The Sex Offender Housing Dilemma Monica Williams

2018-05-08 "When a South Carolina couple killed a registered sex offender and his wife after they moved into their neighborhood in 2013, the story exposed an extreme and relatively rare instance of violence against sex offenders. While media accounts would have us believe that vigilantes across the country lie in wait for predators who move into their neighborhoods, responses to sex offenders more often involve collective campaigns that direct outrage toward political and criminal justice systems. No community wants a sex offender in its midst, but instead of vigilantism, [the author] argues, citizens often leverage moral, political, and/or legal authority to keep these offenders out of local neighborhoods. Her book, the culmination of four years of research, 70 in-depth interviews, participant observations, and studies of numerous media sources, reveals the origins and characteristics of community responses to sexually violent predators (SVP) in the U.S. Specifically, [this book] examines the placement process for released SVPs in California and the communities' responses to those placements. Taking the reader into the center of these related issues, [the author] provokes debate on the role of communities in the execution of criminal justice policies, while also addressing the responsibility of government institutions to both groups of citizens."--

The Resettlement of Sex Offenders after Custody David Thompson 2017-07-14 Circles of Support and Accountability is a voluntary initiative that assists people with convictions for sexual offences to resettle in the community. People leaving prison with such convictions often have difficulties in resettling. They carry the burden of the conviction itself, which may be both stigmatising and isolating, and they are the subject of sex offender register requirements, parole and other supervisory conditions. Circles of Support and Accountability in the UK started over ten years ago and have slowly spread across the country. They work closely with the police and probation services but rely entirely on volunteers prepared to give up their time to work with people often otherwise shunned by communities. Circles offer support to the person concerned but also hold them accountable for their future behaviour. They aim to ensure there are 'no more victims'. This book is based on original research and provides a close-up picture of how these Circles of Support and Accountability work in practice. It brings together for the first time the voices of all the participants, from the offenders and the volunteers through to the Coordinators who link the volunteers to the professionals in the form of the police and probation services.

Offenders and Abuse Joshua B. Seth 2013-11-01 When I wrote the first edition of this book (2009), it was written as a reference book with the sole purpose of educating community awareness. Since then, I have dedicated my life to helping victims and survivors of sexual violence, domestic violence, racism, and bullying. The goal of this book is for victims and survivors of sexual violence and domestic violence to have a voice and to know that they are not alone with their victimization and recovery process. I also know what it means to walk in one's shoes, which is why I chose to talk about my own battles with anorexia, bulimia, Post-traumatic Stress Disorder (PTSD) and sexual harassment victimization. I felt it was best to share some of my own related life events so that my readers can connect on a more personal level with whatever it is that they may be going through. Recovery is possible.

Crimes and Sex Offenders: Research and Realities provides an overview of social scientific theory and research on sex crimes and sex offenders. Most other books on the market are focused on a single issue—such as treatment, rape, pedophilia, theory, etc. This book is unique in that it covers the most current theory and research along with individual cases of sex crimes (e.g., Kobe Bryant, Jerry Sandusky, and other case studies), effectively linking theory and research with the realities of sex crimes and sex offenders as well as their victims. Vandiver, Braithwaite, and Stafford are careful to dispel myths and to focus on the heterogeneity of sex crimes and sex offenders, and not on any one issue or population or theory. Instead, they weave a framework using a full range of theoretical concepts and research data to integrate their discussions of crimes, offenders, victims, treatments, and policy implications. The result is a valuable resource for students and early-stage researchers investigating sex crimes or offenders.
