

Sex Violence And Power In Sports Rethinking Masculinity

*Everyday Masculinities and
Extreme Sport* - Victoria
Robinson 2008-10-15

This book offers the first in depth study of this one particular extreme sport, rock climbing, and uses it as a case study to examine at how men "do" masculinity in a sporting environment. The book offers a fresh and innovative perspective on issues surrounding masculine identity, and challenges traditional approaches to sport studies. It also presents new ways of conceptualizing the relationship between the everyday and the pursuit of the extraordinary through sport. Drawing on insights from sociology, gender, masculinity studies and sports studies, this book will be of interest to a

broad range of students and researchers in these areas.

Sexual Abuse in Youth Sport -
Michael J. Hartill 2016-10-14

Cases of sport-related child sexual abuse have received increasing news coverage in recent years. This book documents and evaluates this important issue through a critical investigation of the research and theory on sexual violence and child sex offending that has emerged over the past thirty years. Based on life-history interviews with male and female 'survivors' of child sexual abuse in sport, this text offers a deeper appreciation for the experiences of those who are sexually victimized within sports and school-sport settings. Drawing on a wide

range of sources, it also provides a new theoretical framework through which child sexual abuse in sport may be explored. Offering a critique spanning psychology, sociology and criminology, this book challenges existing theories of sex offending while advocating an alternative epistemology to help better understand and address this social problem. Presenting an original sociological approach to this field of study, *Sexual Abuse in Youth Sport* is important reading for any researcher, policy-maker or practitioner working in youth sport, physical education, sports coaching, sport policy, child protection or social work.

Paradoxes of Youth and Sport - Margaret Gatz 2002-03-28

Highlights the practical benefits and the many problems of youth and sports in the United States.

Skating on Thin Ice - Walter S. DeKeseredy 2023-10-02

Skating on Thin Ice exposes the culture of toxic masculinity in professional hockey and suggests how sport and society

can change the narrative on sexual assault and violence. Why is it that professional sports, and notably hockey, remain a bastion for rape culture and violence against women? What are the conditions that allow a culture of toxic masculinity to persist despite awakenings elsewhere in society? What is the path forward, and how do we make officials, coaches, and athletes accountable? Drawing on decades of award-winning sociological research and sports journalism, Walter S. DeKeseredy, Martin D. Schwartz, and veteran sportswriter Stu Cowan find answers to these questions in *Skating on Thin Ice*. The book examines the abusive, misogynistic, racist, and homophobic behaviors found in professional hockey and explains the larger societal forces that perpetuate and legitimate these harms. Confirming a recent federal government inquiry into Hockey Canada's handling of sexual assault allegations, the book reveals that young men

enter the NHL and other revenue-generating hockey leagues already trained and primed to treat women as objects - and often to commit violent acts against them. Rooted in the authors' work in the sports world as well as their work with activists and governments, *Skating on Thin Ice* doesn't just highlight the problem of hockey and rape culture, it also provides collaborative solutions for fixing it.

Salaryman Masculinity -

Tomoko Hidaka 2010

This book of the Japanese hegemonic salaryman masculinity demonstrates the way in which the participants construct their masculinities through their life course. Their narratives reveal their contradictions, doubts, dilemmas, anxieties and resignation behind the facade of their confidence and pride.

Boyz 2 Buddhas - David Forbes 2004

Is conventional masculinity hazardous to young men's health? *Boyz 2 Buddhas* proposes that mindfulness

meditation can help male teens deal with the unhealthy pressures of growing up today. After examining high school football - a popular activity that evokes troublesome aspects of male consciousness and behavior - David Forbes describes a meditation and discussion group he held with urban high school football players. The students meditated in order to play football in the zone, a state of higher awareness. Along the way they also learned to live their lives in the same manner, resulting in a more mindful, healthy way of growing up to be men. The counseling model illustrated in this book blends popular culture with contemplative practice, and addresses young men's need for greater personal meaning.

Pacific Island Women and Contested Sporting Spaces -

Yoko Kanemasu 2023-06-26

This book focuses on the variety of strategies developed by women athletes in the Pacific Islands to claim contested sporting spaces - in particular, rugby union, soccer,

beach volleyball, recreational sports and exercise – as a prism to explore grassroots women’s engagement with heavily entrenched postcolonial (hetero)patriarchy. Based on primary research conducted in Fiji, Samoa, Solomon Islands, and Vanuatu, the book investigates contested sporting spaces as sites of infrapolitics intersected primarily by gender and also by other markers of inequality, including ethnicity, sexuality, class and geopolitics. Contrary to historical and contemporary representations of Pacific Island women as victims of gender injustice, it explores how these athletes and those who support them actively carve out space for their transformative agency. *Pacific Island Women and Contested Sporting Spaces: Staking Their Claim* focuses on a region underexamined by sport or gender studies researchers and will be of key interest to scholars and students in Gender Studies, Sport Studies, Sociology and Pacific Studies as well as sport practitioners and policymakers.

Sociological Perspectives on Sport - David Karen 2015-03-02
Sociological Perspectives on Sport: The Games Outside the Games seeks not only to inform students about the sports world but also to offer them analytical skills and the application of theoretical perspectives that deepen their awareness and understanding of social processes linking sports to the larger social world. With six original framing essays linking sport to a variety of topics, including race, class, gender, media, politics, deviance, and globalization, and 37 reprinted articles, this text/reader sets a new standard for excellence in teaching sports and society.

Masculinities, Gender Relations, and Sport - Jim McKay 2000-05-26

The papers in this collection consider how the study of masculinities in sport can be integrated with critical feminist studies, how to deal with the tendency to over-emphasize negative outcomes and the increasing trend to violence in sport.

Politics of Masculinities -

Michael A. Messner 1997-03-20

Michael A. Messner provides a sociological framework to understand the responses of men to the changes, challenges, and crises in the social organization of gender. By examining not only what certain groups of men say about gender, but what they do, Messner helps to illuminate the various social movements engaged with the politics of masculinity. This book is an ideal introduction to the discussion of gender roles and masculinity.

Prison Masculinities - Tess Bartlett 2022-09-08

This edited book explores prison masculinities, drawing from a wide range of international researchers to highlight how masculinities may divert from the "hypermasculine" or macho typology typically found in the prison masculinities literature. The book includes a diverse selection of writing on masculinities "in" and "of" prison; masculinities experienced by those living within, working, and experiencing prison as well as

historical and critical accounts of masculinities from around the world. The contributors highlight how masculinities are experienced in a multitude of ways as is evidenced in both qualitative and quantitative research with men before, during, and after imprisonment; with correctional officers and staff; in the analysis of public records, in the critical examination of Sykes' seminal work; and in historical and contemporary Australian society. Evidenced in writing drawn from Australia, the Dominican Republic, Ukraine, Hong Kong, the United States, Scotland, and the Netherlands, the contributors acknowledge that rather than being fixed, discourses around prison masculinities now include sexuality, gender identity, and diverse understandings around masculinities as strategic, hegemonic, and ever changing. *Prison Masculinities* is important reading for students and scholars across disciplines, including criminology, sociology, gender studies, law,

international relations, history, health, psychology, and education. Chapter 4 of this book is available for free in PDF format as Open Access from the individual product page at www.routledge.com. It has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license. *Sexual Sports Rhetoric* - Linda K. Fuller 2010 *Sexual Sports Rhetoric: Historical and Media Contexts of Violence* deals with controversies surrounding the notion of sport violence added to the equation of gender and language. Topics discussed range from hooliganism, spousal abuse, and racial and/or gender orientation issues to literary, televised, filmic and photographic (pornographic?) images of sports violence. The sports represented include ice hockey, stock car racing, football, body building, baseball, boxing, rugby, wrestling, and pool.

Why Would Anyone Do That? - Stephen C. Poulson

2016-04-19

Triathlons, such as the famously arduous Ironman Triathlon, and “extreme” mountain biking—hair-raising events held over exceedingly dangerous terrain—are prime examples of the new “lifestyle sports” that have grown in recent years from oddball pursuits, practiced by a handful of characters, into multi-million-dollar industries. In *Why Would Anyone Do That?* sociologist Stephen C. Poulson offers a fascinating exploration of these new and physically demanding sports, shedding light on why some people find them so compelling. Drawing on interviews with lifestyle sport competitors, on his own experience as a participant, on advertising for lifestyle sport equipment, and on editorial content of adventure sport magazines, Poulson addresses a wide range of issues. He notes that these sports are often described as “authentic” challenges which help keep athletes sane given the demands they confront in their day-to-day lives. But is it really

beneficial to “work” so hard at “play?” Is the discipline required to do these sports really an expression of freedom, or do these sports actually impose extraordinary degrees of conformity upon these athletes? *Why Would Anyone Do That?* grapples with these questions, and more generally with whether lifestyle sport should always be considered “good” for people. Poulson also looks at what happens when a sport becomes a commodity—even a sport that may have begun as a reaction against corporate and professional sport—arguing that commodification inevitably plays a role in determining who plays, and also how and why the sport is played. It can even help provide the meaning that athletes assign to their participation in the sport. Finally, the book explores the intersections of race, class, and gender with respect to participation in lifestyle and endurance sports, noting in particular that there is a near complete absence of people of color in most of these contests.

Sex Violence And Power In Sports Rethinking Masculinity

In addition, Poulson examines how concepts of masculinity in triathlons have changed as women's roles in this sport increase.

Prison Masculinities /edited by Don Sabo, Terry A. Kupers, and Willie London - Donald F. Sabo 2001

This book explores the frightening ways our prisons mirror the worst aspects of society-wide gender relations. It is part of the growing research on men and masculinities. The collection is unusual in that it combines contributions from activists, academics, and prisoners. The opening section, which features an essay by Angela Davis, focuses on the historical roots of the prison system, cultural practices surrounding gender and punishment, and the current expansion of corrections into the "prison-industrial complex." The next section examines the dominant or subservient roles that men play in prison and the connections between this hierarchy and male violence. Another section looks at the

spectrum of intimate relationships behind bars, from rape to friendship, and another at physical and mental health. The last section is about efforts to reform prisons and prison masculinities, including support groups for men. It features an essay about prospects for post-release success in the community written by a man who, after doing time in Soledad and San Quentin, went on to get a doctorate in counseling. The contributions from prisoners include an essay on enforced celibacy by Mumia Abu-Jamal, as well as fiction and poetry on prison health policy, violence, and intimacy. The creative contributions were selected from the more than 200 submissions received from prisoners. Author note: Don Sabo, Professor of Social Sciences at D'Youville College in Buffalo, is author or editor of five books, most recently, with David Gordon, *Men's Health and Illness: Gender, Power, and the Body* and, with Michael Messner, *Sex, Violence, and Power in Sports: Rethinking*

Masculinity. Sabo has appeared on The Today Show, Oprah, and Donahue. Terry A. Kupers, M.D., a psychiatrist, teaches at the Wright Institute in Berkeley. He is the author of four books, editor of a fifth. His latest books are *Prison Madness: The Mental Health Crisis Behind Bars* and *What We Must Do About It* and *Revisioning Men's Lives: Gender, Intimacy, and Power*. Kupers has served as an expert witness in more than a dozen cases on conditions of confinement and mental health services. Willie London, a published poet, is General Editor of the prison publication *Elite Expressions*. He is currently an inmate at Eastern Corrections. For nine years he was a prisoner at Attica. [Routledge Companion to Sports History](#) - S. W. Pope 2009-12-17

The field of sports history is no longer a fledgling area of study. There is a great vitality in the field and it has matured dramatically over the past decade. Reflecting changes to traditional approaches, sport

historians need now to engage with contemporary debates about history, to be encouraged to position themselves and their methodologies in relation to current epistemological issues, and to promote the importance of reflecting on the literary or poetic dimensions of producing history. These contemporary developments, along with a wealth of international research from a range of theoretical perspectives, provide the backdrop to the new *Routledge Companion to Sports History*. This book provides a comprehensive guide to the international field of sports history as it has developed as an academic area of study. Readers are guided through the development of the field across a range of thematic and geographical contexts and are introduced to the latest cutting edge approaches within the field. Including contributions from many of the world's leading sports historians, the *Routledge Companion to Sports History* is the most important single

volume for researchers and students in, and entering, the sports history field. It is an essential guide to contemporary research themes, to new ways of doing sports history, and to the theoretical and methodological foundations of this most fascinating of subjects.

Masculinities and the Culture of Competitive Cycling - Jack Hardwicke
2023-04-06

Drawing on extensive ethnographic, qualitative and quantitative research, this monograph provides a novel account of masculinities in an individual sport: competitive road cycling. Chapters present varied analyses on male cyclists' relationship with masculinity, the culture of competitive road cycling, cyclists' attitudes toward injury management, sexual minority and women's experiences in the sport, and autoethnographic accounts of the author's own experiences of being involved in the sport for over ten years. The author also examines how masculinity

impacts male cyclists' attitudes towards competition, risk taking and doping practices. This book will be of interest to scholars and researchers in sports sociology, gender studies, and masculinity studies.

Masculinity and Popular Television - Rebecca Feasey
2008-10-06

This book is a comprehensive and accessible introduction to the key debates concerning the representation of masculinities in a wide range of popular television genres. The volume looks at the depiction of public masculinity in the soap opera, homosexuality in the situation comedy, the portrayal of fatherhood in prime-time animation, emerging manhood in the supernatural teen text, alternative gender roles in science fiction, male authority in the police series, masculine anxieties in the hospital drama, violence and aggression in sports coverage, ordinariness and emotional connectedness in the reality game show, and domesticity in lifestyle television. Masculinity and

Sex Violence And Power In Sports Rethinking Masculinity

Popular Television examines the ways in which masculinities are being constructed, circulated and interrogated in contemporary British and American programming, and

considers the ways in which such images can be understood in relation to the 'common sense' model of the hegemonic male that is said to dominate the cultural landscape.
