shrier 2020-06-30

NAMED A BOOK OF THE YEAR BY THE ECONOMIST AND ONE OF THE BEST BOOKS OF 2021 BY THE TIMES AND THE SUNDAY TIMES

"Irreversible Damage . . . has caused a storm. Abigail Shrier, a Wall Street Journal writer, does something simple yet devastating: she rigorously lays out the facts." —Janice Turner, The Times of London Until just a few years ago, gender dysphoria—severe discomfort in one's biological sex—was vanishingly rare. It was typically found in less than .01 percent of the population, emerged in early childhood, and afflicted males almost exclusively. But today whole groups of female friends in

colleges, high schools, and even middle schools across the country are coming out as "transgender." These are girls who had never experienced any discomfort in their biological sex until they heard a coming-out story from a speaker at a school assembly or discovered the internet community of trans "influencers." Unsuspecting parents are awakening to find their daughters in thrall to hip trans YouTube stars and "gender-affirming" educators and therapists who push life-changing interventions on young girls—including medically unnecessary double mastectomies and puberty blockers that can cause permanent infertility. Abigail Shrier, a writer for the Wall Street Journal, has dug deep into the trans epidemic, talking to the girls, their agonized parents, and the counselors and doctors who enable gender transitions, as well as to "detransitioners"—young women who bitterly regret what they have done to themselves. Coming out as transgender immediately boosts these girls' social status, Shrier finds, but once they take the first steps of transition, it is not easy to walk back. She offers urgently needed advice about how parents can protect their daughters. A generation of girls is at risk. Abigail Shrier's essential book will help you understand what the trans craze is and how you can inoculate your child against it—or how to retrieve her from this dangerous path.

Complications - Atul Gawande 2002

In Gripping Accounts Of True Cases, Atul Gawande Performs Exploratory Surgery On Medicine Itself, Laying Bare A Science Not In Its Idealized Form But As It Actually Is Complicated, Perplexing And Profoundly Human. He Offers An Unflinching View From The Scalpel S Edge, Where Science Is Ambiguous, Information Is Limited, The Stakes Are High, Yet Decisions Must Be Made. Dramatic, Revealing Stories Of Patients And Doctors Explore How Daily Mistakes Occur, Why Good Surgeons Go Bad, And What Happens When Medicine Comes Up Against The Inexplicable: An Architect With Incapacitating Back Pain For Which There Is No Physical Cause; A Young Woman With Nausea That Won T Go Away; A Television Newscaster Whose Blushing Is So Severe That She Cannot Do Her Job. At Once Tough-Minded And Humane, Complications Is A New Kind Of Medical Writing, Nuanced And Lucid, Unafraid To Confront The Uncertainties That Lie At The Heart Of Modern Medicine, Yet Always Alive To The Possibilities Of Wisdom In This Extraordinary Endeavor. Highly Acclaimed Book That Is Destined To Be A Bestseller Literally Straight-From-The-Gut Writing

Healthy lives, healthy people - Great Britain: Department of Health 2010-11-30

The Government recognises that many lifestyle-driven health problems are at alarming levels: obesity; high rates of sexually transmitted infections; a relatively large population of drug users; rising levels of harm from alcohol; 80,000 deaths a year from smoking; poor mental health; health inequalities between rich and poor. This white paper outlines the Government's proposals to protect the population from serious health threats; help people live longer, healthier and more fulfilling lives; and improve the health of the poorest. It aims to empower individuals to make healthy choices and give communities and local government the freedom, responsibility and funding to innovate and develop ways of improving public health in their area. The paper responds to Sir Michael Marmot's strategic review of health inequalities in England post 2010 - "Fair society, healthy lives" (available at <http://www.marmotreview.org/AssetLibrary/pdfs/Reports/FairSocietyHealthyLives.pdf>) and adopts its life course framework for tackling the wider social determinants of health. A new dedicated public health service - Public Health England - will be created to ensure excellence, expertise and responsiveness, particularly on health protection where a national response is vital. The paper gives a timetable showing how the proposals will be implemented and an annex sets out a vision of the role of the Director of Public Health. The Department is also publishing a fuller story on the health of England in "Our health and wellbeing today" (http://www.dh.gov.uk/prod_consum_dh/groups/dh_digitalassets/@dh/@en/@ps/documents/digitalasset/dh_122238.pdf), detailing the challenges and opportunities, and in 2011 will issue documents on major public health issues.

Securing Good Health for the Whole Population - Derek Wanless 2004

Getting the Most Out of PROMs - N. J. Devlin 2010

Patient-reported outcome measures (PROMs) use a series of structured questions that ask patients about their health from their point of view, with the aim of improving decision-making at all levels of the NHS. This report looks at the ways in which PROMs data can be used.

TRANS - Az Hakeem 2021-09-10

What is gender dysphoria? How does it affect people? What do terms like intersex, cisgender, and transsexualism mean? This book, the first of its kind, presents an easy-to-read, jargon-free guide to help anyone understand the terminology and the day-to-day reality of gender dysphoria and related concepts. TRANS is a book for everyone - insightful enough for professionals, but accessible enough for all. Put simply, TRANS explains what gender dysphoria is, how it affects people,

and what is available, medically and psychotherapeutically, to support people with gender dysphoria. The editor, Dr Az Hakeem, has assembled a group of contributors to give readers a truly accessible guide to the psychology and the everyday reality of gender dysphoria, transvestism, gender reassignment, and being trans. The book even addresses 'the difficult questions' like 'What do we tell the children?' and 'What happens when you change your sex, then change your mind?'
