The Second Sex Simone de Beauvoir 1997 Of all the writing that emerged from the existentialist movement, Simone de Beauvoir's groundbreaking study of women will probably have the most extensive and enduring impact. It is at once a work of anthropology and sociology, of biology and psychoanalysis, from the pen of a writer and novelist of penetrating imaginative power. "Distinguishes between love and desire to breakdown myths around sex and help readers cultivate an authentic sex life"--

Black Venus 2010 Deborah Willis 2010-01-08 Analyzing contemporaneous and contemporary works that re-imagine the "Hottentot Venus."

Making Sex Public and Other Cinematic Fantasies Damon R. Young 2018-11-30 Beginning in the late 1950s, representations of and narratives about sex proliferated on French and U.S. movie screens. Cinema began to display forms of sexuality that were no longer strictly associated with domesticity nor limited to heterosexual relations between loving couples. Women's bodies and queer sexualities became intensely charged figures of political contestation, aspiration, and allegory, central to new ways of imagining sexuality and to new liberal understandings of individual freedom and social responsibility. In *Making Sex Public* Damon R. Young tracks the emergence of two conflicting narratives: on the one hand, a new model of sex as harmoniously integrated into civic existence; on the other, an idea of women's and queer sexuality as corrosive to the very fabric of social life. Taking a transatlantic perspective from the late '50s through the present, from *And God Created Woman* and *Barbarella* to *Cruising* and *Shortbus*, Young argues that cinema participated in the transformation of the sexual subject while showing how women and queers were both agents and objects of that transformation.

The Goddess Myth in Contemporary Literature and Popular Culture Mary J. Magoulick 2022-02-04 Honorable Mention for the 2022 Elli Köngäs-Maranda Prize awarded by the Women's Section of the American Folklore Society Goddess characters are revered as feminist heroes in the popular media of many cultures. However, these goddess characters often prove to be less promising and more regressive than most people initially perceive. Goddesses in film, television, and fiction project worldviews and messages that reflect mostly patriarchal culture (included essentialized gender assumptions), in contrast to the feminist, empowering levels many fans and critics observe. Building on critiques of other skeptical scholars, this feminist, folkloristic approach deepens how our remythologizing of the

ancient past reflects a contemporary worldview and rhetoric. Structures of contemporary goddess myths often fit typical extremes as either vilified, destructive, dark, and chaotic (typical in film or television); or romanticized, positive, even utopian (typical in women's speculative fiction). This goddess spectrum persistently essentializes gender, stereotyping women as emotional, intuitive, sexual, motherly beings (good or bad), precluded from complex potential and fuller natures. Within apparent good-over-evil, pop-culture narrative frames, these goddesses all suffer significantly. However, a few recent intersectional writers, like N. K. Jemisin, break through these dark reflections of contemporary power dynamics to offer complex characters who evince "hopepunk." They resist typical simplified, reductionist absolutes to offer messages that resonate with potential for today's world. Mythic narratives featuring goddesses often do, but need not, serve merely as ideological mirrors of our culture's still problematically reductionist approach to women and all humanity.

Many people believe that, at its core, biological sex is a fundamental force in human development. According to this false-yet-familiar story, the divisions between men and women are in nature alone and not part of culture. Drawing on evolutionary science, psychology, neuroscience, endocrinology, and philosophy, Testosterone Rex disproves this ingrained myth and calls for a more equal society based on both sexes’ full human potential.

Venus and the Arts of Love in Renaissance Florence Rebekah

Compton 2021-03-11 In this volume, Rebekah Compton offers the

first survey of Venus in the art, culture, and governance of

Florence from 1300 to 1600. Organized chronologically, each of

the six chapters investigates one of the goddess's alluring

attributes – her golden splendor, rosy-hued complexion,

enchancing fashions, green gardens, erotic anatomy, and gifts

from the sea. By examining these attributes in the context of the

visual arts, Compton uncovers an array of materials and

techniques employed by artists, patrons, rulers, and lovers to

manifest Venusian virtues. Her book explores technical art history

in the context of love's protean iconography, showing how

different discourses and disciplines can interact in the creation and reception of art. *Venus and the Arts of Love in Renaissance Florence* offers new insights on sight, seduction, and desire, as well as concepts of gender, sexuality, and viewership from both male and female perspectives in the early modern era.

Mythology of Place Lloyd Godman 2023-03-29 Please note: This ebook has been specifically designed as an epublication and is optimized for viewing on Thorium Reader. Thorium Reader is the free EPUB reader of choice for Windows 10 and 11, MacOS and Linux. <https://www.edrlab.org/software/thorium-reader/> Lloyd Godman and Lawrence Jones were neighbors and friends who had lived for years at Brighton, New Zealand. Both lived very close to where James K Baxter had lived and were familiar with his work. Jones was writing a paper on Baxter and asked Godman to consider contributing some photographs of the places Baxter wrote about. During 1993 to 1994 Lawrence Jones and Lloyd Godman worked collaboratively on the *Mythology of Place* project. They retraced the words of one of New Zealand's most acknowledged poets, James K Baxter, searching for artifacts in the surrounding landscape that referenced real places of his mythology. Places where the youthful Baxter's naked feet once trod, places that remained with him until the bare foot days before his death. This project was about the unearthing three different worlds of James K Baxter and though the critical text of Jones and the photographs of Godman, a poignant focus of Baxter's work emerged. Finding the real locations that inspired him and capturing them on film. Alongside the poems of Baxter, the stunning black and white photographs offered their own mythology and symbols of place.

Eating Fruit Out of Season David Clink 2008 Crafted over 12 years of writing and covering 40 years of experience, this collection of poetry shares the poet's remembrances of falling out of a tree, days at his cottage, falling in and out of love, and the death of his father. Employing both humor and surreal elements, the poems take place in a real world that is made new again--and is perhaps not quite as real the second time around. The four sections in the book shift subjects from childhood and youth to the development of self and interpersonal relationships, and from maturity, loss, and the falling from sought-after heights to the poet's relationship with his father. The poems in this debut collection take shape using various poetic forms, including free verse, prose, the ghazal, and a new poetic form created by the poet that he calls a "Title Poem."
