Young Men and Domestic Abuse - David Gadd

2015-07-16

Surveys reveal that domestic abuse is more commonplace among teenagers and young adults than older populations, yet surprisingly little is written

about young men's involvement in it. Reporting on a three-year study based in the UK, this book explores young men's involvement in domestic abuse, whether as victims, perpetrators or witnesses to violent behaviors between

Gender Heterosexuality And Youth Violence The Struggle

For Recognition

adults. Original survey data, focus group material and in-depth biographical interviews are used to make the case for a more thoroughgoing engagement with the meanings young men come to attribute to violent behavior, include the tendency among many to configure violence within families as "fights" that call for acts of male heroism. The book also highlights the dearth of services interventions for young men prone to domestic abuse, and the challenges of developing responsive practice in this area. Each section of the book highlights further online resources that those looking to conduct research in this area or apply its insights in practice can draw upon.

The Sociology of Bullying -

Christopher Donoghue

2022-06-14

"This book takes form in this edited volume on aggressive adolescent behavior that employs sociological theories and empirical research to better understand the social aspects of bullying. Leading sociologists and other social

scientists consider ways in which a sociological understanding of bullying can advance research and inform anti-bullying school policies"--
The Wiley Blackwell Encyclopedia of Family Studies, 4 Volume Set -
Constance L. Shehan
2016-02-29

The Wiley Blackwell Encyclopedia of Family Studies presents a comprehensive, interdisciplinary collection of the key concepts, trends, and processes relating to the study of families and family patterns throughout the world. Offers more than 550 entries arranged A-Z Includes contributions from hundreds of family scholars in various academic disciplines from around the world Covers issues ranging from changing birth rates, fertility, and an aging world population to human trafficking, homelessness, famine, and genocide Features entries that approach families, households, and kin networks from a macro-level and micro-level perspective Covers basic demographic concepts and

Violence Against Queer People

- Doug Meyer 2015-10-11

Violence against lesbians and gay men has increasingly captured media and scholarly attention. But these reports tend to focus on one segment of the LGBT community—white, middle class men—and largely ignore that part of the community that arguably suffers a larger share of the violence—racial minorities, the poor, and women. In *Violence against Queer People*, sociologist Doug Meyer offers the first investigation of anti-queer violence that focuses on the role played by race, class, and gender. Drawing on interviews with forty-seven victims of violence, Meyer shows that LGBT people encounter

significantly different forms of violence—and perceive that violence quite differently—based on their race, class, and gender. His research highlights the extent to which other forms of discrimination—including racism and sexism—shape LGBT people’s experience of abuse. He reports, for instance, that lesbian and transgender women often described violent incidents in which a sexual or a misogynistic component was introduced, and that LGBT people of color sometimes weren’t sure if anti-queer violence was based solely on their sexuality or whether racism or sexism had also played a role. Meyer observes that given the many differences in how anti-queer violence is experienced, the present media focus on white, middle-class victims greatly oversimplifies and distorts the nature of anti-queer violence. In fact, attempts to reduce anti-queer violence that ignore race, class, and gender run the risk of helping only the most privileged gay subjects. Many

Gender Heterosexuality And Youth Violence The Struggle

For Recognition

feel that the struggle for gay rights has largely been accomplished and the tide of history has swung in favor of LGBT equality. Violence against Queer People, on the contrary, argues that the lives of many LGBT people—particularly the most vulnerable—have improved very little, if at all, over the past thirty years.

The Handbook of Race, Ethnicity, Crime, and Justice

- Ramiro Martinez, Jr.

2018-09-12

This Handbook presents current and future studies on the changing dynamics of the role of immigrants and the impact of immigration, across the United States and industrialized and developing nations. It covers the changing dynamics of race, ethnicity, and immigration, and discusses how it all contributes to variations in crime, policing, and the overall justice system. Through acknowledging that some groups, especially people of color, are disproportionately influenced more than others in the case of criminal justice

reactions, the "War on Drugs", and hate crimes; this Handbook introduces the importance of studying race and crime so as to better understand it. It does so by recommending that researchers concentrate on ethnic diversity in a national and international context in order to broaden their demographic and expand their understanding of how to attain global change. Featuring contributions from top experts in the field, The Handbook of Race and Crime is presented in five sections—An Overview of Race, Ethnicity, Crime, and Justice; Theoretical Perspectives on Race and Crime; Race, Gender, and the Justice System; Gender and Crime; and Race, Gender and Comparative Criminology. Each section of the book addresses a key area of research, summarizes findings or shortcomings whenever possible, and provides new results relevant to race/crime and justice. Every contribution is written by a top expert in the field and based on the latest

Gender Heterosexuality And Youth Violence The Struggle

For Recognition

research. With a sharp focus on contemporary race, ethnicity, crime, and justice studies, *The Handbook of Race and Crime* is the ideal reference for advanced undergraduate students, graduate students, and scholars interested in the disciplines such as Criminology, Race and Ethnicity, Race and the Justice System, and the Sociology of Race.

Gender Reckonings - James W. Messerschmidt 2018-02-13

Sex and Gender - Alice Sullivan 2023-08-25

Sex and Gender: A Contemporary Reader is a much-needed exploration of the relationship between sex, gender and gender identity. Its multidisciplinary approach provides fascinating perspectives from the sciences, social sciences and humanities, as well as biology, neuroscience, medicine, law, sociology and English literature. The 15 chapters are original contributions, authored by scholars who are leaders in their respective fields. This thought-provoking collection offers significant methodological, theoretical and

empirical insights into one of the most fraught debates in contemporary politics and academia. It provides a broad-ranging introduction to the issues central to questions about how and why sex matters from a range of disciplinary perspectives, drawing out the social, political and legal implications. Questions addressed include: Is sex binary? What is a woman? Why do we need data on sex? Also discussed are topics widely debated today such as sports, feminism, sex and inequality, sex-based rights, puberty suppression, criminal justice and gender dysphoria. Sex and Gender: A Contemporary Reader is a timely introduction to contemporary debates on sex and gender. It is an accessible text for both general readers and for students of gender issues across a wide range of disciplines including sociology, education, history, philosophy and gender studies.

Gender, Crime and Justice - Lizzie Seal 2021-11-15

This textbook takes a gender inclusive and intersectional

Gender Heterosexuality And Youth Violence The Struggle

For Recognition

feminist approach to examining adolescent masculinities and key topics related to gender, crime and justice. It provides an overview and critical discussion of contemporary issues and research in this area suitable for use in undergraduate and postgraduate degree modules. A key feature of the book is its use of films, television series and documentaries to illustrate the concepts and findings from criminological research on gender, crime and justice. After outlining the meaning of gender and the perspective of intersectional feminism, it has chapters focused on interpersonal and sexual violence, sex work and the night-time economy, street crime, crimes of the powerful, policing and the courts, prison and community penalties and a final chapter on extreme punishment and abolitionist futures. It speaks to students and academics in criminology, sociology and gender studies.

Gender, Heterosexuality, and Youth Violence - James W. Messerschmidt 2012

Focus on connections among

adolescent masculinities and femininities, bullying in schools, the body, heterosexuality, and violence and nonviolence. The author examines life-histories of white working-class boys and girls who have all been victims of severe forms of bullying at school.

Gender, Heterosexuality, and Youth Violence - James W.

Messerschmidt 2012-03-16

Gender, Heterosexuality, and Youth Violence explores why some boys and girls engage in assaultive or sexual violence while others do not. Acclaimed criminologist James W.

Messerschmidt shares six compelling life histories of boys and girls to address the relationship among gender, heterosexuality, violence, and non-violence.

Masculinities in the Criminological Field - Ingrid

Lander 2016-05-06

Over recent decades criminological research has changed from a gender-blind discipline which equated crime with men and thus ignored questions about gender, to an

Gender Heterosexuality And Youth Violence The Struggle

For Recognition

approach that studied gender by showing statistical differences between men and women, and then finally to a more inclusive and elaborate gender-theoretical approach to crime and crime control. However, despite this development, research on gender - and in particular research on gendered norms and the construction and enactment of masculinities - within the criminological field has been unable to keep up with developments in gender research. Since 1990, only a few anthologies with a gender-theoretical orientation focusing on masculinities within the criminological research field have been published. Many of the theoretical developments in gender research still have difficulties in reaching into mainstream criminology, partly because such developments are often published in feminist and/or gender theoretical journals. This volume both problematizes and renders visible conceptions and norms regarding male behaviour and masculinities and shows how

these affect the criminological field through providing a theoretically sound and clear gender perspective to this field of research. With sections based around the following three themes: negotiations of masculinity in institutional settings, vulnerable masculinities and risk-taking and masculinities, this volume will be of interest to scholars of criminology, sociology, social work and gender studies, as well as policy-makers, and law enforcement professionals.

Japanese Femininities -

Justin Charlebois 2013-08-15
The corporate salaryman and professional housewife stand as hegemonic archetypes of masculinity and femininity in Japan. However, these rigid gender roles are being challenged by women who are seeking to move beyond the strictly defined confines of their traditional roles as caregivers and homemakers. Through interviews with a range of Japanese women, this book explores how women's gender roles are both reified and undermined in Japan

Gender Heterosexuality And Youth Violence The Struggle

For Recognition

today, and uncovers the prevalent themes, or 'discourses', that are utilized to construct gendered identities. It shows that while dominant discourses formulate notions of femininity within the domestic sphere, these are simultaneously resisted and problematized by contemporary women. To this end, Justin Charlebois traces the construction of different 'oppositional' femininities, such as the single career woman and married working mother, which challenge, destabilize, and potentially reconfigure the traditional gender order. This book makes an important contribution to our understanding of gender roles and femininity in Japan, and as such will be of great interest to students and scholars of Japanese culture and society, gender studies and women's studies.

The Wiley Handbook on What Works with Girls and Women in Conflict with the Law - Shelley L. Brown 2022-03-14

The Wiley Handbook on What Works with Girls and Women in

Conflict with the Law The most practical discussion of the rehabilitation of girls and women in conflict with the law in the correctional arena What Works with Girls and Women in Conflict with the Law is the leading examination of evidence-based practice in the field of gender-responsive corrections. Adopting an international and intersectional approach, the distinguished authors seek to collect the best available data and thinking on what works with girls and women and apply it to the real-world problems facing correctional systems today. As part of its contextual and rich approach to the subject, What Works with girls and women in conflict with the law, covers a broad variety of topics, ranging from theories of female involvement in crime, security classification and risk assessment, evidence-based treatment and supervision approaches, special populations (such as Indigenous women), to legal/policy developments in the field of gender-responsive

Gender Heterosexuality And Youth Violence The Struggle

For Recognition

corrections. Perfect for students and practitioners in the field of psychology, criminology, social work, criminal justice, and corrections, this is the only reference of its kind to focus on the practical applications of the latest theory.

Gender Reckonings - James W. Messerschmidt 2018-02-13
Vivid narratives, fresh insights, and new theories on where gender theory and research stand today Since scholars began interrogating the meaning of gender and sexuality in society, this field has become essential to the study of sociology. *Gender Reckonings* aims to map new directions for understanding gender and sexuality within a more pragmatic, dynamic, and socially relevant framework. It shows how gender relations must be understood on a large scale as well as in intimate detail. The contributors return to the basics, questioning how gender patterns change, how we can realize gender equality, and how the structures of gender impact daily life.

Gender Reckonings covers not only foundational concepts of gender relations and gender justice, but also explores postcolonial patterns of gender, intersectionality, gender fluidity, transgender practices, neoliberalism, and queer theory. *Gender Reckonings* combines the insights of gender and sexuality scholars from different generations, fields, and world regions. The editors and contributors are leading social scientists from six continents, and the book gives vivid accounts of the changing politics of gender in different communities. Rich in empirical detail and novel thinking, *Gender Reckonings* is a lasting resource for students, researchers, activists, policymakers, and everyone concerned with gender justice. [Handbook of the Sociology of Gender](#) - Barbara J. Risman 2018-06-05
This handbook provides a comprehensive view of the field of the sociology of gender. It presents the most important theories about gender and

Gender Heterosexuality And Youth Violence The Struggle

For Recognition

methods used to study gender, as well as extensive coverage of the latest research on gender in the most important areas of social life, including gendered bodies, sexuality, carework, paid labor, social movements, incarceration, migration, gendered violence, and others. Building from previous publications this handbook includes a vast array of chapters from leading researchers in the sociological study of gender. It synthesizes the diverse field of gender scholarship into a cohesive theoretical framework, gender structure theory, in order to position the specific contributions of each author/chapter as part of a complex and multidimensional gender structure. Through this organization of the handbook, readers do not only gain tremendous insight from each chapter, but they also attain a broader understanding of the way multiple gendered processes are interrelated and mutually constitutive. While the specific focus of the handbook is on gender, the

chapters included in the volume also give significant attention to the interrelation of race, class, and other systems of stratification as they intersect and implicate gendered processes.

Feeling Trapped - James Ptacek
2023-02-07

The relationship between class and intimate violence against women is much misunderstood. While many studies of intimate violence focus on poor and working-class women, few examine the issue comparatively in terms of class privilege and class disadvantage. James Ptacek draws on in-depth interviews with sixty women from wealthy, professional, working-class, and poor communities to investigate how social class shapes both women's experiences of violence and the responses of their communities to this violence. Ptacek's framing of women's victimization as "social entrapment" links private violence to public responses and connects social inequalities to the dilemmas that women

Gender Heterosexuality And Youth Violence The Struggle

face.

Masculinities and Crime -

James W. Messerschmidt
2018-07-30

James W. Messerschmidt's *Masculinities and Crime* quickly became a classic text for social scientists examining the relationship between masculinities and crime. The book is completely revised and unique in its focus on Messerschmidt's most important research and theorizing accomplished over the last twenty-five years.

Deadly Injustice - Devon Johnson
2015-12-11

"Uses the Trayvon Martin case as a springboard to examine race, crime, and justice in our criminal justice system. Contributors explore how race and racism inform how Americans think about criminality; how crimes are investigated and prosecuted; and how highly publicized criminal cases go on to shape public views about offenders and the criminal process"--
The Oxford Handbook of Gender, Sex, and Crime -
Rosemary Gartner 2014

For Recognition

The editors, Rosemary Gartner and Bill McCarthy, have assembled a diverse cast of criminologists, historians, legal scholars, psychologists, and sociologists from a number of countries to discuss key concepts and debates central to the field. The Handbook includes examinations of the historical and contemporary patterns of women's and men's involvement in crime; as well as biological, psychological, and social science perspectives on gender, sex, and criminal activity. Several essays discuss the ways in which sex and gender influence legal and popular reactions to crime. An important theme throughout The Handbook is the intersection of sex and gender with ethnicity, class, age, peer groups, and community as influences on crime and justice. Individual chapters investigate both conventional topics - such as domestic abuse and sexual violence - and topics that have only recently drawn the attention of scholars - such as human trafficking, honor killing, gender violence during
