## **Rune Witch: The Complete Series** - Jennifer Willis

2022-07-15

The old Viking gods are alive — and living paycheck to paycheck in Portland, Oregon, while trying to avert one cosmic disaster after another. Just around the corner is Sally, a teenager trying to harness real magick in one of the world's weirdest cities, where odd occurrences are hastily dismissed. But when she unwittingly claims her mantle as the Rune Witch, Sally finds herself contending with disgruntled gods, shifty heroes, and magickal messes she can't easily explain to her parents. Suddenly a central figure in Odin's Lodge, Sally must learn to master her power and find her place in the mortal world, all while battling ancient forces, traveling to other

realms, and navigating the uneasy allegiances among the likes of Thor, Heimdall, Freya, and Loki. Because Ragnarok can't be delayed forever. This is the complete, six-volume collection of the Rune Witch urban fantasy series — full of modern-day magick, action-packed mayhem, and ancient legends come to life. This boxed set includes: 1. Moon Dog Magic 2. Elements of Magic 3. Black Pool Magic 4. Raven Magic 5. Chaos Magic 6. Twilight Magic

*Contemporary Artists Explore Cartography* - Katharine Harmon 2009-09-23

This work is filled with 350 works by well-known artists such as Joyce Kozloff, Ed Ruscha, Julian Schnabel, and Olafer Eliasson. All are wayfinders, charting the

highways and byways of the spirit and the topography of the soul.

**Hustlin' Divas** - De'nesha Diamond 2011-10-24

In the first book of a fierce new series, meet Memphis's hardest ride-or-die chicks as they fight along with their infamous men to lock down the Dirty South.

Memphis is the crime capital of America, and no one knows that better than the women born and raised on its mean streets. It's put sisters

Ta'Shara and LeShelle on opposite sides of the street game, where blood means nothing and loyalty doesn't last long. It's also got Yolanda, an ambitious drug mule, and Melanie, a police detective, caught up with the same man--the notorious hustler Python.

These four women think they've got the game figured out, but the one man they have in common will have them living double lives and wondering who will come out on top. Forget what you heard about East Coast/West Coast, 'cause real vendettas are born in the Dirty South. "Diamond's

ear for street talk comes across loud and clear. . .a violent and profane tale, which launches a gritty new series. The divas here are realistic characters, and the pacing zooms. . .one of the best constructed street lit stories of 2010." --Library Journal "A nonstop, hard-hitting page-turner." --Tu-Shonda L. Whitaker

**The Recovery** - Suzanne Young 2015-02-24

Realm hopes that with each past he helps to recover, he'll be able to reclaim a small bit of his own in this spinoff story to Suzanne Young's bestselling duology, *The Program* and *The Treatment*. Six months after the fall of *The Program*, ex-handler Michael Realm is struggling with his guilt. After all, he was instrumental in erasing the memories of several patients—including one he claimed to love. With a lifetime of regret stretched before him, Realm vows to set things right. Along with his friend (yes, friend) James Murphy, Realm will track down those he's hurt in an attempt to give them back their

lives—starting with Dallas Stone. He’s not looking for forgiveness or redemption; he’s not a hero. But helping others may be the only way to save himself.

*Moon Dog Magic (Rune Witch Book 1)* - Jennifer Willis

2018-05-01

The fate of the world depends on a teenage witch and her cantankerous cat. The Rune Witch urban fantasy series brings old Viking gods into the 21st century — along with erratic magick, action-packed mayhem, and ancient legends come to life. Sixteen-year-old Sally Dahl thought she was casting rune spells for a healthier planet, but a grievous error in her magickal calculations has her instead calling up legendary Berserker warriors — sworn into her unexpected service, and with bottomless junk food cravings. Worse, she’s unwittingly run afoul of Odin. When Sally stumbles across a disgruntled lesser god who promises to help, she thinks she’s out of danger. But she doesn’t realize she wields greater magick than

she could possibly imagine. Nor does she have a clue that Thor, Freya, Odin, and other survivors of the Norse pantheon are nearby, living among mortals, working and paying taxes, all while trying to stop one of their own from bringing about the destruction of the Cosmos. With her own life on the line, can Sally harness her power and find her way to a new generation of Vikings in time to prevent Ragnarok? Moon Dog Magic is the first book in the Rune Witch urban fantasy series. Start reading today! indirectly changed everyone in America's (if not the world's) way of life. Whether it is a person's sense of security, travel plans, outlook on life, or the way they view their family, 9/11, as they call it, changed us all, including me. But my 9/11 didn't happen in 2001, it happened exactly two years earlier in 1999. With September 11 being my birthday, I received a unique "present" on that day that changed my life. It was then that I first realized that life wasn't the fairytale world that I thought it was. As I saw my world crumble down, I had no choice but to turn a negative into a positive. Remembering the advice from a person whom I had never met telling me to believe in myself, never give up, and to never take the easy way out, I knew that I could battle through anything and win in the long run. Little did I know, that "present" was the opening to my future and to my life's goal that I was out to achieve.

The Breakers Series: Books 1-3  
- Edward W. Robertson

2014-11-06

In the Breakers series, humanity faces not one apocalypse, but two: first a lethal pandemic, then a war against those who made the virus. This collection includes the first three books and is over 1000 pages (350,000 words) of post-apocalyptic survival. BREAKERS (Book 1) In New York, Walt Lawson is about to lose his girlfriend Vanessa. In Los Angeles, Raymond and Mia James are about to lose their house. Within days, none of it will matter. A plague tears across the world, reducing New York to an open grave and LA to a chaotic wilderness of violence and fires. Civilization comes to an abrupt stop. Just as the survivors begin to adapt to the aftermath, Walt learns the virus that ended humanity wasn't created by humans. It was inflicted from outside. The colonists who sent it are ready to finish the job--and Earth's survivors may be too few and too weak to resist. MELT DOWN (Book 2) In upstate Idaho, Ness Hook is run out of

his mom's house by his bullying brother Shawn. In Redding, California, Tristan Carter is graduating college, but with no job and no prospects, she'll have to move back in with her parents. Then the world ends: first with a virus, then with an alien invasion. Ness and Shawn take to the mountains to fight a guerrilla against the attackers. In California, Tristan and Alden are taken prisoner. Separated from her brother, Tristan crosses the ruins of America to track him down. She will stop at nothing to get Alden back--but her fellow survivors prove even more dangerous than the monsters who broke the world. KNIFEPOINT (Book 3) Raina was just a girl when the plague came. She survived. Her parents didn't. Neither did the world. As civilization fell, she took to the ruins of Los Angeles, eating whatever she could catch. After two years alone, she's found and adopted by a fisherman and his wife. Their makeshift family lives a quiet life--until a man named Karslaw sails in from Catalina Island with an army of

conquerors. Driven by visions of empire, he executes Raina's new father as a traitor and takes her mother captive. But Karslaw's people aren't the only ones vying for control of the ruined land. As violence wracks the city, Raina joins a rebellion against Karslaw's rule. She will stop at nothing to free her mother--and to have her revenge. ~ A post-apocalyptic thriller from a USA Today bestselling author, the BREAKERS series is now complete. Fans of Stephen King's THE STAND, Hugh Howey's WOOL, and Justin Cronin's THE PASSAGE have a whole new world to get lost in. A free download.

*Life in a Georgia Town* - Sean Ross 2012-12-14

My name is Sean Peyton Ross. I write this book for present and future generations to read while I still have enough mental capacity and memory to write it before my injury depletes me. borrowed time. I was kept alive in an incubator by the doctors until I weighed enough and developed enough to survive outside the incubator. I was always a sickly child and was small. The other kids beat up and bullied on me. All my life, through school where I excelled in academics I was beaten up and bullied on. I was put down by the kids who wanted to be bad and the rich kids who thought they were the last word in society. I was bullied in the Navy, In college, at work and in the State Defense Force where I spoke up for the troops and inadvertently caused 3 generals to be fi red after a mission of mercy from a tornado in my hometown started going awry. I had to leave the State Defense Force under duress from the Commanding General. I now have been black listed and no one remembers the good I tried to do while in uniform. I now live in fear for my family and myself. This book is to serve as a journal and as a warning of how diffi cult, cruel and ugly

life can be sometimes. It also serves as a guide to those who read this book so that the readers will be able to learn from what I have written. It will inspire those who read it to try harder to improve themselves and the world they now live in. The world cannot advance as a people socially if we only dwell on the triumphs of yesterday do not know of or take heed of the sins and mistakes of the past.

The Full Scoop on BS - Peter Duncan 2014-05

To truly be the full scoop instead of another load of BS, The Full Scoop on BS differentiates between types that are less or more harmful and reasonably explains why they differ. It examines the roots of that ubiquitous entity and the skill deficits which so often enable the worst kinds of BS. It provides a practical means of detection and eradication of the most-harmful types. In the process, this book promotes conscious, functional thought processes. Humour and anecdotes, and humorous anecdotes, help keep the normally academic concepts tangible, relevant and

Polite society often condemns profanity even though many past societies were treacherous, murderous and none too polite. Such is the nature of a world filled with BS.
