Global Report on Trafficking in Persons 2016 - United Nations Office on Drugs and Crime 2017-01-11

The UNODC Global Report on Trafficking in Persons 2016 is the third of its kind mandated by the United Nations General Assembly. In July 2010, the UNGA adopted the Global Plan of Action to Combat Trafficking in Persons. The Report covers and provides an overview of patterns and flows of trafficking in persons at the global, regional and national levels, based on trafficking cases detected mainly between 2012 and 2014. It looks at links between trafficking in persons, migration and conflict, and how refugees may be particularly vulnerable to being trafficked. The worldwide response to trafficking in persons, particularly in terms of criminalization and prosecution of trafficking crimes, is also a focus of this edition of the Global Report. Also included are the Country Profiles.

Identifying Factors in Human Trafficking - Patrice M. Broderick 2005-07-23

This thesis reviews the transnational problem of human trafficking, a form of slavery. Women and children are trafficked within and between countries at an alarming rate and it has become a prime agenda for the Bush Administration and the Department of State to call for action and solutions to. This thesis opens with a defining of this problem and overview of the scope of the problem on a global scale. It reviews social, political and economic factors which play a role. It describes laws enacted and police responses and describes what research has been conducted to get a grasp of what is involved and what might be done. This author decided to explore factors that other researchers have suggested are compelling factors in victimization. This research hypothesis for this thesis explores the economic factors. Comparisons are made between countries of origin where victims originate from and destination countries where they are trafficked to. The research findings

reveal some significant differences in economic factors exist between the origin and destination countries. The findings lend support in why victims feel compelled to seek entrance to countries like the U.S. and Australia or U.K. and might be easy prey for traffickers. This author makes it clear that the research here does not mean that this is why they are victimized. Further research with victim surveys and victim interviews will be helpful. Furthermore, it will be valuable to conduct more exploration of the economic factors, but more accurate data sources are needed. It is recommended that countries attempt to establish more standardized criteria for reporting economic data. Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States - National Research Council 2013-11-12 Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking. Despite the serious and long-term consequences for victims as well as their families, communities, and society, efforts to prevent, identify, and respond to these crimes are largely under supported, inefficient, uncoordinated, and unevaluated. Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and entities from a range of sectors. In addition, such efforts need to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors. If acted upon in a coordinated and comprehensive manner, the recommendations of Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.

The Trafficking of Persons - Kimberly A. McCabe 2008

Over 700,000 people are trafficked across international borders every year. Of those, the U.S. Department of State estimates that between 14,500 and 17,500 are trafficked into the United States. Today, the U.S. and other nations are beginning to recognize the magnitude of the problem and attempt to address the victimization caused by human trafficking. This book investigates the types of human trafficking, and discusses U.S. and international responses to combat and end all forms of this criminal activity. With discussion-provoking questions at the end of each chapter and specific examples of trafficking activity, this book is appropriate for criminology courses, classes dedicated to victims and/or child abuse, and classes focused around the themes of international crime and international law.

At Freedom's Crossroads - David Lohan 2022-02-20

What is slavery? What does it mean to be a slave? Why does slavery exist today and why did it exist in the past? What can be done to end it? These are important questions, and this book aims to answer them. Across the world today, more than 40 million persons are living as modern slaves. Their number is equivalent to the enslavement of the entire population of several U.S. states. The plight of these individuals is imposed on them by the existence of modern slavery, a practice otherwise known as human trafficking. Yet slavery is not new to the world and the voices of the past have much to share. *At Freedom's Crossroads* starts with an exploration of historical slavery in the antebellum United States. It draws upon the wisdom of former slaves such as Frederick Douglass, Harriet Ann Jacobs, and Solomon Northup (12 Years A Slave); as well as abolitionists such as Harriet Beecher Stowe (*Uncle Tom's Cabin*) and Theodore Dwight Weld; and even slavery's past advocates such as Edmund Ruffin and David Christy; to present a single perspective of slavery and its slaves. It then extends its range to incorporate present-day realities, before using what has been learned to challenge some governmental approaches to sex trafficking in prostitution. Two decades have now passed since the Netherlands, Sweden, and New Zealand embarked on a common journey, by different routes, to end human trafficking in their domestic sex trades. The Netherlands adopted a regulatory approach through legalization. Inspired by radical feminist thought, Sweden opted for abolition by criminalizing the buyer of sexual services. New Zealand decriminalized prostitution. The passage of time, and the application of insights into the essence of slavery, now permits the wisdom of their respective policies to be assessed. *At Freedom's Crossroads* is written for citizen and legislator alike. It is written for those who are students and for those who are teachers. It will be of assistance to those who find themselves struggling amidst the debate over modern slavery and human trafficking, trying to reconcile seemingly irreconcilable claims. It strives to challenge ideas about slaves and their slavery, and to challenge some of the conditions that give rise to both. In as much as it aims to make sense of slavery it strives to empower the reader, and through empowerment it hopes the reader will come to find their own role in efforts to end it.

Representations of Transnational Human Trafficking - Christiana Gregoriou 2018-06-29

This open access edited collection examines representations of human trafficking in media ranging from British and Serbian newspapers, British and Scandinavian crime novels, and a documentary series, and questions the extent to which these portrayals reflect the realities of trafficking. It tackles the problematic tendency to under-report particular types of victim and forms of trafficking, and seeks to explore both dominant and marginalised points of view. The authors take a cross-disciplinary approach, utilising analytical tools from across the humanities and social sciences, including linguistics, literary and media studies, and cultural criminology. It will appeal to students, academics and policy-makers with an interest in human trafficking and its depiction in the modern day.

Sex Trafficking - Candice Torres 2011

Florida has the second-highest incidence of human trafficking in the country. Sex trafficking of women into and out of the state of Florida is defined by various terms from international, national and local terms. The United Nations defines sex trafficking in Article 3, paragraph (a) of the Protocol to Prevent, Suppress and Punish Trafficking in Persons, especially Women and Children, Supplementing the United Nations Convention against Transnational Organized Crime as: "Trafficking in persons: shall mean the recruitment, transportation, transfer, harboring or receipt of persons, by means of the threat or use of force or other forms of coercion, of abduction, of fraud, of deception, of the abuse of power or of a position of vulnerability or of the giving or receiving of payments or benefits to achieve the consent of a person having control over another person, for the purpose of exploitation". This study explores the experiences of women who have been trafficked as well as the recruitment strategies by which women are trafficked and to what extent their life changes. This study aims to understand the extent to which local nonprofits in the state of Florida have tackled the issue as well as the international, federal and state government laws are enforced. The findings will provide useful guidelines to help nonprofits in the state of Florida work together to combat the issue as well as be used as an informative research proposal for the community to push stronger legislation and raise more awareness.

Fostering Imagination in Fighting Trafficking - John T. Picarelli 2010-11

Sweden and the U.S. have each taken leading roles in the global fight against trafficking in persons. The American approach emphasizes strengthening legal codes and law enforcement tools while enhancing services to victims, and has led to a victim-centered approach. The Swedish model criminalizes demand for trafficking and handling the 'supply' through more admin. means, and has led to an equality-centered approach. Both countries believe sex trafficking is an international issue that requires a mixture of law enforcement, social welfare and foreign policies to solve. This report compares the responses in the U.S. and Sweden to identify synergies and divergences that might impact practice in both countries. Illustrations.

Global Report on Trafficking in Persons 2018 - United Nations

2019-03-21

This report, which comprises three booklets, provides a comprehensive analysis of the crime of trafficking in persons and how different countries are responding to this crisis. Countries worldwide have been detecting and reporting a larger number of victims and are also convicting more traffickers than ever before. This may well be the result of an increase in the capacity to identify victims over the last few years. While the number of reporting countries did not significantly increase, the number of victims reported in different countries did increase. The trend has unfortunately been growing over the past few years.

Purchased - Deanna Lynn 2019-10-09

We live in a culture increasingly influenced by porn. Sex is used to sell everything, from household products to cars to electronics. Provocative and popular fiction like *50 Shades of Gray* is encouraging people to play with a fire that could destroy their homes. We supposedly stand against sex trafficking, and then we turn around and increase the demand through our music, clothing, and movie choices. These decisions to entertain ourselves with increasing shock factor reveal that most audiences are currently numb to the publicizing and proliferation of what was once deemed private. Amidst this sex-satiated culture, I want to give a realistic view of the life of someone who once allowed herself to be sold. In sharing my own story and journey into and out of the sex industry, I want to educate others in a way that encourages us to stop buying sex in all forms and instead to honor one another as whole people. I want to encourage us to consider the woman who has been made a sex symbol so that we learn to honor both who she was before and who she might become if given an opportunity to succeed in a life outside of selling her body. I have encountered many men and women who were put into this life by their pimps and boyfriends. Others entered it while trying to escape their own trauma and trying to gain some control or dignity in their own lives. Yet others truly believe they can do nothing else. I want to offer you a glimpse of the mentality of a young girl who thought this was her best option in life. As a woman who was once

purchased, I am often placed into one of two categories: I am either victimized as a survivor of human trafficking, or my trauma is dismissed since I chose to enter the commercial sex industry. This is an unhelpful and extreme distinction-especially when some of those fighting to end trafficking are also those who justify their use of pornography, brothels, strip clubs, and escort services because they believe all these women choose to be there. Choice is not always a simple matter when it is derived from decades of compounding trauma, addictions, and lack of quality guidance. For this reason, I want to show you what life looks like when a person says yes to being sold. This book is not meant to leave readers in despair but rather to depict enough of my own journey through deception to invite appreciation of the freedom possible with complete surrender. I want to show how hope gives birth to new life, when a true chance to heal and opportunities to flourish are given. No one is too far gone. However, no one can complete the journey in isolation. In this sense, I hope my story can also aid those who want to mentor other women on their journeys of healing and redemption. My desire is that the full presentation of my background-and the way it fed into my choices-can help offer understanding about the many layers of hurt that are present for women leaving the sex industry. More than the woman's body has been wounded, and many memories that stretch much further back than her start in the industry will need to be opened up and healed. Freedom does take work. But it is an infinitely good and worthwhile work. I personally engaged in my deepest healing efforts at the Refuge for Women in Kentucky. And there, I discovered a place to be truly safe for the first time in my life. I remember lying in my bed each night and saying to myself, "I am safe. I am loved. I am secure." Because of the hard work I did there, I can still say and mean those words today, many years later. If you are called to help a woman walk this road, please let my story invite you into awareness of the layers involved in both her hurt and her healing. And whether you read this story as a mentor or a mentee, let it encourage you of the good and the freedom yet in store. Ultimately, I hold to the unshakable belief that there here is hope and help for everyone. I hope my story confirms this for you.
