Shoil - David Higgins

Revenge is a dish best served cold. After a major battle between the Higher Middle and Lower Middle, there were few survivors on either side. Shoil's hatred for Tampong ran deep to her very core, constantly fueling her anger, which increased her appetite, making her feed on men to satisfy that appetite. She was determined to track down and kill the traitor Tampong, even if killing the woman was the last thing she did. To achieve her goal, many men died horrible deaths so Shoil could stay strong to fulfill her destiny. She traveled far and wide tracking down Tampong, along with a new presence, a boy named Terry, picking up their trails here and there, with Shoil's determination driving her on. In an ironic and potentially deadly twist, after consuming one particular man, Shoil suddenly needed a new body to continue her life and her hunt. She had to choose carefully, knowing her choice could be a shortcut to finding Tampong. The plan worked, and the inevitable meeting of the two was planned. Terry was young, but found himself in the middle of the hatred between the two women. Doubt and confusion filled his mind, until he was no longer certain of the right path to take. Should he join with Shoil, or support the woman who protected him for so many years? Terry's path is unclear, until he meets someone who will change his life forever. Does the boy still want to save Tampong from Shoil's wrath?

The Motion Picture Guide - Jay Robert Nash 1985

[The Age of Entitlement](#) - Christopher Caldwell 2021-01-05

A major American intellectual and "one of the right's most gifted and astute journalists" (The New York Times Book Review) makes the historical case that the reforms of the 1960s, reforms intended to make the nation more just and humane, left many Americans feeling alienated, despised, misled—and ready to put an adventurer in the White House. Christopher Caldwell has spent years studying the liberal uprising of the

1960s and its unforeseen consequences and his conclusion is this: even the reforms that Americans love best have come with costs that are staggeringly high—in wealth, freedom, and social stability—and that have been spread unevenly among classes and generations. Caldwell reveals the real political turning points of the past half-century, taking you on a roller-coaster ride through Playboy magazine, affirmative action, CB radio, leveraged buyouts, iPhones, Oxycotin, Black Lives Matter, and internet cookies. In doing so, he shows that attempts to redress the injustices of the past have left Americans living under two different ideas of what it means to play by the rules. Essential, timely, hard to put down, *The Age of Entitlement* "is an eloquent and bracing book, full of insight" (New York magazine) about how the reforms of the past fifty years gave the country two incompatible political systems—and drove it toward conflict.

The Multimedia Encyclopedia of Women in Today's World - Mary Zeiss Stange 2013-01-09

This e-only volume expands and updates the original 4-volume *Encyclopedia of Women in Today's World* (2011), offering a wide range of new entries and new multimedia content. The entries reflect such developments as the Arab Spring that brought women's issues in the Islamic world into sharp relief, the domination of female athletes among medal winners at the London 2012 Olympics, nine more women joining the ranks of democratically elected heads of state, and much more. The 475 articles in this e-only update (accompanied by photos and video clips) supplement the themes established in the original edition, providing a vibrant collection of entries dealing with contemporary women's issues around the world.

New Perspectives in Tourism Geographies - Julie Wilson 2012-03-15

Geographical analysis of tourism spaces and places is advancing fast. In terms of human geography, the various recent academic 'turns' have led to fresh examination of existing debates and have advanced new theoretical ideas in geography that are more salient than ever for tourism studies. The Routledge Handbook of Tourism Geographies seeks to examine such recent developments by providing a state-of-the-art review of the field, documenting advances in research and evaluating different perspectives, approaches, techniques and contexts. The Routledge Handbook of Tourism Geographies considers recent disciplinary developments (including post-disciplinarily) in geography in relation to the study of tourism. It also analyzes the fledging relationships of the new mobilities paradigm, critical tourism studies and cultural political economy to tourism spaces and places, as well as acknowledging a spatial turn in poststructuralist social sciences more generally. In addition, it evaluates how postcolonial, feminist, sensory,

performative and queer perspectives have diversified research in the tourism geographies field. Spatial analysis, time geography, placemaking and landscape concerns are addressed and issues such as transport, environmental discourses and development are also analyzed. Finally, the volume's contributions highlight key areas for advancing research and map out the dimensions of future trajectories in tourism geographies in different theoretical and thematic contexts. Written by leading scholars in the tourism geographies field, this text will provide an invaluable resource for all those with an interest in tourism geographies, encouraging dialogue across disciplinary boundaries and areas of study.

12 Rules for (Academic) Life - Tara Brabazon 2022-03-04

These are strange times. Climate crises. Health crises. Collapsing systems. Influencers. And yes - Jordan Peterson. We are currently living in a (Post) Peterson Paradigm. This book - *12 Rules for (Academic) Life* - explores what has happened to teaching, learning and politics through this odd and chaotic intervention. Deploying feminism, this lens and theory offers a glass-sharpened view of this moment in international higher education. It is organized through twelve mantras for higher education in this interregnum, and offers new, radical, edgy and passionate methodologies, epistemologies and ontologies for a University sector searching for a purpose. This is a feminist book which targets a

feminist audience, both inside and outside higher education. It presents a clear focus on how this Peterson moment can be managed and challenged, when in future such academics deploy social media in this way. This book is also a part of higher education studies, exploring the role of the public / critical / dissenting / organic intellectual in debates about the political economy, identity/politics and leadership. A question of our time - through a climate emergency, a pandemic and polarized politics - is why Professor Jordan Peterson gained profile and notoriety. The Jordan Peterson moment commenced in September 2016 with his YouTube video, "Professor against political correctness," and concluded with his debate with Slavoj Žižek on April 19, 2019. From this moment, his credibility was dented, if not destroyed. Jordan Peterson infused scholarly debates with Punch and Judy extremism and misunderstandings. Instead, this book offers research rather than certainty, interpretation rather than dogma, evidence rather than opinion, and theory rather than 'moral truth.' The goal is to recalibrate this (Post) Peterson Paradigm, to take stock of how this moment occurred, and how to create a revision of higher education.
