Fandom as Methodology Catherine Grant 2019-12-03 An illustrated exploration of fandom that combines academic essays with artist pages and experimental texts. Fandom as Methodology examines fandom as a set of practices for approaching and writing about art. The collection includes experimental texts, autobiography, fiction, and new academic perspectives on fandom in and as art. Key to the idea of “fandom as methodology” is a focus on the potential for fandom in art to create oppositional spaces, communities, and practices, particularly from queer perspectives, but also through transnational, feminist and artist-of-color fandoms. The book provides a range of examples of artists and writers working in this vein, as well as academic essays that explore the ways in which fandom can be theorized as a methodology for art practice and art history. Fandom as Methodology proposes that many artists and art writers already draw on affective strategies found in fandom. With the current focus in many areas of art history, art writing, and performance studies around affective engagement with artworks and imaginative potentials, fandom is a key methodology that has yet to be explored. Interwoven into the academic essays are lavishly designed artist pages in which artists offer an introduction to their use of fandom as methodology. Contributors Taylor J. Acosta, Catherine Grant, Dominic Johnson, Kate Random Love, Maud Lavin, Owen G. Parry, Alice Butler, Soojin Lee, Jenny Lin, Judy Batalion, Ika Willis. House of Outrageous Fortune Michael Gross 2014-03-11

“Michael Gross’s new book...packs [in] almost as many stories as

there are apartments in the building. The Jackie Collins of real estate likes to map expressions of power, money and ego... Even more crammed with billionaires and their exploits than 740 Park” (Penelope Green, *The New York Times*). With two concierge-staffed lobbies, a walnut-lined library, a lavish screening room, a private sixty-seat restaurant offering residents room service, a health club complete with a seventy-foot swimming pool, penthouses that cost almost \$100 million, and a tenant roster that’s a roll call of business page heroes and villains, Fifteen Central Park West is the most outrageously successful, insanely expensive, titanically tycoon-stuffed real estate development of the twenty-first century. In this “stunning” (CNN) and “deliciously detailed” (Booklist, starred review) *New York Times* bestseller, journalist Michael Gross turns his gimlet eye on the new-money wonderland that’s sprung up on the southwest rim of Central Park. Mixing an absorbing business epic with hilarious social comedy, Gross “takes another gossip-laden bite out of the upper crust” (Sam Roberts, *The New York Times*), which includes Denzel Washington, Sting, Norman Lear, top executives, and Russian and Chinese oligarchs, to name a few. And he recounts the legendary building’s inspired genesis, costly construction, and the flashy international lifestyle it has brought to a once benighted and socially déclassé Manhattan neighborhood. More than just an apartment building, 15CPW represents a massive paradigm shift in the lifestyle of New York’s rich and famous—and is a bellwether of the city’s changing social and financial landscape.

Sexual Personae Camille Paglia 1990-09-10 From ancient Egypt through the nineteenth century, *Sexual Personae* explores the provocative connections between art and pagan ritual; between Emily Dickinson and the Marquis de Sade; between Lord Byron and Elvis Presley. It ultimately challenges the cultural assumptions of both conservatives and traditional liberals. 47 photographs.

Frank Zappa, Captain Beefheart and the Secret History of

Maximalism Michel Delville 2005 A comparative account of the musical and cultural acts of Zappa and his cohort, collaborator and antagonist Captain Beefheart. Written in the iconoclastic spirit of Zappa's art, this book traces the mixed media experiments of California freakdom through the dada blues of Beefheart, mapping out the pleasures of imaginative excess.

My Son Marshall, My Son Eminem Debbie Nelson 2008 To this day Debbie Nelson is asked why she abandoned her son Marshall as a boy, beat him repeatedly, and then had the audacity to dog him with lawsuits when he became rich and famous. My Son Martial, My Son Eminem is her rebuttal to these widely believed lies-a poignant story of a single mother who wanted the world for her son, only to see herself defamed and shut out when he got it. Debbie Nelson encouraged her talented son to chase success-even when Eminem hijacked her good name in his lyrics and press for "street cred," a movie that ultimately alienated them from each other by the notoriety and bitterness it spawned. In My Son Marshall, My Son Eminem, Debbie Nelson details the real story of Eminem's life from his earliest days in a small town in Missouri and his teenage years in Detroit, to his rise to stardom and very public mom-bashing.

Around the World in 50 Years Albert Podell 2016-07-19 The New York Times Best Seller "Amazing . . . the most original travel narrative ever written." —CounterPunch

Around the World in 50 Years is the inspiring story of an ordinary guy who achieved two great goals that others had told him were impossible. First, he set a record for the longest automobile journey ever made around the world, during which he blasted his way out of minefields, survived a serious accident atop the Peak of Death, came within seconds of being lynched, and lost three of the five men who started with him: two to disease, one to the Vietcong. After that, Albert Podell set another record by going to every country on earth. He survived riots, revolutions, civil wars, trigger-happy child soldiers, voodoo priests, jihadists, robbers, corrupt cops, and Cape buffalo. He traveled through every kind of earthquake, cyclone, tsunami, volcanic eruption, snowstorm, and sandstorm that nature threw at him. He ate everything from old camel meat and African field rats to dung beetles and the brain of a live monkey. And he overcame encounters with crocodiles, hippos, anacondas, giant leeches, flying crabs—and several beautiful women who insisted that he stop this nonsense and marry them. *Around the World in 50 Years* is a remarkable and meaningful tale packed with some of the most memorable, frightening, and hilarious adventure stories you have ever read.

Out of the Ordinary Michael Dillon/Lobzang Jivaka 2016-11-01
Now available for the first time—more than 50 years after it was written—is the memoir of Michael Dillon/Lobzang Jivaka (1915-62), the British doctor and Buddhist monastic novice chiefly known to scholars of sex, gender, and sexuality for his pioneering transition from female to male between 1939 and 1949, and for his groundbreaking 1946 book *Self: A Study in Ethics and Endocrinology*. Here at last is Dillon/Jivaka's extraordinary life story told in his own words. *Out of the Ordinary* captures Dillon/Jivaka's various journeys—to Oxford, into medicine, across the world by ship—within the major narratives of his gender and religious journeys. Moving chronologically, Dillon/Jivaka begins with his childhood in Folkestone, England, where he was raised by his spinster aunts, and tells of his days at Oxford immersed in theology, classics, and rowing. He recounts his hormonal transition while working as an auto mechanic and

fire watcher during World War II and his surgical transition under Sir Harold Gillies while Dillon himself attended medical school. He details his worldwide travel as a ship's surgeon in the British Merchant Navy with extensive commentary on his interactions with colonial and postcolonial subjects, followed by his "outing" by the British press while he was serving aboard The City of Bath. Out of the Ordinary is not only a salient record of an early sex transition but also a unique account of religious conversion in the mid-twentieth century. Dillon/Jivaka chronicles his gradual shift from Anglican Christianity to the esoteric spiritual systems of George Gurdjieff and Peter Ouspensky to Theravada and finally Mahayana Buddhism. He concludes his memoir with the contested circumstances of his Buddhist monastic ordination in India and Tibet. Ultimately, while Dillon/Jivaka died before becoming a monk, his novice ordination was significant: It made him the first white European man to be ordained in the Tibetan Buddhist tradition. Out of the Ordinary is a landmark publication that sets free a distinct voice from the history of the transgender movement.

Chimpanzees in Biomedical and Behavioral Research

National Research Council 2012-01-05 For many years, experiments using chimpanzees have been instrumental in advancing scientific knowledge and have led to new medicines to prevent life-threatening and debilitating diseases. However, recent advances in alternate research tools have rendered chimpanzees largely unnecessary as research subjects. The Institute of Medicine, in collaboration with the National Research Council, conducted an in-depth analysis of the scientific necessity for chimpanzees in NIH-funded biomedical and behavioral research. The committee concludes that while the chimpanzee has been a valuable animal model in the past, most current biomedical research use of chimpanzees is not necessary, though noted that it is impossible to predict whether research on emerging or new diseases may necessitate chimpanzees in the

The Cultural Contradictions Of Capitalism Daniel Bell 1996-10-18 With a new afterword by the author, this classic analysis of Western liberal capitalist society contends that capitalism—and the culture it creates—harbors the seeds of its own downfall by creating a need among successful people for personal gratification—a need that corrodes the work ethic that led to their success in the first place. With the end of the Cold War and the emergence of a new world order, this provocative manifesto is more relevant than ever.

compassionate approach to addiction, whether to alcohol, drugs, sex, money or anything self-destructive. He presents it not as a discrete phenomenon confined to a weak-willed few, but as a continuum that runs through (and even underpins) our society; not as a medical 'condition', but rather the result of a complex interplay of personal history, emotional development and brain chemistry. Distilling cutting-edge research from around the world, *In the Realm of Hungry Ghosts* avoids glib self-help remedies, instead promoting self-understanding as the first key to healing and wellness. Psychoanalytic Perspectives on Puberty and Adolescence

Gertraud Diem-Wille 2020-12-31 Puberty is a time of tumultuous transition from childhood to adulthood activated by rapid physical changes, hormonal development and explosive activity of neurons. This book explores puberty through the parent-teenager relationship, as a "normal state of crisis", lasting several years and with the teenager oscillating between childlike tendencies and their desire to become an adult. The more parents succeed in recognizing and experiencing these new challenges as an integral, ineluctable emotional transformative process, the more they can allow their children to become independent. In addition, parents who can also see this crisis as a chance for their own further development will be ultimately enriched by this painful process. They can face up to their own aging as they take leave of youth with its myriad possibilities, accepting and working through a newfound rivalry with their sexually mature children, thus experiencing a process of maturity, which in turn can set an example for their children. This book is based on rich clinical

observations from international settings, unique within the field, and there is an emphasis placed by the author on the role of the body in self-awareness, identity crises and gender construction. Marihuana E.L. Abel 2013-06-29 Of all the plants men have ever grown, none has been praised and denounced as often as marihuana (*Cannabis sativa*). Throughout the ages, marihuana has been extolled as one of man's greatest benefactors and cursed as one of his greatest scourges. Marihuana is undoubtedly a herb that has been many things to many people. Armies and navies have used it to make war, men and women to make love. Hunters and fishermen have snared the most ferocious creatures, from the tiger to the shark, in its herculean weave. Fashion designers have dressed the most elegant women in its supple knit. Hangmen have snapped the necks of thieves and murderers with its fiber. Obstetricians have eased the pain of childbirth with its leaves. Farmers have crushed its seeds and used the oil within to light their lamps. Mourners have thrown its seeds into blazing fires and have had their sorrow transformed into blissful ecstasy by the fumes that filled the air. Marihuana has been known by many names: hemp, hashish, dagga, bhang, loco weed, grass-the list is endless. Formally christened *Cannabis sativa* in 1753 by Carl Linnaeus, marihuana is one of nature's hardiest specimens. It needs little care to thrive. One need not talk to it, sing to it, or play soothing tranquil Brahms lullabies to coax it to grow. It is as vigorous as a weed. It is ubiquitous. It flourishes under nearly every possible climatic condition.

My Many Selves Wayne C. Booth 2006-01-31 "Wayne C. Booth's memoir, *My Many Selves*, is both an incisive self-examination and a creative approach to retelling his life. Writing his autobiography became a quest to harmonize the diverse, discordant parts of his identity and resolve the conflicts in what he thought and believed. To see himself clearly and whole, he broke his self down, personified the fragments, uncovered their roots in his life, and engaged his multiple identities and experiences in dialogue. Basic to his story and to its lifelong concern with ethics and rhetoric was his youth in rural Utah. He valued that background, while acknowledging its ambiguous influence on him, and continued to identify himself as Mormon, though he renounced most Latter-day Saint doctrines. Wayne Booth died in October 2005, soon after completing work on his autobiography."--BOOK JACKET.

Personal Narrative of a Pilgrimage to El Medinah and Meccah

Sir Richard Francis Burton 1857 Richard Francis Burton (1821-90) was a British orientalist, soldier, spy, diplomat, and explorer best known for his travels in Arabia, Africa, and India. He was born in Torquay, on the southern coast of England, and was raised in France and Italy. It was there that he began to show his exceptional talent with languages by learning Latin, Greek, Italian, and French before he was 20. After two years at Oxford, he was dismissed on disciplinary grounds. He went on to join the British Army in India, where he served as an intelligence officer. Disguised as a Pashtun Muslim and supported by the Royal Geographical Society, in 1853 Burton undertook a hajj journey to the two Muslim holy cities of Mecca and Medina. His two-volume *Personal Narrative of a Pilgrimage to el Medinah and Meccah* recounts that journey. Burton spent years in preparation, mostly during his time in India. The journey first took him from England to Alexandria in Egypt, and further to Cairo, Suez, and Yanbu. From there he travelled to Medina and Mecca. Although Burton was not the first non-Muslim to perform the hajj, the accuracy of

his well-documented account, including his measurements of the Kaaba in Mecca and his Victorian-era observations on Muslims (especially his copious notes on manners), brought him immediate fame. Burton begins the first volume of his work with a famed line of verse on cavalierism by the Arab poet al-Mutanabbi (915-65 AD): "I am well known to the night, the steeds, and the desert / the sword and [the guest], the paper and the pen." A controversial figure during his lifetime and a prolific writer and translator, Burton left behind 43 volumes of writing on his journeys and 30 volumes of translations, including of sensual books such the Kama Sutra of Vatsyayana, The Perfumed Garden of the Cheikh Nefzaoui, and the Arabian Nights. He died in Trieste, in what was then Austria-Hungary.

Simplified Signs John D. Bonvillian 2020 "Simplified Signs presents a system of manual sign communication intended for special populations who have had limited success mastering spoken or full sign languages. It is the culmination of over twenty years of research and development by the authors. The Simplified Sign System has been developed and tested for ease of sign comprehension, memorization, and formation by limiting the complexity of the motor skills required to form each sign, and by ensuring that each sign visually resembles the meaning it conveys. Volume 1 outlines the research underpinning and informing the project, and places the Simplified Sign System in a wider context of sign usage, historically and by different populations. Volume 2 presents the lexicon of signs, totalling approximately 1000 signs, each with a clear illustration and a written description of how the sign is formed, as well as a memory aid that connects the sign visually to the meaning that it conveys. While the Simplified Sign System originally was developed to meet the needs of persons with intellectual disabilities, cerebral palsy, autism, or aphasia, it may also assist the communication needs of a wider audience - such as healthcare professionals, aid workers, military personnel,

travellers or parents, and children who have not yet mastered spoken language. The system also has been shown to enhance learning for individuals studying a foreign language. How to Get Filthy Rich In Rising Asia Mohsin Hamid 2013-03-28

How to Get Filthy Rich in Rising Asia is Mohsin Hamid's spectacular, thought-provoking novel of modern Asia. In this keenly-awaited follow-up to his bestselling *The Reluctant Fundamentalist*, Mohsin Hamid confirms his place as a radically inventive story-teller with his finger on the world's pulse. The astonishing and riveting tale of a man's journey from impoverished rural boy to corporate tycoon, it steals its shape from the business self-help books devoured by youths all over 'rising Asia'. It follows its nameless hero to the sprawling metropolis where he begins to amass an empire built on the most fluid and increasingly scarce of goods: water. Yet his heart remains set on something else, on the pretty girl whose star rises alongside his, their paths crossing and re-crossing in a love affair sparked and snuffed out again by the forces that careen their fates along. The hero of the story could be any one of us, hungry for a different life. And ours too could be the fate that awaits him . . . Fast-paced, vivid and emotionally absorbing, *How to Get Filthy Rich in Rising Asia* creates two unforgettable characters who find moments of transcendent intimacy in the midst of shattering change. Praise for *How to Get Filthy Rich in Rising Asia*: 'Even more intriguing, compelling and moving than *The Reluctant Fundamentalist*. A marvellous book' Philip Pullman 'This brilliantly structured, deeply felt book is written with the confidence and bravura of a man born to write. His fiction has been adapted for the cinema, translated into over 30 languages, received numerous awards, and been shortlisted for the Man Booker Prize. The Social Construction of Technological Systems,

anniversary edition Wiebe E. Bijker 2012-05-18 An anniversary edition of an influential book that introduced a groundbreaking approach to the study of science, technology, and society. This pioneering book, first published in 1987, launched the new field of social studies of technology. It introduced a method of inquiry—social construction of technology, or SCOT—that became a key part of the wider discipline of science and technology studies. The book helped the MIT Press shape its STS list and inspired the Inside Technology series. The thirteen essays in the book tell stories about such varied technologies as thirteenth-century galleys, eighteenth-century cooking stoves, and twentieth-century missile systems. Taken together, they affirm the fruitfulness of an approach to the study of technology that gives equal weight to technical, social, economic, and political questions, and they demonstrate the illuminating effects of the

integration of empirics and theory. The approaches in this volume—collectively called SCOT (after the volume's title) have since broadened their scope, and twenty-five years after the publication of this book, it is difficult to think of a technology that has not been studied from a SCOT perspective and impossible to think of a technology that cannot be studied that way.

Think Sapiens and triple it.' - Julia Hobsbawm, author of Fully Connected _____ We all have ten types of human in our head. They're the people we become when we face life's most difficult decisions. The Ten Types of Human is a pioneering examination of human nature. It looks at the best and worst that human beings are capable of, and asks why. It explores the frontiers of the human experience, uncovering the forces that shape our thoughts and actions in extreme situations. From courtrooms to civil wars, from Columbus to child soldiers, Dexter Dias takes us on a globe-spanning journey in search of answers, touching on the lives of some truly exceptional people. Combining cutting-edge neuroscience, social psychology and human rights research, The Ten Types of Human is a provocative map to our hidden selves.
