

How To Feel Like A Woman If Youre A Man

Secrets of "Men are from Mars, Women are from Venus" - PAUL CARNEGIE 2019-11-25

Reading through the book *Men Are From Mars, Women Are From Venus* which was written by American author and relationship counselor John Gray, after he had earned degrees in meditation and taken a correspondence course in psychology. The book was published on January 1, 1992. It provides a practical and proven way for men and women to improve their communication by acknowledging the differences between their needs, desires, and behaviors. Absolutely, there is no other relationship guide on the market that will give you the same level of evidence-based insight sure to help you strengthen and nurture your relationships for years to come more than this book. In the book *Men Are From Mars, Women Are From Venus*, the author opines that most prevalent relationship challenges between men and women are as a result of fundamental psychological differences between the sexes, which the author demonstrates by means of its eponymous metaphor: that men and women are from separate planets, that is, men are from Mars while women are from Venus; and that each sex is wont to its own planet's society and customs, but not to those of the other. One example John Gray gave was that men's complaint that if they offer solutions to problems that women bring up in conversation, the women are not necessarily interested in solving those problems, but mainly want to discuss about them. The book avers each sex can be understood in terms of their unique ways they respond to stress and stressful situations. In the book, the author wrote: "When a man can listen to a woman's feelings without getting angry and frustrated, he gives her a wonderful gift. He makes it safe for her to express herself. The more she is able to express herself, the more she feels heard and understood, and the more she is able to give a man the loving trust, acceptance, appreciation, admiration, approval, and encouragement that he needs." This explains that when a man genuinely listens to the emotions of a woman by not being upset, he is showing her she is safe with him and understood as well. And she reciprocates this gesture with love, trust and encouragement a man needs. Likewise, when he stated that, "Men are motivated when they feel needed while women are motivated when they feel cherished." This is just the basic fact of a successful relationship or marriage by the author. In the world of many self-help books we are, there are very few titles that can be compared with the popularity of John Gray's *Men Are From Mars, Women Are From Venus*. Interestingly, when this title was first published in 1992, it not only helped educate countless men and women from around the globe, but it managed to nestle its way into popular culture and become an instant classic. In spite of the fun, metaphoric and catchy title, this book essentially tackles a very serious relationship issues in many male or female relationships we have today -which can be said to be a lack of effective communication. In lieu of focusing blame on one person or one gender, this book dives into some of the inherent differences between the way males and females communicate. As it is a well known fact that communication is one of the most central factors in finding the right balance, genuine love and loyalty in a long term relationship. Well, based on the concept that men and women are living on different "planets," this book helps to not only identify these differences for the opposing gender, but to offer solutions on how both men and women can meet in the middle to have better, more productive communication strategies. The author deliberately lays big emphasis placed on love - since it is a relationship advice book. One of the biggest takeaways about love from the book actually has nothing to do with talking, it is all about showing. This is one of the biggest keys to keeping the love alive in long-term relationships. This is a very important lesson to note throughout the book, *Men Are From Mars, Women Are From Venus*, as communication isn't always about talking or telling someone something, it is often about showing them or using non-verbal communication in order to get your message across. According to *Men Are From Mars, Women Are From Venus*, men will give and give until they are pleased with what they have done. This can be with emotions, money, effort, work, or physical objects. However, women will typically give with the hope that the man will return the gesture. This is where a lot of disconnect can happen. Now, let's take a vivid look at where communication falls short. Where communication falls short Both man and woman may feel as though they are doing everything they can

to show their love and that they are giving love the way they want to receive it. But, the opposing party may not recognize this, and may actually think that their partner is not showing love at all. This is one tip that both men and women should keep in the back of their minds as they continue to take John Gray's relationship advice, as many communication disconnects or crumbles, it may actually stem from this one major issue. If both parties can understand that the other partner simply has a different interpretation of what it means to show and give love, they can move forward. To cap it all, everyone has a different love language. *How To Improve Communication In A Relationship* There are so many little things that men and women can both do in order to improve their communication lines, yet one of the classic disconnects between these two genders often comes when women are not as direct with men while communicating. There is an old story about men and women communicating that perfectly depict how this lack of directness can cause misunderstandings. A man and a woman are driving down the street. The woman points at the ice cream store and says "look! The ice cream store is open." The man says "Yes, it is," and keeps driving. Later that evening, the woman is upset and asks "Why didn't you stop for ice cream when I asked?" The man is confused and says, "I never heard you ask to stop for ice cream." It may be either small or inconsequential example, but it is one that many people in male or female relationships can relate to. What went wrong? Both parties thought they said and heard different things in the same conversation. This is one of the reasons why communication tends to be more effective when women are more direct. According to John Gray, if a woman wants to go do something with a man, she shouldn't just ask him what he wants to do. She should, instead, tell him what she wants to do, and then ask him to join. This is an instance of direct communication that doesn't blur the lines and allows both parties to communicate more clearly. *How to make communication work* The following scenario was suggested by: - The woman gives the man three options of what she wants to do on a date, a week in advance. - The man gets to decide, but doesn't tell the woman until the date happens. - This allows the woman to anticipate the date all week, while the man gets to feel as though he made a decision, while still receiving clear communication on what types of dates the woman wanted to go on. It may sound like a lot of work, but the key is to start with direct communication on the woman's part. It can open up new doorways to successful interaction that both parties may have never thought were possible. In addition, emotions have great impact as regards how we communicate. They can entice us to say certain things, hold different things in, or even respond in ways we may have never thought we would. Emotions can also alter our body language and the way we give off signals to one another, even when we don't realize we are doing it. Yes, it can be safe to state that women's emotions go up and down and have really high-highs and really low-lows. In general, women's emotions tend to fluctuate more than men's do. Men tend to be a bit steadier with their emotions, which can be both positive and negative. While they may not have as deep of a dive into depression, they may also not experience as high of a high when they are happy. All this now depend on how each sex processes "alone time." As well, men are much more prone to want alone time when they feel scared or uncomfortable. Men need to be left alone where they feel safe. It scientifically helps them to build up their testosterone and think more clearly. If given the time to retreat to his safe space, a man will come out of this "alone time" once he has handled the problem internally and finally. On the other hand, a woman may feel better by talking it out. She may not understand why her male partner wants to spend time alone processing the issue. Allowing women and men to process emotions in a way that is comfortable and natural to them is an essential component to keeping communications lines free and open. *You Should Learn To Show Appreciation* So much of *Men Are From Mars, Women Are From Venus* is about the differences between men and women, but there is one big similarity between men and women in relationships—showing understanding is key. Men and women are different. They are different physically, biologically, emotionally, almost in every way. Yet, the reason so many of these relationships can work out in the end is because these differences provide a balance. You just need to find that balance. Get to know your partner more intimately If you sincerely take the time to really get to understand your partner, it can go

a long way in helping them feel loved, valued, and appreciated. Men and women are different, and it is important to accept and understand this. You may be speaking different languages, but if you take the time to really talk to your partner and attempt to understand the place they are coming from it can speak volumes. For instance, take the time to do things like ask questions, put yourself in the other person's shoes, or even read relationship advice books, like *Men Are From Mars, Women Are From Venus*, to show the other person that you want to understand them better because you appreciate who they are and that you want to communicate more clearly and effectively. Mind you, this can help restore energy in your romantic relationship so that you and your partner can continue to keep your relationship as healthy as possible.

Men as Women, Women as Men - Sabine Lang 2010-01-01

As contemporary Native and non-Native Americans explore various forms of "gender bending" and gay and lesbian identities, interest has grown in "berdaches," the womanly men and manly women who existed in many Native American tribal cultures. Yet attempts to find current role models in these historical figures sometimes distort and oversimplify the historical realities. This book provides an objective, comprehensive study of Native American women-men and men-women across many tribal cultures and an extended time span. Sabine Lang explores such topics as

their religious and secular roles; the relation of the roles of women-men and men-women to the roles of women and men in their respective societies; the ways in which gender-role change was carried out, legitimized, and explained in Native American cultures; the widely differing attitudes toward women-men and men-women in tribal cultures; and the role of these figures in Native mythology. Lang's findings challenge the apparent gender equality of the "berdache" institution, as well as the supposed universality of concepts such as homosexuality.

Play Like a Man, Win Like a Woman - Gail Evans 2000-08-10

An honest and practical handbook that reveals important insights into relationships between men and women and work, *Play Like a Man, Win Like a Woman*, is a must-read for every woman who wants to leverage her power in the workplace. Women make up almost half of today's labor force, but in corporate America they don't share half of the power. Only four of the Fortune 500 company CEOs are women, and it's only been in the last few years that even half of the Fortune 500 companies have more than one female officer. A major reason for this? Most women were never taught how to play the game of business. Throughout her career in the super-competitive, male-dominated media industry, Gail Evans, one of the country's most powerful executives, has met innumerable women who tell her that they feel lost in the workplace, almost as if they were playing a game without knowing the directions. In this book, she reveals the secrets to the playbook of success and teaches women at all levels of the organization--from assistant to vice president--how to play the game of business to their advantage. Men know the rules because they wrote them, but women often feel shut out of the process because they don't know when to speak up, when to ask for responsibility, what to say at an interview, and a lot of other key moves that can make or break a career. Sharing with humor and candor her years of lessons from corporate life, Gail Evans gives readers practical tools for making the right decisions at work. Among the rules you will learn are: • How to Keep Score at Work • When to Take a Risk • How to Deal with the Imposter Syndrome • Ten Vocabulary Words That Mean Different Things to Men and Women • Why Men Can be Ugly, and You Can't • When to Quit Your Job "I want to let you women in on a secret I've learned through my years in the corporate world: There is a set of unwritten rules in business and, while you may not choose to follow all of them, if you don't know what they are, you might as well be playing the game with both hands tied behind your back." --Gail Evans

Effect of being a 'token' on women managers - Fabienne Balleriaud 1999-04-01

Inhaltsangabe:Abstract: Women are still strongly underrepresented in upper middle and senior management positions, although they are now obtaining the necessary education and credentials in preparation for managerial careers and have good chances to enter the lower management ranks. This underrepresentation is emphasised in 'heavy' industry. But what are the reasons? There are numerous. But one in

particularly caught our attention: the concept of tokenism. What exactly lies behind this notion of "token women"? Is it simply a fashionable trend or a reality which may be apprehended within the organisation? With this European Project we want to see if there was a reason which could explain why even with career development programmes for women managers which embrace moreover the creation of an equal opportunity corporate culture, equal opportunities in recruitment, training and promotion. The problem concerning the few women managers in the industry wasn't resolved. Zusammenfassung: Frauen sind noch immer in Führungspositionen stark unterrepräsentiert, obwohl sie die nötige Ausbildung und Vorbereitung dafür erhalten. Man findet sie dagegen im unteren Management. Dieser Zustand besteht besonders in der Industrie. Worin bestehen die Gründe für diese Situation? Sie sind zahlreich. Einen speziellen Grund möchten wir hier nennen: "Concept of Tokenism". Was steht hinter dem Begriff "Token Women"? Ist es einfach eine Modebeschreibung oder eine Realität? In dieser Diplomarbeit wollten wir Gründe finden, die erklären, warum spezielle Karriereentwicklungsprogramme für Frauen, die gleiche Bedingungen in Kultur, Ausbildung und Einstellungschancen schaffen sollen, nicht zum gewünschten Erfolg in der Industrie führen. The Wounded Woman - Linda Schierse Leonard 1982-01-01

This book is an invaluable key to self-understanding. Using examples from her own life and the lives of her clients, as well as from dreams, fairy tales, myths, films, and literature, Linda Schierse Leonard, a Jungian analyst, exposes the wound of the spirit that both men and women of our culture bear—a wound that is grounded in a poor relationship between masculine and feminine principles. Leonard speculates that when a father is wounded in his own psychological development, he is not able to give his daughter the care and guidance she needs. Inheriting this wound, she may find that her ability to express

herself professionally, intellectually, sexually, and socially is impaired. On a broader scale, Leonard discusses how women compensate for cultural devaluation, resorting to passive submission ("the Eternal Girl"), or a defensive imitation of the masculine ("the Armored Amazon"). The Wounded Woman shows that by understanding the father-daughter wound and working to transform it psychologically, it is possible to achieve a fruitful, caring relationship between men and women, between fathers and daughters, a relationship that honors both the mutuality and the uniqueness of the sexes.

The Man's Guide to Women - John Gottman 2016-02-02

A great "philosopher" once said, "Trying to understand women is like trying to smell the color 9." But the fact is, men can understand women to their great benefit. All they need is the right teacher. And arguably there is no better teacher than John Gottman, PhD, a world-renowned relationships researcher and author of the bestselling 7 principles of Making Marriage Work. His new book, written with wife Julie Gottman, a clinical psychologist, and Doug Abrams and Rachel Carlton Abrams, MD, is based on 40 years of scientific study, much of it gleaned from the Gottman's popular couple's workshops and the "love lab" at the University of Washington. It's written primarily for men because new research suggests that it is the man in a relationship who wields the most influence to make it great or screw it up beyond repair. The Man's Guide to Women offers the science-based answers to the question: What do women really want in a man? The book explains the hallmarks of manhood that most women find attractive, and helps men hone those skills to be the man she desires.
