**A Dog's World** - Jessica Pierce 2023-04-18

From two of the world's leading authorities on dogs, an imaginative journey into a future of dogs without people. What would happen to dogs if humans simply disappeared? Would dogs be able to survive on their own without us? A Dog's World imagines a posthuman future for dogs, revealing how dogs would survive—and possibly even thrive—and explaining how this new and revolutionary perspective can guide how we interact with dogs now. Drawing on biology, ecology, and the latest findings on the lives and behavior of dogs and their wild relatives, Jessica Pierce and Marc Bekoff—two of today's most innovative thinkers about dogs—explore who dogs might become without direct human intervention into breeding, arranged playdates at the dog park, regular feedings, and veterinary care. Pierce and Bekoff show how dogs are quick learners who are highly adaptable and opportunistic, and they offer compelling evidence that dogs already do survive on their own—and could do so in a world without us. Challenging the notion that dogs would be helpless without their human counterparts, A Dog's World enables us to understand these independent and remarkably intelligent animals on their own terms.

**How to Be a Dog** - Maxwell Woofington 2015-09-24

Written by a dog, and with helpful additions by other dogs, How to Be a Dog is essential reading not only for all canines but also for their owners and dog lovers, providing an insight into their pet's sometimes curious behaviour. As you'd expect from a book written by a dog about humans, it's irreverent, cynical and disrespectful. Dogs provide helpful observations and advice on specific issues: for example, how to retain any semblance of self-esteem while wearing the 'Cone of Shame' anti-scratch collar or how to really frustrate your owner when playing 'fetch'. How to Be a Dog is the official rulebook of the doggie world - a hilarious guide for living with - or putting up with - humans, and always getting the upper hand (or paw).
