Opting Out - Joanna Davidson 2022-11-11

Women around the world are opting out of marriage. Through nuanced ethnographic accounts of the ways that women are moving the needle on marital norms and practices, *Opting Out* reveals the conditions that make this widespread phenomenon possible in places where marriage has long been obligatory. Each chapter invites readers into the lives of particular women and the changing circumstances in which these lives unfold - sometimes painfully, sometimes humorously, and always unexpectedly. Taken together, the essays in this volume prompt the following questions: Why is marriage so consistently disappointing for women? When the rewards of economic stability and the social status that marriage confers are troubled, does marriage offer women anything compelling at all? Across diverse geographic contexts in Africa, Asia, and Latin America, this book offers sensitive and powerful portrayals of women as they escape or reshape marriage into a more rewarding arrangement.

Fashioning Bollywood - Clare M. Wilkinson-Weber 2013-12-19

The Hindi film industry, among the most prolific in the world, has delighted audiences for decades with its colourful, exquisite and sometimes startling costumes. But are costumes more than just a source of pleasure? This book, the first in-depth exploration of Hindi film costume, contends that they are a unique source of knowledge about issues ranging from Indian taste and fashion to questions of identity, gender and work. Anthropological and film studies approaches combine to analyze costume as the outcome of production processes and as a cinematic device for conveying meaning. Chapters lead from the places where costume is planned and executed to explorations of characterization, the actor body, spectacles of fashion, to the imagining of historical or fantasy worlds through dress, to the power of stardom to launch clothing styles into the public domain. As well as charting the course of film costume as it parallels important trends in cultural history, the book considers the future of Hindi film costume, in the context of new strains of filmmaking that stress unvarnished realism. *Fashioning Bollywood* will appeal to students and scholars of Indian culture, anthropology and fashion, as well as anyone who has seen and enjoyed Hindi films.

Educating the Student Body - Institute of Medicine 2013-11-30

Physical inactivity is a key determinant of health across the lifespan. A lack of activity increases the risk of heart disease, colon and breast cancer, diabetes mellitus, hypertension, osteoporosis, anxiety and depression and others diseases. Emerging literature has suggested that in terms of mortality, the global population health burden of physical inactivity approaches that of cigarette smoking. The prevalence and substantial disease risk associated with physical inactivity has been described as a pandemic. The prevalence, health impact, and evidence of changeability all have resulted in calls for action to increase physical activity across the lifespan. In response to the need to find ways to make physical activity a health priority for youth, the Institute of Medicine's Committee on Physical Activity and Physical Education in the School Environment was formed. Its purpose was to review the current status of physical activity and physical education in the school environment, including before, during, and after school, and examine the influences of physical activity and physical education on the short and long term physical, cognitive and brain, and psychosocial health and development of children and adolescents. *Educating the Student Body* makes recommendations about approaches for strengthening and improving programs and policies for physical activity and physical education in the school environment. This report lays out a set of guiding principles to guide its work on these tasks. These included: recognizing the benefits of instilling life-long physical activity habits in children; the value of using systems thinking in improving physical activity and physical education in the school environment; the recognition of current disparities in opportunities and the

need to achieve equity in physical activity and physical education; the importance of considering all types of school environments; the need to take into consideration the diversity of students as recommendations are developed. This report will be of interest to local and national policymakers, school officials, teachers, and the education community, researchers, professional organizations, and parents interested in physical activity, physical education, and health for school-aged children and adolescents.

Bollywood and Globalization - David J. Schaefer 2013

The field of Bollywood studies has remained predominantly critical, theoretical and historical in focus. This book brings together qualitative and quantitative approaches to tackle empirical questions focusing on the relationship between soft power, hybridity, cinematic texts, and audiences. Adopting a critical-transcultural framework that examines the complex power relations that are manifested through globalized production and consumption practices, the book approaches the study of popular Hindi cinema from three broad perspectives: transcultural production contexts, content trends, and audiences. It firstly outlines the theoretical issues relevant to the spread of popular Indian cinema and emergence of India's growing soft power. The book goes on to report on a series of quantitative studies that examine the patterns of geographical, cultural, political, infrastructural, and artistic power dynamics at work within the highest-grossing popular Hindi films over a 61-year period since independence. Finally, an additional set of studies are presented that quantitatively examine Indian and North American audience consumption practices. The book illuminates issues related to the actualization and maintenance of cinematic soft power dynamics, highlighting Bollywood's increasing integration into and subsumption by globalized practices that are fundamentally altering India's cinematic landscape and, thus, its unique soft power potential. It is of interest to academics working in Film Studies, Globalisation Studies, and International Relations.

Cosmopolitan Sexuality - Ahonaa Roy 2022-10-31

"In a historic verdict, the Supreme Court of India in September 2018, struck down Section 377 of the Indian Penal Code and decriminalized homosexuality and granted personal rights and freedom to the LGBTQIA community at large. However, in December 2018, the Transgender Persons Bill was passed in the Lok Sabha (the People's House and lower house of Indian Parliament) that has negated and undermined the rights of the trans community in India. The Bill omits the reference to a 'neither male nor female' formulation, and covers any person whose gender does not match the gender assigned at birth, as well as transmen, transwomen, those with intersex variations, the gender-queer, and those who designate themselves based on socio-cultural identities such as hijra, aravani, kinner and jogta. This book articulates the ethnographic and anthropological studies of hijras (eunuchs) and the popular transgender culture in India through the case study of contemporary Mumbai. It studies how their identity is shaped through consumption of various practices of beauty and takes into account the direct provincial dialogues as to how the hijras negotiate different spaces of surgeries, clinics and medicine to shape their new forms of identity. It highlights how globalizing modernity would build a concrete understanding of the way local patterns of transgender sexuality and eroticism are shaped by this sort of culture. It attempts to build a more robust and complex understanding of sexual experiences among these subjects in the locale, thus projecting the intersection of local meanings of transgender eroticism that intersect global patterns of similar identities with their desire and sexuality. The local specificity of the hijra sexual economy relates to global transgender practices, thus proposing a nuanced discourse of space, culture and sexuality to the local context of the globalized and modernized India, instead of the articulation of global homogeneity of transgender identities"--

The Second Sex - Simone de Beauvoir 1997

Of all the writing that emerged from the existentialist movement, Simone de Beauvoir's groundbreaking study of women will probably have the most extensive and enduring impact. It is at once a work of anthropology and sociology, of biology and psychoanalysis, from the pen of a writer and novelist of penetrating imaginative power. THE SECOND SEX stands, five decades after its first appearance, as the first landmark in the modern feminist upsurge that has transformed perceptions of the social relationship of man and womankind in our time

The Celibate - Varghese V Devasia 2022-08-27

The evolution of an AI engineer into a Jesuit, a Christian priest, and later an Aghori Sadhu, a naked Hindu monk, is the story. On holiday in Goa, Grace, a local girl, invited Abe to stay with her on condition he wouldn't touch her. He became madly in love with Grace but evolved into a celibate. At the Kamakhya temple, Emma, from Amsterdam, a researcher of Aghori Sadhus, prompted him about the joys of sex that challenged Abe's manhood. Her greenish eyes mesmerised him, and the lure tore him apart. A reverberating saga of sparkling aspirations and fleeting visions of Abe, Grace and Emma, enthralled in the zest of living and entrenched in captivating catastrophe sans exit, elevates the reader into a delightful psychic amorphous experience. This explosive existential surrealistic fiction exposes the absurdity and futility of celibacy, asceticism, and renunciation. Grace and Emma are two facets of womanhood, and Abe is the quintessential artist who tries to circumvent his anguish through painting their portraits. The Aghori Sadhu symbolises the meaninglessness of life. His nudity is civilisation's primaeval status, the freedom to be naked

Sexual Harassment of Women - National Academies of Sciences, Engineering, and Medicine 2018-09-01
Over the last few decades, research, activity, and funding has been devoted to improving the recruitment, retention, and advancement of women in the fields of science, engineering, and medicine. In recent years the diversity of those participating in these fields, particularly the participation of women, has improved and there are significantly more women entering careers and studying science, engineering, and medicine than ever before. However, as women increasingly enter these fields they face biases and barriers and it is not surprising that sexual harassment is one of these barriers. Over thirty years the incidence of sexual harassment in different industries has held steady, yet now more women are in the workforce and in academia, and in the fields of science, engineering, and medicine (as students and faculty) and so more women are experiencing sexual harassment as they work and learn. Over the last several years, revelations

of the sexual harassment experienced by women in the workplace and in academic settings have raised urgent questions about the specific impact of this discriminatory behavior on women and the extent to which it is limiting their careers. Sexual Harassment of Women explores the influence of sexual harassment in academia on the career advancement of women in the scientific, technical, and medical workforce. This report reviews the research on the extent to which women in the fields of science, engineering, and medicine are victimized by sexual harassment and examines the existing information on the extent to which sexual harassment in academia negatively impacts the recruitment, retention, and advancement of women pursuing scientific, engineering, technical, and medical careers. It also identifies and analyzes the policies, strategies and practices that have been the most successful in preventing and addressing sexual harassment in these settings.
