Lithuanian Horses - Mindaugas Bertasius
2009-03

Lithuanian horses are part of Lithuania's cultural heritage. Horse lovers, professionals and amateurs, know about the old horse breed žemaitukas. Though žemaitukai gave the beginning of three breeds: Trakehner, Lithuanian Heavy Draught Horses and žemaitukas the heavy-type, they themselves were on the edge of the extinct many times. This book illuminates the common history of a Lithuanian and a horse in various aspects. The appearance of žemaitukas and other Lithuanian horse breeds, their diffusion, the condition of equestrian sports and horse-breeding perspectives in Lithuania are reviewed in this stunning book.

In Cold Blood - Truman Capote 2001-10-09

NATIONAL BESTSELLER • The most famous true crime novel of all time "chills the blood and exercises the intelligence" (The New York Review of Books)—and haunted its author long after he finished writing it. On November 15, 1959, in the small town of Holcomb, Kansas, four members of the Clutter family were savagely murdered by blasts from a shotgun held a few inches from their faces. There was no apparent motive for the crime, and there were

almost no clues. In one of the first non-fiction novels ever written, Truman Capote reconstructs the murder and the investigation that led to the capture, trial, and execution of the killers, generating both mesmerizing suspense and astonishing empathy. *In Cold Blood* is a work that transcends its moment, yielding poignant insights into the nature of American violence.

Kinderculture - Shirley R. Steinberg 2018-05-04

America is a corporatized society defined by a culture of consumerism, and the youth market is one of the groups that corporations target most. By marketing directly to children, through television, movies, radio, video games, toys, books, and fast food, advertisers have produced a 'kinderculture'. In this eye-opening book,

editor Shirley R. Steinberg reveals the profound impact that our purchasing-obsessed culture has on our children and argues that the experience of childhood has been reshaped into something that is prefabricated. Analyzing the pervasive influence of these corporate productions, top experts in the fields of education, sociology, communications, and cultural studies contribute incisive essays that students, parents, educators, and general readers will find insightful and entertaining. Including seven new chapters, this third edition is thoroughly updated with examinations of the icons that shape the values and consciousness of today's children, including Twilight, True Blood, and vampires, hip hop, Hannah Montana, Disney, and others.

The Mission of a Lifetime - Basil Hero
2019-04-02

Award-winning former investigative reporter Basil Hero chronicles the life lessons humanity can learn from the twelve remaining Apollo astronauts who went to the Moon. In rare in-depth interviews, the twelve remaining lunar explorers, for the first time, talk at length about the real right stuff; the true source of courage, leadership, and the quiet patriotism that it took to risk their lives going to the moon. Hero begins each chapter with key life lessons that readers can gain from these honorable men whom he calls the Eagles. He describes how they mastered their emotions and learned to conquer their fears through techniques that can be used from the classroom to the boardroom. More importantly their voyages to the Moon led them to the most incredible discovery of all: our home planet and its precious place in the universe. They fear for Earth's future and offer sensible

solutions to its mounting crises and the path to future space exploration. In *The Mission Of A Lifetime*, the Eagles share their wisdom and urge us to reframe our view of Earth to theirs: no identifiable nations, borders, or races; just Earthlings working together as a collective civilization.
