**SCOTUS 2019** - David Klein 2019-10-25

Each year, the Supreme Court of the United States announces new rulings with deep consequences for our lives. This second volume in Palgrave's SCOTUS series explains and contextualizes the landmark cases of the US Supreme Court in the term ending 2019. With a close look at cases involving key issues and debates in American politics and society, SCOTUS 2019 tackles the Court's rulings on the census citizenship question, partisan gerrymandering, religious monuments, the death penalty, race in jury selection, double jeopardy, jury trials for reimprisonment during supervised release, Fourth Amendment protection for blood alcohol tests, deference to federal agencies, excessive fines under the Eighth Amendment and more. Written by notable scholars in political science and law, the chapters in SCOTUS 2019 present the details of each ruling, its meaning for constitutional

debate, and its impact on public policy or partisan politics. Finally, SCOTUS 2019 offers an analysis of the controversial Justice Brett Kavanaugh's first term in office, as well as a big-picture look at the implications of the Court's decisions for the direction of this new Roberts Court.

*Masculinity and Morality* - Larry May 2018-09-05

What does it mean to be a morally responsible man? Psychology and the law have offered reasons to excuse men for acting aggressively. In these philosophically reflective essays, Larry May argues against standard accounts of traditional male behavior, discussing male anger, paternity, pornography, rape, sexual harassment, the exclusion of women, and what he terms the myth of uncontrollable male sexuality. While refuting the platitudes of the popular men's movement, his book challenges men to reassess and change behavior that has had detrimental effects on the lives of women and of men. In May's view, the key to solving many problems is to understand how individual actions may combine to produce large-scale, harmful consequences. May is eager to reconceptualize male roles in ways that build on men's strength rather than rendering them androgynous. Each chapter in his book suggests strategies to effect changes based on May's views on the nature of moral responsibility. Examining separatism and the socialization of youth in athletics and the military, specifically at Virginia Military Institute and the Citadel, May analyzes the moral implications of the way all-male environments are constructed. Rejecting the standard arguments for them, he speculates about the positive ways they might be used to transform the socialization of young men.

**The Martindale-Hubbell Law Directory - 1996****When Texas Prison Scams Religion** - Michael G. Maness 2023-05-22

When Texas Prison Scams Religion exposes corruption in the Texas Department of Criminal Justice, especially in the abuse of religion. In many ways, this book is a literature review of 1,800-plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that “buys faith with favor” from prisoners. The state veritably ordains the prisoner a “Field Minister” that represents the offices of the Governor, TDCJ Director, and wardens throughout the prison. Therein, TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors. Why is the director sponsoring psychopaths counseling psychopaths? In fact, TDCJ pays \$314 million a year to UTMB for psychiatric care and receives not a single report of the care given, and worse, for UTMB generates no reports itself. The underbelly TDCJ’s executive culture of cover up is exposed. TDCJ has hired the lowest qualified of the applicant pool many times in the last 25 years and regularly destroys statistics on violence. TDCJ Dir. Collier led the prison to model Louisiana Warden Burl Cain, the most scandal-ridden in penal history according to a host of published news stories for 20 years. Therein, Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism. Texas has no business endorsing the truth of any religion over another. We close with a proposal that utilizes the 400,000,000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision. Maness has been lobbying Austin for 15 years to definitively access staff for his “100,000 Mothers’ 1% Certainty Parole Texas Constitutional Amendment,” which would revolutionize prison culture and save Texans millions of the dollars. *Journal of the House of Representatives of the United States* - United States. **Spying with Maps** - Mark Monmonier 2004-04

Maps, as we know, help us find our way around. But they're also powerful tools for someone hoping to find you. Widely available in electronic and paper formats, maps offer revealing insights into our movements and activities, even our likes and dislikes. In *Spying with Maps*, the "mapmatician" Mark Monmonier looks at the increased use of geographic data, satellite imagery, and location tracking across a wide range of fields such as military intelligence, law enforcement, market research, and traffic engineering. Could these diverse forms of geographic monitoring, he asks, lead to grave consequences for society? To assess this very real threat, he explains how geospatial technology works, what it can reveal, who uses it, and to what effect. Despite our apprehension about surveillance technology, *Spying with Maps* is not a jeremiad, crammed with dire warnings about eyes in the sky and invasive tracking. Monmonier's approach encompasses both skepticism and the acknowledgment that geospatial technology brings with it unprecedented benefits to governments, institutions, and individuals, especially in an era of asymmetric warfare and bioterrorism. Monmonier frames his explanations of what this new technology is and how it works with the question of whether locational privacy is a fundamental right. Does the right to be left alone include not letting Big Brother (or a legion of Little Brothers) know where we are or where we've been? What sacrifices must we make for homeland security and open government? With his usual wit and clarity, Monmonier offers readers an engaging, even-handed introduction to the dark side of the new technology that surrounds us—from traffic cameras and weather satellites to personal GPS devices and wireless communications.

How would you handle these situations? Check your expertise against

the approaches presented here! This fascinating collection shows how a practicing therapist handled clients stuck in the therapeutic process. *Clinical Epiphanies in Marital and Family Therapy: A Practitioner's Casebook of Therapeutic Insights, Perceptions, and Breakthroughs* presents a cross-section of approaches and orientations as they work in practice. This point-counterpoint structure allows readers to analyze the effectiveness of different therapeutic approaches and to recognize that in practice, heterogeneous orientations may result in similar strategies. *Clinical Epiphanies in Marital and Family Therapy* demonstrates the factors that contribute to doing successful therapy, including: ensuring that clients feel they are being treated with respect establishing a sound therapeutic relationship making successful treatment bargains moving away from your therapeutic agenda when necessary being persistent in the face of a stubborn refusal to change *Clinical Epiphanies in Marital and Family Therapy* offers fresh strategies for experienced practitioners, beginning therapists, and educators in the field of mental health.

*White Metropolis* - Michael Phillips 2010-01-01

From the nineteenth century until today, the power brokers of Dallas have always portrayed their city as a progressive, pro-business, racially harmonious community that has avoided the racial, ethnic, and class strife that roiled other Southern cities. But does this image of Dallas match the historical reality? In this book, Michael Phillips delves deeply into Dallas's racial and religious past and uncovers a complicated history of resistance, collaboration, and assimilation between the city's African

American, Mexican American, and Jewish communities and its white power elite. Exploring more than 150 years of Dallas history, Phillips reveals how white business leaders created both a white racial identity and a Southwestern regional identity that excluded African Americans from power and required Mexican Americans and Jews to adopt Anglo-Saxon norms to achieve what limited positions of power they held. He also demonstrates how the concept of whiteness kept these groups from allying with each other, and with working- and middle-class whites, to build a greater power base and end elite control of the city. Comparing the Dallas racial experience with that of Houston and Atlanta, Phillips identifies how Dallas fits into regional patterns of race relations and illuminates the unique forces that have kept its racial history hidden until the publication of this book.

**Guns and Contemporary Society [3 volumes]** - Glenn H. Utter 2015-12-01

This three-volume set examines various approaches to firearms, including constitutional and legal issues, public health and criminal justice concerns, and perspectives on personal safety and self-defense. Recent mass shootings have led to renewed calls for additional legislation at the state and federal levels to address gun access and control. In this hard-hitting compilation, experts delve into various aspects of firearms in America—from gun control and gun rights to militia movements, to school-related shootings, and to the recent trends in gun ownership by women. Authors from varied backgrounds and viewpoints share their perspectives on the pros and cons of firearm ownership as all of the following: a constitutional right, a key instrument of self-defense, a guarantee of political freedoms, and as a major factor in crime and personal injury. The reference is divided into three volumes. The first volume covers firearm history, legislation, and policy; the second volume explores public opinion, gun ownership trends,

international laws, and self-defense; and the third considers popular debates about firearm policy, including concealed carry of firearms, terrorism and the ownership of firearms, background checks for purchasing guns, and stand-your-ground laws. The work concludes with an informed debate on gun policy between Richard Feldman, president of the Independent Firearm Owners, and Paul Helmke, former president of the Brady Campaign to Prevent Gun Violence.
