*A Principal Manager's Guide to Leverage Leadership 2.0* Paul Bambrick-Santoyo 2018-08-07 Build better schools by training better leaders *A Principal Manager's Guide to Leverage Leadership* answers the question that district leaders have been asking across the country: if *Leverage Leadership* is a roadmap for principals on how to lead great schools, what can principal managers and districts do to support them on that path? *A Principal Manager's Guide to Leverage Leadership* offers a step-by-step guide to coaching principals to the highest levels of achievement, and it is rooted in studying the most successful principal managers and districts across the country. It can be used by principal managers/supervisors, superintendents, district and state leadership, and principal training organizations to accelerate the growth of principals in your community. Used in conjunction with *Leverage Leadership 2.0*, this book identifies the key actions principal managers should take to create exceptional school leaders, integrating the seven levers of leadership into district culture from the principal manager on up. With a particular emphasis on the two "super-levers" of data-driven instruction and student culture, this book is packed with advice, professional development materials, and real-world videos of principal managers in action, offering principal managers a valuable resource for bringing about change. *A Principal Manager's Guide to Leverage Leadership* introduces a new unifying approach that is also highlighted in *Leverage Leadership 2.0: See It, Name It, Do It*. It gives you the tools to See it (see models of effective practice and identify gaps), Name it (name concrete actions for improvement) and Do it (provide means to practice these action steps until a principal masters them) With *A Principal Manager's Guide to Leverage Leadership* in hand, principal managers, superintendents and principal training

organizations can facilitate district-wide and state-wide transformations and hasten the benefit to the students and community as a whole.

**Steven Spielberg and Philosophy** Dean A. Kowalski 2008-11-21 “This lively collection of essays on the ideas underpinning his films enriches and enlarges our understanding of Spielberg’s complex body of work.” —Joseph McBride, author of *Steven Spielberg: A Biography* Few directors have had as powerful an influence on the film industry and the movie-going public as Steven Spielberg. Whatever the subject—dinosaurs, war, extra-terrestrials, slavery, the Holocaust, or terrorism—one clear and consistent touchstone is present in all of Spielberg’s films: an interest in the human condition. In movies ranging from *Jaws* to *Schindler’s List* to *Amistad* to *Jurassic Park*, he has brought to life some of the most popular heroes—and most despised villains—of all time. **The Oxford Handbook of Cinematic Listening** Carlo

Cenciarelli 2021 The Oxford Handbook of Cinematic Listening explores the intersection between the history of listening and the history of the moving image. Featuring established and emergent scholars from musicology, film studies, and literary studies, ethnomusicology and sound studies, popular music, sociology, media and communications, and psychology, this Handbook offers a wide range of case studies and methodological perspectives on the archaeologies, aesthetics, and extensions of cinematic listening. Chapters are structured around six themes: Part I ("Genealogies and Beginnings") considers film sound in light of pre-existing genres such as opera and shadow theatre, and explores changes in listening taking place at critical junctures in the early history of cinema. Part II ("Locations and Relocations") focuses on specific venues and presentational practices (from roadshow movies to and contemporary live-score screenings). Part III ("Representations and Re-presentations") zooms into the formal properties of specific films, analysing representations of listening on screen as well as on the role of sound as a representational surplus. Part IV ("The Listening Body") focuses on cinematic sound as a powerful and sensual stimulus that has the power to engage the full body sensorium. Part V ("Listening again") discusses a range of ways in which film sound is encountered and reinterpreted outside the cinema, through ancillary materials like songs and soundtrack albums, in experimental conditions, and in pedagogical contexts. Part VI ("Between Media") compares the listening protocols of cinema

Linguistic Inquiry and Word Count James W. Pennebaker 1999-04-01 Language, whether spoken or written, is an important window into people's emotional and cognitive worlds. Text analysis of these narratives, focusing on specific words or classes of words, has been used in numerous research studies including studies of emotional, cognitive, structural, and process components of individuals' verbal and written language. It was in this research context that the LIWC program was developed. The program analyzes text files on a word-by-word basis, calculating percentage words that match each of several language dimensions. Its output is a text file that can be opened in any of a variety of applications, including word processors and spreadsheet programs. The program has 68 pre-set dimensions (output variables) including linguistic dimensions, word categories tapping psychological constructs, and personal concern categories, and can accommodate user-defined dimensions as well. Easy to install and use, this software offers researchers in social, personality, clinical, and applied psychology a valuable tool for quantifying the rich but often slippery data provided in the form of personal narratives. The software comes complete on one 3 1/2 diskette and runs on any Windows-based computer.

Creatures of Darkness Gene D. Phillips 2014-07-11 More than any other writer, Raymond Chandler (1888-1959) is responsible for raising detective stories from the level of pulp fiction to literature. Chandler's hard-boiled private eye Philip Marlowe set the standard for rough, brooding heroes who managed to maintain a strong sense of moral conviction despite a cruel and indifferent world. Chandler's seven novels, including The Big Sleep (1939) and The Long Goodbye (1953), with their pessimism and grim realism, had a direct influence on the emergence of film noir. Chandler worked to give his crime novels the flavor of his adopted city, Los Angeles, which was still something of a frontier town, rife with corruption and lawlessness. In addition to novels, Chandler wrote short stories and penned the screenplays for several films, including Double Indemnity (1944) and Strangers on a Train (1951). His work with Billy Wilder and Alfred Hitchcock on these projects was fraught with the difficulties of collaboration between established directors and an author who disliked having to edit his writing on demand. Creatures of Darkness is the first major biocritical study of Chandler in twenty

years. Gene Phillips explores Chandler's unpublished script for *Lady in the Lake*, examines the process of adaptation of the novel *Strangers on a Train*, discusses the merits of the unproduced screenplay for *Playback*, and compares Howard Hawks's director's cut of *The Big Sleep* with the version shown in theaters. Through interviews he conducted with Wilder, Hitchcock, Hawks, and Edward Dmytryk over the past several decades, Phillips provides deeper insight into Chandler's sometimes difficult personality. Chandler's wisecracking Marlowe has spawned a thousand imitations. *Creatures of Darkness* lucidly explains the author's dramatic impact on both the literary and cinematic worlds, demonstrating the immeasurable debt that both detective fiction and the neo-noir films of today owe to Chandler's stark vision.

Explores what is at stake in the work of assessment in the literature classroom, what we stand to gain, what we fear to lose, and whether current assessment methods can capture the outcomes we care about most: the complex, subtle, seemingly ineffable heart of learning. The essays in this volume are divided into four sections that focus on: outcomes assessment in the context of current national discussions of higher education and the work being done by various professional organizations; approaches to assessing "sublime learning" (that is, learning that can seem unassessable) and creativity; the question of what outcomes assessment can measure in the literature classroom, as well as the theoretical and political implications of doing so; case studies and templates for the assessment of literature programs, with related discussions of the assessment of writing and foreign language acquisition.--From publisher's description.
