[The Autobiography of Malcolm X](#) - Malcolm X 1965

Malcolm X's blazing, legendary autobiography, completed shortly before his assassination in 1965, depicts a remarkable life: a child born into rage and despair, who turned to street-hustling and cocaine in the Harlem ghetto, followed by prison, where he converted to the Black Muslims and honed the energy and brilliance that made him one of the most important political figures of his time - and an icon in ours. It also charts the spiritual journey that took him beyond militancy, and led to his murder, a powerful story of transformation, redemption and betrayal. Vilified by his critics as an anti-white demagogue, Malcolm X gave a voice to unheard African-Americans, bringing them pride, hope and fearlessness, and remains an inspirational and controversial figure today.

Black Men on Race, Gender, and Sexuality - Devon Carbado 1999-07

A groundbreaking anthology of essays providing commentary on gender and sexuality inclusion in the antiracist movement. In late 1995, the Million Man March drew hundreds of thousands of black men to Washington, DC, and seemed even to skeptics a powerful sign not only of black male solidarity, but also of black racial solidarity. Yet while generating a sense of community and common purpose, the Million Man March, with its deliberate exclusion of women and implicit rejection of black gay men, also highlighted one of the central faultlines in African American politics: the role of gender and sexuality in antiracist agenda. In this groundbreaking anthology, a companion to the highly successful *Critical Race Feminism*, Devon Carbado changes the terms of the debate over racism, gender, and sexuality in black America. The essays cover such topics as the legal construction of black male identity, domestic abuse in the black community, the enduring power of black machismo, the politics of black male/white female relationships, racial essentialism, the role of black men in black women's quest for racial equality, and the heterosexist nature of black political engagement. "Featuring work by Cornel West, Huey Newton, Henry Louis Gates, Jr., A. Leon Higginbotham, Jr., Houston Baker, Marlon T. Riggs, Dwight McBride, Michael Awkward, Ishmael Reed, Derrick Bell, and many others, Devon Carbado's anthology stakes out new territory in the American racial landscape."—*Critical America*, A series edited by Richard Delgado and Jean Stephancic

In her warm, down-to-earth style, she reveals the steps that every couple must take to overcome these difficulties and put their marriage on solid footing. The Promise of Patriarchy - Ula Yvette Taylor 2017-09-05

The patriarchal structure of the Nation of Islam

(NOI) promised black women the prospect of finding a provider and a protector among the organization's men, who were fiercely committed to these masculine roles. Black women's experience in the NOI, however, has largely remained on the periphery of scholarship. Here, Ula Taylor documents their struggle to escape the devaluation of black womanhood while also clinging to the empowering promises of patriarchy. Taylor shows how, despite being relegated to a lifestyle that did not encourage working outside of the home, NOI women found freedom in being able to bypass the degrading experiences connected to labor performed largely by working-class black women and in raising and educating their children in racially affirming environments. Telling the stories of women like Clara Poole (wife of Elijah Muhammad) and Burnsteen Sharrieff (secretary to W. D. Fard, founder of the Allah Temple of Islam), Taylor offers a compelling narrative that explains how their decision to join a homegrown, male-controlled Islamic movement was a complicated act of self-preservation and self-love in Jim Crow America. The Socialist Feminist Project - Nancy Holmstrom 2002-08

Socialist Feminism brings together the most important recent socialist feminist writings on a wide range of topics: sex and reproduction, the family, wage labor, social welfare and public policy, the place of sex and gender in politics, and the philosophical foundations of socialist feminism.

Blood Sweat & Tears: The Nation of Islam and Me - Lance Shabazz 2015-02-19

Lip profession counts for naught unless carried into practice. I therefore share some of my history for the family and students of the Nation of Islam.

Epic Encounters - Melani McAlister 2005-07-05
Epic Encounters examines how popular culture has shaped the ways Americans define their "interests" in the Middle East. In this innovative book—now brought up-to-date to include 9/11 and the Iraq war—Melani McAlister argues that U.S. foreign policy, while grounded in material and military realities, is also developed in a cultural context. American understandings of the region are framed by narratives that draw on religious belief, news media accounts, and popular culture. This remarkable and pathbreaking book skillfully weaves lively and accessible readings of film, media, and music with a rigorous analysis of U.S. foreign policy, race politics, and religious history. The new chapter, titled "9/11 and After: Snapshots on the Road to Empire," considers and brilliantly analyzes five images that have become iconic: (1) New York City firemen raising the American flag out of the rubble of the World Trade Center, (2) the televised image of Osama bin-Laden, (3) Afghani women in burqas, (4) the statue of Saddam Hussein being toppled in Baghdad, and (5) the hooded and wired prisoner in Abu Ghraib. McAlister's singular achievement is to illuminate the contexts of these five images both at the time they were taken and as they relate to current events, an accomplishment all the more remarkable since—to paraphrase her new preface—we are today struggling to look backward at something that is still rushing ahead.

How Long? How Long? - Belinda Robnett 2000-01-13

A compelling and readable narrative history, *How Long? How Long?* presents both a rethinking of social movement theory and a controversial thesis: that chroniclers have egregiously neglected the most important leaders of the Civil Rights movement, African-American women, in favor of higher-profile African-American men and white women. Author Belinda Robnett argues that the diversity of experiences of the African-American women organizers has been underemphasized in favor of monolithic treatments of their femaleness and

blackness. Drawing heavily on interviews with actual participants in the American Civil Rights movement, this work retells the movement as seen through the eyes and spoken through the voices of African-American women participants. It is the first book to provide an analysis of race, class, gender, and culture as substructures that shaped the organization and outcome of the movement. Robnett examines the differences among women participants in the movement and offers the first cohesive analysis of the gendered relations and interactions among its black activists, thus demonstrating that femaleness and blackness cannot be viewed as sufficient signifiers for movement experience and individual identity. Finally, this book makes a significant contribution to social movement theory by providing a crucial understanding of the continuity and complexity of social movements, clarifying the need for different layers of leadership that come to satisfy different movement needs. An engaging narrative history as well as a major contribution to social movement and feminist theory, *How Long? How Long?* will appeal to students and scholars of social activism, women's studies, American history, and African-American studies, and to general readers interested in the perennially fascinating story of the American Civil Rights movement.

Achieving Blackness - Algernon Austin 2006-04-10

Achieving Blackness offers an important examination of the complexities of race and ethnicity in the context of black nationalist movements in the United States. By examining the rise of the Nation of Islam, the Black Power Movement of the 1960s and 1970s, and the

“Afrocentric era” of the 1980s through 1990s Austin shows how theories of race have shaped ideas about the meaning of “Blackness” within different time periods of the twentieth-century. *Achieving Blackness* provides both a fascinating history of Blackness and a theoretically challenging understanding of race and ethnicity. Austin traces how Blackness was defined by cultural ideas, social practices and shared identities as well as shaped in response to the social and historical conditions at different moments in American history. Analyzing black public opinion on black nationalism and its relationship with class, Austin challenges the commonly held assumption that black nationalism is a lower class phenomenon. In a refreshing and final move, he makes a compelling argument for rethinking contemporary theories of race away from the current fascination with physical difference, which he contends sweeps race back to its misconceived biological underpinnings. *Achieving Blackness* is a wonderful contribution to the sociology of race and African American Studies.

[Across the Worlds of Islam](#) - Edward E. Curtis IV
2023-07-18

Muslim people are found all over the world. Most live outside the Middle East, from Asia to the Americas. The vast majority of contemporary

Muslims are not fluent in Arabic, and speakers of languages such as Persian, Urdu, and Turkish have made essential contributions to Islamic history and culture. However, typical courses on Islam tend to downplay areas beyond the Middle East, focusing on Arabic texts and elite theological and doctrinal arguments. This book offers an inclusive view of the diversity and complexity of the many worlds of Islam, investigating ethics and aesthetics as much as scriptures and theology. By paying attention to Muslims who are socially, culturally, doctrinally, or politically marginalized, it provides a comprehensive and all-embracing vision of the religion and its many interrelated communities. Contributors from a range of personal and intellectual backgrounds explore the capaciousness of Muslim identities, helping readers achieve a broader understanding of the past, present, and future of the Muslim world. This book includes communities such as the Nation of Islam and Alevi Muslims, and it goes beyond rituals like prayer and fasting to consider a wider array of practices, such as tattooing. *Across the Worlds of Islam* is at once student-friendly and cutting-edge, written with both introductory courses and general readers in mind. Examining Muslim identity and practice from the perspective of the margins, it offers nuanced portraits of Muslim life across geographic and sectarian divisions.
