[Sex in China](#) Elaine Jeffreys 2015-06-05 Choice Outstanding Academic Title for 2015 Sex in China introduces readers to some of the dramatic shifts that have taken place in Chinese sexual behaviours and attitudes, and public discussions of sex, since the 1980s. The book explores what it means to talk about 'sex' in present-day China, where sex and sexuality are more and more visible in everyday life. Elaine Jeffreys and Haiqing Yu situate China's changing sexual culture, and how it is governed, in the socio-political history of the People's Republic of China. They demonstrate that Chinese governmental authorities and policies do not set out strictly to repress 'sex'; they also create spaces for the emergence of new sexual subjects and subjectivities. They discuss the complexities surrounding the ongoing explosion of commentary on sex and sexuality in the PRC, and the

emergence of new sexual behaviours and mores. Sex in China offers clear, critical coverage of sex-related issues that are a focus of public concern and debate in China - chapters focus on sex studies; marriage and family planning; youth and sex(iness); gay, lesbian and queer discourses and identities; commercial sex; and HIV/AIDS. This book will be an invaluable resource for students and scholars both of modern China and of sex and sexualities, who wish to understand the role that 'sex' plays in contemporary China.

The Muslims Are Coming! Arun Kundnani 2014-03-18 Death came instantly to Imam Luqman, as four FBI agents fired semiautomatic rifles at him from a few feet away. Another sixty officers surrounded the building on that October morning, the culmination of a two-year undercover investigation that had infiltrated the imam's Detroit mosque. The FBI quickly claimed that Luqman Abdullah was "the leader of a domestic terrorist group." And yet, caught on tape, he had refused to help "do something" violent, as it might injure innocents, and no terrorism charges were ever lodged against him. Jameel Scott thought he was exercising his rights when he went to challenge an Israeli official's lecture at Manchester University. But the teenager's presence at the protest with fellow socialists made him the subject of police surveillance for the next two years. Counterterrorism

agents visited his parents, his relatives, his school. They asked him for activists' names and told him not to attend demonstrations. They called his mother and told her to move the family to another neighborhood. Although he doesn't identify as Muslim, Jameel had become another face of the presumed homegrown terrorist. The new front in the War on Terror is the "homegrown enemy," domestic terrorists who have become the focus of sprawling counterterrorism structures of policing and surveillance in the United States and across Europe. Domestic surveillance has mushroomed—at least 100,000 Muslims in America have been secretly under scrutiny. British police compiled a secret suspect list of more than 8,000 al-Qaeda "sympathizers," and in another operation included almost 300 children fifteen and under among the potential extremists investigated. MI5 doubled in size in just five years. Based on several years of research and reportage, in locations as disparate as Texas, New York, and Yorkshire, and written in engrossing, precise prose, this is the first comprehensive critique of counterradicalization strategies. The new policy and policing campaigns have been backed by an industry of freshly minted experts and liberal commentators. *The Muslims Are Coming!* looks at the way these debates have been transformed by the embrace of a narrowly configured and ill-conceived antiextremism.

Wild Swans Jung Chang 2008-06-20 The story of three generations in twentieth-century China that blends the intimacy of memoir and the panoramic sweep of eyewitness history—a bestselling classic in thirty languages with more than ten million copies sold around the world, now with a new introduction from the author. An engrossing record of Mao's impact on China, an unusual window on the female experience in the modern world, and an inspiring tale of courage and love, Jung Chang describes the extraordinary lives and experiences of her family members: her grandmother, a warlord's concubine; her mother's struggles as a young idealistic Communist; and her parents' experience as members of the Communist elite and their ordeal during the Cultural Revolution. Chang was a Red Guard briefly at the age of fourteen, then worked as a peasant, a “barefoot doctor,” a steelworker, and an electrician. As the story of each generation unfolds, Chang captures in gripping, moving—and ultimately uplifting—detail the cycles of violent drama visited on her own family and millions of others caught in the whirlwind of history.

The Rape of Nanking Iris Chang 2014-03-11 The New York Times bestselling account of one of history's most brutal—and forgotten—massacres, when the Japanese army destroyed China's capital

city on the eve of World War II, "piecing together the abundant eyewitness reports into an undeniable tapestry of horror". (Adam Hochschild, Salon) In December 1937, one of the most horrific atrocities in the long annals of wartime barbarity occurred. The Japanese army swept into the ancient city of Nanking (what was then the capital of China), and within weeks, more than 300,000 Chinese civilians and soldiers were systematically raped, tortured, and murdered. In this seminal work, Iris Chang, whose own grandparents barely escaped the massacre, tells this history from three perspectives: that of the Japanese soldiers, that of the Chinese, and that of a group of Westerners who refused to abandon the city and created a safety zone, which saved almost 300,000 Chinese. Drawing on extensive interviews with survivors and documents brought to light for the first time, Iris Chang's classic book is the definitive history of this horrifying episode.

Enfrentando o dragão Leta Hong Fincher 2020-01-09 Na véspera do Dia Internacional da Mulher de 2015, o governo chinês prendeu cinco ativistas feministas por 37 dias. Elas acabaram se tornando uma famosa causa mundial. Hillary Clinton falou em nome delas, e ativistas em todos os cantos do planeta inundaram as redes sociais com a hashtag #FreeTheFive. Mas essas cinco mulheres são apenas uma parte de um movimento feminista muito maior. Neste livro, a jornalista e estudiosa Leta Hong Fincher mostra que esse movimento popular representa hoje a maior ameaça ao regime autoritário da China. Por meio de entrevistas com as cinco feministas e outros ativistas chineses importantes, a autora esclarece os desafios que eles enfrentam. Traçando o surgimento de uma nova consciência feminista com campanhas semelhantes ao #MeToo e descrevendo como o regime comunista suprimiu a história de suas próprias lutas e conquistas feministas, Enfrentando o dragão é a história de como o movimento contra o patriarcado pode reconfigurar a China e o mundo.

She goes on to argue for true representation of women in the judiciary, including their contributions in judging, and the importance of judicial diversity. The book examines the place held by female judges at home and women's place in society as a whole, and investigates gender equality, women's agencies, emancipation, and empowerment in the contemporary China. The Wretched of the Earth Frantz Fanon 2019-12-23 A distinguished psychiatrist from Martinique who took part in the Algerian Nationalist Movement, Frantz Fanon was one of the most important theorists of revolutionary struggle, colonialism, and racial difference in history. Fanon's masterwork is a classic alongside Edward Said's *Orientalism* or *The Autobiography of Malcolm X*, and it is now available in a new translation that updates its language for a new generation of readers. *The Wretched of the Earth* is a brilliant analysis of the psychology of the colonized and their path to liberation. Bearing singular insight into the rage and frustration of colonized peoples, and the role of violence in effecting historical change, the book incisively attacks the twin perils of postindependence colonial politics: the disenfranchisement of the masses by the elites on the one hand, and intertribal and interfaith animosities on the other. Fanon's analysis, a veritable handbook of social reorganization for leaders of emerging nations, has been reflected all too clearly in the corruption and violence that has plagued present-day Africa. *The Wretched of the Earth* has had a major impact on civil rights, anticolonialism, and black consciousness movements around the world. *Chinese Men's Practices of Intimacy, Embodiment and Kinship* Siyang Cao 2021-06-14 This book explores Chinese young men's views of manhood and develops a new concept of 'elastic masculinity' which can be stretched and forged differently in response to personal relationships and local

realities. Drawing from empirical research, the author uses the term shenti (body-self) as a central concept to investigate the Chinese male body and explores intimacy and kinship within masculinity. She showcases how Chinese masculinities reflect the resilience of Confucian notions as well as transnational ideas of modern manhood. This is a unique dialogue with 'western' discourse on masculinity, and an invaluable resource for understanding the profound social changes that transformed gendered arrangements in urban China.

Little Emperors and Material Girls Jemimah Steinfeld 2015-02-28 China is the world's fastest-growing economic powerhouse. Everybody knows this. But behind the headlines a once-in-a-generation sexual and cultural revolution is taking place - all in the bars, cafes and streets of China's growing mega-cities. Welcome to this new China. Young Chinese have new words to describe the world they live in: 'little emperors' - single men who have grown up under the one child policy - they're bossy and selfish; 'bare branches' - those without children; 'leftovers' - women over twenty-six who aren't married; 'comrade' - how the gay community identifies itself; 'love markets' - weekend gatherings across China where parents attempt to find husbands and wives for their children, and others show up to match-make young singles and even offer boyfriends for hire. Intimate Relationships in China in the Light of Depth Psychology Huan Wang 2020-04-03 In *Intimate Relationships in China in the Light of Depth Psychology: A Study of Gender and Integrity*, Huan Wang presents an overview of Jungian ideas as they apply to gender roles and relationships in contemporary Chinese culture. Moving beyond a Western interpretation of key concepts, Wang

attempts to understand and deal with the difficulties of contemporary marriages in a rapidly changing society, investigating how young Chinese couples have been affected by traditional values, Westernisation, and the one-child policy. Wang also discusses how depth psychology has developed and been applied in China, highlighting how it differs in Chinese and Western settings and the problems and achievements Chinese people have faced. She concludes that the Chinese psyche today is experiencing a transition from the compliance of collectivism to the awareness of individuation, and that the rediscovery of the notion of integrity will help Chinese therapists to find their way, make young Chinese people independent individuals, and bring a new approach to their marriages. This is the first time such issues have been profoundly and comprehensively discussed in a Chinese context. It will be an invaluable resource for analytical psychologists, psychotherapists, and marriage and family and couple therapists working in China or with Chinese clients. It will also be of great interest to academics and students of Jungian and post-Jungian studies and to anyone interested in the psyche of contemporary China.

China and the Chinese Herbert Allen Giles 1912

Women Police in Contemporary China Anqi Shen 2021-11-11 This is the first book to look at women in policing in the mainland of the People's Republic of China. Informed by empirical data as well as rich secondary information drawn from a wide range of published materials, and written by a former police officer in China, this book offers a detailed discussion of key issues concerning women in the Chinese police. Mainly drawing on face-to-face interviews with police officers and student probationers in multiple force areas, Women Police in Contemporary China offers rich insights into women's lives in Chinese policing. The book first discusses how Chinese women were introduced to

the male-only organisation and their representation in the Chinese police today. It elaborates women's experiences as female officers in the police and, more specifically, their everyday work, contributions to policing, women police's own perceptions of their roles and positions in the police profession and the gendered challenges and concerns facing them. It also looks at police occupational culture from a gendered lens. This book is illuminating reading for all those engaged in policing studies, gender and justice, policymaking, comparative criminal justice and all those interested in a woman's role in the Chinese police.

Finding Women in the State Wang Zheng 2016-11-01 *Finding Women in the State* is a provocative hidden history of socialist state feminists maneuvering behind the scenes at the core of the Chinese Communist Party. These women worked to advance gender and class equality in the early People's Republic and fought to transform sexist norms and practices, all while facing fierce opposition from a male-dominated CCP leadership from the Party Central to the local government. Wang Zheng extends this investigation to the cultural realm, showing how feminists within China's film industry were working to actively create new cinematic heroines, and how they continued a New Culture anti-patriarchy heritage in socialist film production. This book illuminates not only the different visions of revolutionary transformation but also the dense entanglements among those in the top echelon of the party. Wang discusses the causes for failure of China's socialist revolution and raises fundamental questions about male dominance in social movements that aim to pursue social justice and equality. This is the first book engendering the PRC high politics and has important theoretical and methodological implications for scholars and students working in gender studies as well as China studies.

of great beauty, empathy, honour and sadness. The chapters are ingenious reimaginings of 'Dream of the Red Mansion', 'Journey to the West', 'The Water Margin', and 'Romance of the Three Kingdoms', and are conceived as specific themes of Chinese identity: domesticity, consumerism, democracy and adaptability. These four seminal pre-modern fictions contain diverse voices and philosophical perspectives on history as well as satires that have defined past developments of Chinese societies, politics and the built environment. Comics is an unorthodox but extraordinary medium for architectural speculations. The eccentric characteristics of comic-inspired drawings in this book enrich the processes of conception and conceptualisation of design - their fragmented yet sequential nature proves versatile in the imagination of spatial experiences, enabling the complex stories of place, brief and building to materialise. At the same time, the politicisation of architecture through comics engenders a sense of optimism to reappraise Chinese design futures and critical thinking beyond the exuberance of non-contextual Western capitalist models.

China's Youth Cultures and Collective Spaces Vanessa Frangville 2019-09-10 Presenting the collaborative work of 13 international specialists of contemporary Chinese culture and society, this book explores the spaces of creation, production, and diffusion of "youth cultures" in China among generations born since the 1980s. Defining the concept of "youth culture" as practices and activities that catalyze self-expression and creativity, this book investigates the emergence of new physical spaces, including large avenues, parks, shopping malls, and recreation areas. Building on this, it also examines the influence of non-physical places, especially digital cultures, such as online social networks, shopping platforms, Cosplay, cyberliterature, and digital calligraphy and argues that these may in fact play a more significant role in Chinese civil society today. As an exploration of how youth can be creative even in a coercive environment, China's Youth Cultures and Collective Spaces will be

Women Policing across the Globe Cara Rabe-Hemp 2019-11-06 Women Policing across the Globe provides a cross-cultural comparison of the integration of women in policing across the globe, paying special attention to the unique contributions that women make to the field, along with the shared challenges and resistance they face. Social Media in Industrial China Xinyuan Wang 2016-09-13 Life outside the mobile phone is unbearable.' Lily, 19, factory worker. Described as the biggest migration in human history, an estimated 250 million Chinese people have left their villages in recent decades to live and work in urban areas. Xinyuan Wang spent 15 months living among a community of these migrants in a small factory town in southeast China to track their use of social media. It was here she witnessed a second migration taking place: a movement from offline to online. As Wang argues, this is not simply a convenient analogy but represents the convergence of two phenomena as profound and consequential as each other, where the online world now provides a home for the migrant workers who feel otherwise 'homeless'.
