The first segment covers the most memorable moments in the show which generally pertain to multiple friends or the entire gang. It addresses broader episode plots and character storylines. The following section addresses guest stars

and recurring characters. The Big Bang Theory was known for signing big-name movie and television stars as well as developing some of the most unique and fascinating recurring characters in sitcom history. Thus, two chapters are specifically devoted to these illustrious scene-stealers. The show's vast guest star list featured well-known thespians, such as Charlie Sheen, James Earl Jones, Mark Hamill, Leonard Nimoy, Stephen Hawking, Kathy Bates, Carrie Fisher, Adam West, Brent Spiner, Jerry O'Connell, George Takei, Katee Sackhoff, Summer Glau, and many more. The content also highlights the most popular recurring characters, namely Stuart Bloom, Wil Wheaton, Professor Proton, Barry Kripke, Leslie Winkle, Bert Kibbler, Debbie Wolowitz, Priya, Mary Cooper, to mention a few. The remaining seven chapters cover specific information directly associated with each main character—Amy, Bernadette, Howard, Leonard, Penny, Raj, and

Sheldon—highlighting the most uproarious scenes and unforgettable episodes while testing the viewer's attention to detail. There is something for everyone. Casual watchers and avid fanatics will be equally captivated by this meticulously crafted tome. The Big Bang Theory Multiple Choice Trivia is guaranteed to provide hours of entertainment and laughter as the quiz-taker regales in reliving the finest moments of the show. Photos included, 500 questions with answers, 136 pages paperback, available digitally.

### **The Gay Test** - Mistress Dede

2015-01-29

How do you know whether you are gay or not? In fact, how can anyone know whether they are homosexual or heterosexual or bisexual? If this is the question that's bothering you, the first thing that you need to do is let go off the stereotypes. Just because you are not as macho as your college football captain does not mean that you are gay. In fact, you could actually be the captain of your football team and be a homosexual rather than a heterosexual.

This basically means that gay

men do not look different from your "normal" heterosexual male. They are not necessarily more feminine than straight men and they may be as interested in dressing up like a regular male. So, maybe someone just mentioned it to you that you may be gay. Or maybe someone just suggested that you have "too feminine" tastes, implying that you may be gay. This probably confused you and you wanted to just check out whether you are indeed gay. Don't you worry; this quiz will surely help you. But before we do begin with the quiz, here is one thing that you should keep in mind. The stereotypes that you or your friends have about gays are probably all incorrect. You are not gay because you are good at keeping your house clean, or you are good at picking up the right clothes, or because you dress up neatly. You are gay because you are physically and sexually attracted to men and not women. You are gay because you form strong lasting emotional sexual bonds with men and not women. You

are gay because you have a strong inclination towards getting intimate with men than women. You fantasize more about getting sexually involved with men rather than women. In short, do not use the common stereotypes that society has taught you about gays to determine your sexual orientation. Instead, this should depend on the physical and sexual attraction you feel for same sex individuals. So, are you more sexually attracted to men than women? This is the question that you should ask yourself. Still confused? Take The Gay Test and find out the truth.

Schwartz. The quizzes help readers analyze their feelings and actions objectively and help them improve their relationships using the solid advice offered by Dr. Schwartz. Is It Love or Lust -- Take the test! You're at a dinner party with a roomful of people when your partner tells a joke that falls flat. You: A) Turn a little red for him B) Laugh -- loudly, you don't want him to be embarrassed C) Chuckle, and remember again why you love his offbeat sense of humor (If you answered A, you're on the fence! The best answer is B. Your impulse to laugh despite the fact that your partner's funny joke tanked shows your desire to support and protect the one you love. If you answered C, you love him precisely because he's one of a kind. B & C are the answers of a woman in love, not in lust.) The 50 quizzes cover all aspects of your "love psyche" and are a fun and provocative tool for anyone who wants to be kissed by Cupid's arrow.
