

Sexuality In Close Relationships Kathleen Mckinney

The Marriage and Family Experience - Bryan Strong 1997-12

Sociology of the Family - Lee D. Millar Bidwell 2000

Sociology of the Family includes in every chapter an article relevant to the topic at hand. These articles include excerpts from well-known books and journal articles. A brief summary and focus questions open the article, stimulating thought; then, a set of discussion questions follows, making the book interactive and promoting active learning. The book will draw readers in with its easy to understand writing style and its catchy opening situations at the beginning of every chapter. It then covers the important topics of race, social class, and gender, in separate chapters, and addresses these issues in all subsequent chapters. This book is unlike others in which theory and research methods are briefly mentioned in an opening chapter (never to be discussed again). In *Sociology of the Family*, the authors not only cover theory and methods in separate chapters, but theoretical perspectives are continually applied and methodological issues are consistently discussed in consequent chapters throughout the book. Readers will also appreciate the cross-cultural focus that runs throughout the book. With a strong emphasis on cross-cultural family dynamics, this text is excellent for courses that focus primarily on the U.S. or attempt to contextualize family patterns and trends and controversies in the U.S. by comparing them with other national or global trends. For anyone interested in Sociology of Family, Marriage and Family, or Comparative Family Systems.

Sexuality in Close Relationships - Kathleen McKinney 2014-05-22

This is one of the first volumes to examine the interface between research undertaken in sexuality and that in close relationships from a social psychological perspective. Experts from several different disciplines offer chapters that contain theory, extant literature, and their own original research on such topics as jealousy, extradyadic sexuality, communication, love, and sexual coercion. Aimed at a fairly wide audience, this book will be of interest to students, faculty, and other professionals in social psychology, sociology, communication, and family and women's studies. It is also a valuable source of information for teachers, researchers, and clinicians working in the areas of human sexuality and/or close relationships.

Sexuality - Betty N. Gordon 2013-06-29

There are few things that stir up our culture more than sex, particularly sex and children. Sexual behavior in children represents, to far too many people, further proof of the moral decay of our society. Any issue that provokes as strong an emotional reaction as childhood sexuality is obviously in need of a rational discussion. The best features of thought and reason include their moderating influence on overheated and reaction emotions. Consequently, this book by Betty Gordon and Carolyn Schroeder represents a very important, and even brave, counter to irrationality. When the Surgeon General of the United States is forced to resign because the words "children" and "masturbation" appear in the same sentence, you know that there is a great deal of misunderstanding about sexuality. My own evolution as a researcher in the area of child sexual abuse is a model of how naivete can be corrected by knowledge. Some of my early research in sexual abuse of children led me to realize that sexual behavior was a reliable marker of victimization in a relatively large percentage of children (Friedrich, Urquiza, & Beilke, 1986). My blinders to sexuality were evident in that I had not even hypothesized that to be the case in this early, exploratory research. When I realized how important sexual behavior was, several colleagues and I set out to interview parents and foster parents of sexually abused children more specifically. These adults were routinely quite reactive to our queries.

Sexual Suspects - Influences of the Sexual Liberation on Lust, Sexuality and Family in John Irving's 'The World According to Garp' - Daniel Heuermann 2005-10-13

Seminar paper from the year 2004 in the subject American Studies - Literature, grade: 2,0, University of Paderborn, course: John Irving - Selected Novels, 6 entries in the bibliography, language: English, abstract: John Irving's novel *The World According to Garp* gives the reader a view on the lives of its characters and, as a part of it, their attitudes towards lust and sexuality. The description of these aspects is very direct and may be offensive for some more conservative persons. Even for persons who tend to be liberal-minded, Irving's way of writing

about sex can be uncommon, although he uses lust and sexuality only to tell the story and not for sensational reasons. It is strange that after forty years of sexual liberation, or the so called 'sexual revolution', so little seems to have changed and people still have these kinds of feelings when reading about sex being described so directly. Despite the fact that people expected more from the sexual liberation in the 1960s and 1970s, there was indeed a change in attitude towards certain aspects, such as premarital and extramarital sex. Studies in the United States in the 1970s revealed "a gradual decrease over time in the percentage of respondents who said that premarital sex is always wrong". Another important change which derived from the liberation movement was the new female sexuality, especially concerning the sexual fulfilment of women before and during marriage. This is also proved by a decreasing support of the 'double standard', where men are more or less allowed to be sexual active, including premarital and even extramarital sex, but women are not. You also have to consider the women's movement, when thinking about female sexual liberation. Both, sexual liberation and feminism, somehow worked together hand in hand to achieve improvement for women's sexuality. In order to understand the gap between the new achievements and the nevertheless still existing resentments towards them, you need to know the situation prior to the 1960s, when the above-mentioned 'double standard' and abstinence were in the focus of sexuality.

Person to Person - Sharon L. Hanna 1995

This book offers a positive approach to encouraging healthy interactions and relationships, in a variety of real-life situations. It features chapters on personal understanding and self-enhancement, improving interpersonal communication skills and developing and enriching different types of relationships.

Book Review Digest - 1995

Essentials of the Marriage and Family Experience - Bryan Strong 1993

Diversity and Change in Families - Mark R. Rank 1995

This collection of readings on the family explores variations in families, family relationships across the life course, and family problems and problem-solving strategies. While most readings are drawn from sociology, a mix of disciplines are represented, addressing the issues of race, class, and gender throughout. The majority of the included readings were published since 1990. This work is intended as a supplementary reader for undergraduate/graduate level courses on sociology of the family, and marriage and family, in departments of sociology, human development, and family studies.

Recording for the Blind & Dyslexic, ... Catalog of Books - 1996

Romantic Love - Susan S. Hendrick 1992-06-10

Is love a uniquely human endeavor? Is romantic love universally felt ... or is it a cultural phenomenon? Can we control it? Love is of concern to nearly everyone--yet it is rarely understood. Drawing material from history, psychology, sociobiology, sociology, philosophy, family studies, and other disciplines, the authors provide an overview to aid readers in understanding the complexity--and ultimate elusiveness--of romantic love. Chapters in this fascinating volume encompass a wide range of material, covering the history of love; theories and research on love; and an explanation of the meaning of love as we practice it in our everyday lives. *Romantic Love* will benefit students, researchers and professionals by presenting the most recent empirical work on the topic and pointing the way toward more exciting research and applications. "This engagingly written little volume presents a social psychological approach to romantic love, but also brings to bear important facts and concepts from sociobiology, philosophy, history, family studies, and sociology. It is part of a series of short-focused volumes dealing with aspects of close relationships and would make excellent supplementary reading for undergraduate courses in marriage and the family, close relationships, social psychology, or human sexual behavior."--*Journal of Marriage & The Family*.

Understanding Families Into the New Millenium - Robert M. Milardo 2001

The Case for Marriage - Linda Waite 2002-03-05

A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. The Case for Marriage is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced—physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. The Case for Marriage combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. "A compelling defense of a sacred union. The Case for Marriage is well written and well argued, empirically rigorous and learned, practical and commonsensical." -- William J. Bennett, author of *The Book of Virtues* "Makes the absolutely critical point that marriage has been misrepresented and misunderstood." -- The Wall Street Journal www.broadwaybooks.com

Marriages and Families - Agnes Czerwinski Riedmann 2002

This new adaptation of the best-selling American text is contemporary, covering such current topics as non-traditional families; Comprehensive, with all material being deemed essential by reviewers, and Balanced, with excellent historical and theoretical coverage of Canadian families.

Using the theme of choice, the text helps students learn with weblinks at end of each chapter, 'As We Make Choices' boxes, and 'A Closer Look At Diversity' sections.

Understanding Human Sexuality - Janet Shibley Hyde 2003

Human Sexuality - The Resource Book - Bryan Strong 1996-10**Sexuality** - Susan Sprecher 1993

This portrait of sexuality in close relationships presents an extensive examination of current theory and research. Contributors pay particular attention to sexual attitudes, behaviour, satisfaction and coercion, and discuss sexual patterns in several types of sexual relationship: dating, cohabiting, marital and homosexual. They show how sexual aspects of these relationships are related to other characteristics such as love and communication. Drawing material from a variety of disciplines, including psychology, sociology, communication and family studies, the volume also explores sexual standars.

Human Sexuality - Kathleen McKinney 1989

Comprises 18 chapters written from sociological and social psychological perspectives. Accessible to students and professionals. Annotation copyrighted by Book News, Inc., Portland, OR

Perspectives on Close Relationships - John H. Harvey 1994

This edited collection of original chapters was written expressly for this volume and for a student audience, by recognized experts in the relationships field. This series of distinguished "lectures" or intensive classes is designed to intrigue and invite student interest and involvement. Seven different disciplines within the field are represented offering students a variety of perspectives. Courses in Close Relationships, Personal Relationships, Family Relationships, Marriage and Family Living, and Liking/Loving, in departments of psychology, sociology, communication anthropology, child and family development, and counseling.
