This exploration of fashion in American silent film offers fresh perspectives on the era preceding the studio system, and the evolution of Hollywood's distinctive brand of glamour. By the 1910s, the moving image was an integral part of everyday life and communicated fascinating, but as yet un-investigated, ideas and ideals about fashionable dress.

Costume, Makeup, and Hair - Adrienne L.

McLean 2016-10-07

Movie buffs and film scholars alike often overlook the importance of makeup artists, hair stylists, and costumers. With precious few but notable exceptions, creative workers in these fields have received little public recognition, even when their artistry goes on to inspire worldwide fashion trends. From the acclaimed Behind the Silver Screen series, *Costume, Makeup, and Hair* charts the development of these three crafts in the American film industry from the 1890s to the present. Each chapter examines a different era in film history, revealing how the arts of cinematic costume, makeup, and hair, have continually adapted to new conditions, making the transitions from stage to screen, from monochrome to color, and from analog to digital. Together, the book's contributors give us a remarkable glimpse into how these crafts foster creative collaboration and improvisation, often fashioning striking looks and ingenious effects out of limited

Drawing on rare archival materials and lavish color illustrations, this volume provides readers with both a groundbreaking history of film industry labor and an appreciation of cinematic costume, makeup, and hairstyling as distinct art forms. Classic Hollywood Style - Caroline Young
2012-10-02

Classic Hollywood Style explores iconic looks from the golden era of Hollywood, covering 35 films from the 1920s to the end of the 1960s. Caroline Young looks at the history and social context of the costumes through stories from the

production, photos, interviews and original costume design sketches, and tips on how to 'get the look' today. While we celebrate the glacial elegance of Grace Kelly and the skin-tight sexiness of Marilyn Monroe, behind every look on screen was the costume designer who shaped the image. In the golden age of Hollywood, designers like Edith Head, Adrian and Travis Banton became stars in their own right. Women queued up to see the latest Joan Crawford and Greta Garbo release to lust after the glamorous costumes the stars would wear on screen. Department stores shamelessly mass-produced copies of gowns, film magazines would preview the new looks and women ran up their own versions on their sewing machines. In the 1960s women lowered their hems and sported berets to look just like Faye Dunaway in Bonnie and Clyde. Even today, an article on the little black dress will inevitably make mention of Audrey Hepburn. Every one of these films has perfectly captured a moment of fashion zeitgeist or has

become an indelible image of cinema, whether it is Garbo in a trenchcoat in A Woman of Affairs, Joan Crawford's shoulder pads in Mildred Pierce, Rita Hayworth's strapless dress in Gilda, James Dean's red windbreaker in Rebel Without a Cause or Steve McQueen's ivy league style in The Thomas Crown Affair. Through archived records, studio press releases, behind the scenes memos, costume designer sketches and notes, censorship records and articles from magazines of the time, this is a behind-the-scenes look at the classic costumes of the silver screen.

[Hello, Norma Jeane](#) - Elisa Jordan 2023-11-15
Her unforgettable image is seared into the minds of fans everywhere, and her private life continues to inspire headlines and controversy, but Marilyn Monroe is one of the most famous—and misunderstood—women in the world and remains a mystery to most people. chaotic childhood in Depression-era Los Angeles to her rise in the world of Hollywood and finally her untimely death—Hello, Norma Jeane explores the legendary star’s family history, connection to the movies from childhood, her personal life as an adult, and her interest in continually educating herself. Hello, Norma Jeane is compulsively readable—instead of chronological dates and dry accounts of events, there are chapters about specific aspects of her life and career. What did Marilyn like to eat? What types of books did she read? Was she really plus size? Did she nearly bring down a political empire? And how did she actually die? This book explores everything—and vividly brings to light the truth about the world’s greatest movie star.

Hollywood Heroines - Laura L. S. Bauer
2018-12-07

This is a topical resource that provides a comprehensive look at the most influential women in Hollywood cinema across a wide-

range of occupations rarely found together in a single volume. Unlike other anthologies, *Hollywood Heroines: The Most Influential Women in Film History* is a hybrid of film history and industry information with an exclusive focus on prominent women. This reference work includes more commonly discussed categories of important women in Hollywood film history, such as directors and actresses, and reaches beyond them to encompass women working as cinematographers, casting directors, studio heads, musical composers, and visual and special effects supervisors. The wide range of filmmaking crafts covered in the book provides an acute view of the industry and increases the visibility of and quality of representation for women working in Hollywood. By bringing the experience of these influential women to light, *Hollywood Heroines* joins a growing movement that endeavors to dismantle harmful, long-standing industry myths that perpetuate the systemic underrepresentation of women and the

[Clothes Make the Character](#) - Lora Ann Sigler
2021-02-12

"Clothes make the man" (or woman). This is especially true in early Hollywood silent films where a character's appearance could show an immense number of different things about them. For example, Theda Bara's role in *A Fool There Was* (1915) was known for her revealing clothing, seductive appearance, and being the first "Vamp." Wardrobe and costume design played a larger role in silent films than in modern movies. The character's clothes told the audience who they were and what their role was in the movie. In this in-depth analysis, the author provides examples and explanations about noteworthy characters who used their appearance to further their fame.

[Designing Hollywood](#) - Christian Esquevin
2023-08-29

Since the 1920s, fashion has played a central

role in Hollywood. As the movie-going population consisted largely of women, studios made a concerted effort to attract a female audience by foregrounding fashion. Magazines featured actresses like Jean Harlow and Joan Crawford bedecked in luxurious gowns, selling their glamour as enthusiastically as the film itself. Whereas actors and actresses previously wore their own clothing, major studios hired costume designers and wardrobe staff to fabricate bespoke costumes for their film stars. Designers from a variety of backgrounds, including haute couture and art design, were offered long-term contracts to work on multiple movies. Though their work typically went uncredited, they were charged with creating an image for each star that would help define an actor both on- and off-screen. The practice of working long-term with a single studio disappeared when the studio system began unraveling in the 1950s. By the 1970s, studios had disbanded their wardrobe departments and auctioned off their costumes

and props. In *Designing Hollywood: Studio Wardrobe in the Golden Age*, Christian Esquevin showcases the designers who dressed Hollywood's stars from the late 1910s through the 1960s and the unique symbiosis they developed with their studios in creating iconic looks. Studio by studio, Esquevin details the careers of designers like Vera West, who worked on Universal productions such as *Phantom of the Opera* (1925), *Dracula* (1931), and *Bride of Frankenstein* (1931); William Travilla, the talent behind Marilyn Monroe's dresses in *Gentleman Prefer Blondes* (1953) and *The Seven Year Itch* (1955); and Walter Plunkett, the Oscar-winning designer for film classics like *Gone with the Wind* (1939) and *An American in Paris* (1951). Featuring black and white photographs of leading ladies in their iconic looks as well as captivating original color sketches, *Designing Hollywood* takes the reader on a journey from drawing board to silver screen.

California Design, 1930-1965 - Wendy Kaplan
2011-09-16

The first comprehensive examination of California's mid-century modern design, generously illustrated. In 1951, designer Greta Magnusson Grossman observed that California design was “not a superimposed style, but an answer to present conditions.... It has developed out of our own preferences for living in a modern way.” California design influenced the material culture of the entire country, in everything from architecture to fashion. This generously illustrated book, which accompanies a major exhibition at the Los Angeles County Museum of Art, is the first comprehensive examination of California's mid-century modern design. It begins by tracing the origins of a distinctively California modernism in the 1930s by such European émigrés as Richard Neutra, Rudolph Schindler, and Kem Weber; it finds other specific design influences and innovations in solid-color commercial ceramics, inspirations

from Mexico and Asia, new schools for design training, new concepts about leisure, and the conversion of wartime technologies to peacetime use (exemplified by Charles and Ray Eames's plywood and fiberglass furniture). The heart of California Design is the modern California home, famously characterized by open plans conducive to outdoor living. The layouts of modernist homes by Pierre Koenig, Craig Ellwood, and Raphael Soriano, for example, were intended to blur the distinction between indoors and out. Homes were furnished with products from Heath Ceramics, Van Keppel-Green, and Architectural Pottery as well as other, previously unheralded companies and designers. Many objects were designed to be multifunctional: pool and patio furniture that was equally suitable indoors, lighting that was both task and ambient, bookshelves that served as room dividers, and bathing suits that would turn into ensembles appropriate for indoor entertainment. California Design includes 350 images, most in color, of

furniture, ceramics, metalwork, architecture, graphic and industrial design, film, textiles, and fashion, and ten incisive essays that trace the rise of the California design aesthetic.
