The New Girls is a resonant, engrossing novel about five girls during their formative prep-school years in the tumultuous mid-sixties. Into their reality of first-class trips to Europe, resort vacations, and deb parties enter the Vietnam War, the women's movement, and the sexual revolution. EBOOK: Girls And Education 3-16: Continuing Concerns, New Agendas - Carolyn Jackson 2010-01-16

"This is a book to own, read and re-read for its insights and which should then provoke us to act so that all children at school are able to enjoy and benefit from education". Professor Debbie Epstein, Cardiff University, UK, Editor, Gender and Education "This excellent book offers evidence from a rich vein of research covering all aspects of girls' and young women's experiences of education, in and out of school, and is therefore an absolute must for all involved in teaching, learning, researching and policy-making on gender." Professor Gaby Weiner, University of Edinburgh, UK Countering claims that we live in 'post-feminist' times in which girls 'have it all' and can do, and be, whatever they like, this book explores some of the current concerns of, and about, girls today. Issues relating to girls' schooling and femininities have been sidelined and depoliticised in recent education agendas. Yet questions and concerns relating to schoolgirls' lives and experiences deserve immediate attention. Not all girls are academically successful; many girls face exclusion in schools; career aspirations are still gendered; rates of smoking and drinking alcohol are high amongst some groups of girls. With contributions from leading researchers in gender and education, this book: Draws on cutting edge research to consider ongoing problems and explore new agendas. Includes contributions relating to the entire 3-16 year age range. Considers both the within- and out-of-school experiences of girls, and locates them within wider debates about gender anxieties in contemporary education. This topical collection highlights the main issues faced by girls in Britain today, and endeavours to put girls back on the educational agenda. It is essential reading for students, academics and researchers in education, sociology, and girls' studies, as well as for school teachers and education policy makers.

The Fall of the House of Roosevelt - Michael Janeway 2004-01-21
In the 1930s a band of smart and able young men, some still in their twenties, helped Franklin D. Roosevelt transform an American nation in crisis. They were the junior officers of the New Deal. Thomas G. Corcoran, Benjamin V. Cohen, William O. Douglas, Abe Fortas, and

James Rowe helped FDR build the modern Democratic Party into a progressive coalition whose command over power and ideas during the next three decades seemed politically invincible. This is the first book about this group of Rooseveltians and their linkage to Lyndon Johnson's Great Society and the Vietnam War debacle. Michael Janeway grew up inside this world. His father, Eliot Janeway, business editor of Time and a star writer for Fortune and Life magazines, was part of this circle, strategizing and practicing politics as well as reporting on these men. Drawing on his intimate knowledge of events and previously unavailable private letters and other documents, Janeway crafts a riveting account of the exercise of power during the New Deal and its aftermath. He shows how these men were at the nexus of reform impulses at the electoral level with reform thinking in the social sciences and the law and explains how this potent fusion helped build the contemporary American state. Since that time efforts to reinvent government by "brains trust" have largely failed in the U.S. In the last quarter of the twentieth century American politics ceased to function as a blend of broad coalition building and reform agenda setting, rooted in a consensus of belief in the efficacy of modern government. Can a progressive coalition of ideas and power come together again? The Fall of the House of Roosevelt makes such a prospect both alluring and daunting.

Surfer Girls in the New World Order - Krista Comer 2010-09-07

In *Surfer Girls in the New World Order*, Krista Comer explores surfing as a local and global subculture, looking at how the culture of surfing has affected and been affected by girls, from baby boomers to members of Generation Y. Her analysis encompasses the dynamics of international surf tourism in Sayulita, Mexico, where foreign women, mostly middle-class Americans, learn to ride the waves at a premier surf camp and local women work as manicurists, maids, waitresses, and store clerks in the burgeoning tourist economy. In recent years, surfistas, Mexican women and girl surfers, have been drawn to the Pacific coastal town's clean reef-breaking waves. Comer discusses a write-in candidate for mayor of San Diego, whose political activism grew out of surfing and a desire to protect the threatened ecosystems of surf spots; the owners of the girl-focused Paradise Surf Shop in Santa Cruz and Surf Diva in San Diego; and the observant Muslim woman who started a business in her Huntington Beach home, selling swimsuits that fully cover the body and head. Comer also examines the Roxy Girl series of novels sponsored by the surfwear company Quiksilver, the biography of the champion surfer Lisa Andersen, the Gidget novels and films, the movie *Blue Crush*, and the book *Surf Diva: A Girl's Guide to Getting Good Waves*. She develops the concept of "girl localism" to argue that the experience of fighting for waves and respect in male-majority surf breaks, along with advocating for the health and sustainable development of coastal towns and waterways, has politicized surfer girls around the world.

The New Puberty - Louise Greenspan 2014-09-09

A generation ago, fewer than 5 percent of girls started puberty before the age of 8; today, that percentage has more than doubled. Early puberty is not just a matter of physical transformation—it's also deeply psychological, with a myriad of effects that can put a girl at higher risk for behavioral problems and long-term health challenges. In this reassuring and empowering guide, Louise Greenspan, MD, and Julianna Deardorff, PhD—two leading experts on the root causes and potential consequences of early puberty in girls—deliver vital advice on how to prevent and manage early puberty. They explain surprising triggers—from excess body fat to hormone-mimicking chemicals to emotional stressors in a girl's home and family life—and offer highly practical strategies, including how to limit exposure to certain ingredients in personal care and household products, which foods to eat and which to avoid, ways to improve a child's sleep routine to promote healthy biology, and more. *The New Puberty* is an engaging, urgently needed road map to helping young girls move forward with confidence, ensuring their future well-being.

Good Girls, Bad Girls of the New Testament - T. J. Wray 2016-03-02

Good Girls, Bad Girls of the New Testament takes readers on a powerful journey through the vast landscape of Roman-occupied Judea during the first century and the genesis of Christianity. This landscape serves as the backdrop for twelve amazing stories of women whose paths intersect, either by providence or design, with the paths of Jesus or Paul. Some of these women are familiar, such as Mary, the mother of Jesus, while others, like the wife of the infamous Pontius Pilate, are lesser known. Whether she is popular or obscure, good or bad, each woman's story is

an important part of the overall Christian narrative. *Good Girls, Bad Girls of the New Testament* invites readers to take a more nuanced look at twelve stories that feature women, to explore their lives more deeply in historical context, and to understand the real story that includes both men and women. The book goes beyond simply telling the story of a particular biblical woman to challenge readers to explore the enduring lessons the ancient writers sought to impart. These timeless lessons are as important for us today as they were thousands of years ago.

The Beloved Girls - Harriet Evans 2022-05-10

"It's a funny old house. They have this ceremony every summer . . . There's an old chapel, in the grounds of the house. It's half-derelict. The Hunters keep bees in there. Every year, on the same day, the family processes to the chapel. They open the combs, taste the honey. Take it back to the house. Half for them -" my father winced, as though he had bitten down on a sore tooth. "And half for us." Catherine, a successful barrister, vanishes from a train station on the eve of her anniversary. Is it because she saw a figure - someone she believed long dead? Or was it a shadow cast by her troubled, fractured mind? The answer lies buried in the past. It lies in the events of the hot, seismic summer of 1989, at Vanes - a mysterious West Country manor house - where a young girl, Jane Lestrangle, arrives to stay with the gilded, grand Hunter family, and where a devastating tragedy will unfold. Over the summer, as an ancient family ritual looms closer, Janey falls for each member of the family in turn. She and Kitty, the eldest daughter of the house, will forge a bond that decades later, is still shaping the present . . . 'We need the bees to survive, and they need us to survive. Once you understand that, you understand the history of Vanes, you understand our family.'
