Rising from the Plains - John McPhee 2011-04-01

Pulitzer Prize-winning author John McPhee continues his Annals of the Former World series about the geology of North America along the fortieth parallel with *Rising from the Plains*. This third volume presents another exciting geological excursion with an engaging account of life—past and present—in the high plains of Wyoming. Sometimes it is said of geologists that they reflect in their professional styles the sort of country in which they grew up. Nowhere could that be more true than in the life of a geologist born in the center of Wyoming and raised on an isolated ranch. This is the story of that ranch, soon after the turn of the twentieth century, and of David Love, the geologist who grew up there, at home with the composition of the high country in the way that someone growing up in a coastal harbor would be at home with the vagaries of the sea.

THE BRIDGE OF THE GODS (Illustrated) - Frederic Homer Balch 2017-04-19

"One Sabbath morning more than two hundred years ago, the dawn broke clear and beautiful over New England. It was one of those lovely mornings that seem like a benediction, a smile of God upon the earth, so calm are they, so full of unutterable rest and quiet. Over the sea, with its endless line of beach and promontory washed softly by the ocean swells; over the towns of the coast,—Boston and Salem,—already large, giving splendid promise of the future; over the farms and hamlets of the interior, and into the rude clearings where the outer limits of civilization mingled with the primeval forest, came a flood of light as the sun rose above the blue line of eastern sea..." Frederic Homer Balch was born in Oregon but had converted to Christianity at the age of 21. He became a preacher and helped establish a lot of churches in Oregon. His keen interest in Native Indian folklore and belief gave him a deep insight into their customs and rituals.

Domestic Subjects - Beth H. Piatote 2013-03-19

Amid the decline of U.S. military campaigns against Native Americans in the late nineteenth century, assimilation policy arose as the new front in the Indian Wars, with its weapons the deployment of culture and law, and its locus the American Indian home and family. In this groundbreaking interdisciplinary work, Piatote tracks the double movement of literature and law in the contest over the aims of settler-national domestication and the defense of tribal-national culture, political rights, and territory.

Proceedings of the 5th Rocky Mountain Region Disaster Mental Health Conference - George W. Doherty 2007-01-01

Recent years have seen an extraordinary number of major disasters, critical incidents and other events that have had major impacts on our world. The 2004 tsunami, hurricanes Rita and Katrina, and the wars in Iraq and Afghanistan affect millions of lives daily. Potential events such as Avian Flu pandemic, global warming and the increasing threats of spreading unrest in the Middle East are concerns that weigh heavily on us all. November 8-11, 2006, the Rocky Mountain Region Disaster Mental Health Institute held their Annual four-day Disaster Mental Health Conference. Every Inch of the Way - Tom Bruce 2013-05-01**Ores to Metals** - James Fell 2011-05-18

This comprehensive treatment of the smelting industry of Colorado, originally published in 1979, is now back in print with a new preface by the author. Packed with fascinating statistics and mining data, *Ores to Metals* details the people, technologies, and business decisions that have shaped the smelting industry in the Rockies. Although mining holds more of the glamour for those in and interested in the minerals industry, smelters have continuously played a critical role in the industry's evolution since their introduction in Colorado in the 1860s. At that time, miners desperately needed new technology to recover gold and silver from ores resistant to milling. Beginning as small independent enterprises, progressing to larger integrated firms working in urban centers, and finally following a trend toward mergers, the entire industry was absorbed into one large holding company - the American Smelting and Refining Company. Over time, fortunes were won and lost, business success was converted to political success, and advances were made in science and metallurgy. Drawing on archival material, Fell expertly presents the triumphs and troubles of the entrepreneurs who built one of the great industries of the West.

Darkness Descending - Ken Jones 2013-12-24

An astonishing true story of mountaineering survival On 5 January 2003, former Special Forces soldier Ken Jones was caught in a devastating avalanche as he climbed in the frozen wilderness of Romania's Transylvanian Alps. Flung from a cliff, he regained consciousness to find himself shrouded in darkness, separated from his supplies, suffering from overexposure in the sub zero-temperatures and in horrendous pain from a broken leg and shattered pelvis. Heavily frostbitten and bleeding internally, Ken dragged himself to safety over three agonizing days only to discover that his true ordeal had yet to begin. His account of life saving surgery and his battle to walk again is a classic tale of triumph over adversity and what it means to never give up. Heart stopping and inspiring to the very last page, Ken Jones's story of endurance and survival is an unforgettable testament to the strength of the human spirit.
