50 Ways to Grow Confidence - Toby Fried
2009

50 Ways to Grow Confidence is designed to be a manual for developing more selfconfidence. By becoming more centered in yourself you gain access to personal power. When we're able to turn down the volume on the "mind chatter," we become clear-headed and grounded. We are then better able to access problem solving skills, and are better equipped to be responsive rather than reactive in our lives. Why is this useful? It's useful because when our mind is clear, we think well, we feel better, and we function better. Our lives become less stressful, more focused, harmonious, and best of all, we can access our creative powers, which enable us to live our life purposefully. Do I say, "read this and you're problems melt away?" No, I say practice these steps, follow the suggestions, and I guarantee that your thoughts will shift, your feelings will shift, your actions will shift, and then your results will shift. In the end, ask yourself what might be possible in your life if you had more confidence than you have right now. Ask yourself what might be possible for the future of humanity if our children could grow up to be powerful, confident human beings, and then read this book. Ever say to yourself: "I wish I could do that;" "I wish I was like that person;" or "If only I could improve my life."? We all do that, not realizing we CAN do it. Toby Fried's book will put you on the road to changing your life using 50 simple steps. Those laments and wishes will be turned into your new reality. -Charles Chauncey Wells, historian and author. www.chaunceyparkpress.com Toby Fried has done her research and is her own walking testimonial. She exudes confidence Toby's new book 50 ways to Grow Confidence is not only an excellent book filled with invaluable resources, it provides the reader with simple yet effective ideas and tools to build and sustain your confidence container. I love the idea of sharing

this book and the exercises within it, with a friend. Your accountability factor doubles and your confidence level is sure to grow. Inspiration is the thread that runs through every page.

Congrats Tobby, I give it 4 stars. Laura Eisenberg-Jachim, CMT Life Coach and Holistic Health Practitioner www.healingsolutions.com You have assimilated in a magnificent recipe the essence of confidence-how to develop it, sustain it and leverage it. Bravo Melissa Giovagnoli Author of 11 books including *Networlding* www.networlding.com For the past 20 years, Tobby Fried has been investigating emotional, mental and physical ways of challenging herself. From "ropes courses," fire-eating, walking on broken glass, to vision quests and a myriad of personal development/transformational seminars, she has sought out ways to go beyond her limitations. Why, you might ask? She has sought and continues to seek ways to stretch herself, so that she may conquer fear, build confidence, and ultimately share the resulting discoveries with others. What she has found out is that there is nowhere to get to. There is only now this moment and the joy of the wonderful lightness of being.

[How to Talk to Women: Improve Your Charisma, Confidence, Charm and Other Conversation Skills for Attracting Girls. Learn to Speak with Small](#) - Bruce Glover 2020-10-07

☐☐ You don't know HOW TO TALK TO WOMEN, but would you like to learn? If so then keep reading. ☐☐ You can know yourself by looking at how you live your life. This includes the place you chose to live, the way you eat, and aspects around your lifestyle. This includes how you dress, the way you relate and how your family blends into your life. The people involved and influencing your life make part of who you are. For instance, if you are a father and hence have a baby-mama, how you live your life dealing with that determines who you are and other women will have to react towards this. The decisions

you make and those you have made in the past also reflect what you are. They reflect how you think and your perception of life. Decisions in this case range from how you buy things, the consequential choices in terms of relationships and how you have been handling women in the past. When sharing things about your past, it will show some of the decisions in the past and the girl will be asking herself if she is willing to be handled in the way you have handled others in the past. If she deems the decisions are bad, you will be under the duty to give assurances. Understand that decisions that you make reflect the beliefs and values that influence and drive you. Hence you may appear either opinionated, rigid or liberal. You, therefore, have to assess yourself and look at the decisions you have been making in life and determine the influences that were behind the decisions. Understand that those influences make up what you are and it is likely that one needs to deal with that. The essence of knowing this is in order to know how to present your real self in a way that a woman can deal with. If you are a person who is rooted in dogma and traditional thoughts, being aware of it helps. You will be careful about how you reveal this part of who you are. You will be conscious in order to eventually demonstrate to a girl that regardless of who you are, you are still lovable. This book gives a comprehensive guide on the following: - Why talk to women? - The best ways to approach - Making the right first impression - How to have an exciting conversation - Figuring out your goals - How to make her feel as if she already knew you before - How to talk about yourself in an attractive way - Texting tips to get more dates - How to relate with any topic that she brings up - Asking questions to a woman you're interested in - Remain the man of her dreams...
