Dress Culture in Late Victorian Women's Fiction Christine Bayles Kortsch 2016-05-13 In her immensely readable and richly documented book, Christine Bayles Kortsch asks us to shift our understanding of late Victorian literary culture by examining its inextricable relationship with the material culture of dress and sewing. Even as the Education Acts of 1870, 1880, and 1891 extended the privilege of print literacy to greater numbers of the populace, stitching samplers continued to be a way of acculturating girls in both print literacy and what Kortsch terms "dress culture." Kortsch explores nineteenth-century women's education, sewing and needlework, mainstream fashion, alternative dress movements, working-class labor in the textile industry, and forms of social activism, showing how dual literacy in dress and print cultures linked women writers with their readers. Focusing on Victorian novels written between 1870 and 1900, Kortsch examines fiction by writers such as Olive Schreiner, Ella Hepworth Dixon, Margaret Oliphant, Sarah Grand, and Gertrude Dix, with attention to influential predecessors like Elizabeth Gaskell, Charlotte Brontë, and George Eliot. Periodicals, with their juxtaposition of journalism, fiction, and articles on dress and sewing are particularly fertile sites for exploring the close linkages between print and dress cultures. Informed by her examinations of costume collections in British and American museums, Kortsch's book broadens our view of New Woman fiction and its relationship both to dress culture and to contemporary women's fiction.

**Literary Theory: A Complete Introduction** Sara Upstone 2017-05-04 Literary theory has now become integral to how we produce literary criticism. When critics write about a text, they no longer think just about the biographical or historical contexts of the work, but also about the different approaches that literary theory offers. By making use of these, they create new interpretations of the text that would not otherwise be possible. In your own reading and writing, literary theory fosters new avenues into the text. It allows you to make informed comments about the language and form of literature, but also about the core themes - concepts such as gender, sexuality, the self, race, and class - which a text might explore. Literary theory gives you an almost limitless number of texts to work into your own response, ensuring that your interpretation is truly original. This is why, although literary theory can initially appear alienating and difficult, it is something to get really excited about. Imagine you are standing in the centre of a circular room, with a whole set of doors laid out around you. Each doorway opens on to a new and illuminating field of knowledge that can change how you think about what you have read: perhaps in just a small way, but also perhaps dramatically and irrevocably. You can open one door, or many of them. The choice is yours. Put the knowledge you gain together with your own interpretation, however, and you have a unique and potentially fascinating response. Each chapter in *Literary Theory: A Complete Introduction* covers a key school of thought, progressing to a point at which you'll have a full understanding of the range of responses and approaches available for textual interpretation. As well as focusing on such core areas as Marxism, Modernism, Postmodernism, Structuralism and Poststructuralism, this introduction brings in recent developments such as Eco and Ethical Criticism and Humanisms.

*Auto-poetica* Darby Lewes 2006 A work of art written about an artist creating a work of art is, in a sense, a novel in which the author is a character. The essays in this collection examine nineteenth-

century texts that attempted to merge fiction and reality into a unified whole.

Handbook of the British Novel in the Long Eighteenth Century Katrin Berndt 2022-07-18 The handbook offers a comprehensive introduction to the British novel in the long eighteenth century, when this genre emerged to develop into the period's most versatile and popular literary form. Part I features six systematic chapters that discuss literary, intellectual, socio-economic, and political contexts, providing innovative approaches to issues such as sense and sentiment, gender considerations, formal characteristics, economic history, enlightened and radical concepts of citizenship and human rights, ecological ramifications, and Britain's growing global involvement. Part II presents twenty-five analytical chapters that attend to individual novels, some canonical and others recently recovered. These analyses engage the debates outlined in the systematic chapters, undertaking in-depth readings that both contextualize the works and draw on relevant criticism, literary theory, and cultural perspectives. The handbook's breadth and depth, clear presentation, and lucid language make it attractive and accessible to scholar and student alike.

**Prose Fiction: An Introduction to the Semiotics of Narrative** Ignasi Ribó 2019-12-13 This concise and highly accessible textbook outlines the principles and techniques of storytelling. It is intended as a high-school and college-level introduction to the central concepts of narrative theory – concepts that will aid students in developing their competence not only in analysing and interpreting short stories and novels, but also in writing them. This textbook prioritises clarity over intricacy of theory, equipping its readers with the necessary tools to embark on further study of literature, literary theory and creative writing. Building on a 'semiotic model of narrative,' it is structured around the key elements of narratological theory, with chapters on plot, setting, characterisation, and narration, as well as on language and theme – elements which are underrepresented in existing

textbooks on narrative theory. The chapter on language constitutes essential reading for those students unfamiliar with rhetoric, while the chapter on theme draws together significant perspectives from contemporary critical theory (including feminism and postcolonialism). This textbook is engaging and easily navigable, with key concepts highlighted and clearly explained, both in the text and in a full glossary located at the end of the book. Throughout the textbook the reader is aided by diagrams, images, quotes from prominent theorists, and instructive examples from classical and popular short stories and novels (such as Jane Austen's *Pride and Prejudice*, Franz Kafka's 'The Metamorphosis,' J. K. Rowling's *Harry Potter*, or Dostoyevsky's *The Brothers Karamazov*, amongst many others). *Prose Fiction: An Introduction to the Semiotics of Narrative* can either be incorporated as the main textbook into a wider syllabus on narrative theory and creative writing, or it can be used as a supplementary reference book for readers interested in narrative fiction. The textbook is a must-read for beginning students of narratology, especially those with no or limited prior experience in this area. It is of especial relevance to English and Humanities major students in Asia, for whom it was conceived and written.

**Rooms of Our Own** Susan Gubar 2006-10-30 With a little help from Virginia Woolf, Susan Gubar contemplates startling transformations produced by the women's movement in recent decades. What advances have women made and what still needs to be done? Taking Woolf's classic *A Room of One's Own* as her guide, Gubar engages these questions by recounting one year in the life of an English professor. A meditation on the teaching of literature and on the state of the humanities today, her chapters also provide a crash course on the challenges and changes in feminist intellectual history over the past several decades: the influence of post-structuralism and of critical race, postcolonial, and cultural studies scholarship; the stakes of queer theory and the institutionalization of women's studies; and the effects of globalism and bioengineering on conversations about gender, sex, and sexuality. Yet *Rooms of Our Own* eschews a scholarly approach. Instead, through narrative criticism it enlists a thoroughly contemporary cast of characters who tell us as much about the comedies and tragedies of campus life today as they do about the sometimes contentious but invariably liberating feminisms of our future.

**Charlotte Bronte - Jane Eyre** Sara Lodge 2008-11-27 Sara Lodge offers a lively introduction to the critical history of one of the most widely-studied nineteenth-century novels, from the first reviews through to present day responses. The Guide also includes sections devoted to feminist, Marxist and postcolonial criticism of *Jane Eyre*, as well as analysis of recent developments.

*Late-Life Love: A Memoir* Susan Gubar 2018-11-13 During a difficult year, acclaimed writer Susan Gubar celebrates her lasting partnership and the reciprocity of lovers in later life. On Susan Gubar's seventieth birthday, she receives a beautiful ring from her husband. As she contemplates their sustaining relationship, she begins to consider how older lovers differ from their youthful counterparts—and from ageist stereotypes. While her husband confronts age-related disabilities that

effectively ground them, Susan dawdles over the logistics of moving from their cherished country house to a more manageable place in town and starts seeking out literature on the changing seasons of desire. Throughout the complications of devoted caregiving, her own ongoing cancer treatments, apartment hunting, the dismantling of a household, and perplexity over the breakdown of a treasured friendship, Susan finds consolation in books and movies. Works by writers from Ovid and Shakespeare to Gabriel García Márquez and Marilynne Robinson lead Susan to appraise the obstacles many senior couples overcome: the unique sexuality of bodies beyond their prime as well as the trials of retirement, adult children, physical infirmities, the multiplications or subtractions of memory, and the aftereffects of trauma. On the page and in life, Susan realizes that age cannot wither love. A memoir proving that the heart's passions have no expiration date, *Late-Life Love* rejoices in second chances.

**Sandra M. Gilbert and Susan Gubar's *The Madwoman in the Attic*** Rebecca Pohl 2018-05-11  
The 1979 publication of Susan Gubar and Sandra M. Gilbert's ground-breaking study *The Madwoman in the Attic* marked a founding moment in feminist literary history as much as feminist literary theory. In their extensive study of nineteenth-century women's writing, Gubar and Gilbert offer radical re-readings of Jane Austen, the Brontës, Emily Dickinson, George Eliot and Mary Shelley tracing a distinctive female literary tradition and female literary aesthetic. Gubar and Gilbert raise questions about canonisation that continue to resonate today, and model the revolutionary importance of re-reading influential texts that may seem all too familiar

**Reclaiming Myths of Power** Ruth Y. Jenkins 1995 "This book re-examines the Victorian spiritual

crisis from the perspective of the period's women writers, exploring the spiritual dimension in their lives and narratives. The introduction considers the relationship between sacred and secular canons and the limited access women have had to both. In the following chapters, case studies of the lives and selected texts of Florence Nightingale, Charlotte Bronte, Elizabeth Gaskell, and George Eliot provide an in-depth analysis of the relationship between female spiritual crises and diverse narrative strategies that reappropriate the conservative power associated with religious symbolism for a radical revisioning of women's social subjection." "By analyzing the neglected spiritual crises these women experienced, their discourse, and that produced by other Victorian women, this study reveals a more complex, problematic, and polemical dialogue during the period than has previously been argued."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. *Reading Women* Jennifer Phegley 2005-01-01 Literary and popular culture has often focused its attention on women readers, particularly since early Victorian times. In *Reading Women*, an esteemed group of new and established scholars provide a close study of the evolution of the woman reader by examining a wide range of nineteenth- and twentieth-century media, including Antebellum scientific treatises, Victorian paintings, and Oprah Winfrey's televised book club, as well as the writings of Charlotte Brontë, Harriet Beecher Stowe, and Zora Neale Hurston. Attending especially to what, how, and why women read, *Reading Women* brings together a rich array of subjects that sheds light on the defining role the woman reader has played in the formation, not only of literary history, but of British and American culture. The contributors break new ground by focusing on the impact representations of women readers have had on understandings of literacy and certain

reading practices, the development of books and print culture, and the categorization of texts into high and low cultural forms.

Women's Life Writing and Imagined Communities Cynthia Huff 2005 Recognising the great legacy of women's life writings, this book draws on a wealth of sources to critically examine the impact of these writings on our communities.

Victorian Servants, Class, and the Politics of Literacy Jean Fernandez 2009-09-10 In this volume, Fernandez brings the under-examined figure of the Victorian servant out of obscurity in order to tell the story of his or her encounter with literacy, as imagined and represented in nineteenth-century fiction, autobiography, pamphlets and diaries. A vast body of writing is uncovered on the management of servant literacy in Victorian periodicals, advice manuals, cartoons, sermons, books on household management, and pornography, thereby revealing that the domestic sphere was a crucial war zone in the battle over mass literacy. By attending to how fictional and nonfictional texts of the age feature literate servant narrators, she demonstrates how the issue of servant literacy as a cultural phenomenon has profound implications for our understanding of the nexus between class, mass literacy, voice and narrative power in the nineteenth century. The study reads canonical fiction by Mary Wollstonecraft, Emily Bronte, Elizabeth Gaskell, Wilkie Collins, and R.L. Stevenson alongside popular detective fiction by Catherine Crowe, the Diaries of Hannah Cullwick, and best-selling pamphlets of the age, while introducing to Victorian scholarship hitherto little known or unknown servant autobiographies that address life history as an engagement with literacy.

**Reading and Writing Ourselves into Being** Claire White Putala 2004-12-01 This text is a study of

literacy based upon a set of correspondence, the Osborne Family Papers, 1812–1968, housed in the Special Collections Research Center of Syracuse University. A collection of some 358 boxes, it is particularly well suited for a study on literacy. In addition to the voluminous public and private correspondence of prison reformer Thomas Mott Osborne (1859–1926), a vast and rich store of the family's literacy "works" have been carefully preserved. In addition to hundreds of letters, many between and among the women of the family, it also abounds with other literacy documents of interest such as ledgers, account books, travelogues, verse, diaries, and notes. Unusually and quite valuably, even scraps of children's writing have been preserved, making possible studies regarding emergent literacy practices of the times.

*Gothic Feminism* Diane Long Hoeveler 2010-11-01 As British women writers in the late eighteenth and early nineteenth centuries sought to define how they experienced their era's social and economic upheaval, they helped popularize a new style of bourgeois female sensibility. Building on her earlier work in *Romantic Androgyny*, Diane Long Hoeveler now examines the Gothic novels of Charlotte Smith, Ann Radcliffe, Jane Austen, Charlotte Dacre Byrne, Mary Shelley, and the Brontës to show how these writers helped define femininity for women of the British middle class. Hoeveler argues that a female-created literary ideology, now known as "victim feminism," arose as the Gothic novel helped create a new social role of professional victim for women adjusting to the new bourgeois order. These novels were thinly disguised efforts at propagandizing a new form of conduct for women, teaching that "professional femininity"—a cultivated pose of wise passiveness and controlled emotions—best prepared them for social survival. She examines how representations of both men and women in these novels moved from the purely psychosexual into social and political representations, and how these writers constructed a series of ideologies that would allow their

female characters&—and readers&—fictitious mastery over an oppressive social and political system. Gothic Feminism takes a neo-feminist approach to these women's writings, treating them not as sacred texts but as thesis-driven works that attempted to instruct women in a series of strategic poses. It offers both a new understanding of the genre and a wholly new interpretation of feminism as a literary ideology.

**Women Writers and Poetic Identity** Margaret Homans 2014-07-14 How does the consciousness of being a woman affect the workings of the poetic imagination? With this question Margaret Homans introduces her study of three nineteenth-century women poets and their response to a literary tradition that defines the poet as male. Her answer suggests why there were so few great women poets in an age when most of the great novelists were women. Originally published in 1981. *Madness and Confinement in Charlotte Perkins Gilman's "The Yellow Wall-Paper" and Charlotte Brontë's Jane Eyre* Eva Maria Krehl 2006-09-15 Studienarbeit aus dem Jahr 2005 im Fachbereich Anglistik - Literatur, Note: 1,5, Eberhard-Karls-Universität Tübingen, Veranstaltung: Gender: Reading and Writing between Romanticism and the 20th Century, 10 Quellen im Literaturverzeichnis, Sprache: Deutsch, Abstract: A reader of nineteenth century literature by women is bound to encounter a striking coherence of theme and imagery throughout all genres. One of the recurring themes is that of madness and confinement. The often cited "Mad Woman in the Attic," who is locked away by male authority, appears as a central figure both in Charlotte Perkins Gilman's short story "The Yellow Wall-Paper," written in 1890, and Charlotte Brontë's famous novel Jane Eyre, which was published in 1847. This essay will seek to explore similarities between the two works in respect to their description of madness as an escape from repressive social structures. The mad woman will be discussed as representing a rebellious double to the submissive heroine, who appears to be fragmented and confined by Victorian conventions of propriety. Emphasis will be laid as well on the medical treatment of mental illnesses that both texts deal with. It will be shown that gender-biased medical judgments made by men in both works actually have their origin in subconscious male anxieties.

Fictional Authors, Imaginary Audiences Bonnie S. McDougall 2004 The authors and audiences for 20th century Chinese literature, especially fiction, are examined in a fresh light. While modern Chinese fictions are imaginary in that they do not constitute reliable portraits of Chinese life, they

offer insights into the writers themselves and their implied audiences.

Memoir of a Debulked Woman: Enduring Ovarian Cancer Susan Gubar 2012-04-30 A 2012 New York Times Book Review Notable Book "Staggering, searing...Ms. Gubar deserves the highest admiration for her bravery and honesty." —New York Times Diagnosed with ovarian cancer in 2008, Susan Gubar underwent radical debulking surgery, an attempt to excise the cancer by removing part or all of many organs in the lower abdomen. Her memoir mines the deepest levels of anguish and devotion as she struggles to come to terms with her body's betrayal and the frightful protocols of contemporary medicine. She finds solace in the abiding love of her husband, children, and friends while she searches for understanding in works of literature, visual art, and the testimonies of others who suffer with various forms of cancer. Ovarian cancer remains an incurable disease for most of those diagnosed, even those lucky enough to find caring and skilled physicians. *Memoir of a Debulked Woman* is both a polemic against the ineffectual and injurious medical responses to which thousands of women are subjected and a meditation on the gifts of companionship, art, and literature that sustain people in need.

**Real and Imagined Women in British Romanticism** Gaura Shankar Narayan 2010 "Real and Imagined Women in British Romanticism uses feminist ideology and deconstructive criticism to reconstruct the cultural context embedded in Romantic canonical texts. To achieve this end, the book undertakes a close textual study of these texts and places them in the intellectual context of Mary Wollstonecraft's critique of culture. As a result of intellectual contextualizing as well as theoretical applications, the Romantic imagination, as represented by William Wordsworth and John Keats, emerges as the place where gender division and gender certitude break down. This book intervenes in the traditional critical debates about the Romantic imagination to show that the

Romantic imagination, as set forth in these texts, registers the vigorous cultural politics of gender and aesthetics that defined the 1790s and continued to exert influence for decades." --Book Jacket. Sensibility and Female Poetic Tradition, 1780-1860 Claire Knowles 2009 Arguing that the end of the eighteenth century witnessed the emergence of an important female poetic tradition, Knowles analyzes the poetry of the Della Cruscans, Charlotte Smith, Susan Evance, Letitia Elizabeth Landon, and Elizabeth Barrett-Browning in the context of a mass literary culture and the move from the discourse of sensibility to the rhetoric of sentimentality. Knowles shows that Smith pioneered an autobiographical approach to poetic production that continues today.

*The Madwoman in the Attic* Sandra M. Gilbert 2020-03-17 Called "a feminist classic" by Judith Shulevitz in the New York Times Book Review, this pathbreaking book of literary criticism is now reissued with a new introduction by Lisa Appignanesi that speaks to how *The Madwoman in the Attic* set the groundwork for subsequent generations of scholars writing about women writers, and why the book still feels fresh some four decades later. "Gilbert and Gubar have written a pivotal book, one of those after which we will never think the same again."--Carolyn G. Heilbrun, Washington Post Book World

*Teaching British Women Writers, 1750-1900* Jeanne Moskal 2005 The exuberant recovery from obscurity of scores of British women writers has prompted professors and publishers to revisit publication of women's writings. New curricular inclusion of these sometimes quirky, often passionate writers profoundly disrupts traditional pedagogical assumptions about what constitutes «literature». This book addresses this radically changed educational landscape, offering practical, proven teaching strategies for newly «recovered» writers, both in special-topics courses and in traditional teaching environments. Moreover, it addresses the institutional issues confronting

feminist scholars who teach women writers in a variety of settings and the kinds of career-altering effects the decision to teach this material can have on junior and senior scholars alike. Collectively, these essays argue that teaching noncanonical women writers invigorates the curriculum as a whole, not only by introducing the voices of women writers, but by incorporating new genres, by asking new questions about readers' assumptions and aesthetic values, and by altering the power relations between teacher and student for the better.

Mad, Bad And Sad Lisa Appignanesi 2011-10-06 Mad, bad and sad. From the depression suffered by Virginia Woolf and Sylvia Plath to the mental anguish and addictions of iconic beauties Zelda Fitzgerald and Marilyn Monroe. From Freud and Jung and the radical breakthroughs of psychoanalysis to Lacan's construction of a modern movement and the new women-centred therapies. This is the story of how we have understood mental disorders and extreme states of mind in women over the last two hundred years and how we conceive of them today, when more and more of our inner life and emotions have become a matter for medics and therapists.

**The Collected Short Stories** Jean Rhys 1992 Jean Rhys was one of the twentieth century's foremost writers, a literary artist who made exquisite use of the raw material of her own often turbulent life to create fiction of memorable resonance and poignancy. A Literature of Their Own Elaine Showalter 2020-12-08 When first published in 1977, *A Literature of Their Own* quickly set the stage for the creative explosion of feminist literary studies that transformed the field in the 1980s. Launching a major new area for literary investigation, the book uncovered the long but neglected tradition of women writers in England. A classic of feminist criticism, its impact continues to be felt today. This revised and expanded edition contains a new

introductory chapter surveying the book's reception and a new postscript chapter celebrating the legacy of feminism and feminist criticism in the efflorescence of contemporary British fiction by women.

*Exemplary Ambivalence in Late Nineteenth-century Spanish America* Elisabeth L. Austin 2012  
Exemplary Ambivalence fills a critical gap within studies of 19th-century Spanish America as it explores the inconsistencies of exemplary texts and emphasizes the forms, sources, and implications of creole ideological and narrative multiplicity. This interdisciplinary study examines creole writing subjectivities and ethnic fictions within the construction of national, aesthetic, and gendered cultural identities, highlighting the dynamic relationship between exemplary discourse and readers as active interpretive agents.

**National Identity and Cultural Representation in the Novels of Arundhati Roy and Kiran Desai** Sonali Das 2018-04-18 This book is the first of its kind to examine the theories of nation and national identity in both the West (according to the theories of Benedict Anderson and Salman Rushdie) and in the East (in the light of the works of Jawaharlal Nehru) as they apply to the novels of Arundhati Roy and Kiran Desai. The second part of the twentieth century witnessed a new interface between fiction and history called "New History". It brought into its purview the hitherto marginalized sections of society like slaves, peasants, workers, women, and children. Whereas the subalterns in *The Inheritance of Loss* are disempowered by the brunt of globalisation and neo-colonialism, the subalterns in *The God of Small Things* face the ire of the deep-seated divisions based on caste and gender bias in a postcolonial society. In addition, this book also deals with contemporary social issues like individual identity in a multicultural world where cultures and nature converge into myriad ways of living. It will be of immense benefit to MA and MPhil students

all over India, as well as to PhD scholars and teachers of English literature both in India and abroad.

**Gilbert and Gubar's *The Madwoman in the Attic after Thirty Years*** Annette R. Federico  
2011-01-25

When it was published in 1979, Sandra M. Gilbert and Susan Gubar's *The Madwoman in the Attic: The Woman Writer and the Nineteenth-Century Literary Imagination* was hailed as a pathbreaking work of criticism, changing the way future scholars would read Jane Austen, Mary Shelley, the Brontës, George Eliot, and Emily Dickinson. This thirtieth-anniversary collection adds both valuable reassessments and new readings and analyses inspired by Gilbert and Gubar's approach. It includes work by established and up-and-coming scholars, as well as retrospective accounts of the ways in which *The Madwoman in the Attic* has influenced teaching, feminist activism, and the lives of women in academia. These contributions represent both the diversity of today's feminist criticism and the tremendous expansion of the nineteenth-century canon. The authors take as their subjects specific nineteenth- and twentieth-century women writers, the state of feminist theory and pedagogy, genre studies, film, race, and postcolonialism, with approaches ranging from ecofeminism to psychoanalysis. And although each essay opens *Madwoman* to a different page, all provocatively circle back—with admiration and respect, objections and challenges, questions and arguments—to Gilbert and Gubar's groundbreaking work. The essays are as diverse as they are provocative. Susan Fraiman describes how *Madwoman* opened the canon, politicized critical practice, and challenged compulsory heterosexuality, while Marlene Tromp tells how it elegantly embodied many concerns central to second-wave feminism. Other chapters consider *Madwoman*'s impact on Milton studies, on cinematic adaptations of *Wuthering Heights*, and on reassessments of Ann Radcliffe as one of the book's suppressed foremothers. In the thirty years since its publication, *The Madwoman in the Attic* has potently informed literary criticism of women's

writing: its strategic analyses of canonical works and its insights into the interconnections between social environment and human creativity have been absorbed by contemporary critical practices. These essays constitute substantive interventions into established debates and ongoing questions among scholars concerned with defining third-wave feminism, showing that, as a feminist symbol, the raging madwoman still has the power to disrupt conventional ideas about gender, myth, sexuality, and the literary imagination.
