

Sex Pol Essays 1929 1934 Radical Thinkers

Sex-life - Don Milligan 1993

'Filled with the dramatic moments, ironies and political intrigues that color the Taliban's rise ... Griffin writes engagingly.' The New York Times Book Review

Radical Philosophy - 2013

Reconsidering Value and Labour in the Digital Age - Christian Fuchs 2015-10-21

This volume explores current interventions into the digital labour theory of value, proposing theoretical and empirical work that contributes to our understanding of Marx's labour theory of value, proposes how labour and value are transformed under conditions of virtuality, and employ the theory in order to shed light on specific practices.

Profit and Pleasure - Rosemary Hennessy 2002-06

Drawing on an international range of examples, from Che Guevarra to "The Crying Game," Profit and Pleasure leads the discussion of sexuality to a consideration of material reality and the substance of men and women's everyday lives.

Radical Happiness - Lynne Segal 2017-11-07

Why are we so obsessed by the pursuit of happiness? With new ways to measure contentment we are told that we have a right to individual joy. But at what cost? In an age of increasing individualism, we have never been more alone and miserable. But what if the true nature of happiness can only be found in others? In Radical Happiness, leading feminist thinker Lynne Segal believes that we have lost the art of radical happiness- the art of transformative, collective joy. She shows that only in the revolutionary potential of coming together it is that we can come to understand the powers of flourishing. Radical Happiness is a passionate call for the re-discovery of the political and emotional joy that emerge when we learn to share our lives together.

Marxism in a Lost Century - Gary Roth 2014-12-22

Marxism in a Lost Century retells the history of the radical left during the twentieth century through the words and deeds of Paul Mattick. Three biographical themes receive special attention -- the self-taught nature of left-wing activity, Mattick's publishing endeavors, and the nexus of men, politics, and friendship.

Freud in Cambridge - John Forrester 2017-03-09

The authors explore the influence of Freud's thinking on twentieth-century intellectual and scientific life within Cambridge and beyond.

Inventing the Future - Nick Srnicek 2015-11-17

A major new manifesto for the end of capitalism Neoliberalism isn't working. Austerity is forcing millions into poverty and many more into precarious work, while the left remains trapped in stagnant political practices that offer no respite. Inventing the Future is a bold new manifesto for life after capitalism. Against the confused understanding of our high-tech world by both the right and the left, this book claims that the emancipatory and future-oriented possibilities of our society can be reclaimed. Instead of running from a complex future, Nick Srnicek and Alex Williams demand a postcapitalist economy capable of advancing standards, liberating humanity from work and developing technologies that expand our freedoms. This new edition includes a new chapter where they respond to their various critics.

The Mass Psychology of Fascism - Wilhelm Reich 2013-07-02

In this classic study, Reich provides insight into the phenomenon of fascism, which continues to ravage the international community in ways great and small. Drawing on his medical experiences with men and women of various classes, races, nations, and religious beliefs, Reich refutes the still generally held notion that fascism is a specific characteristic of certain nationalities or a political party ideology that is imposed on innocent people by means of force or political maneuvers. "Fascism on only the organized political expression of the structure of the average man's character. It is the basic emotional civilization and its mechanistic-mystical conception of life."—Wilhelm Reich Responsibility for the elimination of fascism thus results with the masses of average people who might otherwise support and champion it.

The Culture of People's Democracy - György Lukács 2013-06-07

The essays of Hungarian Marxist philosopher and literary critic György Lukács from 1945 to 1948, including the influential volume Literature and Democracy, are presented here for the first time in English

translation, with an introduction and annotations by the editor.

Schizostructuralism - Daniel Bristow 2021-06-07

Schizostructuralism draws together insights from psychoanalytic, structuralist, and Marxist theory, and the divisions and antagonisms that both underpin and distinguish them, to form a new psychoanalytic system. Working through the key concepts and methods in these fields, Daniel Bristow describes the processes of unification and separation inherent in structure; extends concepts within the field of psychoanalytic topology and its study of surface; and interrogates types and phasings of time that operate psychosocially, testing workings of these against analyses of class division and struggle. Returning to and working through key concepts and methods in the fields of structuralism, topology, temporality, and Marxist political theory, Schizostructuralism looks again at such major figures as Freud, Reich, Lacan, Laing, and Deleuze and Guattari—invoking their socially oriented theories and practices—and sets out possibilities for recalibrating critical and clinical approaches to be more politically radical and inclusive. Bristow draws on an array of schematic diagrams, depicting and formulating the clinical categories of neurosis, perversion, and psychosis. Schizostructuralism will be of interest to academics and students of psychoanalytic studies, Lacanian studies, and philosophy. It will also inform psychoanalysts in practice and in training.

Sex-pol - Wilhelm Reich 1972

Welcome to the Desert of the Real - Slavoj Žižek 2013-01-16

Liberals and conservatives proclaim the end of the American holiday from history. Now the easy games are over; one should take sides. Žižek argues this is precisely the temptation to be resisted. In such moments of apparently clear choices, the real alternatives are most hidden. Welcome to the Desert of the Real steps back, complicating the choices imposed on us. It proposes that global capitalism is fundamentalist and that America was complicit in the rise of Muslim fundamentalism. It points to our dreaming about the catastrophe in numerous disaster movies before it happened, and explores the irony that the tragedy has been used to legitimize torture. Last but not least it analyzes the fiasco of the predominant leftist response to the events.

Class Struggle - Domenico Losurdo 2016-10-06

Available for the first time in English, this book examines and reinterprets class struggle within Marx and Engels' thought. As Losurdo argues, class struggle is often misunderstood as exclusively the struggle of the poor against the rich, of the humble against the powerful. It is an interpretation that is dear to populism, one that supposes a binary logic that closes its eyes to complexity and inclines towards the celebration of poverty as a place of moral excellence. This book, however, shows the theory of class struggle is a general theory of social conflict. Each time, the most adverse social conflicts are intertwined in different ways. A historical situation always emerges with specific and unique characteristics that necessitate serious examination, free of schematic and biased analysis. Only if it breaks away from populism can Marxism develop the ability to interpret and change the world.

Sex-Pol - Wilhelm Reich (Psychoanalytiker, Oesterreich, USA) 2012

The Routledge Dictionary of Twentieth-Century Political Thinkers - Robert Benewick 2002-09-11

This edition has been revised and extended to include eleven new entries on Berlin, Chomsky, Derrida, Rorty and many others. Key features of this unique guide include: * 170 entries from 96 contributors, many of whom are leading authorities in their field * alphabetically arranged entries which include brief biographies, outlines of major ideas and suggestions for further reading * coverage of Western and Third World political theorists as well as those who have influenced new movements based on the issues of ethnicity, gender and ecology * a thematically organised index

The Anatomy of Fascism - Robert O. Paxton 2011-12-01

Fascism was the major political invention of the twentieth century and the source of much of its pain. How can we try to comprehend its allure and its horror? Is it a philosophy, a movement, an aesthetic experience? What makes states and nations become fascist? Acclaimed historian Robert O. Paxton shows that in order to understand fascism we must

look at it in action - at what it did, as much as what it said it was about. He explores its falsehoods and common threads; the social and political base that allowed it to prosper; its leaders and internal struggles; how it manifested itself differently in each country - France, Britain, the low countries, Eastern Europe, even Latin America as well as Italy and Germany; how fascists viewed the Holocaust; and, finally, whether fascism is still possible in today's world. Offering a bold new interpretation of the fascist phenomenon, this groundbreaking book will overturn our understanding of twentieth-century history.

Children of the Future - Wilhelm Reich 2013-07-02

Translated by Derek and Inge Jordan In *Children of the Future*, Wilhelm Reich shows how disastrous the exclusion of genitality is to the young and its important influence on their development. In his 1932 work *The Sexual Rights of Youth*, published here in its revised form, Reich speaks in terms of what he sees as the real meaning of the sexual enlightenment of youth: it is not the mystery and dangers of procreation, but the essential nature of sexuality and the right of youth to genital gratification. Reich presents a new way of seeing the parental compulsion to teach. In other chapters, Reich examines attitudes toward infantile masturbation, the source of the human no, and special disturbances of the young. Reich's work is substantiated by his concrete observations and experiences with children, including case studies from the Orgonomic Infant Research Center.

Capital as Power - Jonathan Nitzan 2009-06-02

Conventional theories of capitalism are mired in a deep crisis: after centuries of debate, they are still unable to tell us what capital is. Liberals and Marxists both think of capital as an 'economic' entity that they count in universal units of 'utils' or 'abstract labour', respectively. But these units are totally fictitious. Nobody has ever been able to

observe or measure them, and for a good reason: they don't exist. Since liberalism and Marxism depend on these non-existing units, their theories hang in suspension. They cannot explain the process that matters most - the accumulation of capital. This book offers a radical alternative. According to the authors, capital is not a narrow economic entity, but a symbolic quantification of power. It has little to do with utility or abstract labour, and it extends far beyond machines and production lines. Capital, the authors claim, represents the organized power of dominant capital groups to reshape - or creorder - their society. Written in simple language, accessible to lay readers and experts alike, the book develops a novel political economy. It takes the reader through the history, assumptions and limitations of mainstream economics and its associated theories of politics. It examines the evolution of Marxist thinking on accumulation and the state. And it articulates an innovative theory of 'capital as power' and a new history of the 'capitalist mode of power'.

Sex-pol - Wilhelm Reich 2014-07-08

This volume contains the first complete translations of Wilhelm Reich's writings from his Marxist period. Reich, who died in 1957, had a career with a single goal: to find ways of relieving human suffering. And the same curiosity and courage that led him from medical school to join the early pioneers of Freudian psychoanalysis, and then to some of the most controversial work of this century-his development of the theory of the orgone-led him also, at one period of his life, to become a radical socialist. The renewed interest in Reich's Marxist writings, and particularly in his notions about sexual and political liberation, follows the radical critiques of Herbert Marcuse, Frantz Fanon and Paul Goodman, the political protest movements toward personal liberation in the present decade.
