The Lynching of Cleo Wright - Dominic J. Capeci Jr. 2014-10-17

On January 20, 1942, black oil mill worker Cleo Wright assaulted a white woman in her home and nearly killed the first police officer who tried to arrest him. An angry mob then hauled Wright out of jail and dragged him through the streets of Sikeston, Missouri, before burning him alive.

Wright's death was, unfortunately, not unique in American history, but what his death meant in the larger context of life in the United States in the twentieth-century is an important and compelling story. After the lynching, the U.S. Justice Department was forced to become involved in civil rights concerns for the first time, provoking a national reaction to violence on the home front at a time when the country was battling for democracy in Europe. Dominic Capeci unravels the tragic story of Wright's life on several stages, showing how these acts of violence were indicative not only of racial tension but the clash of the traditional and the modern brought about by the war. Capeci draws from a wide range of archival sources and personal interviews with the participants and spectators to draw vivid portraits of Wright, his victims, law-enforcement officials, and members of the lynch mob. He places Wright in the larger context of southern racial violence and shows the significance of his death in local, state, and national history during the most important crisis of the twentieth-century.

Jumping at Shadows - Sasha Abramsky 2017-09-05

Why is an unarmed young black woman who knocks on a stranger's front door to ask for help after her car breaks down perceived to be so threatening that he shoots her dead? Why do we fear infrequent acts of terrorism more far more common acts of violence? Why does a disease like Ebola, which killed only a handful of Americans, provoke panic, whereas the flu--which kills tens of thousands each year--is dismissed with a yawn? *Jumping at Shadows* is Sasha Abramsky's searing account of America's most dangerous epidemic: irrational fear. Taking readers on a dramatic journey through a divided nation, where everything from immigration to disease, gun control to health care has become fodder for fearmongers and conspiracists, he delivers an eye-popping analysis of our misconceptions about risk and threats. What emerges is a shocking portrait of a political and cultural landscape that is, increasingly, defined by our worst fears and rampant anxieties. Ultimately, Abramsky shows that how we calculate risk and deal with fear can teach us a great deal about ourselves, exposing deeply ingrained strains of racism, classism, and xenophobia within our culture, as well as our growing susceptibility to the toxic messages of demagogues.

Directory of Federal Prisons - Christopher Zoukis 2019-10

The *Directory of Federal Prisons* is the most comprehensive guidebook to Federal Bureau of Prisons facilities on the market. Not simply a directory of information about each facility, this book delves into the shadowy world of American federal prisoners and their experiences at each prison, whether governmental or private. What sets the *Directory of Federal Prisons* apart from other prison guidebooks is the first-hand validation of information. Most prison directories provide basic

information that is publicly available (e.g., security level, population number, location, etc.). This book is different. While basic data is included, hundreds of current federal inmates have been surveyed and interviewed in order to ascertain the culture of each institution. This enables the Directory of Federal Prisons to provide information such as the level of violence; whether sex offenders, informants, or LGBT inmates can walk the yard; the status of prison politics and organized gangs; and what prisoners believe is good and bad about each facility. This intelligence is much more important to understanding each prison and the experience therein than basic directory types of information. The Directory of Federal Prisons also includes a detailed discussion of the custody and classification system used by the Bureau of Prisons. This system determines how inmates are scored for security level and prison placement. Readers can use real Bureau of Prisons' case management forms to ascertain an actual security score, thereby taking the guesswork out of security levels, housing determinations, prison transfers, and how Public Safety Factors and Management Variables impact placement decisions. This is knowledge that only seasoned case managers tend to have. In each facility profile, you will learn: -Basic data such as the sex of the inmate population, security level, and medical and mental health care levels. -Physical location and inmate mailing address. -Educational, psychological, vocational, and recreation programs available. -Notable incidents reported by the media (e.g., arrests, riots, significant fights, escapes, etc.). -Reviews by inmates currently at each facility, including information about violence, prison politics, who can walk each yard, and more. -And much more! No one wants to spend time in a federal prison, but if you or a loved one must go, finding quality, reliable information about life on the inside is essential to a safe and productive stay. The Directory of Federal Prisons builds off the award-winning and bestselling Federal Prison Handbook's reputation as the leading federal prison survival guide. Not only will readers be able to understand all facets of prison life and how to remain safe, they will also be able to evaluate each federal prison and its offerings, know if it is safe to walk the yard, and better evaluate and understand transfer options so that they can make

the right prison placement decisions the first time

The Pied Piper of Tucson - Don Moser 1967

It was Life and Time magazines that turned a local story from Tucson, Arizona, into a national abomination. Reporters came from all over, to be sure, but on March 4, 1966, Life printed an ominous photo of the desert landscape where three girls had disappeared and the story of Charles Howard Schmid, Jr., or "Smitty," became international news. He had been arrested four months earlier on November 11, just after marrying a fifteen-year-old girl whom he'd met on a blind date. The article was published even before the juries in two separate trials had decided his fate. Dubbed "The Pied Piper of Tucson," for his ability to get girls to fall for him, he stood five feet, four inches tall, but added three more inches by padding his stack-heeled cowboy boots with rags and tin cans. He also dyed his reddish-brown hair black, used pancake make-up, whitened his lips, and applied a fake mole to his left cheek—a "beauty" mark. Arrogant and narcissistic, he came from a wealthy family, so he used the niceties he could buy to impress young high school girls. He adopted the droopy-eyed look associated with Elvis, his idol, and acquired a rock musician's mystique. His tiny house on his parents' property was the scene of many parties. Tucson society was not merely shaken by the murders of three of their young women but by what the details of those murders revealed about its adolescent population—sex clubs, drinking parties, blackmail, cover-ups for murder, and even connections with the crime underworld. Parents suddenly became more strict, more aware now that their kids weren't safe and maybe weren't even behaving properly. When kids looked to someone like Charles Schmid for answers, there was something terribly wrong.

Federal Prison Handbook - Christopher Zoukis 2017-03-14

Incarceration can be cruel for prisoners and their loved ones. Learn what to expect and make the best of this time by staying safe and building a

life behind bars. The Federal Prison Handbook teaches everything you need to know to protect yourself and survive the system, compiled by a college-educated federal inmate turned corrections consultant. This insider's view of the unknown world will guide you through the mental stresses of confinement, and keep you physically safe by explaining how to avoid the near-constant conflicts found inside federal prisons in the United States today. The Federal Prison Handbook is the definitive guide to surviving incarceration in federal prison. This handbook teaches individuals facing incarceration, prisoners who are already inside, and their friends and families, everything they need to know. The thorough information was compiled by Christopher Zoukis, who has first-hand experience with the federal prison system, as Zoukis served 12 years in prison as a young man, and is now the Managing Director of the Zoukis Consulting Group, a boutique federal criminal justice consultancy which assists defense attorneys, defendants, prisoners, and their families understand life inside the Federal Bureau of Prisons. In detailed chapters broken down by topical area, readers discover: -What to expect on the day you're admitted to prison, and how to greet cellmates for the first time. -What to do about sexual harassment or assault. -The best ways to avoid fights, and the options that provide the greatest protection if a fight cannot be avoided. -How to access medical, psychological and religious services. -How to communicate with the outside world through telephones, computers, and mail. -What you can buy in the official commissary and the underground economy. -A comprehensive analysis of Federal Bureau of Prisons policy and regulatory guidelines. -And much more!

Survey of State Criminal History Information Systems (2008, 10th Ed.) - Owen M. Greenspan 2010-08

This report is based upon the results from a survey conducted of the administrators of the State criminal history record repositories in March-June 2009. Fifty-six jurisdictions were surveyed. Responses were received from 53 jurisdictions. It presents a snapshot as of Dec. 31,

2008. In addition, the FBI was the source for some of the information relating to criminal history records, including State participation in the Interstate Identification Index (III) system (the national criminal records exchange system) and the number of III records maintained by the FBI on behalf of the States; the number of records in the protection order file; and the number of sex offender records in the FBI National Crime Information Center files. Charts and tables.

Static 99 - Robert Karl Hanson 1999

This study compares the predictive accuracy of three sex offender risk assessment measures: the Rapid Risk Assessment for Sex Offence Recidivism, RRASOR (Hanson, 1997); Thornton's Structured Anchored Clinical Judgement, SACJ (Grubin, 1998); and a new scale called Static-99, created by combining the items from the RRASOR and SACJ. Predictive accuracy is tested using four diverse data sets drawn from Canada and the United Kingdom. The appendix contains details on the coding rules for Static-99.

Accelerating Law Enforcement Investigations with IBM COPLINK -

Corey Brant 2016-07-20

IBM® COPLINK® ("COPLINK") software is designed to help law enforcement organizations solve crimes faster, keep officers safer, and disrupt crime and terrorism. COPLINK helps to consolidate data from many sources, aid collaboration, and generate tactical leads. It enables law enforcement professionals to generate photo lineups, save their search history, and organize investigations to generate reports more easily. COPLINK also provides comprehensive auditing of data access. IBM COPLINK software helps law enforcement officers accomplish the following objectives: Discover investigative case leads by organizing and providing tactical and command-level access to vast quantities of seemingly unrelated data. Perform crime pattern analysis by visualizing and analyzing data on maps through time-sequence playback. Save time with access to disparate heterogeneous law enforcement data correlated in one system. Ensure data protection and auditability with security-rich features, including password protection and data encryption. Put

information where officers need it with data search capabilities at the desk, in the car, or on foot with a mobile device. Improve community and officer safety by providing intelligence and situational awareness of persons, locations, and vehicles. A modular design allows COPLINK to integrate with many parts of an organization's preexisting information structure. Additionally, COPLINK can be deployed in phases according to an agency's most pressing needs. COPLINK was originally designed with continuous feedback from line-level police officers and detectives and it is continually evaluated for new functionality. This IBM Redguide™ publication describes the IBM COPLINK business value and its solution capabilities. This guide is intended as an introduction for law enforcement executives, and for those evaluating advanced law enforcement software solutions for their organizations.

Pre-Incident Indicators of Terrorist Incidents - Brent L. Smith

2011-01

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
