The Monstrous-Feminine Barbara Creed 2015-09-04 In almost all critical writings on the horror film, woman is conceptualised only as victim. In *The Monstrous-Feminine* Barbara Creed challenges this patriarchal view by arguing that the prototype of all definitions of the monstrous is the female reproductive body. The Wretched of the Earth Frantz Fanon 2019-12-23 A

distinguished psychiatrist from Martinique who took part in the Algerian Nationalist Movement, Frantz Fanon was one of the most important theorists of revolutionary struggle, colonialism, and racial difference in history. Fanon's masterwork is a classic alongside Edward Said's *Orientalism* or *The Autobiography of Malcolm X*, and it is now available in a new translation that updates its language for a new generation of readers. *The Wretched of the Earth* is a brilliant analysis of the psychology of the colonized and their path to liberation. Bearing singular insight into the rage and frustration of colonized peoples, and the role of

violence in effecting historical change, the book incisively attacks the twin perils of postindependence colonial politics: the disenfranchisement of the masses by the elites on the one hand, and intertribal and interfaith animosities on the other. Fanon's analysis, a veritable handbook of social reorganization for leaders of emerging nations, has been reflected all too clearly in the corruption and violence that has plagued present-day Africa. *The Wretched of the Earth* has had a major impact on civil rights, anticolonialism, and black consciousness movements around the world.

Hitler's Gift Jean Medawar 2012-01-12 Between 1901 and 1932, Germany won a third of all the Nobel Prizes for science. With Hitler's rise to power and the introduction of racial laws, starting with the exclusion of all Jews from state institutions, Jewish professors were forced to leave their jobs, which closed the door on Germany's fifty-year record of world supremacy in science. Of these more than 1,500 refugees, fifteen went on to win Nobel Prizes, several co-discovered penicillin—and more of them became the driving force behind the atomic bomb project. In this revelatory book, Jean Medawar and David Pyke tell countless gripping individual stories of emigration, rescue, and escape, including those of Albert Einstein, Fritz Haber, Leo Szilard, and many others. Much of this material was collected through interviews with more than twenty of the surviving refugee scholars, so as to document for history the steps taken after Hitler's policy was enacted. As one refugee scholar wrote, "Far from destroying the spirit of German scholarship, the Nazis had spread it all over the world. Only Germany was to be the loser." *Hitler's Gift* is the story of the men who were forced from their homeland and went on to revolutionize many of the scientific practices that we rely on today. Experience firsthand the stories of these geniuses, and learn not only how their deportation

affected them, but how it bettered the world that we live in today. Benighted John Boynton Priestley 1951 This story concerns five travellers driven to seek refuge in the Welsh mountains. The occupants of this dwelling are a strange and hostile lot, but they provide plenty of thrill, both of the spirit and the flesh.

My Body Emily Ratajkowski 2021-11-09 THE NEW YORK TIMES BESTSELLER A deeply honest investigation of what it means to be a woman and a commodity from Emily Ratajkowski, the archetypal, multi-hyphenate celebrity of our time. _____

'This is the book for every woman trying to place their body on the map of consumption vs control, and every woman who wants to better understand her impulses. It left me much changed' - Lena Dunham 'I read these pages, breathless with recognition, and the thrill of reading a new voice telling it like it is' - Dani Shapiro 'Emily Ratajkowski's first essay collection needs to be read by everyone [...] both page-turning and moving as hell' - Amy Schumer 'A slow, complicated indictment of a profession and the people who propel it [...] it will deliver a more nuanced and introspective rendering of her interior than those who come to it with those surface interests might expect' - Vogue 'Dazzling' - Observer 'Ratajkowski brings nuanced insight to questions about empowerment versus commodification of women's bodies and sexuality. Blending cultural criticism and personal stories, My Body is smart and powerful' - Time Magazine 'Raw, nuanced and beautifully written. A moving and enlightening experience to join a woman openly exploring such deep parts of her physical self via the written word. A truly impressive debut' - Emma Gannon 'Excellent [...] Ratajkowski writes with curiosity, intellect and acute awareness' - Harper's Bazaar 'Superb [...] it feels revolutionary' - Telegraph 'I admire and envy her artistry' - Guardian _____ Emily Ratajkowski is an acclaimed model and actress, an engaged political progressive, a formidable entrepreneur, a global social media phenomenon, and now, a

writer. Rocketing to world fame at age twenty-one, Ratajkowski sparked both praise and furor with the provocative display of her body as an unapologetic statement of feminist empowerment. The subsequent evolution in her thinking about our culture's commodification of women is the subject of this book. *My Body* is a profoundly personal exploration of feminism, sexuality, and power, of men's treatment of women and women's rationalizations for accepting that treatment. These essays chronicle moments from Ratajkowski's life while investigating the culture's fetishization of girls and female beauty, its obsession with and contempt for women's sexuality, the perverse dynamics of the fashion and film industries, and the grey area between consent and abuse. Nuanced, unflinching, and incisive, *My Body* marks the debut of a fierce writer brimming with courage and intelligence.

The Twelve African Novels (A Collection) Edgar Wallace 2017-08-07 This unique collection of african novels has been designed and formatted to the highest digital standards. Edgar Wallace (1875-1932) was an English writer. During 1907 Edgar travelled to the Congo Free State, to report on atrocities committed against the Congolese under King Leopold II of Belgium and the Belgian rubber companies, in which up to 15 million Congolese were killed. Isabel Thorne of the Weekly Tale-Teller penny magazine, invited Wallace to serialise stories inspired by his experiences. These were published as his first collection Sanders of the River (1911), a best seller, in 1935 adapted into a film with the same name, starring Paul Robeson. Wallace went on to publish 11 more similar collections (102 stories). They were tales of exotic adventure and local tribal rites, set on an African river, mostly without love interest as this held no appeal for Wallace. His first 28 books and their film rights he sold outright, with no royalties, for quick money. Table of Contents: Sanders of the River (1911) The People of the River (1911) The River of Stars (1913) Bosambo of the River (1914)

The Deep Nick Cutter 2015-07-28 "A strange plague called the 'Gets is decimating humanity on a global scale. It causes people to forget--small things at first, like where they left their keys, then the not-so-small things like how to drive or the letters of the alphabet. Then their bodies forget how to function involuntarily. There is no cure. But far below the surface of the Pacific Ocean, a universal healer hailed as 'ambrosia' has been discovered. In order to study this phenomenon, a special research lab has been built eight miles under the sea's surface. When the station goes incommunicado, a brave few descend through the lightless fathoms in hopes of unraveling the mysteries lurking at those crushing depths...and perhaps to encounter an evil blacker than anything one could possibly imagine"--Page [4] of cover.

He's the man to find out who has twisted London into this strange new world, and he knows it. But in *Dream London* the city changes a little every night and the people change a little every day. The towers are growing taller, the parks have hidden themselves away and the streets form themselves into strange new patterns. The Conning of America Patrick J. Quinn 2022-06-08 The *Conning of America* examines for the first time from a literary perspective the propaganda writings produced in the United States during the period of World War I. This American propaganda literature was written in two distinct stages: the first stage was written by the pro-War establishment based on the East Coast of the United States before American entry into the conflict. It attempted to vilify Germany and her Allies while at the same time showing England, France, and Russia as the victims of a well-planned organized German plan for world domination—beginning with the invasion of neutral Belgium. The literature urged the United States to prepare for a German invasion of America and to be wary of German-Americans, who most likely were spies in the employ of the Imperial German government. The second stage of propaganda literature occurred when America declared war on the Central Powers in April 1917. While still using the blood thirsty militaristic Hun as a symbol of

German inherent evil, the propaganda literature began to portray the Americans as the saviors of European culture. American boys were being sent to Europe on a spiritual mission to purify decadent European culture, while at the same time their sacrifice would rejuvenate and sanctify American values in the fire of the conflict in order for America to take her proper place in the new post-war order.

The Sheik (Romance Classic) E. M. Hull 2020-12-17 The Sheik opens in a hotel in the Algerian city of Biskra. A dance is being held, hosted by a young woman named Diana Mayo and her brother, Sir Aubrey Mayo. It transpires that Diana is planning to leave on a month-long trip into the desert, taking no one with her but an Arab guide. Diana grew up without parents, and as a result she became a bit tomboyish, with a freedom that at the time was normally only allowed to boys. Before Diana leaves on her journey, her independent character is further established when she refuses a proposal of marriage, explaining that she doesn't know what love is and doesn't want to know. Once she begins travelling in the desert, it is not long before she is kidnapped by the Sheik, Ahmed Ben Hassan. It turns out her guide had been bribed.

Space Opera Catherynne M. Valente 2018-12-18 2019 HUGO AWARD FINALIST, BEST NOVEL The Hitchhiker's Guide to the Galaxy meets the joy and glamour of Eurovision in bestselling author Catherynne M. Valente's science fiction spectacle, where sentient races compete for glory in a galactic musical contest...and the stakes are as high as the fate of planet Earth. A

century ago, the Sentience Wars tore the galaxy apart and nearly ended the entire concept of intelligent space-faring life. In the aftermath, a curious tradition was invented—something to cheer up everyone who was left and bring the shattered worlds together in the spirit of peace, unity, and understanding. Once every cycle, the great galactic civilizations gather for the Metagalactic Grand Prix—part gladiatorial contest, part beauty pageant, part concert extravaganza, and part continuation of the wars of the past. Species far and wide compete in feats of song, dance and/or whatever facsimile of these can be performed by various creatures who may or may not possess, in the traditional sense, feet, mouths, larynxes, or faces. And if a new species should wish to be counted among the high and the mighty, if a new planet has produced some savage group of animals, machines, or algae that claim to be, against all odds, sentient? Well, then they will have to compete. And if they fail? Sudden extermination for their entire species. This year, though, humankind has discovered the enormous universe. And while they expected to discover a grand drama of diplomacy, gunships, wormholes, and stoic councils of aliens, they have instead found glitter, lipstick, and electric guitars. Mankind will not get to fight for its destiny—they must sing. Decibel Jones and the Absolute Zeroes have been chosen to represent their planet on the greatest stage in the galaxy. And the fate of Earth lies in their ability to rock.

The Black Jacobins C. L. R. James 2001-05-31 In 1789 the West Indian colony of San Domingo supplied two-thirds of the overseas trade of France. The entire structure of what was arguably the most profitable colony in the world rested on the labour of half a million slaves. In 1791 the waves of unrest inspired by the French Revolution reached across the Atlantic dividing the loyalties of the white population of the island. The brutally treated slaves of Saint Domingo seized at this confusion and rose up in rebellion against masters. In this classic work, CLR James chronicles the only successful slave revolt in history and provides a critical

portrait of their leader, Toussaint L'Ouverture, 'one of the most remarkable men of a period rich in remarkable men'.
