Lost Daughters J.M. Redmann 2009-03-01 Micky Knight, a bayou-bred and out-of-the-closet New Orleans private investigator, takes on the cases of a widowed mother looking for her daughter and a tough gay boy hunting for his biological mother. When a young woman patient is murdered at Dr. Cordelia James's clinic, it seems to be just a bizarre coincidence. But when another woman, also a patient, is murdered, these events reveal the frightening possibility that the crimes are more than just random chances. Even more alarming, the killer seems to know too much about the victims. As the killer circles ever closer to Micky—and the lost daughter she is trying to find—the coincidences become a grisly reality: the one characteristic all the victims share is that they dare to love other women. The fourth book in the Micky Knight mystery series.

Man Fast Natasha Scripture 2018-05-03 'Smart, funny, and deeply wise' Mirabai Starr 'A funny, courageous, and inspiring memoir about one woman's journey into the unknown' Elisabeth Eaves, author of *Wanderlust: A Love Affair with Five Continents* Any cute boys? Natasha Scripture's 64-year-old Indian mother wants to know. Once again, Natasha finds herself explaining that it is not easy to find a husband while serving as a relief worker in refugee camps, war zones and natural disaster areas. Yet returning to New York, still reeling from the sudden death of her father, Natasha realizes that no matter how many dates she goes on, she is no closer to finding that special someone to fill the imaginary void inside her. Exasperated by her search for love, she embarks on a 'man fast', where she stops looking for a relationship and instead turns inward to explore the question at the heart of her anxiety: what is her purpose? This soul-searching takes her deep into the wilderness: from meditating in an Ayurvedic ashram in southern India to toiling on a vineyard on Mount Etna to going on a solo-safari in southern Tanzania (where she also marries herself—yes, it's a thing). In stepping away from the demands of modern life and societal pressure to couple up, Natasha finds a space where she allows herself to become fully present and awake: to her grief, to her identity, and to love as a mystical, ever-present force. This is a book to inspire readers who also want to discover their truest, wildest, most empowered selves.

At Risk Piers Blaikie 2014-01-21 The term 'natural disaster' is often used to refer to natural events such as earthquakes, hurricanes or floods. However, the phrase 'natural disaster' suggests an uncritical acceptance of a deeply engrained ideological and cultural myth. At Risk questions this myth and argues that extreme natural events are not disasters until a vulnerable group of people is exposed. The updated new edition confronts a further ten years of ever more expensive and deadly disasters and discusses disaster not as an aberration, but as a signal failure of mainstream 'development'. Two analytical models are provided as tools for understanding vulnerability. One links remote and distant 'root causes' to 'unsafe conditions' in a 'progression of vulnerability'. The other uses the concepts of 'access' and 'livelihood' to understand why some households are more vulnerable than others. Examining key natural events and incorporating strategies to create a safer world, this revised edition is an important resource for those involved in the fields of environment and development studies.

Outdated Samhita Mukhopadhyay 2011-09-27 Romance and love are in a state of crisis: Statistically speaking, young women today are living romantic lives of all kinds—but they're still feeling bogged down by social, cultural, economic, and familial pressures to love in a certain way. Young women in the modern world have greater flexibility than ever when it comes to who we choose to love and how we choose to love them; but while social circumstances may have changed since our parents' generation, certain life expectations remain. In *Outdated*, Samhita Mukhopadhyay addresses the difficulty of negotiating loving relationships within the borderlands of race, culture, class, and sexuality—and of holding true to our convictions and maintaining our independence while we do it. *Outdated* analyzes how different forms of media, cultural norms, family pressure, and even laws, are produced to scare women into believing that if they don't devote themselves to finding a man, they'll be doomed to a life of loneliness and shame. Using interviews with young women that are living around, between, within, and outside of the romantic industrial complex, Mukhopadhyay weaves a narrative of the alternative ways that women today have elected to live their lives, and in doing so offers a fresh, feminist look at an old topic: How do diverse, independent young women date happily and successfully—and outside of the box?

Behind the Pine Curtain Gerri Hill 2006-06-01 Jacqueline Keys was ostracized from her small hometown of Pine Springs, Texas when she was seventeen, sent away because she was gay. Her family was the largest employer in the county, owning Pine Springs Lumber, and her father was mayor of this small town. Her mother could not accept the fact that her only child was gay, could not tolerate the gossip about her family. So, with a hundred dollars in her pocket and a one-way bus ticket out of town, Jacqueline was told not to come back until she had come to her senses. And that included being prepared to marry the son of a business associate of the family. Fifteen years later—long after she'd hitch-hiked to Los Angeles, long after she'd worked nights to put herself through college, and long after she'd written her first best seller, *No Place For Family*—Jacqueline is persuaded to go back to the tiny town of Pine Springs after her father's death. The quick trip she'd envisioned for the funeral turns into weeks as she learns her father's business is suddenly hers to manage. And she is also again face-to-face with the woman who, as a teen, had been Jackie's first crush. She and Kay had been inseparable as kids, and later as teens. They find themselves falling back into their old habits, and Jackie is soon fighting the same feelings she'd had when she was seventeen. But living behind the pine curtain, Kay is afraid of her love for Jackie, afraid of what her family will say, afraid of how the town will react. Jackie refuses to hide, refuses to crawl back into the closet, so once again, she leaves Pine Springs...alone.

Natural Hazards Edward A. Keller 2016-07-07 *Natural Hazards: Earth Processes as Hazards, Disasters and Catastrophes, Fourth Edition*, is an introductory-level survey intended for university and college courses that are concerned with earth processes that have direct, and often sudden and violent, impacts on human society. The text integrates principles of geology, hydrology, meteorology, climatology, oceanography, soil science, ecology and solar system astronomy. The book is designed for a course in natural hazards for non-science majors, and a primary goal of the text is to assist instructors in guiding students who may have little background in science to understand physical earth processes as natural hazards and their consequences to society. *Natural Hazards* uses historical to recent examples of hazards and disasters to explore how and why they happen and what we can do to limit their effects. The text's up-to-date coverage of recent disasters brings a fresh perspective to the material. The Fourth Edition continues our new active learning approach that includes reinforcement of learning objective with a fully updated visual program and pedagogical tools that highlight fundamental concepts of the text. This program will provide an interactive and engaging learning experience for your students. Here's how: Provide a balanced approach to the study of natural hazards: Focus on the basic earth science of hazards as well as roles of human processes and effects on our planet in a broader, more balanced approach to the study of natural hazards. Enhance understanding and comprehension of natural hazards: Newly revised stories and case studies give students a behind the scenes glimpse into how hazards are evaluated from a scientific and human perspective; the stories of real people who survive natural hazards, and the lives and research of professionals who have contributed significantly to the research of hazardous events. Strong pedagogical tools reinforce the text's core features: Chapter structure and design organizes the material into three major sections to help students learn, digest, and review learning objectives.
