The American Film Institute Catalog of Motion Pictures Produced in the United States: Feature Films - American Film Institute 1993

"The entire field of film historians awaits the AFI volumes with eagerness."--Eileen Bowser, Museum of Modern Art Film Department
Comments on previous volumes: "The source of last resort for finding socially valuable . . . films that received such scant attention that they seem 'lost' until discovered in the AFI Catalog."--Thomas Cripps "Endlessly absorbing as an excursion into cultural history and national

memory."--Arthur Schlesinger, Jr.

Country Music Records - Tony Russell 2004-10-07

More than twenty years in the making, Country Music Records documents all country music recording sessions from 1921 through 1942. With primary research based on files and session logs from record companies, interviews with surviving musicians, as well as the 200,000 recordings archived at the Country Music Hall of Fame and Museum's Frist Library and Archives, this notable work is the first compendium to accurately report the key details behind all the recording sessions of country music during the pre-World War II era. This discography documents--in alphabetical order by artist--every commercial country music recording, including unreleased sides, and indicates, as completely as possible, the musicians playing at every session, as well as instrumentation. This massive undertaking encompasses 2,500 artists, 5,000 session musicians, and 10,000 songs. Summary histories of each key record company are also provided, along with a bibliography. The discography includes indexes to all song titles and musicians listed.

Western Film Highlights - Henryk Hoffmann 2015-07-11

Westerns may have had their heyday, but they remain popular. The greatest films from 1914, when *The Squaw Man* and *The Virginian* were among the genre's best, through 2001, when *American Outlaws* and *Texas Rangers* were tops, are the subject of this work. For each year, the author names the outstanding western films in the following categories: picture, screenplay (original and adaptation), direction, cinematography, music, male and female leading

roles, and male and female supporting roles. Also for each year, the author lists the westerns that received Academy Award nominations (and those that won), makes note of the births and deaths of notable actors, directors, producers, composers, cinematographers, authors and other such personalities, and describes the genre's significant achievements.

The Encyclopedia of Film - James Monaco 1991

The Good, the Bad and the Ancient - Sue Matheson 2022-11-03

Although Americans are no longer compelled to learn Greek and Latin, classical ideals remain embedded in American law and politics, philosophy, oratory, history and especially popular culture. In the Western genre, many film and television directors (such as John Ford, Raoul Walsh, Howard Hawks, Anthony Mann and Sam Peckinpah) have drawn inspiration from antiquity, and the classical values and influences in their work have shaped our conceptions of the West for years. This thought-provoking, first-of-its-kind collection of essays celebrates, affirms and critiques the West's relationship with the classical world. Explored are films like *Cheyenne Autumn*, *The Wild Bunch*, *The Track of the Cat*, *Trooper Hook*, *The Furies*, *Heaven's Gate*, and *Slow West*, as well as serials like *Gunsmoke* and *Lonesome Dove*.

year, running time, color indication, cast listing, plot synopsis, and a brief critical review and other details. Not only are Hollywood productions included, but the volume also looks at Westerns made abroad as well as frontier epics, north woods adventures and nature related productions. Many of the films combine genres, such as horror and science fiction Westerns. The volume includes a list of cowboys and their horses and a screen names cross reference. There are more than 100 photographs.

Art Directors in Cinema - Michael L. Stephens 2015-09-02

Often forgotten among the actors, directors, producers and others associated with filmmaking, art directors are responsible for making movies visually appealing to audiences. As such they sometimes make the difference between a hit and a bomb. This biographical dictionary includes not only the world's great and almost-great artists, but the unjustly neglected film designers of the past and present. Among the more than 300 art directors and designers are pioneers from silent films, designers from Hollywood and Europe's Golden Ages, Asian figures, post-Golden Age personalities, leaders of the European and American New Waves, and many contemporary designers. Each entry consists of biographical information, an analysis of the director's career and important films, and an extensive filmography including mentions of Academy Award nominations and winners.

J. Frank Dobie - Steven L. Davis 2010-01-01
The first Texas-based writer to gain national attention, J. Frank Dobie proved that authentic writing springs easily from the native soil of Texas and the Southwest. In best-selling books such as *Tales of Old-Time Texas*, *Coronado's Children*, and *The Longhorns*, Dobie captured the Southwest's folk history, which was quickly disappearing as the United States became ever more urbanized and industrial. Renowned as "Mr. Texas," Dobie paradoxically has almost

disappeared from view—a casualty of changing tastes in literature and shifts in social and political attitudes since the 1960s. In this lively biography, Steven L. Davis takes a fresh look at a J. Frank Dobie whose "liberated mind" set him on an intellectual journey that culminated in Dobie becoming a political liberal who fought for labor, free speech, and civil rights well before these causes became acceptable to most Anglo Texans. Tracing the full arc of Dobie's life (1888-1964), Davis shows how Dobie's insistence on "free-range thinking" led him to such radical actions as calling for the complete integration of the University of Texas during the 1940s, as well as taking on governors, senators, and the FBI (which secretly investigated him) as Texas's leading dissenter during the McCarthy era.
