relationship causes heartache and depression. Do you feel frustrated with the fact that every relationship after beginning on a promising note ends up making you feel lonely and terrible? If so, I have to tell you that you are not alone. Lots of women experience these problems. Now the fault isn't in you. You are a wonderful and attractive woman. The major reason things aren't working out between you and men is that you don't understand male psychology. Most women fail to understand the fact that men and women are different. Men have their fears and desires. Women have their fears and desires. If you really want to attract a man, make him fall in love with you and keep him for as long as you want, there is one important thing you must understand. And that is male psychology. Knowing how to make a man fall in love with you begins with you having a basic understanding of male psychology and knowing what men really want. Without being aware of their needs and thought processes, you will not

be able to give them what they really want.
